Something to discuss at the Academic Cabinet meeting on Wednesday…

Dear Deans,

We know that you have already done a significant amount of work determining how you will use your department and college specific teaching spaces such as labs and studios. We would like to make clear the following points so everyone is on the same page.

Facilities Management (FM) has determined revised covid capacities for all general purpose classrooms, and CTS has determined capacities for all computer labs and classrooms managed by CTS. They will not be making these measurements and calculations for any of the department or college specific spaces such as labs and studios. For classes scheduled in those spaces we ask that you follow the guidelines in the Ranger Restart document. Set class capacities to ensure proper social distancing of at least six feet between individuals. Follow face covering and attendance protocols. Establish procedures for cleaning work spaces and equipment between uses. FM will continue to clean lab/performance spaces it typically cleans, once per day, based upon use. Consult with John Bruch and Bob Grieshaber on the availability of cleaning supplies and shield construction.

Please let us know if you have any general questions or questions about specific rooms…etc…

****

Gary M. Wood, Ph.D.
Vice Provost for Academic Affairs
University of Wisconsin-Parkside
