Educator Preparation Program For Geography Majors

Great teachers inspire the next generation.

Have you ever thought about becoming a teacher? The Institute of Professional Educator Development in partnership with the Geography department has designed an innovative educator preparation program that will prepare you to be that inspiring teacher. We offer licensure for geography majors wishing to teach students in grades 6-12. Completion of an educator license can be done at the same time as your major.

Enter into the Rewarding Career of Teaching.....

- You can begin the Educator Preparation program as early as the first semester of your freshman year
- We will provide you with a challenging and innovative curriculum that will prepare you for a 21st century classroom
- A team of specialized advisors are in place to support you as you progress through the program

Student Support in the Educator Preparation Program

Educator Preparation Advising is a collaborative process. The educator preparation advisors and teacher candidate (you) work as a team to develop a successful advisor/advisee relationship. The advisors and you have important responsibilities in developing and maintaining this teamwork. The intent is to provide you with a full picture of your requirements and time-to-completion from an early point, and to support you as you pursue your initial licensure.
