

# RANGERVISION 2020

Bigger Vision, Brighter Future

*RangerVision: Bigger Vision, Brighter Future* is a facility and fundraising campaign which has been developed to transform the athletics and recreation facilities at the University of Wisconsin-Parkside.

Phase I of the *RangerVision* campaign will be *RangerVision 2020*, a \$5 million campaign that will enhance the Sports & Activity Center with the creation of two new facilities, the renovation of Alfred and Bernice De Simone Gymnasium, and additional enhancements to the SAC. The two new facilities will include the new multi-purpose turf performance facility and the Mark Olsen Indoor Golf Center. The enhancement of De Simone Gymnasium, which also serves as the home of UW-Parkside commencement ceremonies, includes a complete reconstruction of the bleachers on both the north and south sides, creation of VIP seating areas, and the addition of state-of-the-art video boards and scorers tables.

*RangerVision 2020*, which will run throughout the 2020-21 academic year, has already generated more than \$2.8 million during a silent phase, which includes contributions from individual donors, alumni, and corporations, in addition to support from the State of Wisconsin and the University. The University's comprehensive 10-year partnership with HARIBO, highlighted by the creation of HARIBO Court, was a catalyst for the De Simone Gymnasium enhancements.

Naming opportunities are available in all aspects of the *RangerVision 2020* campaign for individual and corporate philanthropic giving. Additionally, sponsorship and marketing opportunities exist for corporate partnerships.

The future phases of *RangerVision* outline plans to complete a comprehensive outdoor master plan, positively impacting Parkside Athletics, campus intramurals and recreation activities, and community users.
