

## Online & Video References & Resources

(updated July 2008)

The following is a list of Web references and additional resources for the CDF curriculum. Chapters 5 and 9 do not currently have online sources of information. NCDA invites recommendations from CDF instructors and participants on references and resources for all chapters.

This list will be updated on NCDA's website (<http://www.ncda.org>) periodically. Additionally, the authors recommend the use of *The Internet: A Tool for Career Planning, second edition*; available from NCDA. A list of updated links from this book is also maintained on NCDA's website.

Websites listed under “**References**” are sites that are mentioned in the student text and/or the instructor manual for that chapter. “**Additional Resources**” are sites that may not be specifically referenced but may be useful to review for that chapter. Every effort has been made to list websites in the order they appear in the student text and/or instructor manual. Where a site is mentioned more than once in a chapter, it is listed below in the order it first appears in that chapter. You may note that some websites are listed in multiple chapters. This is because they are either referenced in multiple chapters or they have information and/or services which are relevant to the content of more than one chapter.
