Would you like your students to be able to bring a 3-slides per page outline to class that they were able to **easily** download and print from home?

Learn about the strengths and weaknesses of creating PowerPoint presentations as:

- html files [Show me.](#)
- a pdf slide show [Show me.](#)
- pdf handouts [Show me.](#)
- a small file size for quick downloads [Show me.](#)
- an automated presentation [Show me.](#)

These topics are applicable for classroom and conference presentations as well as the online domain.
