Introduction

Welcome to the University of Wisconsin-Parkside. This catalog contains information about the university, admissions standards, academic programs and policies, student services, programs of study, and course listings. The catalog is a reference for general degree requirements, detailing the course work needed to complete a declared field of study. The catalog is a public record of general university requirements. Save this catalog and use it as a reference until your course of study has been completed.

The University

Founded in 1968, UW-Parkside graduated its first students in 1970. One of 13 baccalaureate degree-granting campuses in the University of Wisconsin System, UW-Parkside is accredited by the Higher Learning Commission (30 North La Salle Street, Suite 2400, Chicago, IL 60602-2504) and is a member of the North Central Association. The business management, management information systems, and master of business administration degree programs are accredited by AACSB International – the Association to Advance Collegiate Schools of Business. The chemistry degree program is approved by the American Chemical Society.

Student Success

Undergraduate students choose majors in the College of Arts and Sciences, and the School of Business and Technology working toward a bachelor of science or bachelor of arts degree. Graduate students choose from the master of business administration, master of science in applied molecular biology, and master of science in computer and information systems.

UW-Parkside students are required to take classes in the liberal arts, math, and science to provide the solid foundation needed in any declared major. The majority of students take four years or longer to graduate. However, several accelerated programs are available. A maximum of 30 credits can be earned toward a degree through Advanced Placement exams and the College Level Examination.

Students also complete course work at UW-Parkside in degree programs offered through consortial arrangements with other UW System institutions.

UW-Milwaukee: bachelor of science in nursing and master of science in administrative leadership.

UW-Extension, UW-River Falls, UW-Stout and UW-Superior: online bachelor of science in sustainable management.

UW-Eau Claire, UW-La Crosse and UW-Oshkosh: online M.B.A.

Academic Excellence

The university’s best and most senior faculty teach all levels of undergraduate courses. Many programs including biological sciences, business, pre-health, psychology, and theatre arts have earned national reputations. Most class sizes are small, ensuring greater student-faculty interaction. Numerous students work one-on-one with talented faculty in their research, an opportunity that many universities restrict to graduate students.

Community Engagement

The Center for Community Partnerships (CCP) connects the university resources with the communities of southeastern Wisconsin and northeastern Illinois. As the university’s front door for community engagement, the focus is on mobilizing the talent of students, faculty and staff in three key areas: community development, community based scholarship, and professional and continuing education. Community engagement plays a vital role in preparing students for an enriched quality of life, and encouraging the entrepreneurship essential to regional growth. Graduates benefit from diverse opportunities with major employers, the public sector, and emerging organizations. UW-Parkside is renowned for its partnerships with educational, service, business, and cultural organizations. The Carnegie Foundation recognized the campus for its initiatives and commitment to community engagement. The university is a member of the Wisconsin Campus Compact, a nationwide coalition of nearly 1,200 college and university presidents and chancellors representing some 6 million students. Campus Compact is a leader in building civic engagement into campus and academic life and is the only national association dedicated to this mission.

Diversity and Inclusiveness

UW-Parkside’s commitment to diversity is reflected in a curriculum that prepares students from both genders and all racial, national and ethnic groups to live in a pluralistic society. All students complete courses in cultural diversity as a graduation requirement. Programs are offered in ethnic studies, international studies, and women’s studies.
The University Mission

The University of Wisconsin-Parkside is committed to high-quality educational programs, creative and scholarly activities, and services responsive to its diverse student population, and its local, national and global communities. To fulfill this mission, the University of Wisconsin-Parkside will:

- Offer high-quality academic programs rooted in the tradition of a liberal education in the arts, sciences and professions, responsive to the occupational, civic and cultural needs of the region, and actively seek the continued input of all stakeholders.
- Generate, disseminate and apply knowledge through research, professional and creative activity that benefits communities throughout the region and the world.
- Attract and retain a diverse and multicultural population of students, faculty, and staff.
- Foster a teaching and learning community that provides opportunities for collaborative faculty, student, and staff interaction in support of excellence.
- Utilize technology creatively and effectively in courses, programs, and services.
- Prepare students to be successful in their professional, civic, and personal lives.
- Provide programs that meet the intellectual and cultural needs of people throughout their lives.
- Provide and share in cultural and intellectual activities in partnership with our local and regional communities.

The University Campus

A model of contemporary campus planning and design, UW-Parkside is situated on nearly 700 acres of woodlands and prairies in the town of Somers, between Kenosha and Racine in the southeastern corner of the state. Glass-walled corridors connect the main academic buildings and provide a glimpse of the scenic landscape that surrounds the picturesque campus.

Greenquist Hall

Greenquist Hall houses faculty offices, laboratories and classrooms. Sophisticated computer capabilities, and state-of-the-art science equipment provide students with relevant, hands-on learning opportunities. The building is named for Kenneth L. Greenquist, former Racine attorney and civic leader who, at the time of his death in 1968, served as president of the UW Board of Regents.

Molinaro Hall

Molinaro Hall is named for the late George Molinaro, longtime Kenosha civic leader and state representative who introduced the 1965 legislation to establish UW-Parkside. The building...
provides offices for the School of Business and Technology and a number of liberal arts faculty, as well as laboratories, and classrooms. It is also part of the Regional Center for the Arts and Humanities expansion project with more than 6,000 square feet of space being remodeled for ceramics and sculpture art studios.

**Regional Center for the Arts and Humanities**

The Regional Center for the Arts and Humanities is a combination of new and existing space. A major expansion and remodeling project added more than 72,000 square feet to the original 107,000-square-foot Communication Arts Building, which opened in 1971. The Regional Center for the Arts and Humanities features:

- The new 340-seat Frances E. Bedford Concert Hall
- A 120-seat “black box” studio theatre for smaller theatre productions
- Galleries for both professional and student art exhibitions
- Instructional studios for music, theatre arts and 2-D art programs
- Expanded and upgraded general classrooms
- Modern languages laboratory
- Campus Technology Services, providing both academic and administrative computer services, is also located here.

**Residence Halls**

Located in close proximity to the Student Center, three residence halls accommodate more than 1,000 students. Ranger Hall, a traditional-style, 401-bed facility opened in 1997. The University Apartments opened in 1986. Pike River Suites, a suite-style residence hall with a capacity of 250 students opened in 2009. Accommodations can be made for students with disabilities.

**Sports & Activity Center**

The Sports & Activity Center includes an indoor track and space for competition, practices and training in the Frank J. Petretti Fieldhouse. The Wellness Center and the Exercise Science Lab in Carmelo D. Tenuta Hall include state-of-the-art fitness equipment. The Alfred S. and Bernice De Simone Gymnasium has a seating capacity of 2,200 and is used for athletic events and commencement. The Sports & Activity Center features an eight-lane swimming pool, and the Ranger Power Weightlifting Center.

Outdoors is an all-weather 400-meter track, the Wood Road soccer fields, the Red Oberbruner Baseball Field, and the Case Softball Complex. The Wayne E. Dannehl National Cross Country Course, considered the finest natural course in the nation, is the site of many championship events.

**Student Center**

The Student Center describes what the building is all about. It’s a great place to eat, relax, hang out or grab a latte. But it’s also the place where you’ll find the University Bookstore, Admissions, New Student Services, the Student Involvement Center, Student Activities, Student Life, WIPZ radio, the Ranger News student e-newspaper, Parkside Student Government, Educator’s Credit Union, and meeting rooms for student clubs and organizations.

The Student Center Cinema features first-run movies and the popular Foreign Film Series. The Den is where the action is: live entertainment, dances, concerts, pool tables and video games. And it’s the spot for a great late-night pizza.
The Brickstone Grill and Eatery is completely new and has the widest variety of food selections. For fresh-from-the-oven gourmet pizza – try the Fiery Hearth. Other stations include Café Creations, Down Home, Sizzles, and the Breadbox. Whether it’s home cooking ... salads ... burgers ... or just a snack, The Brick is the place. Encore proudly brews Starbucks® coffees and offers a variety of specialty drinks ... espresso, cappuccino, café mocha, café latte ... it’s also a great spot for bakery treats and grab-and-go items. Both Brickstone and Encore are located on the D1 level of the Student Center.

Student Health & Counseling Center
The Student Health and Counseling Center provides primary health care and wellness education to all registered students. The center is staffed and managed by registered nurses with a physician and a psychiatrist scheduled on site one day a week. Licensed professional counselors who also hold AODA certification provide personal counseling to students by appointment. The center is located in the building adjacent to Tallent Hall.

Tallent Hall
Named for the late Bernard Tallent, dean of the former UW Center in Kenosha, Tallent Hall houses Business Services, Human Resources, the UW-Parkside Police and Public Safety Department, the Center for Community Partnerships, and the UW-Parkside/UW-Milwaukee Consortial Nursing Program.

Wyllie Hall
The building is named for the late Irvin G. Wyllie, the university’s founding chancellor, who guided the new university through construction and its early years. Its striking three-story atrium design has attracted national acclaim. Main Place, a multi-level area in the atrium, features study and meeting areas and an entrance to the Library. Key administrative offices, including the Chancellor’s Office, overlook this atrium.

The Library – a center for study and research by students, faculty, staff, alumni and the general public – is primarily a teaching library, recognized for its program of instruction in the use of a wealth of library resources and services. The library provides an attractive, user-centered environment with comfortable seating and designated areas for group and quiet study.

The Library offers a carefully selected print collection to support the teaching and research needs of the university. In addition, the Library invests heavily in electronic resources including a shared online catalog with the other UW campuses, an impressive collection of databases, full-text electronic journals and electronic books. The Library also actively participates in resource sharing with many regional and national libraries to provide materials beyond its collection.

Special library collections include rare books, periodicals, first editions, art books, collections of works by noted local authors including Irving Wallace and David Kherdian, and a collection of 18th- and 19th-century British and American plays collected by the late H.O. Teisberg.

Administered by the Library, the University Archives and Area Research Center on the D2 level houses an array of historical documents. University Archives includes all non-current UW-Parkside records of administrative, legal, financial or historical importance.

The Area Research Center operates in conjunction with the Wisconsin Historical Society and is part of a network of 14 centers in the state. Included are historic research materials relating to Racine and Kenosha counties, government records, naturalization records, and a manuscript collection featuring private records, correspondence and papers from a variety of prominent people, organizations and businesses. Major microfilm collections include the federal and state censuses of Wisconsin from 1820 to 1910 and pre-1907 vital records from Kenosha and Racine counties.

Managed by Campus Technology Services and located on the D1 level of Wyllie Hall are the Help Desk and the largest of the general access computer labs, featuring Windows and Macintosh systems. Media Services, also on the D1 level, is responsible for audio, visual and computer equipment checkout for classroom use, and installing and
maintaining equipment permanently located in lecture halls and classrooms. Media Services also houses and supports a distance education and satellite conference room.

As part of the Regional Center for the Arts and Humanities expansion project, more than 2,000 square feet of space has been remodeled for use as the Digital Arts and Animation Center.

Creative Services is located on the D2 level. Creative Services provides digital color and black-and-white printing, photocopying, graphic-design for web and print, and large-format digital color printing.

In addition, Wylie Hall houses the Advising and Career Center, and the Volunteer Program; the Registrar’s Office/Student Records, Cashier’s, and Financial Aid and Scholarships offices; the Office of Educational Support Services; the Office of Multicultural Student Affairs; the Tutoring Center; University Relations and Advancement, and Grants and Institutional Research.

Child Care Center
The UW-Parkside Child Care Center, licensed by the state of Wisconsin, provides programming for infants and children up to 5 years old. The center promotes social, emotional, physical and intellectual development in a learning-through-play environment. Individual needs are provided for at all age levels. The preschool program offers daily involvement in art, science, music, math, dramatic play, language development, and storytelling.

Parking
Unlike many urban university campuses where convenient parking is always at a premium, there is ample parking at UW-Parkside for students, faculty, staff and visitors.

Major parking lots are located near Tallent Hall, the Student Center,” the Regional Center for Arts and Humanities,” and the Sports & Activity Center” (parking lots with metered spaces for visitors). Parking spaces reserved for persons with disabilities can be found in all UW-Parkside lots.

For longer-term parking, daily parking permits can be purchased from the UW-Parkside Police and Public Safety Department, 188 Tallent Hall.

For parking lot and building location, please refer to the campus map on page 8 of this catalog.

In addition to convenient parking within easy walking distance of most buildings, a UW-Parkside campus shuttle operates from 8 a.m. to 4 p.m., Monday through Friday while classes are in session.

Directions to Campus
From Milwaukee
Interstate 94 south to Highway E in Kenosha County. East 5 miles.

From Madison

From Kenosha
Access from 30th Avenue (Wood Road), 22nd Avenue, Sheridan Road (Highway 32), Highway 31.

From Racine
Access from Highway 31, Highway 32, Meachem Road (Highway Y).

Local Bus
The Kenosha Transit bus system services the campus. For schedules and route information, call 262-653-4287.
The Office of Admissions provides recruitment services, admission counseling and support for prospective undergraduate students. The office also houses admission application processing and coordinates residency for tuition appeals.

Degree-Seeking Status

Degree-seeking students are those expecting to complete requirements for a degree or second degree. To be accepted as degree-seeking, students must meet the appropriate admission requirements in effect at the time they complete the application.

Students are subject to the general education requirements in effect at the time they are accepted as a degree-seeking student. Students’ specific program requirements (major, minor, certificate, concentration) are determined by the date their program declarations are accepted by the appropriate department. Determination of freshman, sophomore, junior, or senior classification will be made on the basis of the combined total of credits earned toward graduation at UW-Parkside and credits accepted in transfer:

<table>
<thead>
<tr>
<th>Class</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Freshman</td>
<td>24 or fewer</td>
</tr>
<tr>
<td>Sophomore</td>
<td>25 to 53</td>
</tr>
<tr>
<td>Junior</td>
<td>54 to 83</td>
</tr>
<tr>
<td>Senior</td>
<td>84 or more</td>
</tr>
</tbody>
</table>

Admission Requirements

New Freshmen

To be considered for admission as degree-seeking candidates, applicants must submit the University of Wisconsin System Application, the required application fee, official transcripts from high school (or the equivalent). In addition, all applicants under 21 years of age on September 1 of the academic year in which they plan to enroll must also submit ACT or SAT scores.

Freshman applicants must demonstrate they are prepared to do satisfactory academic work and, as members of the campus community, will benefit from and enrich the educational environment and the quality of UW-Parkside. Academic factors will continue to be of primary importance in the comprehensive review. These factors include, but are not limited to, the quality and rigor of the high school course work, grade point average, class rank, and trend in grades. ACT/SAT scores will be used to provide additional insight about an applicant’s academic qualifications.

In addition to the academic background and qualifications of applicants, nonacademic factors will also be considered. These factors may include but are not limited to, student experiences, work experience, leadership qualities, motivation, community service, special talents, status as a veteran of the U.S. military, whether the applicant is socio-economically disadvantaged, and whether the applicant is a member of a historically underrepresented racial or ethnic group.

Since there are no longer specific requirements to guarantee admission, and in an effort to help students plan their academic future, students likely to be admitted will rank in the upper 50th percentile of their high school class or have a minimum ACT composite score of 20 (or SAT equivalent) and complete the academic units listed below.

New freshmen must complete a minimum of 17 high school units with the following distribution:

<table>
<thead>
<tr>
<th>Academic Subjects</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>English/Speech</td>
<td>4 (3 units must be composition and/or literature)</td>
</tr>
<tr>
<td>Mathematics</td>
<td>3 (must be algebra and higher or equivalent)</td>
</tr>
<tr>
<td>Natural Science</td>
<td>3 (including one lab science)</td>
</tr>
<tr>
<td>Social Science</td>
<td>3</td>
</tr>
<tr>
<td>Additional Electives</td>
<td>4 (from the above areas, foreign language and/or fine arts and computer science)</td>
</tr>
</tbody>
</table>

While foreign language is not a requirement for admission to UW-Parkside, students who have not completed two years of one foreign language in high school (with a minimum average grade of C in year two) will be required to complete foreign language at the college level. See the foreign language requirement in the Programs and Policies section of this catalog for further information.

Four-Year Graduation Guarantee Plan

The University of Wisconsin-Parkside offers a four-year graduation guarantee that assures eligible entering freshmen a degree at the end of eight regular semesters.

Under the Chancellor’s Four-Year Guarantee Program, students work closely with an academic adviser to carefully plan a sequence of courses in order to complete UW-
Parkside’s degree requirements within four years of enrollment. The program is designed to help undergraduate students enter the work force full time as soon as possible, or pursue a graduate education, and avoid unnecessary tuition expenses.

To be eligible for the program, first-time freshmen entering UW-Parkside must express their intent to complete one major and degree program, have the necessary academic preparation to begin course work at the entry level for general education and their chosen major, and enroll in at least 15 credits their first semester.

To remain eligible, students must complete an average of 15 credits each semester, maintain a 2.00 grade point average, declare their major as soon as allowed by the academic department, develop a four-year plan with their academic adviser and meet with that adviser each semester prior to course registration. There is no penalty for students who enter the program but are unable to complete it; there is no obligation to stay in the program.

UW-Parkside provides participating students with a four-year academic plan, appropriate academic advising, and courses required for the declared major and degree. The university also provides substitutions or waivers of requirements or even free tuition or tuition reimbursement for participating students if the required courses are not available and the student is not able to graduate in four years.

For more information about the Chancellor’s Four-Year Guarantee Program, contact the Advising and Career Center in Wyllie Hall room D175 or call 262-595-2040.

Transfer Students

Transfer students are those who enter UW-Parkside with credits earned from another accredited college, university, or college-parallel liberal arts program.

Transfer students must submit the University of Wisconsin System Application for Undergraduate Admission, a check or money order for the required application fee, and transcripts from all high schools and all institutions of higher education previously attended. Applicants who already hold a bachelor’s degree need not provide high school transcripts, unless they have completed the foreign language requirement with course work completed in high school (see the foreign language requirement in the Policies section of this catalog).

Transfer applicants are given a comprehensive review for admission consideration. Academic factors for admission include the academic rigor of the completed college courses, the earned number of college transfer credits, individual course grades and collegiate cumulative grade point average. A transfer applicant’s high school academic record, including curriculum, GPA, class rank and ACT or SAT score may also be considered when less than 24 semester transfer credits have been earned at the time of application.

Non-academic factors that may be considered include but are not limited to, leadership experience, community service, and life circumstances. Applicants are encouraged to provide documentation that supports consideration for admission.

UW-Parkside accepts a maximum of 72 credits from any University of Wisconsin two-year college or any other two-
year institution with an accredited college-parallel liberal arts program. College-level courses with a passing grade will be applied toward the number of credits needed for a degree. However, some of these courses may not meet specific major or general education requirements. The appropriate department should be contacted for verification that specific course work fulfills major requirements.

Important information about academic policies that apply to transfer students can be found in the Policies section of this catalog.

Failure to inform UW-Parkside of attendance at any other institution of higher education may constitute grounds for disciplinary dismissal. If, after receiving complete transfer records, the university determines that the student is on academic or disciplinary drop status at another institution of higher education, that status will be honored by UW-Parkside and the applicant’s registration will be canceled.

Transfer Information System (TIS)
Transfer students can use the Transfer Information System (TIS) to find information on transferability of courses. TIS is a database that gives students information on how courses transfer within two- and four-year UW System institutions. It also includes transfer information about the Wisconsin Technical College System. TIS provides course equivalencies and information on which courses meet general education requirements, as well as additional information important for transfer students. Access to TIS at UW-Parkside is available in the library's computer laboratories. TIS can be accessed through UW-Parkside's website or directly at http://www.uwsa.edu/tis.

Transfer students enrolled in the Wisconsin Technical College System who wish to continue their education in the UW System may be eligible to transfer credits toward bachelor's degrees.

Students enrolled in the college-parallel program at Madison Area Technical College, Milwaukee Area Technical College, or Nicolet Area Technical College may transfer up to 72 credits of liberal arts-parallel (200 level) toward their degrees.

Up to 15 credits of specified courses designated as general education by the Wisconsin Technical College System may be transferred to UW-Parkside. Also, two specified courses in math and science may be accepted. Additional courses are eligible for transfer if they are included in the specific program-to-program transfer agreements that UW-Parkside has signed with some Wisconsin Technical College institutions.

The UW-Parkside/UW-Milwaukee Consortial Nursing Program has signed a program-to-program articulation agreement with Gateway Technical College. The agreement affords those students who have earned an associate degree in nursing at Gateway Technical College the opportunity to transfer credits toward the bachelor of science degree. Students wishing to take advantage of this articulation agreement should consult with the academic adviser of the nursing program, located in Talent Hall by calling 262-595-2480.

Re-entry Students
Applicants who previously attended UW-Parkside but have not been enrolled for at least the last semester must complete a re-entry application. Students who were previously enrolled and left due to military active duty deployment are eligible to re-enroll at the university with the same academic standing as when they last attended.

In addition, students applying for re-entry must submit high school transcripts and transcripts from all institutions of higher education previously attended unless they have been provided in the past. Applicants who have been dropped for academic reasons from another institution since last attending UW-Parkside are not eligible to return to the university. Under extraordinary circumstances the Office of Admissions will consider appeals.

Applicants seeking re-entry after having served a period on academic suspension from UW-Parkside must complete a re-entry application and contact the Advising and Career Center to obtain a special permit to re-enter the university. To obtain a permit to reenter, students must demonstrate that they have improved their ability to succeed in college.

Non-Degree-Seeking Students
UW-Parkside welcomes students pursuing studies for personal or professional enrichment. Persons not pursuing a degree or a second degree and those wishing only to audit courses are admitted as non-degree-seeking students. Such students must submit the University of Wisconsin System Application for Undergraduate Admission, but no application fee is required. Non-degree-seeking students are classified as special students at the graduate or undergraduate level and are not eligible to receive financial aid.

A non-degree-seeking student may not enroll for more than 6 credits in a given semester without permission of the director of the Advising and Career Center. Only the first 15 credits earned at UW-Parkside as a non-degree-seeking student may later be applied toward an undergraduate degree. A non-degree-seeking student cannot declare a major. Academic probation and drop policies related to grade point averages and earned credits apply. Completion of appropriate placement tests is a required prerequisite to enrollment in English, mathematics, chemistry, or second-semester or higher foreign language courses.

Non-degree-seeking students who desire to be degree candidates must file a degree-seeking application, available from the Office of Admissions, and submit transcripts from all high schools and all other institutions of higher education previously attended. Students must meet the admission requirements in effect at the time they complete their files and are ready to be considered for admission as degree-seeking students.

Students are subject to the general education requirements in effect at the time they are accepted as a degree-seeking student. Students who have been granted degree-seeking status and wish to declare a major may petition to do so. Students’ specific program requirements (major, minor, certificate, concentration) are determined by the date their program declarations are accepted by the appropriate department.
**International Students**

Students from approximately 30 countries currently attend UW-Parkside. The Office of Admissions assists international students in completing the admissions process and determines eligibility for scholarship assistance.

Admission of international students depends on scholastic achievement, English language competency, and the student’s ability to secure the required financial support. To apply, students must submit the following: The University of Wisconsin System International application, official transcripts in English translation documenting completion of secondary school and attendance at all other institutions of higher education (if applicable); a check or money order payable through a United States bank to cover the required application and international student fee; and official Statements of Financial Support. Students must also arrange for the university to receive official scores showing English Language proficiency. The Test of English as a Foreign Language (TOEFL) is preferred but other acceptable tests include IELTS and the STEP test. The minimum required score on the TOEFL is a computer-based score of 197 or Internet-based score of 71; for IELTS the minimum score is a 6; and for STEP, completion of Pre-1st Grade Level. In addition, upon admission, each student is required to take a placement test to determine English proficiency prior to course placement.

Students seeking transfer credit from an international post-secondary institution will be referred to a foreign credential service. An additional fee will be charged by the evaluation service.

International students are generally required to finance their entire education. United States immigration regulations restrict almost all off-campus work and limit on-campus work to 20 hours per week.

All UW-Parkside international students are required to have health insurance that is comparable to that provided by Student Assurance Services, Inc. All international students are automatically billed and enrolled in the Student Assurance plan twice a year (September and February). Removal from the policy is done after presenting a copy of the policy and proof of current enrollment in a comparable plan to the International Program Coordinator located in Tallent Hall 180. This must be done within the enrollment period – the first two weeks of each semester. Questions concerning this program should be addressed by calling 262-595-3215 or 262-595-2366.

The application deadline for fall is June 1, and for spring is November 1.

**Veterans**

UW-Parkside is approved for the education of reservists, veterans, disabled or deceased veterans’ dependents, and war orphans under programs provided by the U.S. Veterans Administration and the state of Wisconsin Department of Veterans Affairs. All veterans’ benefits are coordinated by the University’s Veterans Certifying Official.

To be certified for benefits, veterans enrolling for the first time must submit an Application for Educational Benefits form. Students who were receiving benefits at another school must
submit a Request for Change of Place of Training form. In order to continue receiving benefits, veterans must submit a Request for Veterans' Benefits form at the beginning of each semester. Veterans interested in state of Wisconsin benefit programs must contact their county Veterans Service Office.

Federal and state financial aid related regulations may require some veterans benefits to be considered as part of a financial aid award package. Veterans who plan to receive financial aid in addition to veterans benefits must report their monthly benefit amounts to the Student Financial Aid Office.

Veterans who have not attended UW-Parkside for one or more semesters should contact the Office of the Registrar when applying for re-entry to the university.

Opportunities for Social Security Disability Recipients and Senior Citizens

Persons receiving Social Security Disability Insurance and senior citizens aged 60 or older may audit courses without paying a fee. (See section entitled “Audit” in the Programs and Policies section of this catalog.)

High School Students

High school juniors and seniors with superior high school records may enroll as non-degree-seeking students in one or two UW-Parkside courses while working toward a high school diploma. Students must consult with their high school counselors before undertaking university work and present written permission from the appropriate high school official.

Youth Options Program

Students in Wisconsin public high schools may be eligible to take college courses for both high school and college credit and have those courses paid for by their school district. Interested students should consult their high school counselors for information about this program. Minimum qualifications for the Youth Options Program require that students must:

- Be in the junior or senior year.
- Rank in the upper 25% of their high school class.
- Have the approval from their high school.
- Submit all appropriate and official applications and documentation as approved by their high school.

Advanced Placement

Applicants who have exhibited outstanding scholarship and participated in the College Entrance Examination Board’s Advanced Placement Program may be considered for advanced college placement or credit. Such applicants must submit official Advanced Placement examination reports to the Advising and Career Center.

Placement Tests

Most newly admitted students are placed into English, reading, mathematics, and chemistry courses using current ACT sub-scores (less than three years old.) Entering students with no current ACT scores are required to take placement tests in English and mathematics. Students wanting to enroll in advanced foreign language courses must take the appropriate foreign language placement test. Students are placed into chemistry by their math placement.

Placement test information is available on the campus website, www.uwp.edu keyword: placement testing or by calling 262-595-2605. Information is also available in Learning Assistance in Wyllie Hall 107 or by calling 262-595-2370.

Students who have taken placement examinations at another UW institution may request that the institution forward a copy of the test scores to UW-Parkside. Test scores may be mailed to: UW-Parkside Learning Assistance, PO Box 2000, 900 Wood Road, Kenosha, WI 53141-2000, or faxed to 262-595-2716.
Undergraduate Degrees and Degree Requirements

The University of Wisconsin-Parkside offers the undergraduate degrees of bachelor of arts (B.A.) and bachelor of science (B.S.). The major completed determines which bachelor's degree a student receives. Special rules may apply to students completing the consortial nursing program and those who are seeking a second bachelor's degree. See sections on nursing and second bachelor's degree, respectively, for further information.

Degree Requirements

To receive a bachelor's degree from UW-Parkside students must:

1. Complete 120 credits of college work. This must include 36 credits in courses numbered 300 or above. Certain elementary courses are identified in the catalog and/or course schedule as not counting toward the 120 credits required for graduation. In addition, only the first 8 credits of physical education activity courses (100 level) may be counted toward graduation or grade point averages (GPA).

2. Of the 120 credits required for graduation, students must complete a residency requirement of at least 30 credits of work at UW-Parkside. At least 15 of the last 30 credits earned for a degree must be taken at UW-Parkside. Transfer, degree seeking students must earn a minimum of 30 credits at UW-Parkside toward their degree to fulfill the residency requirement. Individual departments and programs may require that certain courses must be taken at UW-Parkside. Students must complete all course work to be counted toward graduation by the end of the semester in which they graduate.

3. Attain a minimum cumulative grade point average (GPA) of 2.00 on a 4.00 scale. Some programs have higher GPA requirements. Transfer students must also have a cumulative 2.00 GPA on the combination of transfer credits accepted and credits attempted at UW-Parkside.

4. Complete an approved major program of study with the minimum major GPA as specified by the program or department. Usually, the minimum GPA is 2.00 on a 4.00 scale, but some majors require a higher GPA. Students who apply transfer credits to their majors must also meet the minimum major GPA requirement on the combination of transfer credits and UW-Parkside credits. At least 15 credits of upper level course work (courses numbered 300 or higher) must be completed at UW-Parkside. A student may not graduate with an incomplete grade in major course work if failure in that course would reduce the GPA in the major below the minimum GPA.

5. Meet UW-Parkside general university requirements.

6. File a request for a degree summary/application to graduate and pay the required application fee. The degree summary process is the way in which students obtain institutional and departmental approval of their petition to graduate.

Application to Graduate/ Degree Summary

In order to graduate, students must submit an application to graduate at the Office of the Registrar/Student Records. A one-time, non-refundable fee, which is applied toward costs associated with graduation, is payable with the submission of the request. The degree summary/DARS report, will reflect all outstanding degree requirements, including courses still needed to complete general education and the major. The adviser may need to make some changes to reflect current program policy or the likely availability of required courses in the major.

Students are advised to submit this request well in advance of their expected semester of graduation so they have time to adjust their degree plans, if necessary. Full-time students should request their degree summary after completing 80 credits; part-time students should request the summary when they are within about 20 credits of graduation.

