

Native Americans' View of Science

**Wednesday, October 21, 2009
12:00 – 12:50 p.m.**

Faculty/Staff Lounge-WYLL 247

Presenter:

Vera Kolb

Vera Kolb is currently engaged in introducing diversity in her Organic Chemistry curriculum. Her students are researching the medicinal properties of Wisconsin Native Americans medicinal plants, and the key chemical discoveries of the diverse group of scientists.

This presentation will cover the Native American view of Science. Vera will also report on the meeting of the Native American scientists and engineers that she participated in, at the University of Minnesota, last semester. It was a regional meeting which also included Wisconsin Native Americans.

Light refreshments will be served.
