

UNIVERSITY OF
WISCONSIN **PARKSIDE**

SCIENCE NIGHT

Part of the College of Natural and Health Sciences Seminar Series

March Maple Madness: The Biology of Maple Syrup

Who doesn't like a warm stack of pancakes topped with fresh maple syrup, especially when the maple syrup is from your backyard?

Dr. David Rogers and Dr. David Higgs, both plant biologists in the Department of Biological Sciences at the University of Wisconsin-Parkside, will discuss the biology of Sugar Maple trees (*Acer saccharum*), the sap that is collected from the trees, and the history and evolution of the process used to make Maple Syrup.

Wednesday, March 11, 2015

7:00 – 8:00 p.m. in the Student Center Cinema

Free parking after 6:30 p.m. - Everyone is invited - refreshments provided
