All,

Just a quick update on the summer course schedule. There are 167 individual course sections with start dates of May 18 or May 26. Right around half of them, 86, are scheduled to be taught online. A total of 35 appear to be "regular" face-to-face classes that would have to be moved to online. By "regular" I mean typical classes and labs with typical meeting times. The rest are things like independent study and internships. There are also a handful of activity classes and coaching practica. Of the 35 "regular" face-to-face classes it probably wouldn't be a heavy lift to move most of them online. A few are lab courses, including BIOS 101 and 202 and CHEM 101, 102 and 323.

Gary
