

THE COLLEGE OF NATURAL AND HEALTH SCIENCES SEMINAR SERIES PRESENTS

# SCIENCE NIGHT

WEDNESDAY, APRIL 12, 2017 | 7-8 PM | STUDENT CENTER CINEMA

## SOIL: IT'S NOT JUST DIRT

Come explore the world directly below your feet: the world of soils! In this science night, we will discuss how soils are formed, the important ecological functions soils perform, and the implications of different soil types on various ecosystems. Be prepared to get your hands dirty as you grow your appreciation for this important life-sustaining material.

**LAURA SCHULZ**

*Laura Schulz has a B.S. in Geosciences from UW-Parkside and a M.S. in Soil Science from UW-Madison. She is also the Environmental Education manager of the Root River Environmental Education Community Center.*

Free parking after 6:30 pm - Everyone is invited - Refreshments provided

**Be. Real. Amazing.**