The necessary form can be obtained at the Office of the Registrar/Student Records or in the Advising and Career Center. For more information about the DARS report, see the section entitled Degree Auditing Report System (DARS).

General University Requirements

Students seeking teacher licensure and those enrolled in the consortial nursing program are subject to a different set of requirements. These students should consult their advisers for details.

Students are subject to the requirements in effect on the date they first entered UW-Parkside as degree-seeking students, or they may choose to follow any later requirements. Students who transfer to UW-Parkside from a two-year or four-year UW System institution may choose to follow the general university requirements in effect the year they entered the previous institution. See the Advising and Career Center for details.
General education, a part of every student's academic program, is intended to provide opportunities for students to develop their analytical and problem-solving skills, to develop understandings of cultures and ethnicities, to develop the skills and awareness necessary for citizens of an advanced technological society, and to develop habits of mind that promote life-long learning, responsible actions and independent thinking. Complementary to these skills are opportunities for students to become literate in civic, cultural, aesthetic, international, and scientific and technical subject areas.

I. Skills Requirements

Reading and Writing Skills
This requirement assists students in developing effective communication through the mastery of reading and writing skills.

Students satisfy this requirement with the completion of English 101 (3 credits) with a grade of C-minus or better. Students seeking teacher licensure must complete ENGL 101 with a grade of C or better.

While some students may be exempt from the Reading and Writing Skills requirement on the basis of test scores, other students, based on test scores, may be required to complete a course or courses in reading and writing skills (e.g. ACSK 083, ACSK 090, ENGL 100) prior to enrolling in ENGL 101.

Deadlines for completion of reading and writing skills requirement:

- Students must complete the sequence of courses ending in ENGL 101 within the first 60 degree credits.
- Students who place into ACSK 090 must complete this requirement, with a grade of C or better, within the first 30 degree credits.
- Students who place into ACSK 083 must complete this requirement, with a grade of C or better, within their first two semesters (excluding summer and winterim).
- Students who fail to complete these requirements within the stated deadlines will not be allowed to enroll in any other courses until the requirement is met.

Computational Skills
This requirement assists students in developing effective basic computational skills necessary to an informed citizenry and provides support for other disciplines.

Students satisfy this requirement with the completion of an introductory course in algebra or a survey course of mathematics (either Mathematics 111 for 4 credits or Mathematics 102 for 3 credits) with a grade of C-minus or better. Students seeking teacher licensure must complete the course that satisfies this.

While some students may be exempt from the Computational Skills requirement on the basis of test scores, other students, based on test scores, may be required to complete a course or courses in computational skills (e.g. ACSK 010 or ACSK 015) prior to enrolling in MATH 111 or MATH 102.

Deadline for completion of computational skills requirement:

- Students must complete the sequence of courses ending in MATH 111 or MATH 102 within the first 60 degree credits.
- Students who place into ACSK 010 or ACSK 015 must complete ACSK 015, with a grade of C or better, within the first 30 degree credits.
- Students who fail to complete these requirements within the stated deadlines will not be allowed to enroll in any other courses until the requirement is met.

Information Literacy
The information literacy requirement introduces students to the general organization of information sources in the Library and provides a basic understanding of how to perform an information search using both paper and electronic research formats. Students are urged to complete this requirement as soon as possible.

Deadline for Completion of Information Literacy Requirement:

- Students must complete the information literacy requirement within their first 30 degree credits. Students who fail to complete the information literacy requirement within the stated deadline will not be allowed to enroll in any further courses until this requirement is met.

II. General Education Requirements

The general education curriculum provides students with exposure to different disciplines and subject matter; it also provides a broad base for placing into context the concentrated and in-depth study for developing expertise in a major discipline. The curriculum consists of a minimum of 36 credits outside of the skills requirements, distributed across three distribution areas: Humanities and the Arts, Social and Behavioral, and Natural Sciences. A single course may be counted under one area only. Students are required to take 12 credit hours from each distribution area from at least three different departments/programs in each distribution area. Courses which meet the general education requirements are so designated in the course schedule each semester. An updated list of general education courses may also be found on-line at www.uwp.edu Keyword: General Education.

Students may also meet these requirements through equivalent courses at other institutions or by otherwise demonstrating comprehension equivalent to completion of such courses.

III. Foreign Language Requirement

The purpose of the foreign language requirement is to familiarize students with communication in another culture and with the cultural significance of language. This is satisfied by completing two semesters, or the equivalent of two semesters, at the college level of one foreign language.

It is strongly recommended that students complete this requirement as soon as possible upon entering the university.
The foreign language requirement can be met under any of the following circumstances:

- Students who completed a minimum of two years of one second language at a secondary school with a final grade of C or better (grade of C-minus is not acceptable) in the last course taken.
- Students who completed one high school unit and one college semester in the same language, provided that the college course is at least on the second-semester level.
- Students who are heritage speakers in a language taught at UW-Parkside or who have informally learned a language taught at UW-Parkside can meet the foreign language requirement if they take the UW System placement test and place into the equivalent of the third semester (intermediate level) or above.
- Students who are heritage speakers in a language not taught at UW-Parkside or who have informally learned a language not taught at UW-Parkside can meet the foreign language requirement upon certification at the intermediate level through the American Council on the Teaching of Foreign Languages (ACTFL).
- Students who have graduated from a foreign secondary school with a curriculum taught in the language native to that country, other than English, will be considered to have met the foreign language requirement.
- International students from countries where English is not the primary language are considered to have met the foreign language requirement when they meet the required standard of English competency at the time of admission through the appropriate Test of English as a Foreign Language (TOEFL) score.

Placement Tests for Foreign Language Courses

UW-Parkside uses the UW System Foreign Language Placement Tests in French, German, and Spanish to place students into the appropriate course level of their selected foreign language. Tests are administered throughout the year; specific testing dates and information are available at the Learning Assistance Department.

Students who place into language courses numbered 104 (beginning level 2) or 204 (intermediate level 4) are advised to audit 103 or 203, respectively, in the fall and then take 104 or 204 in the spring. Students cannot begin language study (103 or 203) during the spring semester.

Retroactive Credits in Foreign Language

The Modern Language Placement Test is required for any UW-Parkside student who wishes to receive college credit for language competency reached in high school. Students may earn up to 16 retroactive credits, four for each of the first four semesters of language study, if: a) they completed the previous course work in a United States high school, b) they enroll in the college course into which they place, and c) they complete the course with a grade of B-minus or better. In order to be granted retroactive credit, the student must submit an application to the Office of the Registrar/Student Records at the end of the appropriate college semester.

Retroactive Credit in Foreign Language for Transfer Students

UW-Parkside will accept retroactive credit for foreign language if it was granted by another UW System institution and is documented on the student's UW System transcript. Students or advisers with questions about an individual situation should contact the chair of the Modern Languages Department. Advanced students in a foreign language should consult with an adviser in the Modern Languages Department.

IV. Ethnic Diversity Requirement

The purpose of the ethnic diversity requirement is to familiarize students with and sensitize them to differences among diverse ethnic groups. In accordance with UW System policy, students graduating from UW-Parkside are required, as part of their 120 credits, to complete a minimum of one 3-credit course dealing with issues of race and ethnicity within the United States. Courses which meet the ethnic diversity requirement may also count toward fulfillment of general education, major, or minor requirements. Courses which meet the ethnic diversity requirement are so designated in the course schedule each semester. An updated list of ethnic diversity courses may also be found on-line at www.uwp.edu

Keyword: Diversity Requirement

Transfer Students and General University Requirements

1. Transfer students should consult the Advising and Career Center for detailed information on general education requirements.

2. Transfer courses which are the substantial equivalent of approved UW-Parkside general university (general education, skills, foreign language, and ethnic diversity) courses will be counted toward general education requirements.

3. Transfer students entering with freshman or sophomore standing (0-53 credits) will be required to meet UW-Parkside general education, skills, foreign language, and ethnic diversity requirements.

4. Transfer students entering with junior standing (54 credits or more) will be required to meet the distribution requirement by categories, NOT the specific distribution by subcategories, e.g. “one course in literature and one course in the arts.” The distribution by categories is as follows:

   - Humanities and the Arts 12 credits
   - Social and Behavioral Science 12 credits
   - Natural Science 12 credits

   These students must also complete UW-Parkside’s skills, foreign language, and ethnic diversity requirements.

5. Students transferring to UW-Parkside from a UW System institution (the four-year universities and two-year colleges) may follow the UW-Parkside general university requirements that were in effect at the time they entered the previous institution. See the Advising and Career Center for details.

6. Transfer students with a previously earned bachelor’s degree and/or 90 or more acceptable credits of multi-disciplinary course work from an accredited liberal arts,
baccalaureate degree-granting college or university will be considered to have completed the UW-Parkside general education and skills requirements. They must meet the foreign language and ethnic diversity requirements. The same policy shall apply to students who hold associate degrees from the UW Colleges and to students holding associate of arts or associate of science degrees from accredited college parallel liberal arts programs. In order to receive this exemption, students must have 45 or more transferable credits.

7. Transfer students who complete 90 transferable credits (as outlined above), a bachelor's degree, or an associate of arts or science degree (with at least 45 transferable credits) at another institution after enrollment at UW-Parkside are exempt from UW-Parkside general education and skills requirements only if the 90 transferable credits or the degree is awarded within one year of initial enrollment at UW-Parkside. The foreign language and ethnic diversity requirements are still required.

8. All transfer students must meet the ethnic diversity requirement and the foreign language requirement.

9. Grades earned in transfer are not included in the GPA on the UW-Parkside transcript.

10. Transfer courses are included in GPA calculation for purposes of computing minimum university, major, and minor GPA requirements for graduation, and for calculating honors at graduation.

Certification of Transfer Students in Skills Requirements

While transfer students are expected to complete the skills requirements within the deadlines stated in the policy, the university recognizes that transfer students may have met the reading, writing, computational, and/or information literacy skills requirements at a previous college or university. Therefore, the faculty has created guidelines for evaluating the applicability of previous course work for certification in these areas; this evaluation is completed when the student is first accepted to UW-Parkside.

Transfer students will be certified in the reading and writing competencies if they have successfully completed a course equivalent to English 101 at another college or university with a grade of C-minus or better. Students who have not completed such a course should take the English placement test to determine which course to take. Placement beyond English 101 fulfills the reading and writing competency for graduation.

Transfer students will be certified in computational skills if they have completed a course equivalent to Mathematics 111 or Mathematics 102 with a grade of C-minus or better, or passed any higher level mathematics course at a previous college or university. Students who have not completed such course work should take the mathematics placement test. Placement into Mathematics 112 or beyond on the UW-Parkside placement test fulfills the computational skills requirement for general education; however, some majors may require additional mathematics courses.

Transfer students should consult the Library staff about fulfilling the information literacy requirement.

Transfer students with 90 or more acceptable credits of multi-disciplinary course work from an accredited liberal arts, baccalaureate degree-granting college or university will be considered to have completed UW-Parkside skills requirements. The same policy shall apply to transfer students holding acceptable associate degrees, provided they have completed 45 or more transferable credits.

UNDERGRADUATE POLICIES

Courses That Do Not Count Toward Graduation

Several UW-Parkside courses (e.g., those which provide developmental work in English, mathematics and reading) do not count toward graduation. The credits and grades earned in these courses are counted when computing the student's GPA and in determining how many credits the student is carrying during the semester (as for tuition charges, insurance purposes, and when checking on eligibility for financial aid and participation in athletics).

Failures or Incompletes in the Major

Students who fail required courses in their majors must retake those courses. If they wish to do so through credit obtained elsewhere, written approval from the chair of their major department must be obtained, prior to enrollment off campus in order to guarantee appropriate transfer. Students may not graduate with an incomplete in a course in their major if the course is required or if failure in that course would bring their major GPA below the minimum requirement.

Declaring a Major

Students begin with a major status of undeclared and remain so until they submit a program declaration form to the Advising and Career Center or academic department and are accepted into the major. Thereafter, students may add, drop, or change majors, or return to undeclared status, by filing another declaration form. Departments may deny a student's declaration of major if the student fails to meet the standards and requirements necessary for admission to the major.

Undeclared students are assigned an academic adviser from the Advising and Career Center. Students who are accepted into their major after filing their program declaration are assigned advisers in their major departments.

Students are encouraged to identify a major as early as possible in their academic careers. Formal declaration must be made upon completion of 60 credits.

Students who plan to enter programs with very strict requirements (e.g., art, music, biological science, business) are advised to consult with the appropriate department as early as possible.
Students are subject to the major requirements in force at the time they are first accepted in a particular major but may meet requirements established later by notifying either the director of the advising and career center or their major adviser, who will provide the appropriate form to make sure that the student’s choice becomes part of the permanent record and is reflected on the degree summary.

Non-degree seeking students (non-matriculant) cannot declare a major or minor.

**Double Major**

Students earning a double major in programs taken concurrently must complete the course requirements for both major areas and all other standard degree requirements. Students wanting to earn two or more majors that lead to different degrees (bachelor of arts and bachelor of science) normally earn only one degree. Students choose which degree they wish earn at the time they file their Application to Graduate/Degree Summary form. Students wishing to earn dual degrees, please refer to the dual degree policy below.

**Dual Degree**

Students may earn both a bachelor of arts and a bachelor of science degree by completing the graduation requirements for both degrees including a major appropriate to each degree. The student must, in meeting these requirements, complete an additional 30 credits for the second degree (for a minimum of 150 credits).

**Completion After Graduation**

Students may, after graduating with a bachelor's degree from UW-Parkside, complete a minor, concentration, certificate, or additional major. Students must apply for readmission to UW-Parkside and submit program declaration paperwork. When all course work toward the additional major, minor, concentration or certificate has been completed, students should submit an Application to Graduate/Degree Summary form to initiate a review of the additional information. A statement will be added to the student's transcript, noting the completion of such major, minor, concentration or certificate with the date of completion.

**Second Bachelor's Degree**

A person who holds a bachelor’s degree from another institution and who wishes to obtain a bachelor’s degree from UW-Parkside is subject to all of the regulations governing transfer students. A person who has received a bachelor’s degree from UW-Parkside will not be granted a second degree of the same kind (i.e. bachelor of arts or bachelor of science). See Completion After Graduation above. A person who holds one of these degrees from UW-Parkside may receive the other bachelor’s degree provided that the major sought naturally leads to the other bachelor’s degree and provided that the student does the following:

1. After receipt of the first degree, enrolls in UW-Parkside as a degree-seeking (matriculant) student, declares a major leading to the desired degree, and files a degree summary request indicating intent to receive the second bachelor’s degree.

2. Completes an additional 30 credits of work at UW-Parkside after receipt of the first degree and satisfies all graduation requirements in effect at the time of first enrollment as a degree-seeking (matriculant) student following receipt of the first degree.

3. Completes a major leading to the degree sought, with at least 15 credits in courses numbered 300 or above completed at UW-Parkside, following receipt of the first degree. Students who return after graduation to complete only the requirements for an additional major do not earn a second bachelor’s degree. See Completion After Graduation opposite.

**Credit/No-Credit Courses**

A few UW-Parkside courses may be designated as credit/no-credit courses. These are courses in which the faculty has determined that assigning a regular letter grade to student performance would be inappropriate, so that the only grades assigned are credit (CR) for satisfactory performance or no credit (N/C) for unsatisfactory performance. Such credits are not included in calculating a student’s overall GPA but are part of the student’s regular class load. All students enrolled in these courses receive grades of either credit or no credit.

**Auditing a Course**

Students have the option of auditing a course, though this means that they will not receive credit for it toward graduation, major requirements, financial aid eligibility, or class load. For more information, see section entitled Audit.

**Substitutions and Waivers of Requirements**

Any time a student fulfills a graduation requirement in any way other than that explicitly stated in the catalog, written approval must be submitted to Office of the Registrar/Student Records. Substitutions for and waivers of major, minor, and other requirements must be approved with an executive action form, which is signed by the director of the General Education Program (for general education requirements), by the chair of the Academic Actions Committee (for university policy), or by the appropriate faculty member, chair, and dean (for major and minor requirements). Executive action forms are available in the Advising and Career Center and in each academic department and must be submitted to Office of the Registrar/Student Records in order for the action to be official. Executive actions must be submitted by the faculty member or departmental staff member; forms submitted by students will not be accepted.

**Transfer Credit for Continuing Students**

With special permission, students may complete courses at other campuses and transfer them back to UW-Parkside...
to satisfy general university, major, or minor requirements. Permission is obtained via the Advance Approval of Proposed Transfer Credits form, which can be obtained on-line at http://www.uwp.edu/departments/registrar/formsstudents.cfm. The form must have accompanying documentation and signatures as required by the type of transfer fulfillment. Students should review the document for signatures required. Once the student had obtained the proper signatures, the form and documentation (course description or syllabus) must be submitted to the Office of Admissions and New Student Services, SC D105.

Credit by Examination

It is possible to gain university credit by passing examinations which certify that the student has acquired through other means the same knowledge as would have been expected in a college course taken for credit. UW-Parkside accepts many approved examinations from outside agencies for credit. For information on approved examinations, contact the Advising and Career Center in Wyllie D175 or at 262-595-2040.

General Limitations

Certain rules apply to all forms of credit by examination.

Maximum Number of Credits

UW-Parkside will grant no more than 30 credits through credit by examination.

Grades

No grades are recorded for credits granted by examination.

Limitations on Use of Credit by Examination

Credits granted by examination do not count toward residency requirements (the 30 credits a student must earn at UW-Parkside and the 15 credits in 300-400 level courses in the major a student must earn at UW-Parkside). No more than 6 credits granted by examination may be applied to any one of the major areas of the general education requirements. Students hoping to use credit by examination to meet the foreign language requirement should consult with the modern language chair in advance. Academic programs may list additional restrictions on the use of credit by examination in meeting their own requirements.

Challenge Examinations

Each department's faculty at UW-Parkside may designate certain courses for which credit by examination may be earned. The method of testing and the standards which must be met are determined by the department faculty; in limited cases this may include specified pre-collegiate work in lieu of examinations.

Credits Granted

The number of credits granted will be equal to the credits normally earned in the course being “challenged.”

Eligibility

Challenge examinations will be given only to registered students. Students seeking credit by examination for a course which they have previously audited at UW-Parkside must be enrolled in the university at the time the examination is taken and are subject to such fee charges for the examination as are in effect.

External Programs for Credit by Examination

A number of external agencies provide examinations which may be acceptable for credit at UW-Parkside. Students interested in following this route should consult the Advising and Career Center for details. The following general policies apply:

Documentation

An official transcript, score report, or equivalent document issued by the external agency must be submitted before credit can be granted.

Approval of Credit

In the case of the College Level Examination Program (CLEP), the Advanced Placement Program (AP), and the International Baccalaureate Program (IB), a list of approved examinations, the minimum score required for credit, and the course equivalencies established for each by the appropriate department faculty is available in the Advising and Career Center. In all other cases, the appropriate department faculty will determine whether credit will satisfy: 1) specific course requirements for a major or minor; 2) elective credit for a major or minor; or 3) only general elective credit.

Advanced Placement

Students who have exhibited outstanding scholarship and participated in the College Entrance Examinations Board's (CEEB) Advanced Placement Program may be eligible for advanced placement credit. Students must submit official Advanced Placement examination reports to the Advising and Career Center. Score reports may be ordered from CEEB by phone at 888-225-5427 or by e-mail at apexams@info.collegeboard.org.

College Level Examination Program (CLEP)

The CLEP is based on the premise that some people enrolling in college have already learned some of what is taught here. They have done so through non-credit adult courses, job training, independent reading and study, and advanced high school courses. CLEP provides these individuals the opportunity to demonstrate their college-level learning by taking exams that assess knowledge and skills taught in college courses. The CLEP exams cover material taught in introductory-level courses.

UW-Parkside accepts credits for many of the CLEP general and subject examinations. Contact the Advising and Career Center at 262-595-2040 to determine which examinations are accepted.

Credit for Experiential Learning

UW-Parkside students have the opportunity to seek credit based on learning gained from experience through a rigorous portfolio and evaluation process. This process is grounded in the departmental evaluation of the portfolio, in which the student describes the learning that derives from experience.

Any UW-Parkside student who can demonstrate learning that is derived from experience equivalent to college level learning may be able to apply that learning toward degree credit. The Credit for Experiential Learning (CEL) process
requires that the learning be related to specific courses or areas of study at UW-Parkside. The learning must be based on experience in employment, volunteer activities, workshop/ seminar participation, and/or publications. Credit is given for learning acquired as a result of the experience(s), not for the experience itself. The required portfolio process takes time and effort.

CEL at UW-Parkside is determined through individual assessment. Academic departments use the portfolio process to decide whether a student should receive credit for experience-based learning, how much credit, and whether credit is applied toward general education, major, minor or elective courses. Academic departments determine the appropriateness of potential claims and in garnering the approtionship of potential claims and in garnering the appropriateness of potential claims. An adviser will assist the student in assessing the statements on CEL Policies, CEL Procedures and the CEL Portfolio available on the university website. Interested students should make an appointment as soon as possible in the Advising and Career Center (Wyllie D175, 262-595-2040). An adviser will assist the student in assessing the appropriateness of potential claims and in garnering the necessary course information from the appropriate faculty members.

**Portfolio Content**

The CEL portfolio is a collection of packets, each of which includes a claim for credit for a specific course along with a written narrative and extensive documentation that supports the student's claim of college-level, experience-based learning. Faculty may interview students, require performance-based claims and/or administer examinations when additional information is needed to substantiate the request. Documentation may vary depending on the course for which you are seeking credit.

The narrative describes the learning in detail and is similar in terms of effort to a major term paper for a course. The narrative discusses the student's own experience and the subject matter’s theories, concepts and corresponding literature. The student must also demonstrate ability to understand, reason about and/or explain problems, choices and/or decisions in the particular subject. The narrative must be well documented.

Documentation reflects familiarity with theories of the academic discipline that are central to the experience and supports the experiential statements in the narrative. At least one letter from a present/past direct supervisor is required. Other documentation may include certificates of workshop/ seminar completion, and any other verifiable information that substantiates claims made in the narrative.

Students interested in pursuing the CEL process should study the statements on CEL Policies, CEL Procedures and the CEL Portfolio available on the university website. Interested students should make an appointment as soon as possible in the Advising and Career Center (Wyllie D175, 262-595-2040). An adviser will assist the student in assessing the appropriateness of potential claims and in garnering the necessary course information from the appropriate faculty members.

**Credits for Military Service**

Students who seek credits based on military course work must provide either an official AARTS Transcript or a SMART Transcript to the Office of Admissions and New Student Services:

UW-Parkside grants credit for course work completed in the armed services as recommended by the Guide to the Evaluation of Educational Experiences in the Armed Services by the American Council on Education. Credit will be granted if the guide recommends granting credit in the baccalaureate/ associate degree category and if credit recommendations are parallel to courses offered at UW-Parkside. Credits granted for military courses will not count toward residency requirements for graduation and may not duplicate content for credits previously earned by any other means.

Credit is not awarded for rank or rating, or military occupational specialties. Credits granted for military course work will be treated in the same category as credit by examination; therefore, no more than 30 credits will be granted for military course work or a combination of military course work and credits earned by examination.

A student may appeal the evaluation of his or her military credits by providing the appropriate departmental faculty with a copy of the ACE description, obtainable from the Office of the Registrar/Student Records, and other documentation that outlines course content.

**Summary of Credit Rules**

**120 Credit Rule:**
- A minimum of 120 credits is required for graduation.

**90 Credit Rules:**
- UW-Parkside will accept a maximum of 90 credits from any 4-year accredited institution toward the 120 credits required for graduation.
- Degree-seeking transfer students with 90 or more acceptable credits from an accredited liberal arts, baccalaureate degree-granting college or university are considered to have completed the UW-Parkside general education and skills requirements. The ethnic diversity requirement and the foreign language requirement must still be completed.

**72 Credit Rule:**
- UW-Parkside will accept a maximum of 72 credits from any UW college or other two-year institution with an accredited college-parallel liberal arts program.

**60 Credit Rules:**
- Students must complete their writing and computational skills requirements within their first 60 degree credits.
- Students must make a formal declaration of major upon completion of 60 degree credits.

**54 Credit Rule:**
- Transfer students entering UW-Parkside with junior standing (54 credits or more) will be required to meet the distribution requirement of the general education requirements but not the specific distribution by subcategories.

**45 Credit Rules:**
- Degree-seeking transfer students holding an associate of arts or science degree from an accredited college-parallel liberal arts program, with a minimum of 45 transferable credits, are exempt from UW-Parkside general education and skills requirements.
The ethnic diversity requirement and the foreign language requirement must still be completed.

### 36 Credit Rule:
- Degree-seeking students must earn a minimum of 36 credits in courses numbered 300 or above.

### 30 Credit Rules:
- Degree-seeking students must earn a minimum of 30 credits at UW-Parkside toward their degree (residency requirement).
- Students must complete any required remedial coursework within their first 30 degree credits.
- Students must complete the information literacy requirement within their first 30 degree credits.

### 15 Credit Rules:
- Students must complete at UW-Parkside a minimum of 15 credits in their major in courses numbered 300 or above.
- For all students, at least 15 of their last 30 credits earned toward a degree must be taken at UW-Parkside.
- Only the first 15 credits earned at UW-Parkside by non-degree seeking students may later be applied toward undergraduate degree requirements.
- A maximum of 30 general education credits may be accepted from Wisconsin Technical College System institutions. Courses must have been completed in fall 1987 or later. Also, two additional specified courses in math and science may be accepted.

### 9 Credit Rule:
- A minimum of nine credits in a certificate program must be taken at UW-Parkside. Individual departments and programs may require more than nine credits to be taken at UW-Parkside.

### 8 Credit Rule:
- No more than the first 8 credits of 1-credit physical activity courses (100 level) offered by the Health, Exercise Science, and Sport Management Department or earned in transfer can be counted toward the GPA and/or toward graduation.

### Excess Credit Policy – 165 Credit Rule:
- Based on UW-System policy, all resident undergraduate students who have accumulated 165 credits (or 30 credits more than required by their degree programs, whichever is greater) will be charged a surcharge, equal to 100 percent of the regular resident tuition, on credits beyond that level. Contact the Office of the Registrar/Student Records for more details. Submit any requests/appeals for exceptions to this policy in writing to the Office of the Registrar/Student Records.

### Residency requirements:
- Degree-seeking students must earn a minimum of 30 credits at UW-Parkside toward their degree.
- At least 15 credits of upper level (300 or above) major course work must be completed at UW-Parkside.
- At least half of the course work required for a minor must be completed at UW-Parkside.
- A minimum of nine credits in a certificate program must be completed at UW-Parkside.

### REGISTRATION POLICIES

#### Academic Advising
Prior to registration for the spring and fall terms, all degree-seeking students are required to meet with their academic advisers to plan their course schedule for the following semester. UW-Parkside's web registration system (SOLAR) will not allow unadvised students to register for course work for the fall and spring semesters.

#### Class Load
Undergraduate students enrolled for 12 or more credits during the fall or spring semester are considered full time. A full-time load in the summer is 6 or more credits. A full-time graduate student enrolls for 9 credits during fall or spring semester and 5 credits in summer. Whether a student is full time or part time can affect eligibility for some forms of financial aid, athletic eligibility, and insurance coverage.

Degree-seeking students may not enroll for more than 20 credits in the fall or spring semester without prior approval from the director of advising. In the summer, students must obtain permission to enroll in more than 12 credits. Generally, permission to register for heavy credit loads will not be granted unless a student has earned a GPA of at least 3.00 during the previous semester on a load of at least 14 completed credits. This policy is aimed at ensuring that students do not take on more work in a given semester than they have shown they can successfully complete. Non-degree-seeking students may not enroll for more than 6 credits without approval. Students may apply for overload permits in the Advising and Career Center.

#### Audit
Students may choose to audit any course at the university with the consent of the instructor, except those courses specified in the catalog or semester course schedule as not available for auditing. Audit students are expected to attend the course regularly and to meet the requirements for auditors established by the instructor, but they receive no credit in the course, are not given regular grades, and do not have such courses counted as part of their class load for determining whether they are full-time or part-time students or whether they are eligible for financial aid, athletic eligibility, or insurance purposes. In limited enrollment courses, students taking the course for credit are naturally given registration preference. All auditors are subject to regular student parking fees and to other Regent and UW-Parkside regulations.

The student must satisfactorily complete the course in order to have the notation AUD recorded on the transcript. An Incomplete may not be assigned to an audit course. Audited classes not completed satisfactorily will be removed from the student's transcript. After the first week of classes, written permission of the instructor is required to convert a course from credit to audit or audit to credit. A student may not convert a course from credit to audit after the fourth week of class or, in the case of a module, after one-third of the course has passed.
Students who later seek credit by examination for a course that they have audited must be enrolled in the university at the time the examination is taken and are subject to examination fee charges.

**Note:** The audit policy specifies that courses are open to auditors, unless otherwise specified, subject to the consent of the instructor. Thus, auditors may be excluded from a class, using the following procedures:

1. If a department faculty determines that a particular course or section is not available for any audit registration, the exclusion of auditors should be indicated as a “note” in the course schedule. Audit registrations will not be accepted in such courses or sections.
2. During the registration period, including the first week of classes, audit registrations will be accepted for courses other than those closed to auditors. If an instructor does not grant permission to one or more registered auditors to continue in a particular course (because of lack of space or other valid reason), the instructor should so notify each student, in writing, with a copy to the registrar.

When the registrar receives a copy of the notice, the student will be dropped from the class list and the appropriate refund will be given.

### Adding a Course

During the first week of the semester, students may add any course for which they have met the prerequisites. During the second week, appropriate courses may be added with the written consent of the instructor. Beginning the 11th day of classes, a student cannot add a course without written permission of the instructor, the department chair and the dean. The Office of the Registrar/Student Records will determine comparable deadlines for courses less than a semester in length.

