

**Table 2-2:
Five-Year Summary of Peer- and Editorial-Reviewed
Journals and Number of Publications in Each**

Based on the data in Table 2-1, provide a five-year summary of peer- and editorial-reviewed journals (by name) and the number of publications appearing in each. The number of publications must reflect an unduplicated count for co-authored publications.

Please organize by organizational structure of the school's faculty (e.g., departments, research groups) in the same manner as Table 2-1. Please split fractionally for co-authorship among faculty employed by the school such that each publication is counted only once.
