Do you love the outdoors?
Are you interested in nature and environmental issues?
Are you in the 6th–8th grade?
If yes, then this program is designed just for you.

Develop an appreciation for the sciences surrounding environmental issues, while discovering southeastern Wisconsin! Visit environmental education community centers; kayak the Root River; research wildlife, water quality, Lake Michigan and its beaches; study habitats including woods, prairies and waterways; examine living organisms in both indoor and outdoor laboratory settings using microscopes and other research tools; and explore the multitude of related career opportunities. Note: This course is offered in partnership with UW-Parkside College of Natural and Health Sciences and UW-Milwaukee School of Continuing Education, and will include travel to the Racine/Kenosha area. Visits may include the Kenosha Dunes and the Chiwaukee Prairie. Enrollment is limited to 20 so enroll early to make sure you get a spot for this exciting experience!

Mon.-Fri., July 28-Aug. 1