### Dropping a Course

A student may drop any course during the first half (i.e. the first eight weeks) of the semester. The Office of the Registrar/Student Records will determine comparable deadlines for courses less than a semester in length.

Beginning with the ninth week through the 12th week of the semester a student may request permission to drop a course only for extraordinary, non-academic reasons. Before requesting permission to drop, the student should discuss his/her circumstances with the instructor. Any such request must be submitted to the Office of the Registrar/Student Records no later than the Friday of the 12th week of instruction. The Office of the Registrar/Student Records will determine comparable deadlines for courses less than a semester in length. The request must include a written explanation of the circumstances.

Requests denied or received after the deadline, may be reviewed by the Academic Actions Committee. Granting of requests by the Academic Actions Committee is not automatic. A student should not assume that his/her request would be granted.

An instructor may request that the registrar drop a student from a course if the student does not meet the stated prerequisites or if the student has not attended the course during the first week of classes and has not notified the instructor. The instructor must submit the request by the date specified on the administrative drop form. However, it is still the students’ responsibility to make sure that they have been officially dropped from any class.

A student who never attends (or stops attending) a course in which he/she has enrolled and who does not drop the course through the appropriate office will receive a failing grade.

A student who drops a course after the fourth week of a semester will receive a transcript notation of “W.” (In the case of module or summer session courses, the W notation will be applied if the drop occurs after one-third of the course period has passed.)

### Fees for Dropping a Course

After the 10th day of classes, as student will be charged a $15 per credit fee for dropping classes. The Office of the Registrar/Student Records will determine the comparable deadlines for courses with less than a semester in length. Refer to the website for more information: www.uwp.edu

Keyword: Registrar.

### Retaken Courses

A student may retake any course. Only the most recent grade received at UW-Parkside will be used in calculating the UW-Parkside GPA. A course may be counted only once toward the 120-credit graduation requirement. A student may request that a course taken subsequently at another university be counted as a retake for a course taken previously at UW-Parkside. Such a request must be submitted to the appropriate department chair, who may then certify that such a course is equivalent to the course taken at UW-Parkside. If a course taken at another institution is accepted as a retake for a course taken at UW-Parkside, the grade and credits assigned to the course when taken at UW-Parkside will not be included in the computation of the student’s UW-Parkside GPA nor total number of attempted and earned credits. The grade received from the other institution will be included in any computation of GPA on transfer credits.

Note: Retaking courses that have already been completed with a satisfactory grade may have financial aid implications.

### Repeatable Courses

Repeatable courses are those that may be taken more than once for credit, such as special topics, independent studies, internships, and other selected courses. Courses that may be repeated for credit are designated as such in the course description in this catalog.

### Cross-Listed Courses

Cross-listed courses are those which are offered under two or more departments and which have the same title and course
description. Cross-listed courses may count toward general university requirements and/or may satisfy the requirements of two or more majors. Each cross-listed course will satisfy the same requirement as its counterpart; therefore, a student who is unable to enroll in a cross-listed course under a specific department heading may enroll in its cross listing and fulfill the same academic requirement. This rule applies to cross listings which were in effect at the time the course was taken and applies regardless of which discipline is listed on the student’s transcript.

Course Prerequisites
A prerequisite is a requirement that a student must have completed prior to enrollment in a specific course and is intended to ensure that a student has the knowledge and experience required for successful course completion. The most common prerequisite is completion of a prior course. Other prerequisites include concurrent registration (i.e. enrollment in a specific course simultaneous with another), placement examinations, and the instructor’s consent. Students may enroll in any course for which they have completed the necessary prerequisites or obtained the consent of the instructor. Students who lack the prerequisites but believe they have equivalent backgrounds should consult the instructor before enrolling in a course. A student who enrolls in a course without satisfying the prerequisites and who has not consulted the instructor may be dropped from the class at the instructor’s discretion. All prerequisites are listed in the catalog; the semester course schedule also lists course prerequisites as well as those required for enrollment in a particular course section.

Withdrawal from the University
A student may withdraw from the university during the first half of the semester. The Office of the Registrar/Student Records will determine comparable deadlines for courses less than a semester in length. After withdrawal, no record will be kept of a student’s grade in his/her courses for that semester. After the deadline, a student may request permission to withdraw only for extraordinary non-academic reasons. Please see the Advising and Career Center for current procedures.

Final Examinations
Most courses terminate in a two-hour written examination at the end of the term. During the fall and spring semesters, these examinations are scheduled during the week following the last day of classes. During the summer session, final examinations are arranged by the instructor. The final examination schedules for fall and spring are printed each semester in the course schedule. Students with work or other commitments should consult the course schedule well in advance of the final examination period so that they can arrange to take their examinations as scheduled. The time set in the course schedule for a final examination cannot be changed without special administrative authorization. Students who believe that they have examination conflicts should double-check the course schedule; if the conflict results from a change in time they should consult with their instructor and, if necessary, with the department chair.

Accommodation of Religious Observances
In accordance with Wisconsin state law 36.43, UW-Parkside provides for the reasonable accommodation of a student’s sincerely held religious beliefs with regard to all examinations and other academic requirements and also provides a means by which a student can conveniently and confidentially notify an instructor of potential conflicts.

A student with a conflict between an academic requirement and a religious observance must be given an alternative means of meeting the academic requirement, subject to the following:

a. To be granted an alternative means of meeting an academic requirement, students must notify their instructors, within the first two weeks of class, of specific days or dates on which they will request relief from an academic requirement. (The instructor must treat this information as confidential.)

b. Instructors are not obligated to provide alternate arrangements for an individual before the regularly scheduled event.

c. Instructors may set reasonable limits on the total number of occurrences claimed by any one student.

Absence from classes or examinations due to religious observance does not relieve students from responsibility for any part of the course work required during the period of absence.

Students who believe they have been denied reasonable accommodation should contact the person identified by the department or academic program to hear such complaints, usually the department chair or academic program director. If the issue is not resolved at the department/program level, students may proceed to the office of the appropriate academic dean and, if it is still unresolved, to the office of the provost.

Course Numbering System
The University of Wisconsin-Parkside has adopted the following guidelines on course numbering:

- **010-090** Developmental courses, not for degree credit.
- **100-299** Level I, Lower Division (courses intended for freshmen and sophomores).
- **300-499** Level II, Upper Division (courses intended for juniors and seniors).
- **500-699** Courses that carry graduate credit but which can be paired with undergraduate courses.
- **700-799** Master’s level graduate courses, open to graduate students only.
Grades

At UW-Parkside, letter grades are used, including plus (+) and minus (-) grades. Each letter grade carries a certain number of quality points per credit. A grade of B, for example, is worth three quality points per credit, so that a student receiving a B in a 3-credit course would have earned nine quality points. See Table 1 (above) for a scale of grades and points used by the university.

The following grades are assigned no grade points and are not counted when the GPA is calculated.

AUD  Audit fee paid
CR   For credit only
I    Incomplete (temporary)
IP   In progress
N/C  No credit awarded
NG   Not graded
NR   No report submitted (temporary)
RT   Retaken
S    Satisfactory (only for special circumstances)
U    Unsatisfactory (only for special circumstances)

Unusual Grades

Audit (AUD)
This grade is assigned for satisfactory performance by students who are auditing a course. In cases of unsatisfactory performance, the student may be dropped from the course by the instructor.

Credit (CR) / No Credit (N/C)
These grades designate satisfactory or unsatisfactory performance in the special credit/no-credit courses described earlier.

No Report Submitted (NR)
This temporary grade is assigned to indicate that the grade for a particular class was not reported by the grading deadline for the semester. If no grade is submitted by the instructor before the last day of classes for the next semester (summer school is not counted as a semester for this purpose) a grade of NR shall become a permanent grade of F with normal effect on the student’s GPA and earned credits.

Incomplete (I)
This temporary grade is assigned to indicate that a student must complete additional work in order to earn a grade for a class. A grade of incomplete is assigned at the discretion of the instructor, guided by the following policies:

- A grade of incomplete may be reported for a student who has maintained a passing grade in a course until near the end of the course and who then, because of unusual and substantiated cause beyond the student’s control, is unable to take or complete the final examination, or to complete some limited amount of course work. The grade of incomplete must be accompanied by the instructor’s description of the course work that has yet to be completed.

- Normally a request for an incomplete must be made by the student to the instructor prior to the final examination. However, an incomplete may be initiated by an instructor on a student’s behalf if the instructor believes there is cause to do so.

- The amount of time a student has to complete the work and remove the grade of incomplete shall be at the discretion of the instructor. Normally that time period shall not extend beyond the last day of classes of the following semester. Summer school is not counted as a semester for purposes of removing the grade of incomplete.
1. Records. The following requirements and stipulations apply: 

- If the incomplete is not removed within the specified time, the Incomplete will lapse to an F at the end of the semester following the term in which the incomplete was assigned.
- A request to change an already recorded grade to a grade of incomplete will not be carried out unless the instructor files a Request for an Incomplete.
- A student may not graduate with an incomplete on his/her transcript if failure in that course would make the student ineligible to graduate.

**Academic Forgiveness Policy**

Academic forgiveness is a policy which applies to an undergraduate student with a poor academic record from earlier college or university work. The goal of this policy is to lighten the burden of poor prior performance once the student has demonstrated her/his ability to succeed academically. The goal of this policy is to not be deleted or changed at UW-Parkside. Grades in courses not counting toward the 120 credits required for graduation are included, but audited courses, credit/no credit courses, and physical education courses beyond the limits listed under general degree requirements are not. A GPA is also calculated on transfer credits and, for major and graduation requirements and commencement honors, on the combination of transfer and UW-Parkside credits. The transfer and combined GPAs do not appear on the UW-Parkside transcript.

2. Consequences of applying academic forgiveness:

- Beginning with the earliest semester, only the first 30 credits of courses completed five (5) or more years ago will qualify for academic forgiveness;
- Only courses with a grade of D+ and lower may be forgiven;
- The student may not choose the courses to be forgiven;
- The UW-Parkside cumulative and semester grade point averages will not include forgiven courses; however, all forgiven courses and the grades received will appear on the student's record;
- Forgiven courses will not count toward major, graduation requirements or to determine graduation honors;
- A student may be granted academic forgiveness only once, and once granted, is irrevocable.

**Grade Changes**

Except in the case of a demonstrated error on the part of the instructor or the Office of the Registrar/Student Records, a recorded grade will not normally be changed. All grade changes require the approval of the instructor and the department chair. A grade assigned at another institution will not be deleted or changed at UW-Parkside.

**Academic Forgiveness Policy**

To make it possible to compute semester and cumulative averages for grades in classes carrying various amounts of credit, each letter grade carries a certain number of quality points per credit. A grade of A, for example, is worth four quality points per credit, so that a student receiving an A in a 3-credit course will have earned 12 quality points.

The GPA is calculated by dividing the total number of quality points earned by the total number of credits attempted. Grades in courses not counting toward the 120 credits required for graduation are included, but audited courses, credit/no credit courses, and physical education courses beyond the limits listed under general degree requirements are not. A GPA is also calculated on transfer credits and, for major and graduation requirements and commencement honors, on the combination of transfer and UW-Parkside credits. The transfer and combined GPAs do not appear on the UW-Parkside transcript.

**Grade Appeals Procedure**

Sometimes a student believes that the grade received in a particular course is not consistent with his/her performance in that course. The process of appealing semester grades involves a series of steps:

1. The student shall first discuss the grade with the course instructor and attempt to resolve any differences informally. The aim of such a conference is to reach mutual understanding about the grade and the process by which it was assigned, and to correct errors, if any, in the grade. If for any reason the instructor cannot be contacted, the department chair shall designate a faculty member to act for the instructor.

2. If, after conferring with the instructor, the student still believes that the grade is inappropriate, the student may submit a claim in writing to the appropriate department chair, who shall consult with both the instructor and the student separately or together, in an effort to reach an understanding and resolution of the matter. This must be done before the end of the semester (excluding summer session) following that in which the grade is received. (NOTE: If the department chair is the instructor whose grade is being appealed, the departmental executive committee shall designate another member of the departmental executive committee to assume the department chair’s role in this process.) If the course in question is housed in an academic center, the center director shall assume the department chair’s role prescribed for this process; the center steering committee shall assume the departmental executive committee’s role. In the case of a grade given in a course housed neither in a department nor in an academic center, the student may, after conferring with the instructor, submit a claim in writing to the Academic Actions Committee.

3. If steps one or two do not resolve the problem, the department chair shall submit the student’s written claim to the instructor, who shall prepare a written response.
A copy of this response shall be furnished to the student by the department chair.

4. If, after receipt of the instructor’s response, the student is still dissatisfied, the student shall notify the department chair of this within seven working days.

5. The department chair, in consultation with the departmental executive committee, shall appoint a grade review committee consisting of three faculty members and one student. The student member shall be recommended by the UW-Parkside Student Government.

6. The student and the instructor shall provide the review committee and each other with access to any of the student’s course work in their possession. Both the student and the instructor shall be given an opportunity to appear before the committee and present evidence to support their positions. In this process, the burden of proof is upon the student, and the committee shall recommend a grade change only if clear and convincing evidence of misgrading has been presented.

7. The review committee shall decide either that the grade was appropriate and shall stand as assigned, or that the grade was inappropriate and should be changed to the grade stipulated by the review committee. The review committee shall present its decision to the department chair, who shall inform both the student and the instructor of the review committee’s decision and initiate a grade change if appropriate.

8. If the student wishes to appeal the decision of the department grade review committee, the student shall submit a letter to the dean of the appropriate college or school within five working days. The dean shall then appoint an ad hoc grade review committee of three faculty from outside the department in question and one student representative recommended by the UW-Parkside Student Government. The committee shall report its decision to the dean, who shall direct a grade change if necessary.

### Academic Probation and Suspension Policy

Every student is expected to maintain at least a 2.00 GPA on all work carried in every term, including summer sessions. Students who fail to maintain this minimum GPA will face probation, strict probation, or suspension, as specified below. Every student can determine his/her academic status at the end of each term using his/her status at the beginning of the term and the GPA at the end of the term.

#### If a student is not on probation and:
1. earns a GPA that term of lower than 2.00 but 1.00 or higher, the student is placed on probation, or
2. earns a GPA that term of lower than 1.00, the student is placed on strict probation.

#### If a student is on probation and:
1. earns a GPA that term of lower than 2.00 but 1.50 or higher, the student is placed on strict probation, or
2. earns a GPA that term of lower than 1.50, the student is suspended for at least one year.

#### If a student is on strict probation and:
- earns a GPA during a term of less than 2.00, the student is suspended for at least one year.

Any student on probation or strict probation will be automatically cleared of probation at the end of any term when:
1. the term’s GPA is 2.00 or better on any number of credits, and
2. the cumulative GPA is 2.00 or better, and
3. the academic record contains no grades of Incomplete (I).

### Readmission Following an Academic Suspension

Students who feel that exceptional circumstances justify a waiver of suspension may appeal their suspension to the Academic Actions Committee by the date specified in the suspension notification letter. If the student does not appeal by the date specified, the earliest opportunity that the student would be eligible for readmission would be the following semester. However, the student may initiate the appeal process during the time in which they begin serving their suspension. Information regarding the appeal process is available at the Advising and Career Center. Readmission to the university following the serving of a suspension is not automatic. Students must both request readmission from the Academic Actions Committee and apply for readmission through the Admissions Office.

### Academic Honors for Undergraduate Students

For information about honors for graduate students, consult the graduate section of this catalog.

#### The Provost’s List

The university recognizes outstanding academic performance of degree-seeking undergraduate students by publishing a Provost’s List at the end of the fall and spring semesters. Students whose names appear on this list will be notified in writing, and a notation is recorded on their transcripts. The list includes all degree-seeking undergraduate students who have taken 9 credits or more and attained a semester GPA of 3.80 or higher at UW-Parkside excluding courses which do not count toward graduation. There is no Provost’s List during the summer or winterim sessions.

#### The Dean’s List

The university recognizes outstanding academic performance of degree-seeking undergraduate students by publishing a Dean’s List at the end of the fall and spring semesters. Students whose names appear on the list will be notified in writing, and a notation is recorded on their transcripts. The list includes all degree-seeking undergraduate students who have taken 9 credits or more and attained a semester GPA of 3.50 or higher at UW-Parkside. There is no Dean’s List during the summer or winterim sessions.
Graduation With Honors
Undergraduate students with outstanding cumulative GPAs, calculated including transfer course work, are graduated with honors. UW-Parkside uses the traditional Latin terms in recording these distinctions:

1. Cum laude (cumulative GPA of 3.50 or higher but lower than 3.70)
2. Magna cum laude (cumulative GPA of 3.70 or higher but lower than 3.90)
3. Summa cum laude (cumulative GPA of 3.90 or higher)

All courses are used in calculating the GPA for honors (courses with grades of D+ or lower that have been academically forgiven do not count toward graduation and are not calculated in the honors GPA).

Phi Eta Sigma
The university chapter of Phi Eta Sigma recognizes academic achievement by students during their first year of study. To be eligible, students must attain a GPA of 3.50 during either semester of their first year of study (transfer students may accumulate no more than 20 credits prior to the semester of eligibility) and be a full-time student (12 or more credit hours) Academic Skills Course work is not included in GPA or credit load. Upon induction into this national academic honor society, members receive lifetime membership and become eligible for additional scholarships.

Transcripts
A transcript is an official record of a student’s academic activity. It reflects a student’s courses and grades, and it provides other academic data, such as semester and cumulative GPAs, academic status, honors a student may have earned, and degrees a student may have been awarded.

Each institution defines what makes its transcript official. At UW-Parkside, an official transcript is printed on special transcript paper, bears the registrar’s signature, the university’s seal, and is issued in a sealed envelope. If the envelope is opened before it is submitted to the office for which it is intended, it is no longer considered official. Some institutions and agencies will not accept a transcript as official unless it arrives from the granting institution by mail.

UW-Parkside requires that students seeking admission to the university submit official transcripts from high school and any other colleges they may have attended. Employers, graduate schools and other universities to which students are applying may require an official copy of the student’s UW-Parkside transcript.

Under the Family Rights and Education Act of 1974 as amended, the student’s record is confidential and UW-Parkside will not release a student’s academic transcript without proper authorization from the student.

An official transcript of a student’s record is issued only by the Office of the Registrar/Student Records. UW-Parkside has partnered with Credentials Solutions, Inc. to provide a fast and secure on-line transcript ordering service that is available to our students/alumni 24 hours a day, 7 days a week.

The student can order a transcript at any time, even if there is an outstanding financial obligation to UW-Parkside, however, the request will not be processed until the obligation has been met and the related hold on the student’s record is released by UW-Parkside. When a hold is on a student’s record when the order is placed, they have 30 days to clear the hold or the transcript request will be purged, requiring the student to submit a new request once the hold has been removed.

Please see our website for more information about how to order a transcript – www.uwp.edu keyword: transcripts.

The Advising and Career Center
Academic advising is coordinated at UW-Parkside by the Advising and Career Center. (Wyllie D175 262-595-2040). Upon admission to the university, every degree-seeking (matriculant) student is assigned an academic adviser. An undeclared student is assigned to an academic adviser in the Advising and Career Center. A student who has declared a major is assigned to a faculty member or department adviser from the department or program. Except for the summer and winterim sessions, all degree-seeking students are required to consult with their advisers before registration. The registration system will not allow unadvised students to register for fall or spring classes. Each term, advising begins approximately two weeks prior to the registration period.

The Advising and Career Center is also the place where students may obtain copies of their DARS reports, permission to take a course overload (more than 20 credits for the fall and spring semesters or more than 12 credits for the summer term), declaration of major forms, and other academic information of all kinds. Add/drop forms, change of name, address and adviser forms are available there.

The Advising and Career Center also offers a variety of career guidance and counseling services for students, from deciding on a major or entering or changing careers, including job search strategies, career assessments, resume writing, and interviewing. These services are currently located in Wyllie Hall D175 (262-595-2452).

The Advising and Career Center also serves students by assisting them in establishing internships (both paid and unpaid) and volunteer opportunities that will strengthen students’ preparations for their post-graduate professional lives.

Degree Audit Reporting System (DARS)
DARS provides an automated report, which assists students in determining the courses they must complete in order to graduate. Students may obtain a DARS report from the Advising and Career Center at any time after they register for their first semester of courses.

Transfer course work: The Office of the Registrar/Student Records applies transfer courses to general university requirements at the time transfer students are admitted; therefore, the courses immediately appear on the DARS report and apply toward general education requirements.
Transfer courses are applied toward major requirements only upon the written direction of the student's major adviser or major department chair.

The DARS report is to be used as an advising tool, but it is not an official representation of the student's degree requirements until an official review for graduation is completed. This review is completed at the time the student submits the graduation application/degree summary form with the appropriate fee, to the Office of the Registrar/Student Records.

**Access to Student Records**

Under the Family Educational Rights and Privacy Act of 1974 (FERPA), students are entitled to review “official records, files, and data directly related to them” which the university maintains. The university has 45 days to comply with students’ written requests to review their records. Students may request a hearing regarding any alleged “inaccurate, misleading, or inappropriate” information in their official records and files. The university will not release information from students records to a third party without the student's written consent except as permitted by section 99.34, (a) (ii) of the Privacy Act. In accordance with this section, the university will forward student records when requested by a school in which the student seeks to enroll.

A challenge to information students deem erroneous or misleading should be made in writing and directed to the dean or director of the appropriate office so that a hearing can be scheduled. In most cases, the decision of the dean or director will be final. If students find the decision unsatisfactory, they may place a statement in their file setting forth any reasons for disagreeing with the decision. A student's right to challenge information of record does not extend to review of grades received unless the grade assigned by the professor was inaccurately recorded in the student's records.

In addition, the FERPA designates “directory information” data that can be published or released routinely by the university to any inquirer. Directory information items are: name; address; telephone number; date of birth; major field of study; participation in officially recognized activities and sports; weight and height of members of athletic teams; dates of attendance to include current classification, and withdrawal dates; degrees and awards received; the most recent education agency or institution attended; initial registration date and e-mail address. Any other information will not be given out without the students’ specific written permission except for various legitimate educational interest or legal reasons.

Students have the right to inform the university that the above listed directory information should not be released without students’ prior consent. If students wish to restrict the release of this information, they must complete and submit the appropriate form in the Office of the Registrar/Student Records. These FERPA holds remain in effect until the students submit a request in writing to remove them.
Academic Programs

UW-Parkside offers approximately 30 undergraduate academic majors as well as a number of pre-professional programs; and specialized programs such as environmental studies, sustainable management, ethnic studies and women’s studies. A consortial program is offered in nursing. The university’s academic programs are organized under two schools: the School of Business and Technology and the College of Arts and Sciences. UW-Parkside is accredited by the Higher Learning Commission and is a member of the North Central Association. For information on UW-Parkside graduate programs see the Graduate Programs section of the catalog.

Majors and Degrees

In order to graduate, every degree-seeking (matriculant) student must complete a major with a minimum GPA as specified by the major department or program. Usually, this minimum major GPA is 2.00 on a 4.00 scale, but some majors require a higher GPA. Students with transfer work must also attain the minimum major GPA (2.00) on a combination of transfer credits accepted toward the major and credits attempted toward the major at UW-Parkside. At least 15 credits of upper level (300 or above) major course work must be completed at UW-Parkside. UW-Parkside offers the following majors:

- Applied Health Sciences (B.S.)
- Biological Sciences (B.S.)
- Business Management (B.S.)
- Chemistry (B.S.)
- Communication (B.A.)
- Computer Science (B.S.)
- Computer Science/Mathematics (B.S.)
- Criminal Justice (B.A.)
- Digital Art (B.A.)
- Economics (B.A.)
- English (B.A.)
- Fitness Management (B.S.)
- French Studies (B.A.)**
- Geography (B.A.)
- Geosciences (B.S.)
- German Studies (B.A.)**
- History (B.A.)
- Humanities (B.A.)
- Interdisciplinary Studies (B.A.)
- International Studies (B.A.)
- Mathematics (B.S.)
- Management Information Systems (B.S.)
- Molecular Biology and Bioinformatics (B.S.)
- Music (B.A.)
- Nursing (B.S.)*
- Philosophy (B.A.)
- Physics (B.S.)
- Political Science (B.A.)
- Psychology (B.S.)
- Sociology (B.A.)
- Spanish (B.A.)
- Sport Management (B.S.)
- Sustainable Management (B.S)*
- Studio Art (B.A.)
- Theatre Arts (B.A.)

* Consortial program degree awarded by the participating campus

** Please note that declaration of majors for French and German Studies has been suspended by the administration as of Fall 2006. The major may resume if there is increased student interest. Please contact the department for information as to whether the suspension has been lifted. The MINOR REMAINS UNCHANGED.

Minor Programs

UW-Parkside offers approximately 30 undergraduate minors, which consist of a formally approved program of 15 or more credits. Advisers are not assigned for minors. Students may obtain informal academic advice from faculty members from the appropriate department or program. A minor is not required for graduation.

Minors are declared, changed or removed by filing the same form used for declaring majors. Course work in the minor must be completed with the minimum GPA as specified by the department or program under which the minor falls, usually a 2.00 on a 4.00 scale, but higher in some programs. Transfer students must attain the minimum specified GPA on a combination of transfer credits accepted toward the minor and credits attempted at UW-Parkside. At least half of the course work for the minor must be completed at UW-Parkside. UW-Parkside offers the following minors:

- Anthropology
- Asian Studies
- Biological Sciences
- Business Management
- Chemistry
- Communication
- Computer Science
- Criminal Justice
Concentrations
A number of majors provide students with the option to pursue an area of emphasis within the major called a concentration. With the exception of applied health sciences and business majors, concentrations are optional. Concentrations are declared, changed or removed by filing the same form used for declaring majors. The following concentrations are offered by majors at UW-Parkside:

Applied Health Sciences
- Pre-Athletic Training
- Pre-Chiropractic
- Pre-Kinesiology
- Pre-Occupational Therapy
- Pre-Physician Assistant
- Pre-Physical Therapy

Biological Sciences
- Pre-Health Professions

Business Management
- Accounting
- Finance
- General Business
- Human Resource Management
- Marketing

Chemistry
- Biochemistry

Digital Arts
- Animation
- Graphic Design
- Illustration
- Web Design

Economics
- Monetary and Financial
- Quantitative

English
- Language Arts
- Writing

Geography
- Applied Environmental Geography
- Geographic Planning

Geosciences
- Earth Science
- Environmental Geosciences

Interdisciplinary Studies
- Organizational Studies
- Social Science Studies
- Women's and Gender Studies

Music
- Jazz Studies
- Music Performance
- Piano Pedagogy and Literature

Political Science and Law
- Law

Sociology
- Anthropology

Studio Arts
- Ceramics
- Crafts
- Drawing
- Interdisciplinary Art
- Painting
- Printmaking
- Sculpture

Theatre Arts
- Acting
- Design and Technology
- Direction and Management

Certificate Programs
Certificate programs are designed to develop a particular expertise or set of skills and normally consist of 9 or more credits. A minimum of 9 credits in a certificate program must be taken at UW-Parkside. Individual departments and programs may require more than 9 credits to be taken at UW-Parkside. Both degree-seeking (matriculant) and non-degree seeking students may pursue certificate programs. Certificate programs should not be confused with certification or licensure programs which lead to certification by an outside agency. Certificates are declared, changed, or removed by filing the same form used for declaring majors.
Art
• Art History
• World Wide Web Publishing

Business Management
• Entrepreneurship
• Project Management
• Sales

Communication
• Conflict Analysis and Resolution

Sociology/Anthropology
• Gerontology
• Museum Studies
• Program Evaluation

Sustainable Management
• Sustainable Management Enterprise Management
• Sustainable Management Science

UW-Parkside Honors Program
The Honors Program is a university-wide multidisciplinary program that encourages and rewards excellence. It provides opportunities for students to expand beyond the normal boundaries of their courses through research, special projects and community-based work. Students who complete all of the program requirements receive recognition at graduation and on their transcripts. The Honors Program has two tracks: Academic Honors and Civic Honors. To enroll in honors courses or participate in honors projects in either track, students must first be admitted to the program. Admission is granted by the program steering committee. Applications are accepted at any time. Contact the Honors Program director for more details or to obtain an application form.

Pre-Professional Interests
Pre-professional interests pertain to preparation for professional study and to undergraduate interests not corresponding to UW-Parkside programs. A student may indicate one interest by submitting a Program Declaration form to the Advising and Career Center and may drop an interest or exchange interests by submitting another form. Special pre-professional advisers are assigned to pre-professional interest students. For those professions requiring an undergraduate degree prior to entry to professional school, students must also declare an academic major and any minor they plan to complete. As a result, students may be assigned to both an academic adviser and a pre-professional adviser.

Pre-Professional Programs
UW-Parkside offers special advising for students with pre-professional interests in the following areas:

• Architecture
• Chiropractic Medicine*
• Dentistry*
• Genetic Counseling*
• Health Professions*
• Law
• Medicine (M.D. and D.O.)*
• Occupational Therapy*
• Optometry*
• Pathology Assistant*
• Pharmacy*
• Physical Therapy*
• Physician Assistant*
• Podiatry*
• Veterinary Medicine*

*Because of the intensely competitive nature of the pre-health fields, students with 30 or more credits must maintain a cumulative GPA of at least 2.50 to be eligible for special advising in these interest areas. Students with GPAs below 2.50 will be counseled to re-evaluate their career plans and will be referred to the academic department of their chosen degree and/or the Career Center for advice.

Master’s Degree Programs
The university offers the following graduate degree programs:

• Master of Business Administration (M.B.A.)
• Master of Science in Applied Molecular Biology (M.A.M.B.)
• Master of Science in Computer and Information Systems (M.S.C.I.S.)

Additional graduate coursework is offered in other fields of study. For further information on graduate programs, consult the graduate section of this catalog.
DEGREE COMPLETION PROGRAMS

Evening Programs
In scheduling its programs, UW-Parkside recognizes the challenges faced by students who must work during the day. UW-Parkside offers both undergraduate and graduate degree programs which can be completed by taking only evening classes. These are not separate programs for evening students; they are part of UW-Parkside’s regular curriculum and taught by the same faculty and staff.

