STATEMENT OF COMPLIANCE

Compliance with Government Policy

This catalog brings together for the information and convenience of both students and staff the academic regulations of the university. University policies and regulations are subject to continuous review by a variety of agencies and appropriate administrative and governance bodies of UW-Parkside. Thus, the provisions of this catalog are not an irrevocable contract between the students and UW-Parkside. The university reserves the right to change any provision or requirement at any time during the students' attendance. The university reserves the right to ask the students to withdraw for cause at any time.

The university provides additional information and policies in separate brochures and in the Student Guidebook. To implement the University of Wisconsin System student disciplinary procedures and the academic misconduct regulations (Chapters 17 and 14 of the Wisconsin Administrative Code), UW-Parkside has developed a set of procedures which is published in the Student Guidebook. Additional information is available on the university's website or may be secured from the Dean of Students, Wyllie Hall 340.

UW-Parkside does not discriminate on the basis of sex in the educational programs or activities it operates. The university policy not to discriminate in education programs and activities extends to employment therein and to admission thereto. This statement is published, in part, to fulfill the requirements of Title IX of the Higher Education Amendments of 1972 and Section 86.9 of Title 45 of the Code of Federal Regulations, the administrative regulations passed pursuant to Title IX. Inquiries concerning the application of Title IX and the administrative regulations may be directed to the Title IX Senior Diversity Officer.

UW-Parkside does not discriminate against qualified individuals with disabilities in the recruitment and admission of students, the recruitment and employment of faculty and staff, and the operation of any of its programs and activities, as specified by applicable federal laws and regulations. The designated coordinator for university compliance with Section 504 of the Rehabilitation Act of 1973, as amended, and for the Americans with Disabilities Act is the coordinator of Disability Services.

Information required under the Higher Education Act of 1965, as amended, Title IV parts 668, 674, 675, 676, 682, 690, and 692 regarding, but not limited to, eligibility and criteria for receiving and availability of financial aid, rights and responsibilities of those receiving financial aid, standards of progress, terms of payment, repayment schedules for those receiving financial aid, conditions of employment related to financial aid, total educational costs of attending UW-Parkside and refund policies can be obtained from the Office of Student Financial Aid.

UW-Parkside veteran enrollment requirements and standards of progress information are available at the Office of the Registrar/Student Records.

UW-Parkside is in compliance with the Family Educational Rights and Privacy Act of 1974 (as amended) in regards to the right of students or their parents to review of the student's education record, correction of information from those records and limitation

of disclosure of information contained in those records. Further details are published in the UW-Parkside course schedules. Forms authorizing institutional withholding of student records are available in the Office of the Registrar/Student Records.

The university is required to provide annually to every student and employee information concerning the university's policies on illicit drugs and alcohol. In compliance with the Drug-Free Schools and Communities Act amendments of 1989, UW-Parkside publishes and distributes this information annually. Additional information is available on the university's website or may be secured from the Dean of Students, Wyllie Hall 340.

In compliance with the Immigration and Nationality Act (P.L. 87-195), UW-Parkside publishes the following statement: "This school is authorized under federal law to enroll nonimmigrant alien students."

The University of Wisconsin System will provide and maintain adequate facilities for a safe and healthy learning environment. It is the university's responsibility to work with faculty and staff so that they are equipped to educate their students on practices and procedures that ensure safety for all members of the university. Employees with instructional responsibilities are expected to comply with state and federal safety laws and regulations in their institutional areas. Certain courses and research projects require that the student work with hazardous materials while engaging in academic studies. Instructors of these courses and research projects shall inform and train students on procedures that will maintain the students' personal health and safety and provide them with information on the hazards of specific chemicals that will be used during their course of study. Furthermore, instructors will enforce and follow safety policies. Prior to use of hazardous materials and equipment, students shall review the procedures and information and discuss any associated concerns with the instructor.

The university is required through state statute (Assembly Bill 431) to share statistics with current students concerning crimes on campus and reported campus incidents of sexual assault and date rape. As required by law, this information is distributed annually to students through the UW-Parkside website. In addition, federal laws, Students Right to Know Law and the "Campus Security Act" requires the university to inform prospective as well as current students of similar crime statistics and information on student graduation rates. This information is distributed annually to students through the UW System Introduction and UW-Parkside's website.

Federal law allows the University of Wisconsin System to request and use a student's social security number (20 U.S.C., section 1232g). Disclosure of that social security number is voluntary. Applications received without it will be processed, and another form of student identifier number will be assigned. However, failure to provide the social security number may result in denial of services or benefits.
