

THE COLLEGE OF NATURAL AND HEALTH SCIENCES SEMINAR SERIES PRESENTS

SCIENCE NIGHT

THURSDAY, NOVEMBER 2, 2017 | 7-8 PM | STUDENT CENTER CINEMA

WISCONSIN'S CHANGING CLIMATE

Explore the science of the greenhouse effect, and the implications of climate change from a global perspective as well as regional implications, including the state's environmental resources and the impact on socio-economics.

This presentation is part of the 2017 Wisconsin Science Festival. Please visit www.wiscifest.org for more information about this statewide festival.

W I S C O N S I N
SCIENCE FESTIVAL?
CURIOSITY UNLEASHED.