The following majors can be completed in the evening:

Undergraduate
• Business Management
• Computer Science
• Criminal Justice
• English
• Humanities
• Psychology
• Sociology/Anthropology (Sociology option only)

Graduate
• Business Administration
• Computer and Information Systems

In addition to providing required major courses in the evening, UW-Parkside offers courses that will satisfy the university’s general education requirements.

Like other students, evening students need to plan carefully. The range of courses available during the evening hours is not as extensive as those offered during the day. UW-Parkside tries to help students formulate a degree plan by publishing a list of course offerings that have been planned for future semesters. Since changes in requirements and staff may sometimes force changes in previously published lists of proposed course offerings, students should be sure to check for changes as the lists are updated, usually when the semester course schedule appears.

Evening and Weekend College
Because UW-Parkside recognizes the growing demand for educational opportunities to be offered at times convenient for working adults, the evening and weekend schedule has been carefully fashioned to meet their needs. The organizational studies concentration of the interdisciplinary studies major is a degree-completion program that enables students with at least 60 transfer credits to receive their bachelor of arts degree by attending classes on evenings and weekends. Course offerings focus on issues in organizations and structures in human resource development, a topic of significant importance in business today.

Online Programs and Courses
The sustainable management major is a collaborative, degree-completion program that enables students with at least 60 transfer credits to receive their bachelor of science degree by attending classes online. This program is offered jointly by UW-Parkside, UW-River Falls, UW-Stout, UW-Superior and UW-Extension. In addition to the courses in this program UW-Parkside is continuously creating courses in an online format to provide students flexibility toward completing their bachelors degree.

AIR FORCE ROTC PROGRAM
UW-Parkside students have the opportunity to participate fully in the Air Force Reserve Officers Training Corps (AFROTC) Program. Students enrolled in the Air Force ROTC program attend AFROTC courses at Marquette University.

Through this program, UW-Milwaukee offers its students the opportunity to prepare for initial active duty assignments as Air Force Commissioned Officers. In order to receive a commission, AFROTC cadets must complete all university requirements for a degree and courses specified by the Air Force. AFROTC offers four-, three-, two-, and one-year programs leading to a commission as an Air Force officer. Four-year program students complete the general military course and the professional officer course, in addition to a four-week summer field-training program between their second and third years in the program. Two-year students complete only the professional officer course, but have a five-week summer field-training program before entering the professional officer course. One-year students complete a seven-week field training session.

General qualifications:
• be a full-time student;
• be a United States citizen (for scholarship appointment);
• be in good physical condition;
• be of good moral character;
• for pilot or navigator training, fulfill all commissioning requirements before age 29;
• for scholarship recipients, fulfill all commissioning requirements and be under age 31 on December 31 of the estimated year of commissioning; and
• for non-scholarship students, fulfill all commissioning requirements before age 35.

General Military Course
The first- and second-year educational program in Air Force Aerospace Studies consists of a series of one-hour courses designed to give students basic information on world military systems and the role of the U.S. Air Force in the defense of the free world. All required textbooks and uniforms are provided free. The general military course is open to all students at UW-Milwaukee without advance application and does not obligate students to the Air Force in any way.

Field Training
AFROTC Field Training is offered during the summer months at selected Air Force bases throughout the U.S. and provides leadership and officer training in a structured military environment. Major areas of study include physical training, drill and ceremony, marksmanship, and survival training. The Air Force pays all expenses associated with field training.
Professional Officer Course

The third and fourth years of Air Force Aerospace Studies are designed to develop skills and attitudes vital to the professional officer. Students completing the professional officer course are commissioned as officers in the U.S. Air Force upon college graduation. All students in the professional officer course receive a nontaxable subsistence allowance of $350-$400 per month during the academic year. Students wanting to enter the professional officer course should apply early in the spring semester in order to begin this course of study in the following fall semester.

Leadership Laboratory

Leadership laboratory is a cadet-centered activity. It is largely cadet planned and directed, in line with the premise that it provides leadership training experience that will improve a cadet’s ability to perform as an Air Force officer. The freshman and sophomore leadership laboratory program introduces Air Force customs and courtesies, drill and ceremonies, wearing the uniform, career opportunities in the Air Force, education and training benefits, the life and work of an Air Force officer, and opportunities for field trips to Air Force installations throughout the U.S. Initial experiences include preparing the cadet for individual squadron and flight movements in drill and ceremonies and for the field training assignment prior to the junior year.

The junior and senior leadership laboratory program involves the cadets in advanced leadership experiences. Cadet responsibilities include planning and directing the activities of the cadet corps, preparing briefings and written communications, and providing interviews, guidance, information, and other services that will increase the performance and motivation of other cadets.

AFROTC College Scholarship and Scholarship Action Programs

These programs provide scholarships to selected students participating in AFROTC. While participating in AFROTC, students receive $250-$400 per month along with paid tuition, fees, and a fixed textbook reimbursement. To be eligible for either of these programs, students must:

- be a U.S. citizen;
- be at least 17 years of age on the date of enrollment and under 31 years of age on December 31 of the estimated year of commissioning;
- pass an Air Force physical exam;
- be selected by a board of Air Force officers;
- have no moral objections or personal convictions that prevent bearing arms and supporting and defending the Constitution of the United States against all enemies, foreign and domestic (applicants must not be conscientious objectors);
- achieve a passing score on the Air Force Officer Qualifying Test;
- maintain a quality grade point average.

High school students can apply for scholarships late in their junior year or early in their senior year. Information on Air Force ROTC and applications for Air Force scholarships is available at www.AFROTC.com. Scholarship applications will not be accepted after December 1 of the year before entering college.

For students already enrolled at UW-Milwaukee, one-, two-, and three-year scholarships are available. Applications are submitted directly to the Department of Aerospace Studies at Marquette University.

For more information, contact the Department of Aerospace Studies at Marquette University, (414) 288-7682.

Directed Study/Independent Study

Directed or independent study is available for credit in many majors and minors. It consists of focused study by an individual student or small team of students under the supervision of a faculty member. The value of directed or independent study is in focusing on a well-defined topic and working closely with a member of the faculty or teaching academic staff. Directed or independent study is generally not intended for students who are near the beginning of their academic program. An agreement must be signed between the student and the faculty supervisor and approved by the department chair or program director at the start of the directed or independent study. All directed or independent studies must conclude with a completed paper, project, report, or other product. Consult each program section of this catalog for details.

Internships

Internships provide opportunities for students to develop and expand their knowledge and/or skills, gain experience in a work setting, put theory into practice, and expand awareness of potential careers. Internships often take place outside the university in a public or private-sector organization. Internships are offered for credit by most academic departments at the 400 level. Interns may be paid by the employer or may work as volunteers. An agreement must be signed between the student, the faculty supervisor, and the outside internship supervisor and approved by the department chair or program director at the start of the internship. All internships must conclude with a completed paper, project, report, or other product. Consult each program section of this catalog for details.
ACADEMIC SKILLS PROGRAM

Director:
Tutlewski, M.A.

Instructional Staff:
Ramirez, M.A.; Tong, M.A.; Wiesner, M.S; Sawasky-Johnson, M.S.; Karwatka, B.S.; Vargas, M.A.

Program Overview
The Academic Skills Program provides support services to students who need to improve or refresh their learning skills. Many students require comprehensive development in the areas of writing, reading, mathematics, and/or study skills. General education requirements make the Academic Skills Program courses essential for many students. ACSK A010, A015 and/or A090 may represent the most appropriate beginning level courses in English and mathematics. These courses are part of a sequence designed to help students complete the university’s writing and mathematics competence requirements. Reading courses, ACSK A083 and A085, are intended to prepare students for university level reading expectations. Computer-enhanced instruction is available in the mathematics courses and offers students an alternate instructional delivery system using interactive software to complement teacher presentation and communication. Academic skills courses are not available for audit. With the exception of the following courses—ACSK 100, ESL 100, ACSK 105, and ACSK 120—credit earned in academic skills courses does not count toward the 120 credits required for graduation. However, grades earned in all ACSK courses do affect the GPA.

Courses in Academic Skills (ACSK):

A010  Essential Math Skills ...................................................... 3 cr
Prereq: None. Freq: Fall, Spring, Summer.
Review of arithmetic from whole numbers, fractions, decimals to percent. Introduction to elementary algebra including the arithmetic of integers, simple algebraic expressions and equations, and geometric formulas and figures. This course should be followed by ACSK A015. A grade of C or better is required to advance to the next level. Some sections are available using computer-enhanced instruction.

A015  Elementary Algebra .................................................... 4 cr
Prereq: ACSK A010 with a grade of C or better or appropriate placement score. Freq: Fall, Spring, Summer.
Review of basic algebra including integers, algebraic expressions, equations and inequalities, integer exponents, radicals, graphing, and systems of equations. Some sections are available using computer-enhanced instruction. A grade of C or better is required to proceed to the next level.

A083  College Reading and Learning Strategies ....................... 3 cr
Prereq: None. Freq: Fall, Spring.
Builds a foundation for efficient college reading. Develops reading strategies that generalize to other university classes. Enhances students’ concentration, comprehension and retention through discussion and practice. Includes essential academic learning and study skills including academic responsibility, goal setting, time management, stress management, effective listening, note taking, textbook reading, and test taking.

A085  Academic Reading ..................................................... 1 cr
Prereq: None. Freq: Fall, Spring.
Similar in content and focus to ACSK A083, but course work is completed at a faster pace. Students are expected to be more independent in their mastery of the readings. Provides extended practice in increasing reading rate while maintaining adequate comprehension.

A090  Composition Preparation ............................................. 3 cr
Prereq: None. Freq: Fall, Spring.
Writing workshop, including peer review and teacher feedback on essay and term paper assignments. Process of writing approach: brainstorming, free writing, rough draft, revision, and editing. Grammar review in context. A grade of C or better is required to proceed to the next level.

A091  Special Topics in Academic Skills .............................. 1-4 cr
Prereq: Consent of instructor. Freq: Occasionally.
Selected topics in academic skills will be examined.
A092  Career Exploration and Planning ................................. 2 cr  
Prereq: None. Freq: Spring.
For students who need assistance with the process of choosing careers and academic majors, this course is designed to help develop abilities in self-assessment of interests, skills, values and goals, career exploration, and preparing for employment in the 21st century.

A094  Reading and Writing .................................................. 5 cr  
Prereq: Placement into ACSK A090 (Composition Preparation) and either ACSK A083 or A085 (Reading). Freq: Occasionally.
Provides college reading strategies and structured writing experiences in various themes such as cross-cultural issues, media, environmental issues, etc.

A095  Basic Computer Skills for College ................................. 1 cr  
Prereq: None. Freq: Fall, Spring.
For students with little or no computer experience. It includes basics of hardware management, word processing, spreadsheets, basic PowerPoint, use of the Internet for research, and an introduction to e-mail.

100  English as a Second Language Seminar .............................. 3 cr  
Prereq: None. Freq: Occasionally.
Designed for English as a second language students pursuing college level coursework. Language instruction through topics addressing public speaking, discussions, vocabulary concepts for college thinking, and cultural adjustment. Course may be repeated; maximum of 3 credits apply toward graduation.

105  Library Skills for Research ............................................. 1 cr  
Prereq: None. Freq: Fall, Spring.
An introduction to the organization, retrieval, and evaluation of both print and electronic information resources. Students will navigate and use the resources from different areas of the library's homepages to access items linked from, but not found within, the library's specific domain. Topics include formulating search strategies and the critical evaluation of information, whether in print or online.

120  Introduction to Critical Thinking .................................... 1 cr  
Prereq: None. Freq: Fall, Spring, Summer.
Designed to develop students' critical thinking in combination with extended orientation and skill building to increase student success in college. Structured around a text, the course will develop critical thinking through discussions and assignments as well as improve oral presentation, project management and teamwork.
APPLIED HEALTH SCIENCES

Greenquist 345 • 262-595-2327 • Keyword: Applied Health Sciences

Degree Offered:
Bachelor of Science

Director:
Lewis, Ph.D.

Student Organizations:
The Applied Health Sciences Program coordinates with active student organizations that have interest in professional health careers such as the Pre-Health Club and the Biology Club.

Career Possibilities:
The applied health sciences curriculum provides students with the appropriate classes and experiences that will allow them to meet the requirements necessary to qualify for professional health programs outlined as options within the concentrations offered in the major. While the majority of graduating students are expected to pursue advanced degrees in health care and health sciences, students completing this degree will also be competitive for entry level careers in general health sciences, scientific/medical research, and fitness/health promotion.

Program Overview
The bachelor of applied health sciences, housed in the Center for Health Sciences (CHS) is designed to prepare students with an interdisciplinary and liberal arts foundation for professional careers within the health care systems. This major is intended primarily for qualified students who wish to pursue advanced degrees and/or careers in the professional fields of physical therapy, occupational therapy, chiropractic, physician assistant, athletic training, and kinesiology. The B.S. in applied health sciences (AHS) provides UW-Parkside students with a pre-professional major that is appropriate for health careers; and serves as a viable alternative to majors such as biological sciences, fitness management, sport management and nursing. In addition to completing the academic course work, students must earn a cumulative GPA of 2.5 to graduate with the AHS major.

Steering Committee
The steering committee is chaired by the director. The current steering committee members include: Tsun-Mei Chang (CHEM), William Ebben (HESM), Bryan Lewis (BIOS), Penny Lyter (HESM), Carmel Ruffolo (BIOS), Edward Wallen (BIOS) and Kenneth Wilka (HESM).

Internship/Fieldwork
The Applied Health Sciences program requires that students gain experiences within their respective concentrations to complete their degree. However, students who wish to be competitive in gaining acceptance into professional programs are strongly encouraged to gain additional program-specific health care experiences.

The AHS 494 - Internship/Fieldwork in Applied Health Sciences course provides students with learning experiences within professional fields that are related to their professional career goals. These supervised experiences will require the student to be gaining exposure to all professional aspects of their chosen careers including, business operations, professional competencies and conduct, and overall work environment (requires placement approval by AHS academic adviser or the CHS director.) Students of sophomore standing or higher may register for this class multiple times in multiple semesters. One (1) credit equals 50 hours of experience. Students must complete a total of 6 credits (300 hours) for completion of the major requirement. Additionally, no more than 12 credits may be applied toward general graduation requirements.

Articulation Agreement
Students who choose an athletic training concentration within the AHS major are eligible to qualify for an articulation agreement with the masters degree athletic training program at St. Scholastica University in Minnesota. The top two students graduating with the athletic training concentration are eligible for this program. For more information, interested students should contact their AHS adviser.

Requirements for the Applied Health Sciences Major
(71-103 credits)
The major in applied health sciences has a core requirement of 61-62 credits from a variety of departments relevant for pursuing careers in the various concentrations within the major. Within the major, a minimum of 15 credits in courses numbered 300 or above must be completed at UW-Parkside. Students also must be aware of and satisfy UW-Parkside’s requirements for graduation in addition to the requirements for the applied health sciences major.
Core Classes (61-62 credits)

Applied Health Science (9 credits)

AHS 101  Introduction to Applied Health Sciences 3 cr
AHS 494  Internship/Fieldwork in Applied Health Sciences 6 cr (additional, students can gain these credits through either pre-approved BIOS 494 Internship or HESM 498 Fieldwork)

Biological Sciences (19 credits)

BIOS 101  Bioscience* 4 cr
BIOS 102  Organismal Biology 4 cr
BIOS 105  Anatomy & Physiology I** 4 cr
BIOS 106  Anatomy & Physiology II** 4 cr
BIOS 210  Biostatistics 3 cr

**(students may substitute BIOS 300 Functional Human Anatomy 3 credits and BIOS 341 Mammalian Physiology 3 credits for BIOS 105/106 sequence)

Business (3 credits)

BUS 100  Introduction to Business* 3 cr

Chemistry (10 credits)

CHEM 101  General Chemistry I* 5 cr
CHEM 102  General Chemistry II 5 cr

Mathematics (5-6 credits)

MATH 114  College Algebra II with Trigonometry* 5 cr
MATH 112  College Algebra II 4 cr

AND

MATH 113  Trigonometry 2 cr

Sport and Fitness Management (15 credits)

HESM 270  Lifetime Wellness* 3 cr
HESM 280  Sport and Fitness Nutrition* 3 cr
HESM 353  Biomechanics 3 cr
HESM 354  Physiology of Exercise 3 cr
HESM 358  Sport and Fitness Psychology 3 cr

In addition to satisfying the core requirements within the applied health sciences major, students must choose a concentration based on their area of interest and continuing education. In order to obtain a concentration, students must complete all the following required course work in addition to the above stated core courses. The courses outlined in the concentrations will satisfy most of the academic requirements necessary to gain acceptance into the relevant professional programs. However, students should work closely with their applied health sciences adviser to stay abreast of any changes that occur within those requirements as they can fluctuate during any application cycle. Ultimately, it is the students' responsibility to ensure that they have satisfied the academic requirements for the specific schools and programs to which they wish to apply.

Concentrations

Pre-Athletic Training (16 credits, 77-78 credits total)

HESM 345  Prevention and Care of Athletic Injuries 3 cr
HESM 410  Fitness Assessment and Prescription 3 cr
HESM 445  Recognition & Advanced Treatment of Athletic Injuries 3 cr

PHYS 101  Principles of Physics* 4 cr
OR
PHYS 102  Principles of Physics with Medical Applications 4 cr

PSYC 101  Introduction to Psychological Science 3 cr

Pre-Chiropractic (21 credits, 82-83 credits total)

CHEM 321  Organic Chemistry I 4 cr
CHEM 322  Organic Chemistry II 4 cr
CHEM 323  Organic Chemistry Laboratory 3 cr
PHYS 105  College Physics I 5 cr
PHYS 106  College Physics II 5 cr

Pre-Kinesiology (10 credits, 71-72 credits total)

BIOS 300  Functional Human Anatomy Laboratory 3 cr
BIOS 341  Mammalian Physiology 3 cr

Students who choose to take the kinesiology concentration can substitute BIOS 300/341 for BIOS 105 and BIOS 106)

PHYS 101  Principles of Physics* 4 cr
OR
PHYS 102  Principles of Physics with Medical Applications 4 cr

Pre-Occupational Therapy (13 credits, 74-75 credits total)

PHYS 101  Principles of Physics* 4 cr
OR
PHYS 102  Principles of Physics with Medical Applications 4 cr

PSYC 101  Introduction to Psychological Science 3 cr
PSYC 260  Psychology of Personality 3 cr
PSYC 360  Abnormal Psychology 3 cr

Pre-Physician Assistant (41 credits, 102-103 credits total)

BIOS 260  General Genetics 4 cr
BIOS 303  Microbiology 4 cr
BIOS 307  Biochemical Metabolism 3 cr
BIOS 300  Functional Human Anatomy Laboratory 3 cr
BIOS 341  Mammalian Physiology 3 cr
(Students who choose to take the pre-physician assistant concentration can substitute BIOS 300/341 for BIOS 105 and BIOS 106)

CHEM 321  Organic Chemistry I 4 cr
CHEM 322  Organic Chemistry II 4 cr
CHEM 323  Organic Chemistry Laboratory ........... 3 cr
PHYS 101  Principles of Physics* ..................... 4 cr
OR
PHYS 102  Principles of Physics with Medical
Applications ............................................ 4 cr
PSYC 101  Introduction to Psychological
Science* .................................................. 3 cr
PSYC 260  Psychology of Personality .................. 3 cr
PSYC 360  Abnormal Psychology ..................... 3 cr

Pre-Physical Therapy (25 credits, 86-87 credits total)

BIOS 300  Functional Human Anatomy
Laboratory .................................................. 3 cr
BIOS 341  Mammalian Physiology ..................... 3 cr
(students who choose to take the
pre-physical therapy concentration
can substitute BIOS 300/341 for
BIOS 105 and BIOS 106)
HESM 345  Prevention and Care of Athletic
Injuries ..................................................... 3 cr
HESM 445  Therapeutic Exercise for Athletic
Injuries ..................................................... 3 cr
PHYS 105  College Physics I* ............................ 5 cr
PHYS 106  College Physics II ............................ 5 cr
PSYC 101  Introduction to Psychological
Science* .................................................. 3 cr

* These courses also satisfy general education requirements at
UW-Parkside.

Courses in Applied Health Sciences (AHS)

101 Introduction to Applied Health Sciences ...................... 3 cr
Prereq: None.  Freq: Fall, Spring.
Provides an overview of the applied health sciences major. Focuses
on specific information about health career options. Covers the
value and importance of service, current topics in health care,
ethics in the health sciences, and cultural sensitivity within health
careers. Additionally, students will gain experience in professional
writing, presentation techniques, portfolio development and service
learning.

494 Internship/Fieldwork .............................................1-6 cr
Prereq: AHS 101, sophomore or higher standing, and approval
by AHS academic adviser or the CHS director. Freq: Fall, Spring,
Summer.
Provides students with learning experiences within professional
fields that are related to their professional career goals; including,
business operations, professional competencies and conduct, and
overall work environment. Requires placement approval by AHS
academic adviser or the CHS director. May be repeated for credit.
No more than 6 credits can be applied toward the AHS major
and no more than 12 can count toward general graduation requirements.
ART

Degree Offered:
Bachelor of Arts.

Majors Offered:
Art and Digital Art.

Associate Professors:
Baylor, M.F.A. (Chair); Barber, M.F.A.; Bayuzick, M.F.A.; Chen, M.F.A.

Assistant Professors:
Trent, Ph.D.

Student Organizations/Clubs:
The Art Club is the campus student organization that encourages a variety of student-directed events including a yearly student exhibit to foster a greater awareness and understanding of the visual arts.

Career Possibilities:
Graphic designer, production designer, package designer, web designer, animator, illustrator, typographer, art historian, museum or gallery professional, art conservator, arts administrator, architect, freelance artist, studio artist, and public and private school art teacher. The major also prepares students for graduate studies.

Department Overview
The Art Department at the University of Wisconsin-Parkside offers bachelor of arts degrees in studio and digital art. These emphasize a thorough background in the visual arts with well-rounded experiences in both two- and three-dimensional studies, as well as in art history and art criticism.

Art students work in well-equipped, new spacious studios with a faculty seriously committed to quality teaching as well as to production, exhibition and publication in their own areas of professional specialization. Advanced art students may pursue studies in areas of animation, ceramics, crafts, drawing, graphic design, illustration, interdisciplinary art, painting, printmaking, sculpture, and web design. To complement the studio work, art history course offerings cover issues from prehistory to contemporary art. Exhibits in the Communication Arts Gallery and field trips each semester to galleries and museums in Milwaukee and Chicago complement the studio and classroom experience. Visiting artists and scholars add enrichment to the curriculum each year. Upon graduation, art majors may continue professionally in quality graduate programs or enter one of many career options. There are also minors in digital arts and studio arts as well as certificates in art history and museum studies.

Requirements for the Digital Arts Major (65 credits)
The digital arts major may choose from four concentrations (animation, graphic design, illustration and web design). These concentrations include courses in studio arts as well as digital arts, forming a holistic curriculum that offers diverse approaches to visual language.

To be accepted as a major in the following concentrations the student must have completed ART 271 Introduction to Graphic Design for the graphic design concentration, ART 260 Introduction to Animation for the animation concentration, ART 273 Introduction to Illustration for the illustration concentration, or ART 277 Introduction to Web Design for the web design concentration. To continue on in the concentration students must pass the portfolio review that is incorporated into the introductory class of each of the listed concentrations. Portfolio review may only be applied for three times. Students may not be able to enroll in 400-level courses without passing the portfolio review.

Transfer students must make arrangements for a portfolio review if they are transferring credits for the introductory course of the concentration they are declaring. At least 15 credits of upper-level courses in the major must be completed at UW-Parkside. All art majors must maintain a 2.75 grade point average in the major to remain in the program.

Core Curriculum (44 credits)

Foundation Courses (12 credits)

Requirements for the Studio Arts Major (65 credits)

The studio arts major may choose from a number of concentrations from the traditional fine-art studio areas. These studio concentrations stress rigorous creative work in an area of specialty complemented by courses in art history, art criticism and aesthetics. To continue on in the concentration, students must pass the portfolio review that is incorporated into this introductory class of each studio concentration. Portfolio review may only be applied for three times. Transfer students must make arrangements for a portfolio review if they are transferring credits for the introductory course of the concentration they are declaring. Students may not be able to enroll in 400-level courses without passing the portfolio review.

At least 15 credits of upper-level courses in the major must be completed at UW-Parkside. All art majors must maintain a 2.75 grade point average in the major to remain in the program.

ART 438 Advanced Woodworking and Furniture Design ................ 3 cr
ART 499 Independent Study: Sculpture ................... 6 cr

**CERAMICS**

ART 203 Beginning Ceramics .................. 3 cr
12 credits from the following:

ART 303 Intermediate Ceramics-Vessel and Utilitarian Form .................. 3 cr
ART 304 Intermediate Ceramics-Sculptural Form .................. 3 cr
ART 403 Advanced Ceramics-Vessel and Utilitarian Form .................. 3 cr
ART 404 Advanced Ceramics-Sculptural Form .................. 3 cr
ART 499 Independent Study: Ceramics ........ 3-6 cr

**CRAFTS**

Minimum of 6 credits from the following:

ART 202 Beginning Fibers and Textiles ................. 3 cr
ART 203 Beginning Ceramics .................. 3 cr
ART 223 Beginning Art Metals .................. 3 cr
ART 238 Beginning Woodworking and Furniture Design .................. 3 cr

6 credits from the following:

ART 302 Intermediate Fibers and Textiles ................. 3 cr
ART 303 Intermediate Ceramics-Vessels and Utilitarian Form .................. 3 cr
ART 323 Intermediate Art Metals .................. 3 cr
ART 338 Intermediate Woodworking and Furniture Design .................. 3 cr

3 credits from the following:

ART 402 Advanced Fibers and Textiles ................. 3 cr
ART 403 Advanced Ceramics-Vessels and Utilitarian Form .................. 3 cr
ART 423 Advanced Art Metals .................. 3 cr
ART 438 Advanced Woodworking and Furniture Design .................. 3 cr

**INTERDISCIPLINARY ART**

The interdisciplinary art concentration allows students a broader studio experience and the opportunity to present a senior exhibition. Requirements for this option include the core curriculum (33 credits) and the basic curriculum for the studio arts concentrations (17 credits). In addition, the student takes an additional 9 credits (three courses) at the 300 level and at least 3 credits (one course) at the 400 level.

**Requirements for the General Art Option (48 credits)**

Students pursuing a more general art experience in lieu of a concentration may choose a general art option within the studio arts major.

**Foundation Courses (12 credits)**

ART 102 Introduction to 2-D Design ................. 3 cr
ART 103 Introduction to 3-D Design ................. 3 cr
ART 104 Introduction to Digital Art ................. 3 cr
ART 122 Introduction to Drawing .................. 3 cr

**Introductory Studio Courses (9 credits)**

ART 231 Beginning Life Drawing .................. 3 cr
ART 251 Beginning Printmaking .................. 3 cr
ART 282 Beginning Painting .................. 3 cr

Foundation and introductory courses must be completed before the student earns 60 credits.

**Art History (12 credits)**

ART 125 Ancient and Medieval Art .................. 3 cr
ART 126 Renaissance to Modern Art .................. 3 cr

6 credits of upper division art history:

ART 343 Modern Art .................. 3 cr
ART 345 From Pop Art to Now .................. 3 cr
ART 346 History of Design .................. 3 cr
ART 391/491 Special Topics in Art History ........ 3 cr

**Additional Introductory Studio Courses (6 credits)**

ART 236 Beginning Sculpture .................. 3 cr

3 credits of the following:

ART 202 Beginning Fibers and Textiles ................. 3 cr
ART 203 Beginning Ceramics .................. 3 cr
ART 223 Beginning Art Metals .................. 3 cr
ART 238 Beginning Woodworking and Furniture Design .................. 3 cr

For those desiring a general art major with a digital arts option, the student should take one of the following:

ART 260 Introduction to Animation ................. 3 cr
ART 271 Introduction to Graphic Design ................. 3 cr
ART 277 Introduction to Web Design ................. 3 cr

Note: Students need three additional studio courses (9 credits) at the upper level with no more than two within a given studio concentration (animation, ceramics, crafts, drawing, graphic design, illustration, painting or printmaking). For a listing of course options refer to the course listings under a given concentration.

**Requirements for the Minor in Studio Art (21 credits)**

The basic objective of the art minor is to provide students from any area of study with the opportunity for a fundamental introduction to the field of visual art. To accomplish this, the student must complete 21 credits consisting of the following courses or their equivalents:

ART 102 Introduction to 2-D Design ................. 3 cr
ART 103 Introduction to 3-D Design ................. 3 cr
ART 122 Introduction to Drawing .................. 3 cr

3 credits from the following:

ART 231 Beginning Life Drawing .................. 3 cr
ART 251 Beginning Printmaking .................. 3 cr
ART 282 Beginning Painting .................. 3 cr
Requirements for the Art History Certificate (18 credits)

The art history certificate permits students to study visual culture with a distinct emphasis on how aesthetics engage fundamental issues in politics, society, and culture. This certificate is not intended for those who are majoring in art. Students must maintain a 3.0 GPA in the following courses to receive the art history certificate.

