Geneva Lake Museum preserves the history of Geneva Lake and brings it to life for visitors.

Step onto the brick pavement and step back into time. Walking along the Main Street you can not only peek into historic stores, homes, a schoolroom and other places, but actually go into them for a close up look at furniture, clothing, tools, machines, merchandise and other artifacts of daily life in the late 19th and early 20th century.

Come to Main Street and see:

- Log cabin with Potawatomi tools and arrowhead collections
- Blacksmith shop, horseshoeing and ice cutting tools
- Fire engine house with 1890 Hose Wagon
- Farm implements and tools
- Spring House for cooling milk
- Telephone switchboard
- 1920 Dental Work Station
- General Store
- 1890's school room with teacher and students
- Boats and Yachts of Lake Geneva

We will return home about 4:00 pm.