Required courses (6 credits):
- ART 125 Ancient and Medieval Art .......................... 3 cr
- ART 126 Renaissance to Modern Art ......................... 3 cr

9 credits from the following:
- ART 343 Modern Art ....................................... 3 cr
- ART 345 From Pop Art to Now ............................. 3 cr
- ART 346 History of Design ................................. 3 cr
- ART 461 Aesthetics and Art Criticism ...................... 3 cr
- ART 291/391/491 Special Topics in Art History .......... 3 cr

One class may be substituted from the following options:
- COMM 435 Understanding Advertising Messages ...... 3 cr
- ENGL 252 Introduction to Film .................................. 3 cr
- ENGL 258 History of Film to 1950 .......................... 3 cr
- ENGL 259 History of Film from 1950 ....................... 3 cr
- HIST 320 Germany 1815 to the Present .................... 3 cr
- SOCA 208 Introduction to Archaeology .................. 3 cr
- SOCA 227 North American Indians ....................... 3 cr

Additional courses may also count toward completion of the art history certificate. These courses will be determined on a semester-by-semester basis. Please see the program coordinator for more information.

Museum Studies Certificate

A certificate in museum studies is also available. Please see the museum studies section of the catalog for more information.

World Wide Web Publishing Certificate

A certificate in World Wide Web publishing is also available through the computer science department. Please see the computer science section of the catalog for more information.

Pre-Architecture

Students transferring to the University of Wisconsin-Milwaukee in order to pursue a major in architecture must have taken a minimum of 24 credit hours and must have a GPA of no less than 2.50. Because admission into the architecture major is highly competitive, students should understand that those admitted to the program will have a GPA that is higher than 2.50. While a minimum of 24 credit hours is needed to transfer, students are advised to take no more than 40 credit hours prior to transferring to the University of Wisconsin-Milwaukee. Within the 24-40 credit hour window, the following courses are especially appropriate for students considering the architecture major:

- ART 103 Introduction to 3-D Design ......................... 3 cr
- ART 122 Introduction to Drawing .......................... 3 cr
- ART 125 Ancient and Medieval Art .......................... 3 cr
- ART 126 Renaissance to Modern Art ........................ 3 cr
- COMM 105 Public Speaking .................................. 3 cr
- ENGL 101 Composition and Reading ....................... 3 cr
- ENGL 201 Advanced Composition .......................... 3 cr
- GEOG 110 Introduction to Geography – World Regions . 3 cr
- MATH 113 Trigonometry ....................................... 2 cr
- PHYS 105 College Physics I .................................... 5 cr

Course work in geosciences or physical geography is highly recommended. It is also recommended that students satisfy their foreign language requirement prior to transferring to the University of Wisconsin-Milwaukee.

Special Policies

Art majors, whether general or within a concentration, must have a minimum of a 2.75 GPA in their major in order to graduate with their degree in art. Transfer students must have at least a 2.75 in their art and art history courses to be admitted as an art major and a portfolio review will be required for acceptance into a particular concentration.

Field trips to local and regional art centers may be required as partial fulfillment of any particular art course.

The Art Department reserves the right to retain selected examples of student work completed in studio courses or photographic images of work for educational, promotional, or exhibition purposes.

Studio fees may be required for certain courses to cover basic material expenses.

The Art Department faculty values the learning experience in the classroom and has a specific policy pertaining to absenteeism. Regular attendance in class is absolutely mandatory and unexcused absences will affect the student’s grade. Disruptive and disrespectful behavior will likewise not be tolerated and will also affect a student’s grade and standing in the course.

Courses in the Art Department may be audited only with approval of the instructor.
Courses in Art (ART)

100 Art Appreciation .................................................. 3 cr
Prereq: None. Freq: Fall, Spring.
Introduction to the visual language through an exploration of the functions, styles, themes, and the elements that make art; includes exhibition attendance. (Does not count toward art major.)

102 Introduction to Two-Dimensional Design .................. 3 cr
Prereq: None. Freq: Fall, Spring.
Exploration of the visual language used in two-dimensional design, emphasizing the fundamental elements and principles of composition and color through lecture and studio problems. Lab fee.

103 Introduction to Three-Dimensional Design ................ 3 cr
Prereq: None. Freq: Fall, Spring.
Exploration of the visual language used in three-dimensional design emphasizing the fundamental elements and principles through lecture and studio problems in a variety of sculptural processes. Lab fee.

104 Introduction to Digital Art ..................................... 3 cr
Prereq: None. Freq: Fall, Spring.
A hands-on exploration of the digital visual language through an exploration of various software programs used in the fields of digital art, graphic design, web design, and animation emphasizing the basic principles of composition through lecture and studio problems. Lab fee.

122 Introduction to Drawing ......................................... 3 cr
Prereq: None. Freq: Fall, Spring.
Exploration of the media and process of drawing to develop a visual language for representing visual imagery and cultivating perceptual and conceptual awareness. Lab fee.

125 Ancient and Medieval Art ....................................... 3 cr
Prereq: None. Freq: Fall.
A survey of art history from the prehistoric to the medieval eras with a western art emphasis. Development of the student’s critical abilities will be stressed.

126 Renaissance to Modern Art ..................................... 3 cr
Prereq: None. Freq: Spring.
A survey of western art history from the renaissance to modern eras. Development of the student’s critical abilities will be stressed.

200 Art in Elementary Education Theories ....................... 3 cr
Prereq: TEDU 210 or 215 or consent of instructor. Freq: Spring.
Lecture and discussion about art as it pertains to the child, individual and society. Art’s elements, functions and theories will be explored in relationship to a child’s perceptual and cognitive growth.

202 Beginning Fibers and Textiles ................................. 3 cr
Prereq: ART 102 or 103. Freq: Spring.
An introduction to the fundamental aesthetic concepts and technical methods emphasizing the historical development of fibers and textiles. Lab fee.

203 Beginning Ceramics ................................................ 3 cr
Prereq: ART 103. Freq: Fall, Spring.
An introduction to the fundamental aesthetic concepts and technical methods of creating works in clay emphasizing historical and contemporary developments of ceramics. Students will be exposed to the basics of ceramics in wheel throwing, hand building, glazing and firing. Lab fee.

223 Beginning Art Metals ............................................. 3 cr
Prereq: ART 103 or consent of instructor. Freq: Fall.
An introduction into the fundamental aesthetic concepts and technical methods of metalsmithing emphasizing the historical development of art metals. Lab fee.

231 Beginning Life Drawing .......................................... 3 cr
Prereq: ART 122. Freq: Fall, Spring.
An introduction to the human form in a variety of media, emphasizing structural, anatomical, and expressive analysis. Lab fee.

236 Beginning Sculpture .............................................. 3 cr
Prereq: ART 103 and 122. Freq: Fall.
An exploration of both historical and contemporary developments in sculpture emphasizing fundamental aesthetic concepts and technical methods. Students are directed through three basic techniques: reduction, addition, and casting. Lab fee.

238 Beginning Woodworking and Furniture Design .......... 3 cr
Prereq: ART 103 or consent of instructor. Freq: Spring.
Introduction into the craft of woodworking as it specifically relates to the art of furniture making. Both functional and aesthetic considerations will be explored as well as the history of furniture over the centuries. Lab fee.

251 Beginning Printmaking .......................................... 3 cr
Prereq: ART 102 and 122. Freq: Fall, Spring.
An introduction to three technical processes including relief, intaglio, and lithographic printmaking. Emphasis on fundamental aesthetic concepts, technical methods, and the historical development of the original print. Lab fee.

260 Introduction to Animation ..................................... 3 cr
Prereq: ART 104, 122 or consent of instructor. Freq: Fall, Spring.
Introductory course in the basics of kinetic images emphasizing traditional and contemporary computer-aided approaches. Focus on storyboarding, rotoscoping, basic animation techniques and sound design. Lab fee.

261 Animation Analysis .............................................. 3 cr
Prereq: ART 102 and 122. Freq: Spring.
Wide range of independent and commercial animations are interpreted and critiqued with emphasis on storytelling, timelines, believability, design and animation history.

271 Introduction to Graphic Design ................................. 3 cr
Prereq: ART 102, 104, or consent of instructor. Freq: Fall, Spring.
An introduction to the visual language and historical development of graphic design and typography emphasizing fundamental aesthetic concepts and technical methods. Lab fee.

273 Introduction to Illustration ..................................... 3 cr
Prereq: ART 102, 122. Freq: Fall.
An introductory class dedicated to the diverse techniques and ideas found in the field of illustration. Traditional painting and drawing media as well as computer technology will be used. The history of the illustrative image will also be addressed.

277 Introduction to Web Design .................................... 3 cr
Prereq: ART 102, and ART 104 or CSCI 105 or consent of instructor. Freq: Fall, Spring.
Basic image design and preparation specifically for the interactivity needed for the Internet. The student gains working knowledge of web terminology and concepts. Lab fee.

282 Beginning Painting ................................................ 3 cr
Prereq: ART 102 and 122. Freq: Fall, Spring.
An introduction to the aesthetic, technical and thematic dimenions of painting as a fundamental visual language of expression from both traditional and contemporary perspectives, using a variety of painting media. Lab fee.

283 Beginning Airbrush Painting ................................... 3 cr
Prereq: ART 102 and 122. Freq: Occasionally.
A comprehensive introduction to the fundamentals of airbrush painting from a fine art perspective, covering basic aesthetic concepts and technical skills. Lab fee.

284 Beginning Watercolor ............................................ 3 cr
Prereq: ART 102 and 122. Freq: Occasionally.
An introduction to the visual language and historical development of watercolor painting emphasizing fundamental aesthetic concepts and technical methods.
290 Special Topics in Art ..................................................1-4 cr
Prereq: Varies with topic. Freq: Occasionally.
Selected topics in the visual arts and their interrelationship will be
studied. Lab fee varies with topic.

291 Selected Topics in Art History .....................................1-4 cr
Prereq: Varies with topic. Freq: Occasionally.
In-depth studies in art history as it may pertain to different cultures,
selected periods or groups of artists. May be repeated for credit
with different topic.

299 Independent Study ..................................................1-4 cr
Prereq: Varies with topic. Consent of instructor and department
chair. Freq: Fall, Spring, Summer.
Special projects selected by student and approved by instructor.
Includes a detailed project proposal. Lab fee varies with topic.

302 Intermediate Fiber and Textiles .................................3 cr
In-depth exploration of concepts relating to the processes of fibers
and textiles. Lab fee.

303 Intermediate Ceramics - The Vessel and
Utilitarian Form ..........................................................3 cr
Prereq: ART 203 Freq: Spring.
Introduction to the fundamental aesthetic concepts and technical
processes involved in creating vessels as fine craft and/or utilitarian
form. Various firing methods will be addressed. Lab fee.

304 Intermediate Ceramics - The Sculptural Form .................3 cr
Prereq: ART 203. Freq: Spring.
Introduction to the essentials of creating sculptural form in ceramics
stressing aesthetic, technical and conceptual development.
Various firing methods will be addressed. Lab fee.

315 Anthropology of Non-Western Art ...............................3 cr
Prereq: SOCA 100 or 101, or ART 125 or 126, or consent of
instructor; Freq: Spring (odd years).
An anthropological examination of indigenous arts and material
culture. Focus on functions of art related to social organization,
belief systems, and culture change; includes selected prehistoric
and contemporary art forms. Cross-listed with SOCA 315.

322 Intermediate Drawing ..............................................3 cr
Prereq: ART 122. Freq: Spring.
An in-depth exploration of the formal and conceptual possibilities
of the drawn mark as a visual language incorporating historical
references both traditional and contemporary. Lab fee.

323 Intermediate Art Metals ............................................3 cr
Prereq: ART 223. Freq: Fall.
In-depth investigation of concepts relating to metalsmithing
technology including historical and contemporary references. Lab fee.

331 Intermediate Life Drawing .........................................3 cr
Prereq: ART 231. Freq: Fall, Spring.
A comprehensive investigation of the human form using diverse
media with an emphasis on structural, anatomical, and personal
expressive analysis. Lab fee.

336 Intermediate Sculpture ............................................3 cr
Prereq: ART 236. Freq: Spring.
Further exploration of aesthetic concepts and technical methods
used in sculpture while selecting from an expanded range of
processes embracing fabrication, carving and casting. Lab fee.

338 Intermediate Woodworking and Furniture Design ............3 cr
Prereq: ART 238 or consent of instructor. Freq: Spring.
Further exploration of design concepts in addition to the introduction
of alternative joinery methods and materials as they relate to the
craft of furniture making. Lab fee.

341 Art Education Philosophical and Psychological Bases ..........3 cr
Prereq: ART 125 and 126, reading and writing skills required.
Freq: Alternate Falls.
A comprehensive study of the foundations upon which art education
rests, addressing both historical roots as well as contemporary
directions.

342 Art Education - Curriculum and Instruction ....................3 cr
Prereq: ART 341, reading and writing skills required.
Freq: Alternate Springs.
Exploration of the principles and procedures for implementing a
comprehensive art education program at different levels and with
different groups.

343 Modern Art ..............................................................3 cr
Prereq: ART 125, 126, or consent of instructor, reading and writing
skills required. Freq: Fall.
Examines artists, movements, and themes in art history from 1860
to 1960 within their cultural, political, and social contexts.

345 From Pop Art to Now ...............................................3 cr
Prereq: ART 125, 126, or consent of instructor, reading and writing
skills required. Freq: Spring.
Explores art trends from 1960 to the present, including developments
in global postmodernism.

346 History of Design ....................................................3 cr
Prereq: ART 125, 126, or consent of instructor, reading and writing
skills required. Freq: Occasionally.
Explores developments in design history from the mid-19th century
to the present, with a focus on furniture, fashion and graphic design.

351 Intermediate Printmaking - Lithography .........................3 cr
Prereq: ART 251. Freq: Fall.
Study of the aesthetic and technical principles of printmaking
focusing on lithography, both stone and plate. Lab fee.

352 Intermediate Printmaking - Intaglio ..............................3 cr
Prereq: ART 251. Freq: Fall.
Study of the aesthetic and technical principles of printmaking
focusing on the intaglio processes: etching, engraving, drypoint,
aquatint, and softground. Lab fee.

353 Intermediate Printmaking - Relief ..................................3 cr
Prereq: ART 251. Freq: Fall.
Study of the aesthetic and technical principles of printmaking
focusing on the relief processes: woodcut, wood engraving, linocut,
and relief collagraph. Lab fee.

354 Screen Printing .......................................................3 cr
Prereq: ART 251, Freq: Occasionally.
Study of the aesthetic and technical principles of screenprinting.
An introduction to three technical processes including stencils,
drawing fluid and photo transfer silkscreen printmaking. Emphasis
on fundamental aesthetic concepts, technical methods and the
historical development of the modern print. Lab fee.

362 2-D Animation .......................................................3 cr
Prereq: ART 260 and 261. Freq: Spring.
Traditional hand-drawn techniques as well as paperless animation
are investigated. Various output mediums are explored for
broadcasting, gaming, film, and web markets. Lab fee.

363 3-D Animation .......................................................3 cr
Prereq: ART 260 and 261. Freq: Fall.
Computer animation stressing physics of motion, lighting design,
volume, believability, and spatial relation. Output for broadcasting,
gaming, film, and web markets. Lab fee.

364 Digital Video ............................................................3 cr
Prereq: ART 260 or consent of instructor. Freq: Every third semester.
Emphasis on storytelling through video, sound design, and
manipulating footage using industry-standard digital editing software.
Output for broadcasting, CD, DVD, and web markets. Lab fee.
369 Interactive Character Animation ........................................ 3 cr
   Exploration of motion graphics that are specifically used in the
   creation of dynamic web designs. Lab fee.

371 Digital Photography and Imaging ..................................... 3 cr
   Prereq: ART 104. Freq: Occasionally.
   An investigation into digital imaging using cameras, scanners and
   software to develop skills in pixel-based photographic design and
   printing. Lab fee.

372 Graphic Design ......................................................... 3 cr
   Prereq: ART 271. Freq: Spring.
   A further development of two-dimensional design concepts as they
   relate to the professional design field. Lab fee.

373 Illustration ...................................................................... 3 cr
   Prereq: ART 122. Freq: Occasionally.
   Exploration of the illustrative tradition that combines visual
   communication with individual expression while developing
   technical and conceptual skills.

374 Typography ..................................................................... 3 cr
   Prereq: ART 271. Freq: Fall.
   An introduction to the visual language of type including historical
   reference, typographical classification and measurement systems,
   and the aesthetic/technical syntax of typography. Lab fee.

375 Packaging Design ......................................................... 3 cr
   Prereq: ART 103, 271. Freq: Fall.
   An investigation into the fundamentals of package design,
   marketing and promotion along with an analysis of contemporary
   packaging. Lab fee.

376 Computer Illustration ..................................................... 3 cr
   Prereq: ART 104 and 271. Freq: Occasionally.
   An exploration of a contemporary approach to illustration,
   combining traditional media with the computer to develop individual
   expression. Lab fee.

377 Web Design for Designers ............................................... 3 cr
   Prereq: ART 277. Freq: Fall.
   An exploration of the modern field of web design from a graphic
   designer's viewpoint comprising the conceptual and aesthetic
   approach to web design including both static and dynamic forms.
   Lab fee.

378 Web Interface Design for Designers .................................. 3 cr
   Prereq: ART 277. Freq: Spring.
   An investigation into the role that graphic designers play in the
   multi-disciplinary approach of integrating functionality and usability
   to the realm of a digital, interactive medium. Lab fee.

382 Intermediate Painting .................................................... 3 cr
   Prereq: ART 282. Freq: Fall, Spring.
   Continued aesthetic and technical exploration of the painted image
   involving a variety of media. Lab fee.

383 Intermediate Airbrush Painting ....................................... 3 cr
   Prereq: ART 283. Freq: Occasionally.
   Further exploration of airbrush technique, using both single and
   double-action airbrushes, with an emphasis on the development of
   more creative aesthetic concepts. Lab fee.

384 Intermediate Watercolor ............................................... 3 cr
   Prereq: ART 284. Freq: Occasionally.
   Further investigation of the watercolor media stressing aesthetic,
   technical and conceptual objectives.

390 Special Topics in Art ....................................................... 1-4 cr
   Prereq: Varies with topic. Freq: Occasionally.
   Selected topics in the visual arts and their interrelationship will be
   studied at the intermediate level. Lab fee varies with topic.

391 Special Topics in Art History .......................................... 1-4 cr
   Prereq: Varies with topic. Reading and writing skills required.
   Freq: Occasionally.
   In-depth studies in art history as it pertains to different themes,
   cultures, selected periods or groups of artists. May be repeated for
   credit with different topics.

399 Independent Study ....................................................... 1-4 cr
   Prereq: Varies with topic. Consent of instructor and department
   chair. Freq: Fall, Spring, Summer.
   Special projects at an intermediate level chosen by a student and
   approved by instructor. Includes a detailed project proposal. Lab
   fee varies with topic.

402 Advanced Fibers and Textiles ........................................... 3 cr
   Prereq: ART 302 or consent of instructor. Freq: Spring.
   Emphasis on a more independent exploration of the concepts and
   technology involved in fibers and textiles. Lab fee.

403 Advanced Ceramics - The Vessel and
   Utilitarian Form ........................................................... 3 cr
   Extended work in ceramic processes, with emphasis placed on
   creating pottery and hand-built vessel forms. Functional nature of
   the object is optional. Lab fee.

404 Advanced Ceramics - The Sculptural Form ....................... 3 cr
   Prereq: ART 304. Freq: Spring.
   Extended work in ceramic processes, with an emphasis placed
   on creation of sculptural form (abstract or figurative) stressing
   aesthetic, technical and conceptual considerations. Lab fee.

422 Advanced Drawing ....................................................... 3 cr
   Prereq: ART 322. Freq: Spring.
   A focused in-depth exploration of the aesthetic technical and
   thematic possibilities of the drawn mark, with emphasis on the
   development of the student's personal vision. Lab fee.

423 Advanced Art Metals ..................................................... 3 cr
   Prereq: ART 323. Freq: Fall.
   Emphasis on a more independent exploration of the metalsmithing
   technology. Lab fee.

431 Figure Studio .............................................................. 3 cr
   Prereq: ART 331. Freq: Fall, Spring.
   An experimental exploration of the human form with an expressive
   focus in a variety of media and with an emphasis on more
   individualized technical and aesthetic development. Lab fee.

436 Advanced Sculpture ...................................................... 3 cr
   Prereq: ART 336. Freq: Fall.
   Emphasis on in-depth exploration of one or more recommended
   sculptural processes in relation to an individualized aesthetic point
   of view. Lab fee.

438 Advanced Woodworking and Furniture Design .................. 3 cr
   Prereq: ART 338. Freq: Spring.
   In-depth investigation of personal design aesthetic as it may relate
   to the materials and construction methods of furniture making. Lab
   fee.

451 Advanced Lithography .................................................. 3 cr
   Prereq: ART 351. Freq: Fall.
   Advanced research in both stone and plate lithography. Use of
   color and experimental lithographic processes as they relate to the
   student's personal aesthetic will be encouraged. Lab fee.

452 Advanced Intaglio ......................................................... 3 cr
   Prereq: ART 352. Freq: Fall.
   Advanced research in the intaglio medium. Use of color and
   experimental intaglio processes as they relate to the student's
   personal aesthetic will be encouraged. Lab fee.
453 Advanced Relief .................................................. 3 cr
Prereq: ART 353. Freq: Fall.
Advanced research in the relief medium. Use of color and
experimental relief processes as they relate to the student's
personal aesthetic will be encouraged. Lab fee.

461 Aesthetics and Art Criticism................................. 3 cr
Prereq: ART 343 or 345, reading and writing skills required or
consent of instructor. Freq: Alternate years.
A comprehensive survey of major historical and contemporary
theories of art, as well as in-depth study of principles and techniques
of art criticism.

462 Advanced 2-D Animation.................................... 3 cr
Prereq: ART 362. Freq: Spring.
Further investigation of kinetic imaging stressing aesthetic, technical
and conceptual objectives using traditional and contemporary
approaches. Preparatory work toward making a short animated
film. Lab fee.

463 Advanced 3-D Animation.................................... 3 cr
Prereq: ART 363. Freq: Fall.
Advanced approaches to motion, lighting design and spatial
relationships as well as modeling considering aesthetic, technical
and conceptual objectives. Preparatory work toward making a
short animated film. Lab fee.

472 Advanced Graphic Design.................................. 3 cr
Advanced research in design problems of a complex nature using a
broad range of design approaches. Lab fee.

473 Advanced Illustration.......................................... 3 cr
Prereq: ART 373 or 376. Freq: Occasionally.
Advanced problems in illustration concentrating on process,
communication, technical skills, and with an emphasis on
contemporary professional development. Lab fee.

474 Advanced Typography........................................ 3 cr
Prereq: ART 374. Freq: Fall.
Advanced problems in typography with a continuing exploration of
the aesthetic/technical issues of type as individual letter forms and
as text. Lab fee.

475 Advanced Packaging Design............................... 3 cr
Prereq: ART 375. Freq: Fall.
Advanced problems in package design incorporating logo identity,
advertising, display and promotion. Lab fee.

476 Advanced Computer Illustration........................... 3 cr
Prereq: ART 373 or 376. Freq: Occasionally.
Advanced problems in illustration taking a contemporary approach
and combining traditional media with the computer to develop
individual expression. Lab fee.

477 Advanced Web Design for Designers...................... 3 cr
Advanced problems in web design from a designer's viewpoint
comprising the conceptual and aesthetic approach to web design
including both static and dynamic forms. Lab fee.

482 Advanced Painting............................................ 3 cr
Prereq: 3 ART 82. Freq: Fall, Spring.
In-depth exploration of individual problems in painting using a
variety of media.

483 Advanced Airbrush Painting............................... 3 cr
A comprehensive introduction to advanced creative problems in
airbrush painting from a fine art perspective covering more
challenging and contemporary aesthetic concepts and technical
skills. Lab fee.

484 Advanced Watercolor........................................ 3 cr
Prereq: ART 384. Freq: Occasionally.
Advanced problems in watercolor painting. Continued investigation
and experimentation in traditional and nontraditional imagery.

490 Special Topics in Art......................................... 1-4 cr
Prereq: Varies with topic. Freq: Occasionally.
Selected topics in art will be studied. Lab fee varies with topic.

491 Special Topics in Art History.............................. 1-4 cr
Prereq: Varies with topic. Freq: Occasionally.
In-depth studies in art history as it may pertain to different themes,
cultures, selected periods or groups of artists. May be repeated for
credit with different topics.

492 Senior Studio Seminar...................................... 1 cr
Prereq: Senior standing. Freq: Fall, Spring.
Weekly seminar sessions focusing on the artist's profession with
discussion of personal and aesthetic goals, exhibition preparation,
photographic documentation, career options, and the business of art.

493 Senior Studio.................................................. 4 cr
Prereq: Senior standing, department approval. Freq: Fall, Spring.
Rigorous, self-generated studio experience, focusing on the
creation of a significant body of work as a culmination of the
student's undergraduate education in the visual arts. Lab fee varies
with topic.

494 Art Internship.................................................. 1-4 cr
Prereq: Art major, junior standing. Consent of instructor and
department chair. Freq: Fall, Spring, Summer.
Practical experience in studio and curatorial situations in business,
industry, and museums. Joint supervision by faculty member and
organization representative. Lab fee varies with topic.

499 Independent Study............................................ 1-4 cr
Prereq: Consent of instructor and department chair.
Special projects at an advanced level selected by student and
approved by the instructor. Includes a detailed project proposal.
Lab fee varies with topic.

Graduate Courses

690 Special Topics.................................................. 1-4 cr
Prereq: Consent of instructor and department chair.
Freq: Occasionally.
Selected topics in art will be studied. Lab fee varies with topic.

699 Independent Study.......................................... 1-3 cr
Prereq: Consent of instructor and department chair.
Freq: Occasionally.
Special projects selected by student and approved instructor.
Includes a detailed project proposal. Lab fee varies with topic.
Degrees Offered:
Bachelor of Science.
Master of Science (see graduate section of this catalog).

Professors:
Wallen, Ph.D.

Associate Professors:
Barber, Ph.D.; Higgs, Ph.D. (chair);
Mayer, Ph.D.; Pham, Ph.D.; Ruffolo, Ph.D.; Thomson, Ph.D.

Assistant Professors:
Lee, Ph.D., Rogers, Ph.D.

Senior Lecturers:
Mossman, Ph.D.; Wilson, M.S.

Lecturers:
MacWilliams, Ph.D.; Roelke, M.S.; Lewis, Ph.D. (assistant to the dean for health-related professions)

Student Organizations/Clubs:
Biology Club, Molecular Biology Club, Pre-Health Professions Club

Career Possibilities:
Health professional; research scientist; veterinary medicine; secondary school teacher; industrial research, development, quality control, or product specialist; zoologist; botanist; naturalist.

Department Overview
Since the opening of the university in 1968, UW-Parkside’s Biological Sciences Department has developed and maintained a reputation for outstanding preparation for careers in life and health sciences. The department currently attracts many of the best students found on the campus and has one of the strongest pre-health programs in the state.

The instructional program emphasizes quality teaching, hands-on experience with state-of-the-art technology, and involvement of undergraduate students in research. The department has high-quality faculty, several of whom are nationally and internationally known. The faculty sees itself as an excellent example of the teacher-scholar model for a predominantly undergraduate institution. The department maintains active research facilities with modern instrumentation. In addition, the UW-Parkside campus, the Chiwaukee Prairie, Harris Tract, Ranger Mac’s Fen, Renak Polak Woods, Petrifying Springs, and Sanders Park provide field areas for environmental studies.

The biological sciences include many different aspects of biology such as botany, microbiology, molecular biology, bioinformatics and zoology. The undergraduate majors are based on core courses designed to convey a common body of concepts and skills essential to the training of biologists regardless of their ultimate specialization. This part of the program emphasizes the similarities and unifying ideas applicable to all living systems.

The department offers two majors. The biological sciences major is appropriate for students with a general interest in biology. The molecular biology and bioinformatics major is designed for students who wish to specialize in this rapidly growing field of biology. Both majors are appropriate for students preparing for the health professions; consult with the pre-health advisers for advice relating to your particular career goal.

Biological science majors interested in obtaining a minor in environmental studies should consult with the director of environmental studies.

The department supports several student organizations: Biology Club, Molecular Biology Club, and the Pre-Health Professions Club. These clubs promote learning and career preparation outside the formal classroom under student governance. Activities include field trips, guest lectures, mentoring, and social activities. See your academic adviser or contact the department office for information about how to become involved.

The biological sciences program offers many courses for other majors and/or programs such as applied health sciences, biochemistry, environmental studies, gerontology, and pre-professional programs. There are also many courses available that have been designed specifically for non-science students and for general education.

Requirements for the Biological Sciences Major (75-79 credits)
The major in biological sciences consists of a minimum of 42 credits in biological sciences with additional courses in mathematics, chemistry, and physics. Within the major, a minimum of 15 credits in courses numbered 300 or above must be completed at UW-Parkside.

A. Core Courses (18 Credits)

BIOS 101 Bioscience........................................4 cr
BIOS 102 Organismal Biology................................4 cr
BIOS 210 Biostatistics......................................3 cr
BIOS 260 General Genetics.................................4 cr
Students must complete core courses numbered in the 200s and below before they enroll in 400-level biological sciences courses. Exception from this prerequisite requires approval from the program faculty. Students should consult with their academic adviser before registration if such a situation arises.

B. Mathematics, Chemistry and Physics Courses (33 credits)

Mathematics

MATH 221 Calculus and Analytic Geometry I ……… 5 cr

Chemistry

CHEM 101 General Chemistry I …………………… 5 cr

AND

CHEM 102 General Chemistry II …………………… 5 cr

CHEM 321 Organic Chemistry I …………………… 4 cr

CHEM 322 Organic Chemistry II …………………… 4 cr

CHEM 323 Organic Chemistry Laboratory* ………… 3 cr

Physics

PHYS 105 College Physics I ……………………… 5 cr

OR

PHYS 106 College Physics II ……………………… 5 cr

PHYS 201 General Physics I ……………………… 5 cr

PHYS 202 General Physics II ……………………… 5 cr

* Strongly recommended, but not required. Most graduate and professional schools require an organic chemistry course with a laboratory component. Students who plan to do graduate work are also advised to take MATH 222 Calculus and Analytic Geometry II.

C. Elective Courses (24 credits)

Each student must complete a minimum of 24 elective credits selected from 200-400 level biological sciences courses. At least 3 credit hours must be obtained from each of the four designated areas listed below. BIOS 494 Internship, and BIOS 499 Independent Study, cannot be used to satisfy the requirement within these areas. Students are required to check with their advisers concerning biological sciences special topics courses (BIOS 290, 390, 490) counting toward the topic areas listed below.

I. Cell and Molecular Biology

BIOS 240 Macromolecular Structure and Function …………………… 3 cr

BIOS 301 Cell Biology ……………………………… 3 cr

BIOS 307 Biochemical Metabolism …………………… 3 cr

BIOS 309 Molecular Biology ……………………… 3 cr

BIOS 355 Biology of Cancer ……………………… 3 cr

II. Organismal Structure and Function

BIOS 300 Functional Human Anatomy Laboratory (L) …………………… 3 cr

BIOS 317 Vertebrate Embryology …………………… 3 cr

BIOS 325 Physiological Psychology ………………… 3 cr

BIOS 341 Mammalian Physiology ………………… 3 cr

BIOS 344 Plant Physiology ………………………… 3 cr

BIOS 420 Neuroscience …………………………… 3 cr

III. Biological Diversity

BIOS 303 Microbiology (L) ……………………… 4 cr

BIOS 313 Invertebrate Zoology (L) ………………… 4 cr

BIOS 318 Vertebrate Zoology (L) ………………… 4 cr

BIOS 324 Botany (L) ……………………………… 4 cr

BIOS 351 Virology ………………………………… 3 cr

IV. Population Biology

BIOS 305 Principles of Ecology (L) ………………… 4 cr

BIOS 312 Medical and Forensic Entomology (L) ……… 4 cr

BIOS 314 Evolutionary Biology …………………… 3 cr

BIOS 330 Topics in Field Biology (L) ………………… 3 cr

BIOS 336 Conservation Ecology …………………… 3 cr

BIOS 340 Animal Behavior (L) …………………… 4 cr

BIOS 414 Molecular Evolution ……………………… 3 cr

A course in each of the four areas (12-14 credits) is required. Students can select among any of the remaining 200-400 level biological sciences courses to complete the required minimum of 24 elective credits, which may include up to three credits each of BIOS 494 and BIOS 499. To complete the requirement of 24 elective credits, at least one 300 level or higher elective class must include a laboratory. Classes that meet this requirement are BIOS 300, 303, 305, 312, 313, 318, 324, 330, 340, 453, 455, or 480. BIOS 435 Experimental Methods/Biochemistry Lab, as a core class, does not satisfy this requirement.

Students pursuing careers in the health professions are strongly urged to contact Dr. Bryan Lewis, assistant to the dean for health-related professions at 262-595-2327 for advising.

Concentration in Pre-Health Professions

Students who are planning to pursue graduate/professional work in health sciences should consider completing the biological sciences major with a concentration in pre-health professions. Students complete the same biological sciences major core course requirements (A) and mathematics, physics and chemistry course requirements (B), but use the following course plan for the elective course requirements (C):

<table>
<thead>
<tr>
<th>Course Code</th>

B. Admission to the molecular biology and bioinformatics major is selective. Incoming freshmen must have a minimum ACT score of 25. Current students wishing to enter the program requires approval from the program faculty. Students 300s and below before they enroll in 400-level biological sciences courses. Exception from this prerequisite requires approval from the program faculty. Students should consult with their academic adviser before registration if such a situation arises.

A. Core Courses (35 credits)

<table>

Requirements for the Molecular Biology and Bioinformatics Major (79-81 credits)

The major in molecular biology and bioinformatics consists of a minimum of 46 credits in biological sciences, with additional courses in mathematics, chemistry, computer science and physics. Within the major, a minimum of 15 credits in courses numbered 300 or above must be completed at UW-Parkside. Admission to the molecular biology and bioinformatics major is selective. Incoming freshmen must have a minimum ACT score of 25. Current students wishing to enter the program requires approval from the program faculty. Students should consult with their academic adviser before registration if such a situation arises.

C. Elective Courses (8 credits)

Each student must complete a minimum of 6 elective credits selected from the following list:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOS 300</td>
<td>600 level courses (excluding: BIOS 435 Experimental Methods; BIOS 495 Senior Seminar; BIOS 499 Independent Study)</td>

<td>Organismal Biology</td>
<td>4 cr</td>
</tr>
<tr>
<td>BIOS 200</td>
<td>Electives 200 level or above</td>
<td>4 cr</td>
</tr>
</tbody>
</table>

Departmental Honors Program

Students completing a bachelor of science degree in either biological sciences or molecular biology and bioinformatics may earn departmental honors reflecting outstanding achievement in academics and research. To attain honors a student must have:

- A cumulative GPA of 3.0 or higher and a GPA of 3.5 or higher for all courses required within one of the majors,
- Minimum of four credits of BIOS 499 Independent Study,
- Successfully complete an oral or poster presentation detailing independent research accomplishments within BIOS 499,
- Successfully complete a written research thesis detailing independent research accomplishments within BIOS 499,
Students interested in completing departmental honors must file a biological sciences honor application with the department prior to their senior year.

## Courses in Biological Sciences (BIOS)

### 100 Nature of Life ................................................................. 3 cr
Prereq: None. Freq: Fall, Spring.
Nature of living things is explored and current developments in biology are discussed. Designed specifically for non-science majors; not for credit toward biological sciences major. Two-hour lecture; one-hour demo/discussion.

### 101 Bioscience ................................................................. 4 cr
Prereq: None. Freq: Fall, Spring.
This course focuses on biochemistry, cell biology, genetics, and molecular biology. It is intended to provide a background upon which upper division courses will be built. Three-hour lecture; three-hour lab.

### 102 Organismal Biology ................................................................. 4 cr
Prereq: None. Freq: Fall, Spring.
A broad introduction to the diversity of life, recognizing functional similarities and dissimilarities as related to successful adaptation to the environment. It is intended to provide a background upon which upper division courses will be built. Three-hour lecture; three-hour lab.

### 103 Human Biology ................................................................. 3 cr
Prereq: None. Freq: Yearly.
A general course which covers basic information about the human body. Designed specifically for non-science majors; not for credit toward biological sciences major. Three-hour lecture.

### 104 Environmental Science: A Biological Approach ................................................................. 3 cr
Prereq: None. Freq: Fall, Summer.
The study of the associations between human populations, biodiversity, resources, technology, lifestyles and environmental crisis from a biological approach. Meets DPI content requirement in environmental education; not for credit toward biological sciences major. Three-hour lecture.

### 105 Human Physiology and Anatomy I ................................................................. 4 cr
Prereq: None. Freq: Fall.
An integrated lecture/laboratory course using a system approach to understand structure and function of the human body. Topics include homeostasis, biological and chemical principles, tissues, skin, skeleton, muscles and digestion, and includes cadaver demonstration. Not for credit toward biological sciences major. Three-hour lecture; two-hour discussion; two-hour lab.

### 106 Human Physiology and Anatomy II ................................................................. 4 cr
Prereq: BIOS 105. Freq: Spring.
A continuation of BIOS 105; focusing on the nervous, immune, circulatory, respiratory, urinary, endocrine and reproductive systems. Not for credit toward biological sciences major. Three-hour lecture; two-hour discussion; two-hour lab.

### 109 Biology of Aging ................................................................. 3 cr
Prereq: None. Freq: Spring.
This course is intended to give the non-science major an introduction to the age-related changes in each body system from the standpoint of normal structure and function. The concept of homeostasis is emphasized in relation to age-related abnormal changes in addition to causative factors. Three-hour lecture.

### 114 Freshman Seminar in Biological/Health Sciences ................................................................. 1 cr
Prereq: None. Freq: Fall.
Overview of education, careers, and potential growth opportunities in health-related fields and biological sciences. Not for credit toward biological sciences major. Two-hour lecture.

### 190 Fundamentals of Human Nutrition ................................................................. 2 cr
A study of requirements and functions of essential nutrients throughout life. Cultural influences on food habits and the basis for diet assessment will also be discussed. Recommended for UW-Milwaukee nursing students; not for credit toward biological sciences major. Two-hour lecture; three-hour lab.

### 202 General Microbiology ................................................................. 4 cr
Prereq: BIOS 105, 106 or concurrent registration and CHEM 102 or 115, or consent of instructor. Freq: Fall.
Structure, growth, reproduction, and activities of microorganisms including medical applications, isolation and propagation of bacteria; not for credit toward biological sciences major. Three-hour lecture; three-hour lab.

### 203 Introduction to Aquatic and Environmental Microbiology ................................................................. 4 cr
Prereq: BIOS 101, 102 and MATH 112, 113 or equivalent. Freq: Fall, Spring.
Understanding and application of basic microbiological and ecological principles related to microbial processes in freshwater and groundwater environments. Three-hour lecture; three-hour lab.

### 210 Biostatistics ................................................................. 3 cr
Prereq: BIOS 101, 102 and MATH 112, 113 or equivalent. Freq: Fall, Spring.
An introduction to quantitative methods of scientific inference used in the analysis and design of biological observations and experiments. Topics covered include measurement, sampling, descriptive statistics, analysis of variance, correlation, regression, and analysis of frequencies. Two-hour lecture; three-hour lab.

### 240 Macromolecular Structure and Function ................................................................. 3 cr
Prereq: BIOS 101, 102, 210; CHEM 322 or concurrent registration. Freq: Occasionally.
Introduction to eukaryotic cellular structures and biosynthesis; reaction mechanisms in biological catalysis; and principles of macromolecular structure. Three-hour lecture.

### 260 General Genetics ................................................................. 4 cr
Prereq: BIOS 101, 102, 210 or concurrent registration and CHEM 102. Freq: Fall, Spring.
Fundamental principles including transmission, molecular and population genetics. Laboratory introduces techniques appropriate for investigating a variety of organisms used in the discipline, including microorganisms, plants, lower animals, and humans. For students majoring in science, mathematics or biology-related professions. Three-hour lecture; three-hour lab.

### 290 Special Topics in Biological Sciences ................................................................. 1-4 cr
Prereq: Varies with topic. Freq: Occasionally.
Selected topics in the biological sciences.

### 300 Functional Human Anatomy Laboratory ................................................................. 3 cr
Prereq: BIOS 101 and 102 or consent of instructor. Freq: Fall, Spring.
Fundamental study of organization and structure of tissues, organs and systems of the human body and their relationship to function. Two, three-hour labs.

### 301 Cell Biology ................................................................. 3 cr
Prereq: BIOS 260, and CHEM 322, or consent of instructor. Freq: Spring.
A study of cells and cellular organelles. The relationship between cellular and macromolecular structure and function is emphasized. Three-hour lecture and one-hour discussion.

### 303 Microbiology ................................................................. 4 cr
Prereq: BIOS 101, 102, and CHEM 322 or concurrent registration. Freq: Spring.
Advanced treatment of the structure, growth and activities of microorganisms including medical microbiology, microbial pathogenesis and environmental microbiology. Three-hour lecture; three-hour lab.
305 Principles of Ecology ................................................. 4 cr
Prereq: BIOS 101, 102; Freq: Spring (odd years).
An introduction to the relations of plants and animals to their organic
and inorganic environments, with an emphasis on the phenomena
and causes of distribution and abundance at the population and
community levels. Includes a field-oriented laboratory. Three-hour
lecture; three-hour lab; field trips.

307 Biochemical Metabolism ......................................... 3 cr
Prereq: BIOS 101, 102 and CHEM 322 or consent of instructor.
Freq: Fall.
A study of the chemistry of biological systems with emphasis on
metabolism and macromolecular biosynthesis. Three-hour lecture.
Cross-listed with CHEM 307.

309 Molecular Biology ................................................ 3 cr
Prereq: BIOS 260, CHEM 322 or consent of instructor. Freq: Spring.
Regulation of DNA, RNA, and protein synthesis and the control
of the synthesis of other macromolecules. Three-hour lecture/ discussion.

312 Medical and Forensic Entomology ........................... 4 cr
Prereq: BIOS 101, 102 and 210; Freq: Fall (even years).
Ecology of human and insect interactions, their significance to
public health, and application to forensic science. Three-hour
lecture; three-hour lab.

313 Invertebrate Zoology ............................................. 4 cr
Prereq: BIOS 101, 102, and 210; Freq: Fall (odd years).
Ecology, classification and evolutionary relationships of nonchordate
animals. Field trips, experimental research. Three-hour lecture discussion;
three-hour lab.

314 Evolutionary Biology ........................................... 3 cr
Prereq: BIOS 101, 102, Bios 260. Freq: Spring (odd years).
An introduction to the basic mechanisms of evolutionary change
including population genetics and speciation, and a consideration of
evolutionary history including phylogenetic estimation, the fossil
record, and biogeography. Three-hour lecture.

317 Vertebrate Embryology ......................................... 3 cr
Prereq: BIOS 101, 102, 300; or consent of instructor. Freq: Occasionally.
Study of developmental anatomy and mechanisms of representative
vertebrate types from cleavage through organo-genesis. Three-hour
lecture.

318 Vertebrate Zoology ............................................... 4 cr
Prereq: BIOS 101, 102, or consent of instructor.
Freq: Fall (even years).
An introduction to the biology of vertebrates with emphasis on
structure, diversity, evolution, and distribution. Field trips. Three-hour
lecture; three-hour lab.

324 Botany .................................................................. 4 cr
Prereq: BIOS 101, 102. Freq: Spring (odd years).
Study of plants from the viewpoints of systematics, evolution,
morphology and ecology. Field trips. Three-hour lecture; three-hour lab.

325 Physiological Psychology .................................... 3 cr
Physiological relation of neurophysiological and neurochemical
processes to behavior. Three-hour lecture. Cross-listed with PSYC 325.

330 Topics in Field Biology ...................................... 3 cr
Prereq: BIOS 101, 102 or consent of instructor. Freq: Occasionally.
A field-oriented course including topics such as ecology of major
biomes, geographical and geological impact on organisms, aspects
of plant/animal systematics. The course will focus on selected areas
of interest in field biology. Field trips. Special fees required. One-
hour lecture.

333 Restoration Ecology ............................................ 3 cr
Provides a foundation in the science and practice of ecological
restoration. Students will learn to identify dominant species of
regional plant communities, threats to these communities and
techniques to manage and reestablish them. Students will develop
landscape and restoration plans for the 700+ acre UW-Parkside
campus and outlying properties. Three-hour lecture.

336 Conservation Biology .......................................... 3 cr
Prereq: BIOS 102 or BIOS 104, and BIOS 210. Freq: Occasionally.
An introduction to the biological and social aspects of conservation.
Includes a history of the conservation movement with emphasis
on modern techniques for monitoring and maintaining biological
diversity on the Earth. Course will focus on relating material to local
and regional conservation problems. Three-hour lecture.

340 Animal Behavior .................................................. 4 cr
Prereq: BIOS 210 or concurrent registration. Freq: Spring (even years).
Emphasis on the evolution and complexity of animal behaviors
based on a variety of animal species from invertebrates to mammals.
Three-hour lecture; three-hour lab.

341 Mammalian Physiology ........................................ 3 cr
Prereq: BIOS 210, CHEM 321, or consent of instructor.
BIOS 300 recommended. Freq: Fall.
Advanced treatment of major mammalian organ systems and their
roles in homeostasis. Three-hour lecture.

344 Plant Physiology .................................................. 3 cr
Prereq: BIOS 324 or consent of instructor. Freq: Occasionally.
Study of plant growth, development and nutrition from the
physiology point of view. The roles of plants in food production and
the environment will be included. Three-hour lecture.

351 Virology ............................................................ 3 cr
Prereq: BIOS 260, CHEM 321, or consent of instructor. Freq: Fall (odd years).
Presents a broad overview of viruses and other subcellular
infectious agents with respect to their molecular structure, diversity
of chemical composition, taxonomy, and strategies of infection and
replication. Bacteriophage, plant viruses and animal viruses will be
discussed. Special topics include biotechnological applications of
viruses; the remodeling of their hosts by bacteriophage, defense
against viral infection, and viruses and cancer.

353 Infectious Disease Epidemiology in History ............... 3 cr
Prereq: BIOS 101, 102; or BIOS 202. Freq: Spring (odd years).
Historical perspective of how infectious diseases have impacted
on the human population. Examines the history of medicine, the
evolution of scientific thought and the past and present social and
ethical viewpoints towards human infectious diseases.

355 Biology of Cancer ................................................ 3 cr
Prereq: BIOS 260, and CHEM 322 or concurrent registration.
Freq: Spring (even years).
A study of the genetic and molecular mechanisms underlying the
broad disease of cancer. Three-hour lecture/discussion.

390 Special Topics in Biological Sciences .................... 1-4 cr
Prereq: Varies with topic. Freq: Occasionally.
Selected topics in the biological sciences.

403 Applications in Aquatic and Public Health .............. 4 cr
Prereq: BIOS 203 and BIOS 303. Freq: Occasionally.
Develops practical knowledge and provides experience evaluating
microbial impact on aquatic environments and potential human health
risks. Eight-hour lecture/lab.
410 Cellular and Molecular Immunology .......................... 3 cr
Prereq: BIOS 260, 307, 309, and consent of instructor.
Freq: Occasionally.
The immune system and its analysis at the cellular and molecular level. Three-hour lecture.

414 Molecular Evolution ............................................. 3 cr
Prereq: BIOS 309 or 314, or consent of instructor.
Freq: Spring (even years).
The evolution of nucleic acids and proteins. Five major topics are considered in turn: genetic variability; the causes of molecular evolution and the neutral theory; methods of detecting genetic variability; the use of molecular markers for estimating phylogeny; and the evolution of genome structure. Three-hour lecture/discussion.

420 Neuroscience ....................................................... 3 cr
Prereq: BIOS 300, 341 or consent of instructor.
Freq: Occasionally.
This course emphasizes the neuroanatomy and the related neurophysiology of the human nervous system. Communication between the external environment and the central nervous system is presented using electrical and chemical methods of cell signaling systems, integration of sensory and motor function, and some of the pathology associated with the nervous system. Three-hour lecture; one-hour discussion.

435 Experimental Methods/Biochemistry Lab .................. 2 cr
Prereq: CHEM 322, and consent of instructor. Freq: Fall, Spring.
Familiarization with the use of scientific instruments and techniques, and developing proficiency in the process of scientific investigation. This is a capstone course intended for biological sciences majors who have completed all 200-level core courses. Cross-listed with CHEM 308. Four-hour lab.

453 Molecular Biology and Bioinformatics of Nucleic Acids ... 4 cr
Prereq: BIOS 260, 309, and consent of instructor. Freq: Fall.
Covers techniques and theory of nucleic acid isolation (DNA and RNA) and analysis including laboratory and computational methods. Includes common laboratory methods for isolating and characterizing nucleic acids. Eight-hour lecture/lab.

455 Protein Biochemistry and Bioinformatics ...................... 4 cr
Prereq: BIOS 260, 309, and consent of instructor. Freq: Spring.
Practical experience in protein expression, purification, and characterization with emphasis on enzymology and use of computer programming for development of relevant bioinformatics applications. Eight-hour lecture/lab.

470 Advanced Molecular Genetics ................................. 3 cr
Prereq: BIOS 260, 309, and consent of instructor.
Freq: Occasionally.
In-depth coverage of selected current research topics in the molecular genetics of genomes, genes and gene products. Three-hour lecture.

480 Bioinformatics Programming ................................... 4 cr
Prereq: BIOS 260, 309, and consent of instructor. Freq: Occasionally.
This course focuses on implementation of programming languages, data structures, and data management strategies for bioinformatics applications. Lectures and computer-based exercises emphasize both theory and analysis of genomic and proteomic data. Three-hour lecture; three-hour lab.

489 Molecular Biology and Bioinformatics Senior Project ...... 1 cr
Prereq: BIOS 453 and 455. Freq: Fall, Spring, Summer.
Students work independently on a project, applying skills and knowledge acquired from previous course work. Students submit a written report and give a public, oral presentation of their project. May be repeated for maximum of 2 credits.

490 Advanced Topics in Biology .................................... 1-4 cr
Prereq: Varies with topic. Freq: Occasionally.
Selected advanced topics in the biological sciences.

494 Internship in Biological Sciences ............................. 1-3 cr
Prereq: BIOS 210, 2.80 GPA, consent of instructor.
Freq: Fall, Spring, Summer.
Provides learning experiences in which a student works with a sponsoring organization in either the public or private sector under the joint guidance of a member of the sponsoring organization and a faculty member. Graded credit/no credit. A maximum of 3 credits of BIOS 494 may be used toward elective credit in the major.

495 Senior Seminar ..................................................... 1 cr
Prereq: Senior standing and consent of instructor.
Freq: Fall, Spring.
Each participant presents several seminars involving literature search, synthesis of research data, and organization into an effective oral presentation.

499 Independent Study .................................................. 1-3 cr
Prereq: Consent of instructor and department chair. Junior standing and minimum 2.80 GPA in BIOS courses recommended. Freq: Fall, Spring, Summer.
Student research performed under the supervision of a regular faculty member. A maximum of 3 credits may be used toward elective credit in the major.
BUSINESS MANAGEMENT

Degrees Offered:
Bachelor of Science, Master of Business Administration (see graduate degree section of this catalog).

Majors:
Business Management, Management Information Systems.

Professors:
Chalasani, Ph.D.; Ebeid, Ph.D.; Hawk, Ph.D.; Norton, Ph.D.; Rajan, Ph.D.; Wang, Ph.D.; Wright, Ph.D.

Associate Professors:

Assistant Professors:
Dhumal, Ph.D.; Knight, Ph.D.; Kuruvilla, Ph.D.; Li, Ph.D.;

Senior Lecturer:
Holmberg-Wright, Ed.D.

Lecturers:
Cholak, M.B.A., J.D., C.P.A.; Gillespie, M.B.A.; Determan, M.S., C.P.A.

Professional Accreditations or Memberships:
The bachelor of science in business management and management information systems, and the master of business administration programs are accredited by AACSB International – the Association to Advance Collegiate Schools of Business. Fewer than 5 percent of business programs globally and less than 30 percent in the United States meet the rigorous standards of quality set by AACSB International.

Career Possibilities:
Career opportunities include information systems analyst, computer programmer, project manager, product manager, market research analyst, accountant, cost analyst, financial analyst, recruiter, training specialist, and personnel generalist.

Business Honors:
Students who major in business management or management information systems and who maintain a GPA of 3.5 or greater in all upper-level business management course work and an overall GPA of 3.0 or better will be graduated with honors.

Beta Gamma Sigma is the honor society serving business programs accredited by AACSB International. Beta Gamma Sigma faculty members invite qualified business students for membership based on academic excellence.

Department of Business Overview

Faculty members in the Business Department are dedicated to providing students with quality instruction relevant to situations encountered in the changing world of business. Students can major in business management or management information systems (MIS). Students who major in business management will pursue a concentration in accounting, finance, general business, human resource management, or marketing. Both majors develop business skills through exposure to accounting, finance, marketing, personnel administration, organizational behavior, MIS, and production management. Communication skills, quantitative techniques, leadership, teamwork, and computer technology are stressed throughout the curricula. In addition, students explore ethical considerations of business decisions and gain an understanding of multinational and multicultural aspects relevant to today's business world. Many students apply their class knowledge through internships or through community projects sponsored by the Ralph Jaeschke Solutions for Economic Growth (SEG) Center. The department also offers minors in business management and management information systems, as well as certificates in entrepreneurship, project management and sales.

Solutions for Economic Growth (SEG) Center

The Ralph Jaeschke Solutions for Economic Growth (SEG) Center is a partnership between business and computer science faculty, students, and local businesses. Students in the SEG Center apply and develop their skills by working on real-world business projects in the community. Projects include business plan development, marketing research, promotions plan development, the analysis of production processes, cost evaluation, inventory planning, recruitment and retention of employees, web page design, network planning, and software development. Students working in the SEG Center have access to a modern computer lab and project meeting rooms.

Preparation for Graduate School

Undergraduate study in business management or management information systems provides excellent preparation for further graduate work in business as well as graduate study in a variety of areas including computer sciences, economics, hospital administration, industrial relations, law, and urban planning.
Business Management Careers

Students majoring in business management are prepared for a variety of business careers. All students receive a foundation in the various functional areas of business. These students also select a particular area of business as a concentration; focusing their study in accounting, finance, human resource management, marketing, or general business.

Declaring a Major in Business Management or Management Information Systems

Students must submit a formal application to the Advising and Career Center (Wyllie Hall 107) or the Business Department Office (Molinaro Hall 344). Students will be classified as a declared major, and will be notified of this by letter from the department. Majors will be assigned a faculty adviser from the Business Department.

Transfer students who have an interest in pursuing a business degree should meet with the School of Business and Technology (SBT) academic adviser (Molinaro Hall 355) as early as possible to go over the transfer course evaluation and prerequisites.

Graduation and Course Requirements for the Business Management Major (64-76 credits)

The business management curriculum at UW-Parkside is rigorous and extensive. It is imperative that students acquire a solid foundation of preparatory courses before commitment to a business management major. Students who are planning to enter the undergraduate program in business management are encouraged to declare their major early, so they may be assigned an appropriate faculty adviser.

Graduation Requirements

A. Completion of 120 credits including general university requirements. A minimum of 57 credits of the total 120 credits required to graduate must be in areas other than business and upper-level economics. Speech 105, Math 112, English 201, 202 or 204, Economics 120 and 121 may count in this amount. Re-consideration of this policy will be given to students who enter UW-Parkside with advanced standing (e.g. foreign language, placement into college or advanced English or math classes, etc.).

B. Completion of requirements of the Business Department as outlined below. Students must meet all requirements for the major in effect at the time of admission into the business management or MIS major.

C. Students must obtain a grade of C or better in each of the courses under “Fundamental Preparation Courses” and “Business Preparation Courses” as listed in the section on course requirements.

D. An overall GPA of 2.00 or higher and a 2.50 GPA or higher in the upper-level business courses (including any transfer courses).

Course Requirements

The following requirements for a degree in business management are in addition to the university general education requirements.

A. Fundamental Preparation Courses (16 cr)

Note: A minimum grade of C or better is required in each course below. C- is not acceptable.

- ECON 120 Principles of Microeconomics ............ 3 cr
- ECON 121 Principles of Macroeconomics ............ 3 cr
- MATH 112 College Algebra II ...................... 4 cr
- COMM 105 Public Speaking .......................... 3 cr
- Advanced Writing (3 cr) – select one from:
  - ENGL 201 Advanced Composition .................. 3 cr
  - ENGL 202 Technical Writing ........................ 3 cr
  - ENGL 204 Writing for Business and Industry ...... 3 cr

B. Business Preparation Courses (15 cr)

Note: A minimum grade of C or better is required in each course below. C- is not acceptable.

- ACCT 201 Financial Accounting ..................... 3 cr
- ACCT 202 Managerial Accounting .................... 3 cr
- BUS 272 Legal Environment of Business ............ 3 cr
- QM 210 Business Statistics I .......................... 3 cr
- QM 310 Business Statistics II .......................... 3 cr

Requirements to take 300-400 level business courses:

- Completion of 54 credits,
- Minimum overall GPA of 2.00 (calculated with and without transfer grades),
- Be within 12 or fewer credits of completing general education requirements, AND
- Complete with a C or better (C-minus is not acceptable) the following courses: ACCT 201, BUS 272, COMM 105, ECON 120, ECON 121, MATH 112, QM 210.

C. Business Foundation Core (18-21 cr)

- QM 319 Operations Management .................... 3 cr
- MIS 320 Management Information Systems ......... 3 cr
- FIN 330 Managerial Finance .......................... 3 cr
- MGT 349 Organizational Behavior .................... 3 cr
- MKT 350 Marketing Principles ......................... 3 cr
- BUS 495 Strategic Management ...................... 3 cr
- HRM 343 Human Resource Management* .......... 3 cr

  * HRM 343 is a requirement for concentrations in general business and human resource management. It is not a requirement for accounting, finance, and marketing.

D. Professional Areas of Study

Business management students must choose from among five concentrations for their advanced area of study. Students may choose more than one concentration. Advanced course work in the professional area should be taken after the student has completed most of the business foundation core courses. However, due to the sequence of course offerings, students may wish to begin advanced work in their professional areas...
prior to completing the entire core program. Students are encouraged to check with their faculty adviser on the scheduling of advanced course work.

Accounting (24 cr)

Finance (15 cr)
Required courses: FIN 335, 336, 431
Choose two courses from: FIN 435, 437, ACCT 301.

General Business (15 cr)
In addition to the business foundation core courses, 15 additional credits from 300- or 400-level business courses, with no more than two courses or 6 credits in any business area. The combined credits for BUS 494 Internship and BUS 499 Independent Study across all business disciplines cannot exceed 6 credits.

Human Resource Management (15 cr)
Required course: HRM 343
Choose two courses from: HRM 441, 442, or 444.

Students who choose to take HRM 441, 442, and 444 may count one of them as an elective. (Non-business electives may not be used toward the general business concentration.)

Marketing (18 cr)
Required courses: MKT 354, 355, 358, 452 and 455;
Choose one course from MKT 356, MKT 457, MKT 458, MKT 459, MKT 490, BUS 453, BUS 454.

Information Technology Practice Center:
Students in the MIS major have an opportunity to participate in the Information Technology Practice Center (ITPC). The ITPC, a specialty center within the SEG Center, is a partnership between UW-Parkside faculty, students, and IT professionals from industry. Students in the ITPC develop IT solutions for businesses and not-for-profit clients. Students have access to a state-of-the-art lab and meeting rooms designed to support the projects.

Course Requirements
The following requirements for a degree in MIS are in addition to the university general education requirements.

A. Fundamental Preparation Courses (16 cr)
Note: A minimum grade of C or better is required in each of the courses below. C- is not acceptable.

  - ECON 120  Principles of Microeconomics .............. 3 cr
  - ECON 121  Principles of Macroeconomics .............. 3 cr
  - MATH 112  College Algebra II ............................ 3 cr
  - COMM 105  Public Speaking .............................. 3 cr

Advanced Writing (3 cr) – select one from:

  - ENGL 201  Advanced Composition ..................... 3 cr
  - ENGL 202  Technical Writing ............................ 3 cr
  - ENGL 204  Writing for Business and Industry ........ 3 cr

B. Business Preparation Courses (15 cr)
Note: A minimum grade of C or better is required in each of the courses below. C- is not acceptable.

  - ACCT 201  Financial Accounting ....................... 3 cr
  - ACCT 202  Managerial Accounting ...................... 3 cr
  - BUS 272  Legal Environment of Business ............ 3 cr
  - QM 210  Business Statistics I .......................... 3 cr
  - QM 310  Business Statistics II .......................... 3 cr

Requirements to take 300-400 level business courses:

  - Completion of 54 credits,
  - Minimum overall GPA of 2.00 (calculated with and without transfer grades),
  - Be within 12 or fewer credits of completing general education requirements, AND
  - Complete with a C or better (C-minus is not acceptable) the following courses: ACCT 201, BUS 272, COMM 105, ECON 120, ECON 121, MATH 112, QM 210.

C. Business Foundation Core (15 cr)

  - QM 319  Operations Management ....................... 3 cr
  - FIN 330  Managerial Finance ........................... 3 cr
  - MGT 349  Organizational Behavior ..................... 3 cr
  - MKT 350  Marketing Principles ......................... 3 cr
  - BUS 495  Strategic Management ......................... 3 cr

D. MIS Foundation Core (21 cr)

  - MIS 220  Information Technology Foundations .. 3 cr
  - MIS 221  Business Programming ....................... 3 cr
  - MIS 322  Business Programming II ..................... 3 cr
  - MIS 327  Business Data Communication ............... 3 cr
E. MIS Electives (6 cr)

Choose one or two courses from: MIS 422, MIS 424, MIS 426, MIS 429, PGMT 341, PGMT 441.

Choose no more than one course from: MIS 494, CSCI 322, CSCI 340, CSCI 375, CSCI 478.

Transfer Policies

Transfer students may fulfill some of the requirements for the business management or the management information systems major at UW-Parkside by substituting courses taken elsewhere (check with the SBT academic adviser - Molinaro Hall 355). However, all students must complete at UW-Parkside at least 50 percent of the total business credits required for the bachelor of science degree in business management or management information systems. The total business credits include the business preparation courses, the business foundation core courses, and the concentration courses. No more than 50 percent of the required credits for a concentration may be transferred. Only courses with a grade of C or better will be accepted (C-minus is not acceptable).

Only junior/senior level courses in business from regionally accredited four-year colleges or universities are eligible to be transferred for any 300 - 400 level course in business. Students should work with the SBT academic adviser. Any such transfer credit should be approved by the associate dean.

Requirements for the Business Management Minor (31 credits)

The minor consists of 21 credits in business courses and 10 credits in non-business fundamental preparation courses. For students who are planning on pursuing a M.B.A. at UW-Parkside completion of the business minor can fulfill the M.B.A. foundation courses.

To declare a minor in business, students must submit an application to the Advising and Career Center (Wyllie Hall 107) or the Business Department office (Molinaro Hall 344).

* Students who are taking the business minor to fulfill the foundation requirements for UW Parkside’s M.B.A. program must take QM 319.

To graduate with a business management minor, a student must:

A. Complete the required program of courses outlined above.
B. Complete with a C or better (C-minus is not acceptable) all of the fundamental preparation and business preparation courses.
C. Earn a minimum overall GPA of 2.00 (including any transfer credits) and a minimum GPA of 2.50 in the business foundation core.

Requirements for the Management Information Systems Minor (15-16 credits)

The MIS minor consists of a sequence of courses that impart fundamental knowledge and skills in the MIS field. Although not as in-depth as the MIS major, the MIS minor should provide a useful complement to many majors.

The MIS minor requires 15-16 credits divided into the following categories: business requirement, programming requirement, and MIS requirements.

To declare a minor in MIS, students must submit an application to the Advising and Career Center (Wyllie Hall 107) or the Business Department office (Molinaro Hall 344).

A. Business Requirement. Select one of the following (3 cr)

<table>
<thead>
<tr>
<th>Course</th>
<th>Description</th>

</tbody>
</table>

To graduate with a MIS minor, a student must:

A. Complete the required program of courses outlined above.
B. Earn a minimum overall GPA of 2.00 (including any transfer credits) and a minimum GPA of 2.50 in the courses outlined above.
Requirements for the Entrepreneurship Certificate (12 credits)

The certificate program in entrepreneurship offers students interested in owning or managing a small business or new venture both practical and theoretical training in the process of a business start-up, including self-assessment, opportunity recognition, feasibility assessment, creating a values-based business, writing a business plan, learning to manage and lead the growing new venture, and hands-on experience with existing new ventures. The certificate is designed for students who have already started a business as well as those who are interested in starting one in the future. The certificate program in entrepreneurship helps students to develop tools and understanding that will help them be successful whether in their own new ventures, working in their family’s business, or working for an entrepreneurial firm. The truly distinctive feature of this program is the focus on socially responsible entrepreneurship and community-based-learning.

It is available to undergraduate business and non-business majors as well as non-degree-seeking students and consists of the following courses (cumulative GPA of 2.00 required):

Non-Business Students

Non-business students may enroll in any 100- or 200-level business course if they meet the individual course prerequisites. To enroll in 300- or 400-level business courses, students must have junior or senior standing (completed a minimum of 54 credits), meet the course prerequisites, and have a minimum overall GPA of 2.00 (calculated with and without transfer grades). Students will need to get a permission number from the course instructor in order to register for an upper-level business course.

Independent Study Guidelines

The purpose of independent study is to provide qualified students an opportunity to conduct directed research on a business topic or issue of interest to the student. Such research is done under the supervision of a faculty member, but will be primarily student planned and conducted. Independent studies are intended to provide an opportunity for the student to enhance their academic experience; they are not intended to substitute for existing courses.

Requirements:

Students must have at least junior status (54 credits) and must have completed at least 50 percent of the upper-level business foundation core curriculum.

Independent study projects may range from 1 to 3 credits.

Grades received for independent study will count toward the computation of the major and the overall GPA.

A student can apply a maximum of 6 independent study credits toward graduation requirements. The combined
credits for internships and independent studies across all business disciplines cannot exceed 6 credits. Other rules may apply to specific concentrations. Please refer to the course catalog for further information.

The student and the supervising faculty member must agree, in writing, on the nature of the project, the parameters, and the timeframe.

The student must submit the Permit to Register for Independent Study, with all required signatures, in accordance with UW-Parkside policies.

In general, a student cannot receive Independent Study credit for work that is essentially the same as an existing course.

**Internship Guidelines**

Internships provide opportunities for Business Management & MIS majors to apply classroom knowledge in a work setting. Internships are offered for credit in all concentration areas at the 400 level, and may be paid or unpaid. A student who wishes to complete an internship must provide a description of the work or project to be completed on the employer’s letterhead. An agreement must be signed by the student, the faculty supervisor, the department chair, and the site supervisor. Internships are graded as either C (credit) or NC (no credit). In order to receive credit, the student must (i) complete the appropriate number of work hours, (ii) provide a written performance evaluation from the internship supervisor, and (iii) complete one or more items of the following documentation (as determined by the faculty supervisor): regular status reports on the work performed, summary paper on internship experience, and/or other written documents prepared by the student related to the internship.

**Requirements:**

Internships can range from 1-3 credits, with 50 hours of internship work required for every 1 credit. Students must have at least junior status (completion of 54 credit hours) and must have satisfactorily completed at least one upper-division business foundation core course in the area. There may be specific requirements in certain areas; please check the catalog for specific 494 courses.

Students must have at least junior status (completion of 54 credit hours) and must have satisfactorily completed at least one upper-division business foundation core course in the area. There may be specific requirements in certain areas; please check the catalog for specific 494 courses.

Students must complete the Permission to Register for Internship form, along with supporting documentation and all relevant signatures, as per UW-Parkside policies.

Students must normally complete the work during the semester in which the credit is taken. If the work runs beyond the semester for which the student is registered, a grade of Incomplete may be assigned pending completion of the work during the following semester.

The internship supervisor must complete and submit the ‘internship evaluation’ form from the department.

A maximum of six internship credits may be counted toward graduation requirements. The combined credits for internships and independent studies across all business disciplines cannot exceed 6 credits. Other specific rules may apply to other concentrations. Please refer to the course catalog for further information.

**Business Department Policies and Procedures**

1. All students must have a minimum overall GPA of 2.00 (calculated with and without transfer grades), have junior status (54 credits), and must have satisfactorily completed the pre-business curriculum to enroll in any 300- or 400-level business course.

2. All students must have completed the stated prerequisites to enroll in any business course. Both the instructor and department chair must approve any deviation from this policy.

3. Students with a business major who have not completed a course at UW-Parkside for 12 consecutive months will be dropped as a major. Once dropped, a student must reapply for major status and will be required to follow all requirements in effect at the time of re-admittance.

4. All students must complete their degree program within 10 years of completing their first 300-level business course.

5. Students are required to have a minimum overall GPA of 2.00 to be accepted as a business management or management information systems major.

6. All students are required to meet with their adviser prior to registration each semester.

7. The final responsibility in selection of courses and the fulfillment of all graduation requirements rests with the student.

8. Students who feel that exceptional circumstances beyond their control justify an exception to any policy or procedure of the Business Department may submit a formal appeal to the Undergraduate Committee of the department. Appeal procedures are available in the Business Department office (Molinaro Hall 344).

**Courses in Business**

**ACCOUNTING (ACCT)**

**201 Financial Accounting**

Prereq: MATH 111, Microsoft Excel knowledge. Freq: Fall, Spring. An introduction to financial accounting emphasizing basic concepts and procedures in accumulating, measuring, and communicating financial information. Includes preparation, analysis, and interpretation of financial statements. 3 cr

**202 Managerial Accounting**

Prereq: ACCT 201, OM 210, ECON 120, Microsoft Excel knowledge. Freq: Fall, Spring. Identifies relevant accounting and financial information for managerial decisions. Analyzes product costing, pricing, capital budgeting, profit planning, performance reporting, and variance analysis. 3 cr

**204 Accounting for Non-Business Majors**

Prereq: Completion math comp or equivalent. Freq: Occasionally. Emphasizes understanding and use of accounting information in making decisions. Covers financial planning and budgets, analysis of financial statements, analysis and control of costs, profit and productivity analyses. Not available to business majors for credit. 3 cr
301 Intermediate Accounting I ........................................ 3 cr
Prereq: ACCT 201, RN 330 or concurrent registration. Freq: Fall.
Study of income statement and balance sheet with in-depth study of
accounting for assets, liabilities, and owners’ equity.

302 Intermediate Accounting II ................................. 3 cr
Prereq: ACCT 301. Freq: Spring.
Study of accounting for pensions, leases, income taxes, changing
prices, as well as the statement of cash flows, revenue recognition,
and accounting changes and error analysis.

305 Individual Taxation ............................................ 3 cr
Prereq: ACCT 201. Freq: Fall.
Examination of the U.S. federal income tax law pertaining to
individuals, including business and investment activities.

306 Business Taxation ............................................. 3 cr
Prereq: ACCT 305. Freq: Spring.
Examination of U.S. federal income tax law pertaining to
corporations, partnerships, estates, and trusts.

400 Advanced Accounting ......................................... 3 cr
Prereq: ACCT 302. Freq: Fall.
Application of accounting principles and procedures to business
combinations, foreign operations and transactions, governmental
and nonprofit organizations, and partnerships.

401 Accounting Theory ............................................. 3 cr
History and development of accounting theory; in-depth analysis of
selected contemporary issues and formulation of accounting theory
as related to generally accepted accounting principles.

402 Accounting Systems ........................................... 3 cr
Planning, design and examination of both manual and computer-
based accounting information systems, with particular emphasis on
internal control requirements.

403 Advanced Cost Accounting .................................. 3 cr
Prereq: ACCT 202. Freq: Fall.
Cost information for management planning and control. Capital
budgeting, project appraisal, marketing cost effectiveness, segment
reporting, transfer pricing, measuring divisional performance, and
profit analysis.

404 Auditing ......................................................... 3 cr
Prereq: ACCT 302, MIS 320. Freq: Spring.
Study of auditing of financial statements and internal control.
Emphasizes include AICPA standards, audit reports, audit evidence
including sampling, EDI auditing, professional ethics, and
accountant’s legal liability.

405 Volunteer Income Tax Assistance (VITA) ............. 1 cr
Prereq: ACCT 305. Freq: Spring.
VITA is a volunteer program administered by the Internal Revenue
Service. Students will prepare income tax returns and provide
other tax assistance for low-income, elderly, and other individuals
requiring income tax assistance at public sites in the Racine and
Kenosha area. Credit/no-credit grading basis.

490 Special Topics in Accounting ............................... 1-3 cr
Prereq: Dependent on subject matter. Freq: Occasionally.
Selected topics in accounting. Subject varies; see current course
schedule.

494 Internship in Accounting .................................... 1-3 cr
Prereq: As provided in guidelines and policies available in Business
Department; consent of instructor; department chair approval.
Freq: Fall, Spring, Summer.
Designed to provide actual or quasi on-the-job learning experiences
in which a student works with a single sponsoring organization in
either the public or private sector under the supervision of a faculty
member. Credit/no-credit grading basis.

499 Independent Study in Accounting ......................... 1-3 cr
Prereq: As provided in guidelines and policies available in Business
Department; consent of instructor; department chair approval.
Freq: Fall, Spring, Summer.
Designed to provide qualified students with an opportunity to conduct
research projects in an appropriate area of accounting under the
supervision of a faculty member. Six hours credit maximum.

BUSINESS (BUS)

100 Introduction to Business ..................................... 3 cr
Prereq: None. Freq: Fall, Spring.
An introduction to the role of business in modern society; the
functional areas of the business enterprises. Not open to juniors
and seniors majoring in business.

272 Legal Environment of Business ........................... 3 cr
Prereq: None. Freq: Fall, Spring.
The legal and ethical environment in which business operates, with
emphasis on government regulation.

372 Business Law .................................................. 3 cr
Prereq: BUS 272. Freq: Spring.
A study of the substantive areas of law relating to business
including contracts, the Uniform Commercial Code, and business
organizations.

453 Retail Management .......................................... 3 cr
Prereq: MGMT 349, MKT 350. Freq: Fall (odd years).
Management practices specific to the retail industry relative to
environment, strategy, location, customers, merchandise
management (supply chain, pricing, IMC), store design, human
resources, information systems, and laws and ethics.

454 Service Management .......................................... 3 cr
Prereq: MGMT 349, MKT 350. Freq: Fall (even years).
The design (processes, technology, and location) and management
(customer service, capacity, and demand queues) of service
businesses. Quantitative tools included.

471 International Business ...................................... 3 cr
Prereq: ECON 121, MKT 350, MGMT 349. Freq: Occasionally.
Global challenges and potential solutions for businesses and other
organizations with international operations will be explored. All
functional areas will be considered, including general management,
marketing, and human resources.

490 Special Topics in Business Management ................. 1-3 cr
Prereq: Dependent on subject matter. Freq: Occasionally.
Selected topics in business management. Subject varies; see
current course schedule.

494 Internship in Business ........................................ 1-3 cr
Prereq: As provided in guidelines and policies available in Business
Department; consent of instructor; department chair approval.
Freq: Fall, Spring, Summer.
Designed to provide actual or quasi on-the-job learning experiences
in which a student works with a single sponsoring organization in
either the public or private sector under the supervision of a faculty
member. Credit/no-credit grading basis.
495 Strategic Management................................. 3 cr
Prereq: Senior standing; FIN 330, MKT 350, MGT 349.
Freq: Fall, Spring.
The capstone course focuses on strategic management as a
critical function and responsibility of general managers. Individual
and group case analyses and presentations provide experience
in the ability to manage the process by which an organization
continuously formulates, implements, and evaluates its strategic
options. Encompasses all functional areas of an organization
including marketing, finance, accounting, human resources, and
management information systems. Critical skills will be developed
in analyzing organizations, their competitive environments, and
strategic alternatives.

499 Independent Study in Business Management........1-3 cr
Prereq: As provided in guidelines and policies available in Business
Department; consent of instructor; department chair approval.
Freq: Fall, Spring, Summer.
Designed to provide qualified students with an opportunity to
conduct research projects in an appropriate area of business under
the supervision of a faculty member. Six hours credit maximum.

ENTREPRENEURSHIP (ENTR)
250 Entrepreneurial Principles............................ 3 cr
Prereq: Sophomore standing; BUS 100 or other business course
or concurrent registration. Freq: Fall.
Covers the principles and key concepts of entrepreneurship,
focusing on self-assessment, opportunity recognition, innovation
and creativity, and the various functions involved in starting a
venture.

350 Entrepreneurial Leadership............................ 3 cr
Prereq: Sophomore standing; BUS 100 or other business course;
ENTR 250 or concurrent registration. Freq: Yearly.
Covers the theory and application of leadership principles to
entrepreneurship, integrating a community-based service-learning
project, guest speaker presentations, and on-site visits to new
ventures and regional resource centers.

400 Entrepreneurial Strategy............................... 3 cr
A “Capstone course” that requires creating a business plan. The
course is functionally integrative, using case studies that incorporate
the many functions involved in new ventures.

450 Entrepreneurial Projects............................... 3 cr
A comprehensive financial markets trading simulation provides
experience in the theory and practice of securities trading and
portfolio management.

FINANCE (FIN)
234 Personal Financial Planning.......................... 3 cr
Prereq: Computational skills req or equivalent. Freq: Fall, Spring.
Analysis of economic factors and personal decisions that affect the
individual’s financial well-being; topics include financial planning,
money management, investments, consumer borrowing, insurance,
and retirement and estate planning. Course cannot be used as a
finance or general business concentration elective.

330 Managerial Finance..................................... 3 cr
Prereq: ACCT 201, QM 210 or MATH 309, ECON 121.
Freq: Fall, Spring.
Introduction to concepts and practices of managerial finance, time
value of money, bond and stock valuation, financial statements,
capital budgeting, and cost of capital.

335 Investments............................................. 3 cr
Prereq: QM 310, FIN 330. Freq: Fall.
Introduction to securities markets and various investment
instruments; topics include organization and operation of global
securities markets, risk and return analysis, asset allocation, and
efficient markets.

336 Management of Financial Institutions............... 3 cr
Prereq: QM 310, FIN 330 or concurrent registration. Freq: Spring.
Examines the structure and operation of financial institutions including
commercial banks, thrifts, credit unions, insurance companies,
savings and investment banks, finance companies, mutual
funds, and pension funds. Covers the techniques used to analyze
and manage risks of financial institutions.

341 Advanced Managerial Finance........................ 3 cr
Prereq: QM 310, FIN 330. Freq: Fall.
In-depth analysis of topics in managerial finance, lease financing,
capital structure and valuation, dividend policy, business expansion
and contraction, and international finance.

345 Security Analysis and Portfolio Management......... 3 cr
Prereq: FIN 335. Freq: Spring.
An advanced course in investments with an emphasis on developing
skills for appraising the value of equities and fixed-income securities;
a comprehensive financial markets trading simulation provides
experience in the theory and practice of securities trading and
portfolio management.

347 International Financial Management.................. 3 cr
Prereq: FIN 330. Freq: Spring.
Acquaints students with the role of financial management in a
multinational corporation context. Introduces concepts of foreign
exchange rates, foreign exchange risk, hedging, and long-term
aspects of multinational financial management.

490 Special Topics in Finance.............................1-3 cr
Prereq: Dependent on subject matter. Freq: Occasionally.
Selected topics in finance. Subject varies; see current course
schedule.

494 Internship in Finance..................................1-3 cr
Prereq: As provided in guidelines and policies available in Business
Department; consent of instructor; department chair approval.
Freq: Fall, Spring, Summer.
Selected topics in finance. Subject varies; see current course
schedule.

499 Independent Study in Finance.........................1-3 cr
Prereq: As provided in guidelines and policies available in Business
Department; consent of instructor; department chair approval.
Freq: Fall, Spring, Summer.
Designed to provide qualified students with an opportunity to
conduct research projects in an appropriate area of finance under
the supervision of a faculty member. Six hours credit maximum.

HUMAN RESOURCE MANAGEMENT (HRM)
343 Human Resource Management..........................3 cr
Prereq: Junior or senior standing. Freq: Fall, Spring.
Covers the major functions of a human resource management
system; acquiring, developing, rewarding, and maintaining
employees; emphasis on effective, ethical, and legal HR practices.

441 Staffing Organizations.................................3 cr
Advanced course on planning for, recruiting, selecting and
retaining an organization's labor force, in the context of the staffing
environment (e.g., laws and regulations) and using necessary tools
(e.g., statistical measurement). SEG or CBL project component
expected.
442 Improving Employee Performance ................................. 3 cr
Prereq: HRM 343, MGT 349. Freq: Fall.
Advanced course on managing employees to maximize job performance, including employee training and development, and performance management. A systems approach to design, implementation, and evaluation will be applied to the processes. SEG or CBL project component expected.

444 Compensation and Benefits ........................................ 3 cr
Prereq: HRM 343. Freq: Fall.
Administration of direct and indirect compensation systems. Policies, procedures, and legislation relating to individual, group, and organizational base pay and incentives. Design, financing, and administration of benefit plans.

490 Special Topics in Human Resource Management .............. 1-3 cr
Prereq: Dependent on subject matter. Freq: Occasionally.
Selected topics in human resource management. Subject varies; see current course schedule.

494 Internship in Human Resource Management .................. 1-3 cr
Prereq: As provided in guidelines and policies available in Business Department; consent of instructor; department chair approval. Freq: Fall, Spring, Summer.
Designed to provide actual or quasi on-the-job learning experiences in which a student works with a single sponsoring organization in either the public or private sector under the supervision of a faculty member. Credit/no-credit grading basis.

499 Independent Study in Human Resource Management ......... 1-3 cr
Prereq: As provided in guidelines and policies available in Business Department; consent of instructor; department chair approval. Freq: Fall, Spring, Summer.
Designed to provide qualified students with an opportunity to conduct research projects in an appropriate area of human resource management under the supervision of a faculty member. Six hours credit maximum.

MANAGEMENT (MGT)

349 Organizational Behavior ............................................. 3 cr
Prereq: Junior or senior standing. Freq: Fall, Spring.
An introduction to individual and group behavior in organizations and to organizational theory. Topics include motivation, communication, stress, leadership decision-making, organizational processes and structures, and interactions between organizations and external environments.

446 Global Issues in Management ..................................... 3 cr
Prereq: ECON 121. Freq: Spring.
Study of cross-cultural approaches and strategies to effectively manage workers in and from different countries and regions of the world. The course entails in-depth study of global management skills, the impact of advancing technology, complex workplace changes, economic transformations, different cultural contexts, the world economy, and global marketplace.

447 Management Techniques .......................................... 3 cr
Prereq: MGT 349. Freq: Occasionally.
Development of the fundamental skills essential to effective management. Role-playing, experiential exercises, case analysis and applied projects provide opportunity for practice and application in areas including time management, problem solving, communication, influence, motivation, rewards, delegation, and conflict resolution.

490 Special Topics in Management ................................. 1-3 cr
Prereq: Dependent on subject matter. Freq: Occasionally.
Selected topics in management. Subject varies; see current course schedule.

494 Internship in Management ........................................ 1-3 cr
Prereq: As provided in guidelines and policies available in Business Department; consent of instructor; department chair approval. Freq: Fall, Spring, Summer.
Designed to provide actual or quasi on-the-job learning experiences in which a student works with a single sponsoring organization in either the public or private sector under the supervision of a faculty member. Credit/no-credit grading basis.

499 Independent Study in Management ................................ 1-3 cr
Prereq: As provided in guidelines and policies available in Business Department; consent of instructor; department chair approval. Freq: Fall, Spring, Summer.
Designed to provide qualified students with an opportunity to conduct research projects in an appropriate area of management under the supervision of a faculty member. Six hours credit maximum.

MANAGEMENT INFORMATION SYSTEMS (MIS)

220 Information Technology Foundations ............................ 3 cr
Prereq: Math 111. Freq: Spring.
Basic foundations in computer software, hardware, business applications, projects, and careers. Introduces project management and web page development including markup languages and style sheets.

221 Business Programming I .......................................... 3 cr
Prereq: Math 111. Freq: Fall, Spring.
Conceptual and practice-oriented approach to define a business problem, design and test solution logic, implement and code the logic through sound structured programming techniques to develop programs that are robust and easy to maintain.

290 Special Topics in Management Information Systems ....... 1-3 cr
Prereq: Dependent on subject matter. Freq: Occasionally.
Selected topics in management information systems; subject matter varies.

320 Management Information Systems .............................. 3 cr
Prereq: ACCT 201. Freq: Fall, Spring.
Use of the computer as a problem-solving tool, as part of data processing systems, management information systems, and decision support systems: information systems planning and development; overview of database management, networking and web technologies; project management. This course may be offered online.

322 Business Programming II .......................................... 3 cr
Prereq: MIS 221. Freq: Fall.
Introduction to object-oriented programming; covers the basics of creating classes, encapsulation, constructors, error handling, polymorphism, and inheritance; writing programs using classes and relational databases. This course may be offered online.

327 Business Data Communications .................................. 3 cr
Prereq: None. Freq: Fall.
Fundamental principles of data communications, analysis and design of computer communication networks ranging from LAN to global networks, state-of-the-art communication technology, network monitoring and management. This course may be offered online.

328 Database Management Systems ............................... 3 cr
Prereq: MIS 221. Freq: Fall.
Data modeling techniques including object-oriented modeling, database systems concepts, and use of structured query language for information processing, client/server architecture, distributed databases. This course may be offered online.

68 - Business Management 2011-2013
422 Internet Programming ...........................................3 cr
  Introduction to web-based application development using object-
  oriented programming languages; database connectivity, graphical
  user interfaces, event-driven software, and the development of
  server-side programs. This course may be offered online.

424 Advanced Business Data Communications ..................3 cr
  Prereq: MIS 327. Freq: Occasionally.
  Fundamentals of transmission protocols and network services;
  setting up and configuring network protocols, routing, security,
  and networking services such as name resolution and dynamic
  addressing; lab exercises and case studies. This course may be
  offered online.

425 System Analysis and Design ....................................3 cr
  Prereq: MIS 322, MIS 328. Freq: Spring.
  System development using the life cycle, rapid application
development, prototyping, software acquisition, structured and
object-oriented techniques and project management. This course
may be offered online.

426 Field Project .......................................................3 cr
  Prereq: Instructor consent. Freq: Occasionally.
  Planning, analysis, development of solution for an organization;
hands-on experience with executing all phases, including project
management and documentation, of an actual project sponsored
by an organization.

428 IS Planning and Project Management .........................3 cr
  Prereq: MIS 425 or concurrent registration. Freq: Spring.
  Management of Information Technology (IT), the Information
  Systems (IS) department, and IS projects from the perspective of IT
  management, the chief information officer, and upper management.
  This course may be offered online.

429 e-Business ..........................................................3 cr
  Prereq: Junior or senior standing. Freq: Occasionally.
  Overview of e-business including technologies, business-to-
  consumer (B2C) models, products and services; advertising;
  shopping cart systems; business-to-business (B2B) models;
technologies and XML; strategy, e-business global issues, software
  agents, and societal implications of e-business. This course may
  be offered online.

490 Special Topics in Management Information Systems .......1-3 cr
  Prereq: Dependent on subject matter. Freq: Occasionally.
  Selected topics in management information systems. Subject
  varies; see current course schedule.

494 Internship in Management Information Systems ............1-3 cr
  Prereq: As provided in guidelines and policies available in Business
  Department; consent of instructor; department chair approval.
  Freq: Fall, Spring, Summer.
  Designed to provide actual or quasi on-the-job learning experiences
  in which a student works with a single sponsoring organization in
  either the public or private sector under the supervision of a faculty
  member. Credit/no-credit grading basis.

499 Independent Study in Management Information Systems ........3 cr
  Prereq: As provided in guidelines and policies available in Business
  Department; consent of instructor; department chair approval.
  Freq: Fall, Spring, Summer.
  Designed to provide qualified students with an opportunity to
  conduct research projects in an appropriate area of management
  information systems under the supervision of a faculty member. Six
  hours credit maximum.

MARKETING (MKT)

350 Marketing Principles ............................................3 cr
  Prereq: ECON 120. Freq: Fall, Spring.
  An introduction to the general marketing process, which is involved in
  the distribution and exchange of goods and services. Product,
  pricing, promotion, distribution, and buyer behavior variables are
  surveyed within the context of market planning.

354 Marketing Research ...............................................3 cr
  Prereq: MKT 350, QM 310. Freq: Spring.
  Study of scientific procedures applicable to marketing research.
  Methodological considerations include defining information needs,
determining research design, collecting/analyzing data, and report
preparation. Case studies.

355 Buyer Behavior ....................................................3 cr
  Prereq: MKT 350. Freq: Fall.
  Theoretical and applied research and concepts in the buying decision
  processes in households, businesses, nonprofit and government
  organizations as these relate to development, implementation, and
  assessments of marketing strategies. Covers contributions from
  social and behavioral sciences as well as marketing.

356 International Marketing ..........................................3 cr
  Prereq: MKT 350. Freq: Spring (even years).
  Managing the marketing function in the global context will be
  studied, including increasingly competitive international market
  dynamics and environmental factors.

357 Multi-Cultural Marketing ......................................3 cr
  Prereq: MKT 350, QM 350. Freq: Spring. (Meets diversity Requirement)
  This course will review recent research and best practices related
  to marketing to various ethnic and sexual orientation groups,
examining both the largest "traditional" ethnic segments (Asian-
  American, African-American, and Hispanic-American) as well as the
  LGBTQ market and “multi-cultural market” in general to prepare
  students for marketing challenges in an increasingly dynamic
  market with rapidly changing tastes.

358 Promotions Management ........................................3 cr
  Analysis of the management of the firm’s promotional mix; study of
  techniques and strategies in the use of advertising, personal selling,
sales promotion, and public relations.

452 Product Management ............................................3 cr
  Prereq: MKT 350. Freq: Fall.
  A systematic approach to product planning, product development,
  and product management over time; examination of appropriate
  strategies for product review and monitoring via case analysis.

455 Marketing Management ........................................3 cr
  Prereq: MKT 350, MKT 355, and MKT 354 or consent of
  instructor. Freq: Spring and Summer.
  Marketing strategies and the strategic planning process in practical
  business situations. Case studies, or projects, and/or live problems
  of area organizations are conducted through the Solutions for
  Economic Growth (SEG) Center.

458 Personal Selling ..................................................3 cr
  Prereq: MKT 350. Freq: Fall.
  Designed to gain an understanding of personal selling as a major
  function within the marketing and promotional mix of a firm. The
  course utilizes videotaped analysis of student-sales role plays to
  develop selling skills.

467 Selling of Financial Services ....................................3 cr
  Prereq: MKT 458. Freq: Spring.
  Focuses on how financial institutions design and market their
  services and products through the personal selling function.
469 Advanced Personal Selling .................................................. 3 cr  
Prereq: MKT 458.  Freq: Spring.  
Examines concepts of strategic account management, customer relationship management, consultative selling, and customer problem diagnosis in a variety of situations.

490 Special Topics in Marketing ............................................. 1-3 cr  
Prereq: Dependent on subject matter. Freq: Occasionally.  
Selected topics in marketing. Subject varies; see current course schedule.

494 Internship in Marketing .................................................. 1-3 cr  
Prereq: MKT 350, MKT 355, and MKT 354; and consent of instructor and department chair approval. Freq: Occasionally.  
Encourages students to apply theories learned in marketing courses to on-the-job learning situations. Student will work with an employer organization under a direct supervisor with faculty oversight. Grade is based on reported satisfaction of direct supervisor with work deliverables. Credit/no-credit grading basis.

499 Independent Study in Marketing ..................................... 1-3 cr  
Prereq: MKT 350, MKT 355, and MKT 354; and consent of instructor and department chair approval. Freq: Occasionally.  
Designed to provide qualified students with an opportunity to conduct a research project in an appropriate area of marketing, under the supervision of a faculty member.

PROJECT MANAGEMENT (PMGT)  
341 Basics of Project Management ........................................ 3 cr  
Prereq: None.  Freq: Yearly.  
This course covers Project Management Body of Knowledge (PMBoK) specified by Project Management Institute (PMI) in detail. Project management topics include lifecycle, processes, integration, scope, time, cost, human resources, communication, risk, and procurement.

342 Essential Personal Skills for Project Management .......... 3 cr  
Prereq: None.  Freq: Yearly.  
Provides students with a background in personal skills essential for effective project management, including general intelligence, emotional intelligence, groups and teams, project leadership, stress, ethics, and communication.

344 Advanced Project Management Tools and Techniques ..... 3 cr  
Covers advanced tools and technologies of project management, including Microsoft Project and Microsoft Excel. Work Breakdown Structure (WBS), budgeting a project, scheduling a project using PERT/CPM, allocating scarce resources, critical chain and critical path, resource leveling, monitoring the project costs, evaluating and terminating a project.

442 Project Management Simulation ..................................... 3 cr  
Topics include project scheduling, risk analysis, earned value, and teamwork. Students apply project management skills to a simulated or live project, develop project justification and project plan, and execute the project plan and track performance.

REAL ESTATE (RLST)  
380 Real Estate Principles .................................................. 3 cr  
Prereq: Junior or senior standing.  Freq: Occasionally.  
Provides students with an understanding of real estate markets and service providers working within these markets; exposes students to the informational requirements of real estate transactions and the elements of real estate contracts.

381 Real Estate Law ............................................................ 3 cr  
Prereq: RLST 380.  Freq: Occasionally.  
Focuses on real estate law covering disputes that often arise in a real estate transaction as well as the questions raised in the day-to-day operations of a real estate broker's office, including in-depth analysis of real estate contracts.

382 Real Estate Valuation and Investment ......................... 3 cr  
Prereq: Junior or senior standing.  Freq: Occasionally.  
Introduces students to the tools used by real estate investors, lenders, brokers, developers, and appraisers to evaluate the income producing potential of various real estate investments.

STATISTICS AND QUANTITATIVE METHODS (QM)  
210 Business Statistics I ................................................... 3 cr  
Prereq: MATH 112.  Freq: Fall, Spring.  
Introduction to descriptive statistical analysis; probability and expectation; discrete and continuous probability models; sampling distributions; hypothesis testing and estimation. Emphasis is on a conceptual understanding of statistical analysis and its application to and interpretation for business problems.

310 Business Statistics II .................................................... 3 cr  
Prereq: QM 210, MATH 112.  Freq: Fall, Spring.  
Advanced inferential techniques including analysis of variance; simple and multiple linear correlation and regression techniques; Bayesian decision analysis; time-series analysis; non-parametric techniques; use of computer analysis for applied business problems.

319 Operations Management ............................................... 3 cr  
Prereq: QM 210, MATH 112.  Freq: Fall, Spring.  
Role of the operations function in an organization; strategy and competitiveness, supply chain management, forecasting and inventory control, total quality management, statistical quality control, lean manufacturing, scheduling, project management, and application of these principles in manufacturing and service organizations.

490 Special Topics in Statistics and Quantitative Methods ......... 1-3 cr  
Prereq: Dependent on subject matter. Freq: Occasionally.  
Selected topics in statistics and quantitative methods. Subject varies; see current course schedule.
Degree Offered:
Bachelor of Science.

Professors:
Judge, Ph.D.; Kolb, Ph.D.

Associate Professors:
Allen, Ph.D.; Chang, Ph.D.; Wood, Ph.D. (Chair)

Lecturer:
J. Magonski, Ph.D.; K. McReynolds, M.S.

Laboratory Manager:
J. Wall, B.S.

Professional Accreditations and Memberships:
The chemistry degree program is approved by the American Chemical Society.

Student Organizations and Clubs:
Chemistry majors are encouraged to join the Chemistry Club.

Career Possibilities:
Chemistry graduates have an excellent placement rate. They enter graduate programs, medical school and pharmacy school and are qualified for employment in a wide variety of areas including agriculture, biotechnology, consulting, environmental control, consumer products, education, food science, forensics, geology, hazardous waste management, materials science, medicinal chemistry, petroleum, pharmaceuticals, polymers, sales and marketing, and water management. The UW-Parkside Advising and Career Center, the American Chemical Society and the Chemistry Club maintain information resources regarding careers in chemistry.

Department Overview
The chemistry curriculum is designed to prepare students for careers in the chemical sciences, to further the education of those already employed in chemistry-related professions, and to prepare students for the successful completion of graduate or professional programs. The curriculum offers a strong foundation in chemistry, physics and mathematics, and advanced studies in the traditional areas of specialization including analytical, biochemistry, inorganic, organic, and physical chemistry. Hands-on work in modern, well-equipped laboratories is stressed and students are encouraged to participate in faculty-directed independent research projects. A separate concentration in biochemistry is also offered. The chemistry major can be complemented by one of several related minors such as biological sciences, computer science, environmental studies, mathematics or physics.

Preparation for Graduate School
Some graduate programs require that specific courses be taken for admission. Students considering graduate study should consult their adviser and the admissions office of the graduate program.

Requirements for the Chemistry Major (72-73 credits)
At least 15 credits of upper-level courses in the major must be completed at UW-Parkside. Chemistry majors must have a minimum GPA of 2.50 in all courses required for the major, including math and physics.

A. Core Chemistry Courses (43 credits):

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 101</td>
<td>General Chemistry I</td>
<td>5 cr</td>
</tr>
<tr>
<td>CHEM 102</td>
<td>General Chemistry II</td>
<td>5 cr</td>

</table>
and either one of:

CHEM 495 Senior Seminar ........................................ 1 cr
CHEM 497 Senior Thesis ........................................... 1 cr

* CHEM 310 and 401 are required for American Chemical Society approval.

Biochemistry Concentration in the Chemistry Major (17 credits)

The concentration in biochemistry provides excellent background for careers and for graduate or professional study in biochemistry, medicine, microbiology, molecular biology, pharmacy, pharmacology, pharmaceutical chemistry and other biological sciences. Because this concentration includes biological science courses in addition to most of the courses required for the chemistry major, it also provides a broader background for chemistry students who wish to terminate their training at the baccalaureate level.

Biochemistry Concentration Requirements (17 credits):

Students in the biochemistry concentration complete the following courses rather than the electives listed under category C. CHEM 307 may substitute for CHEM 324 listed in category A.

BIOS 101 Bioscience ............................................. 4 cr
BIOS 102 Organismal Biology .................................. 4 cr
BIOS 309 Molecular Biology .................................... 3 cr
CHEM 308 Biochemistry Laboratory ............................ 2 cr
CHEM 410 Advanced Biochemistry ............................. 3 cr

and either one of:

CHEM 495 Senior Seminar ........................................ 1 cr
CHEM 497 Senior Thesis ........................................... 1 cr

Redundant Courses

Credits earned in courses which in large part duplicate the content of any of those listed above cannot be applied toward the major or used in computing the GPA for the major.

American Chemical Society Approved Major

Students wishing to qualify for official recognition of the major by the American Chemical Society must include CHEM 310 Inorganic Chemistry, and CHEM 401 Advanced Organic Laboratory in their program.

Honors in Chemistry

To be eligible for a B.S. with honors in chemistry, a chemistry major must attain a GPA of 3.25 or better in all chemistry courses taken and complete a senior thesis (CHEM 497) and defend it before a committee of three faculty members, at least two of whom are from chemistry. In addition, an overall GPA of at least 3.00 must be attained.

Requirements for the Chemistry Minor (23 credits)

A minor in chemistry can be earned by obtaining at least 23 credits in an approved group of courses in general, analytical and organic chemistry with lab. Students must attain a GPA of at least 2.00 in all courses required for the minor. The two approved groupings of UW-Parkside courses are:

Option 1:

CHEM 101 General Chemistry I ............................... 5 cr
CHEM 102 General Chemistry II ............................... 5 cr
CHEM 206 Quantitative Analysis ............................. 5 cr
CHEM 321 Organic Chemistry I ............................... 4 cr
CHEM 322 Organic Chemistry II ............................... 4 cr
CHEM 323 Organic Chemistry Laboratory ............... 3 cr

(or equivalent 3-credit organic lab course)

or Option 2:

CHEM 113 Chemical Principles I ............................. 5 cr
CHEM 114 Chemical Principles II ............................ 5 cr
CHEM 208 Contemporary Chemical Analysis ................ 2 cr
CHEM 321 Organic Chemistry I ............................... 4 cr
CHEM 322 Organic Chemistry II ............................... 4 cr
CHEM 323 Organic Chemistry Laboratory ............... 3 cr

(or equivalent 3-credit organic lab course)

Courses in Chemistry (CHEM)

090 Preparation for College Chemistry ........................ 2 cr
Prereq: None. Freq: Occasionally.
An introduction to the basic principles of chemistry, chemical calculations, units of measurement, nomenclature, and other basic concepts. Credit does not count toward graduation. Graded on credit/no-credit basis. Two-hour lecture.

100 The World of Chemistry ..................................... 3 cr
Prereq: None. Freq: Fall, Spring, Summer.
An introduction to the basic principles of chemistry including the composition of matter, measurement, nomenclature, calculations and reactions. Discussion of current issues in science and technology and application of basic chemical principles to everyday life. Intended for non-science majors and as a preparatory course for science or nursing majors not placed into CHEM 101, 113 or 115. Three-hour lecture.

101 General Chemistry I ......................................... 5 cr
Prereq: MATH 111 or concurrent enrollment or a minimum grade of C in CHEM 100. Freq: Fall, Spring.
The first half of an introductory course in general chemistry for science majors covering the fundamental principles of chemistry. Three-hour lecture; one-hour discussion; three-hour lab.

102 General Chemistry II ......................................... 5 cr
Prereq: CHEM 101. Freq: Fall, Spring.
A continuation of CHEM 101. Three-hour lecture; one-hour discussion; three-hour lab.

109 Environmental Chemistry ................................. 3 cr
Prereq: None. Freq: Occasionally.
Designed for non-science majors. An investigation of contemporary issues including energy and the environment. Intended to introduce fundamental chemical principles and the scientific method of inquiry. May be applied to the environmental studies minor. Three-hour lecture.
113 Chemical Principles I ......................................................... 5 cr
Prereq: Two years of high school chemistry; MATH 111 and consent of instructor. Freq: Occasionally.
Intended primarily for students who plan to major in chemistry. Also for well-prepared students in other programs who are seeking a more in-depth introduction to modern chemistry than that offered in CHEM 101. Lectures cover the fundamental principles of chemistry starting with chemical bonding. Laboratory work includes chemical instrumentation and computer-aided data acquisition and analysis. Three-hour lecture; one-hour discussion; three-hour lab.

114 Chemical Principles II ...................................................... 5 cr
Prereq: CHEM 113 or consent of instructor. Freq: Occasionally.
A continuation of CHEM 113 providing students with a strong foundation for upper-level chemistry courses. The laboratory complements the lecture material and continues the use of modern chemical instrumentation. Three-hour lecture; one-hour discussion; three-hour lab.

115 Chemical Science ............................................................... 4 cr
Prereq: UW-Milwaukee math proficiency or UW-Parkside MATH 111. Freq: Fall.
A course in the fundamental principles of chemistry including the atomic nature of matter, chemical reactions, gases, solutions, acids and bases, and nuclear chemistry. Required for nursing students. Not open to students with credit in CHEM 102 or 114. May not be applied to the chemistry major. Three-hour lecture; three-hour lab.

206 Quantitative Analysis ....................................................... 5 cr
Prereq: C or better in CHEM 102 or consent of instructor. Freq: Fall, Summer.
Overview of extraction techniques, sample preparation and statistical analysis. Chemical kinetics and equilibrium applied to the analysis of complex mixtures using acid-base, complexation, precipitation, oxidation-reduction and electrochemical methods. Overview of chemical instrumentation and data processing, theory and use of various chromatographic and spectroscopic methods. Two-hour lecture, one-hour discussion, six-hour lab.

208 Contemporary Chemical Analysis ........................................ 2 cr
Prereq: C or better in CHEM 114. Freq: Occasionally.
An overview of chemical instrumentation, data processing and manipulation. Detailed presentation of various types of chromatography, the van Deemter equation, resolution and recent developments. Atomic and molecular spectroscopic methods, Beer's law and qualitative and quantitative applications. Laboratory experiments have both investigative and quantitative components. One-hour lecture; three-hour lab.

215 Organic and Biochemistry .................................................. 4 cr
Prereq: CHEM 102 or 114 or 115. Freq: Spring.
An overview of organic chemistry followed by a study of the structure and function of important biomolecules and energy metabolism. Follows CHEM 115 in the sequence for nursing students. Not open to students with credit in CHEM 322 or BIOS 307. Three-hour lecture; three-hour lab.

290 Special Topics ..................................................................... 1-4 cr
Prereq: Consent of instructor. Freq: Occasionally.
Selected topics in chemistry.

302 Physical Chemistry I ......................................................... 4 cr
Prereq: C or better in CHEM 206 or 208 and in MATH 221 and PHYS 202 or consent of instructor. Freq: Fall.
A study of thermodynamics and chemical kinetics. Laboratory utilizes spreadsheets and higher level programming for numerical analysis. Three-hour lecture; three-hour lab.

303 Physical Chemistry II .......................................................... 4 cr
Prereq: CHEM 302. Freq: Spring.
A continuation of CHEM 302. Statistical mechanics, quantum mechanics and spectroscopy. Laboratory includes computational methods most used in theoretical chemistry and practical quantum calculations. Three-hour lecture; three-hour lab.

304 Physical Chemistry Laboratory I ......................................... 3 cr
Prereq: CHEM 302 or consent of instructor. Freq: Fall.
Experiments focus on macroscopic phenomena including physical properties of matter, kinetics, and thermodynamics. Six-hour lab.

305 Physical Chemistry Laboratory II ....................................... 2 cr
Prereq: CHEM 303, concurrent registration or consent of instructor. Freq: Occasionally.
Theory and practice of spectroscopy; a wide range of spectroscopic techniques is examined. One-hour lecture; three-hour lab.

306 Chemical Instrumentation .................................................... 3 cr
Prereq: C or better in CHEM 206 or 208 and completion of PHYS 202 and CHEM 323 or consent of instructor. Freq: Fall, (even years).
Study of the construction and principles of operation of modern instruments and their use in the chemistry laboratory. Three-hour lecture.

307 Biochemical Metabolism ..................................................... 3 cr
Prereq: CHEM 322 or consent of instructor. Freq: Fall.
A study of the chemistry of biological systems, with emphasis on metabolism and macromolecular biosynthesis. Three-hour lecture. Cross-listed with BIOS 307.

308 Biochemistry Laboratory ..................................................... 2 cr
Prereq: CHEM 322 and consent of instructor. Freq: Fall, Spring.
Familiarization with the use of scientific instruments and techniques, and developing proficiency in the process of scientific investigation. This course is appropriate for chemistry majors who have completed CHEM 307 or 324. Four-hour lab. Cross-listed with BIOS 435.

310 Inorganic Chemistry ............................................................ 3 cr
Prereq: CHEM 303 or concurrent registration. Freq: Spring, odd years.
Descriptive and synthetic inorganic chemistry with emphasis on chemical periodicity, coordination compounds, and inorganic reaction mechanisms. Three-hour lecture.

321 Organic Chemistry I ............................................................. 4 cr
Prereq: CHEM 102 or 114. Freq: Fall, Spring.
A study of aliphatic and aromatic compounds with emphasis on structure, reaction mechanisms, and synthesis. Introduction to spectroscopy. Three-hour lecture; one-hour discussion.

322 Organic Chemistry II .......................................................... 4 cr
Prereq: CHEM 321. Freq: Fall, Spring.
A continuation of CHEM 321. More extensive use of spectroscopy in the elucidation of structures and reaction mechanisms. The chemistry of functional groups, syntheses, and selected topics. Three-hour lecture; one-hour discussion.

323 Organic Chemistry Laboratory ......................................... 3 cr
Prereq: CHEM 322 or concurrent registration or consent of instructor. Freq: Fall, Spring, Summer.
An introduction to the methodology, techniques, and procedures of organic chemistry, including an introduction to the principles of green chemistry, the use of chemical literature, and laboratory record keeping. Emphasizes the synthesis and spectroscopic characterization of organic compounds. Six-hour lab.

324 Chemistry of Biological Systems ......................................... 3 cr
Prereq: CHEM 322 Freq: Fall.

390 Special Topics in Chemistry ............................................... 1-3 cr
Prereq: None. Freq: Occasionally.
Selected topics in chemistry.

Assistant Professor:
Viramontes, Ph.D.

Department Overview

Communication affects our lives at multiple levels. At one level, it can be thought of as the way we construct knowledge and information through human interaction — whether face to face or mediated. At another level, it is the process through which we continually negotiate the meaning and purpose of our lives. At no level is this process transparent or innocent. Rather, it is influenced by the various ways in which we identify ourselves as individuals and as groups. The Communication Department believes that a theoretical understanding of these processes as well as the ability to apply that understanding in real-life situations is essential.

The communication major and minors prepare students to succeed in the 21st century. We live in a dynamic time shaped by new technologies, digital media, cultural convergence, a global economy, and a rich diversity of racial and ethnic cultures, encompassing nationality, religion, language, gender, sexual orientation, social class, physical conditions, and age. The Communication Department is structured around communities of practice with emphasis on four areas: media studies, human interaction, organizational communication, and public relations. The Communication Department’s faculty and staff welcome working with students to develop individualized and integrated courses of study to meet their professional and personal interests.

Studies indicate that, in the future, students will have jobs that currently do not exist. What is important for students to learn, then, is how to remain nimble and flexible in an ever-changing global society. The Communication Department prepares students for a complex and uncertain future by developing skills and competencies that apply to multiple life and work situations. These communication skills include writing, speaking, listening, resolving conflicts, and interacting across and within different cultures whether face to face or mediated. Inherent in these skills are analyzing, problem-solving, and self-reflecting.

By the end of their programs of study, communication majors and minors are expected to be able to demonstrate two levels of cultural competence: professional and theoretical. Six learning objectives state the assumptions common to courses in the major and its various course concentrations. Although not a requirement, students are strongly encouraged to seek an internship to gain experience in a chosen field of interest. Student understanding of the learning objectives is demonstrated through a portfolio of their work assembled during a capstone course in the last semester of study.

Student Organizations/Clubs

The Parkside Association of Communicators (PAC) is a student organization dedicated to promoting interaction among students, faculty/staff, alumni, and working professionals. The club regularly organizes events and activities valuable to students’ professional and intellectual development.

Lambda Pi Eta (LPH) is the national communication honor society for undergraduates. Students who are declared majors with at least 60 credits, have a cumulative GPA of 3.00 or higher, have completed at least 12 credits in the major, and have a major GPA of 3.25 or higher are eligible.

Parkside Communication Alumni Association (PCAA) is open to all alumni who were communication majors while students at the University of Wisconsin-Parkside. The mission is to encourage and coordinate the connection of UW-Parkside communication alumni with each other, with faculty, and with students.

Communication students are also encouraged to gain experience in career interests through campus-wide organizations including Ranger News, the student newspaper; and WIPZ radio station.

Internships

An internship is a professional experience designed to round out a student’s education. Internships can be either paid or unpaid. Both types are valuable for resume building, application of theoretical knowledge to hands-on experience, exploring future career opportunities, and making contacts and networking outside the university. An internship is strongly recommended for communication majors, particularly during the senior year. COMM 494 Communication Internship, is designed to facilitate the student’s structured and systematic
application of communication concepts to a job experience through the completion of a written case study. Normally, only senior-status students who meet a GPA requirement of 2.80 in the major are eligible for an on-the-job experience under academic supervision. See the departmental internship director for detailed instructions. Up to 3 credits of internship may be counted toward the 400-level electives requirement in the major.

**Departmental Learning Objectives**

The Communication Department curriculum is grounded in the assumption that the 21st-century lifestyle calls for a broad range of communication skills, often used in combination with one another. Therefore we expect our graduates to be practiced readers, writers, speakers, listeners, producers, observers, and performers. Each course taken toward the B.A. in communication at the University of Wisconsin-Parkside will emphasize one or more of the six learning objectives listed below:

- **Identity**: Analyzing and critiquing how human identity is constructed, reinforced, and transformed through the ways we communicate.

- **Social justice**: Promoting social justice in ways that acknowledge and celebrate a diverse global culture.

- **Knowledge**: Understanding how knowledge is constructed within systemic and historically situated processes.

- **Messages**: Creating and critiquing messages in ways that reflect both professional competence and ethical decision-making.

- **Texts**: Interpreting and explaining a range of texts in ways that question cultural assumptions.

- **Contexts**: Identifying and practicing multiple roles within groups and organizations.

Demonstrating successful completion of the communication major as a whole is the goal of the Senior Seminar capstone course (COMM 495), taken in a student’s final semester of study.

It is the student’s responsibility to be aware of the requirements of the major at the time it is declared, as well as any changes in the major instituted by the faculty. It is also the student’s responsibility to consult regularly with his/her adviser regarding the program of study.

**Requirements for the Communication Major (48 credits)**

To be accepted as a major in communication, a student must have a 2.25 cumulative GPA; a major also must have a 2.25 cumulative GPA in order to enroll in COMM 495 Senior Seminar, the department's capstone course. Students admitted to the major should plan to complete the 100- and 200-level requirements in communication (including required course work in other departments) before taking upper-division courses. These courses have been planned and sequenced so as to provide a broad overview of the field, introduce essential skills, and help students plan their futures both within the program and following college graduation. At least 15 credits of upper-level courses in the major must be completed at UW-Parkside. Non-majors interested in taking upper-division communication courses should consult with the course instructor before registering.

Additionally, as they near completion of their required lower-level courses, communication majors and minors are expected to meet with their advisers to discuss recommended sequences of elective courses for specific career or graduate school paths. The department maintains extensive advising materials to help students plan for and navigate the wide range of careers that are available.

The following courses are required of all communication majors:

**Core Courses (24 credits)**

One of:

- SPCH 105 Public Speaking .................. 3 cr
- OR
- COMM 205 Performing Texts .................. 3 cr

COMM 107 Communication and the Human Condition .................. 3 cr

(must earn a grade of C or higher for credit toward the major)

COMM 108 Media and Society .................. 3 cr

(must earn a grade of C or higher for credit toward the major)

COMM 207 Introduction to the Communication Discipline I .................. 3 cr

COMM 208 Introduction to the Communication Discipline II .................. 3 cr

COMM 295 Sophomore Seminar .................. 3 cr

ART 104 Introduction to Digital Art .................. 3 cr

One of:

- ENGL 201 Advanced Composition .................. 3 cr
- COMM 255 Introduction to News Writing .................. 3 cr

**Three credits of a communication elective at any level**

Twelve credits of communication electives at the 300 or 400 level, 3 of which must be at the 400 level

Six credits at the 300 or 400 level outside the Communication Department, to be selected in consultation with adviser

**Capstone Course (3 credits):**

COMM 495 Senior Seminar .................. 3 cr
Requirements for Communication Minors (21-24 credits)

MINOR IN HUMAN INTERACTION (24 CREDITS)
The human interaction minor is designed for students who wish to investigate the ways people interact in face-to-face contexts, across diverse communities. It will be of greatest value to students interested in moving into careers where they will work directly with people of varied backgrounds, including positions in personnel management, human resources, counseling, mediation, and social services.

Core Courses (12 credits):
- SPCH 105  Public Speaking ...................... 3 cr
- COMM 205  Performing Texts ..................... 3 cr
- COMM 107  Communication and the Human Condition ...................... 3 cr
- COMM 207  Introduction to the Communication Discipline, Part I ...................... 3 cr
- COMM 208  Introduction to the Communication Discipline, Part II ...................... 3 cr

Foundational courses (9 credits):
- COMM 310  Interpersonal Communication ...................... 3 cr
- COMM 335  Language in Human Communication ...................... 3 cr
- COMM 365  Intercultural Communication ...................... 3 cr

Electives (3 credits):
One of:
- COMM 315  Communication and Gender ...................... 3 cr
- COMM 330  Communication and Socialization ...................... 3 cr
- COMM 363  Communication and Ethnicity ...................... 3 cr
- COMM 385  Strategies for Constructive Dialogue ...................... 3 cr
- COMM 390  Special Topics in Communication (topic approval required) ...................... 3 cr
- COMM 450  Narrative Analysis ...................... 3 cr
- COMM 485  Practicum in Conflict Intervention ...................... 3 cr
- COMM 490  Special Topics in Communication (topic approval required) ...................... 3 cr
- COMM 494  Communication Internship (approval required) ...................... 3 cr

MINOR IN ORGANIZATIONAL COMMUNICATION (21 CREDITS)
A minor in organizational communication is designed to help students analyze the role of communication in how organizations operate and communicate effectively within an organization.

Lower-level courses (12 credits):
- SPCH 105  Public Speaking ...................... 3 cr
- COMM 205  Performing Texts ...................... 3 cr
- COMM 107  Communication and the Human Condition ...................... 3 cr

Core Courses (12 credits):
- COMM 202  Group Communication ...................... 3 cr
- COMM 285  Introduction to Conflict Analysis and Resolution ...................... 3 cr
- ENGL 204  Writing for Business and Industry ...................... 3 cr
- OR
- COMM 240  Introduction to Public Relations ...................... 3 cr

Upper-level courses (9 credits):
Required:
- COMM 303  Organizational Communication ...................... 3 cr
- One of (3 credits):
- COMM 315  Communication and Gender ...................... 3 cr
- COMM 363  Communication and Ethnicity ...................... 3 cr
- COMM 365  Intercultural Communication ...................... 3 cr

ONE of (3 credits):
- COMM 385  Strategies for Constructive Dialogue ...................... 3 cr
- COMM 390  Special Topics in Communication (topic approval required) ...................... 1-3 cr
- COMM 485  Practicum in Conflict Intervention ...................... 3 cr
- COMM 490  Special Topics in Communication (topic approval required) ...................... 1-3 cr
- COMM 494  Communication Internship ...................... 1-3 cr
- HRM 343  Human Resources Management ...................... 3 cr
- HRM 442  Improving Employee Performance ...................... 3 cr

MINOR IN PUBLIC RELATIONS (24 CREDITS)
A minor in public relations allows students to develop a general understanding of the concepts and practices involved in being a public relations practitioner and/or a member of an organization who is responsible for various communication tasks which help to create and maintain relationships between an organization and its publics.

Required:
- COMM 105  Public Speaking ...................... 3 cr
- OR
- COMM 205  Performing Texts ...................... 3 cr
- COMM 108  Media and Society ...................... 3 cr
- COMM 207  Introduction to the Communication Discipline, Part I ...................... 3 cr
- COMM 208  Introduction to the Communication Discipline, Part II ...................... 3 cr
- COMM 240  Introduction to Public Relations ...................... 3 cr
- COMM 255  Introduction to News Writing ...................... 3 cr
- COMM 360  Contemporary Media Industries ...................... 3 cr
- COMM 494  Communication Internship ...................... 1-3 cr

MINOR IN COMMUNICATION (GENERALIST) (21 CREDITS)
This minor is intended for students seeking a broad exposure to the field of communication, as well as those seeking to tailor their minor to complement a particular major or course of study.

Core Courses (12 credits):
- COMM 107  Communication and the Human Condition ...................... 3 cr
- COMM 108  Media and Society ...................... 3 cr
The purpose of the elective course is to help the student place his/her understanding of conflict in a broader social context. Therefore, the elective course must be from outside the student's major concentration. After consulting with the program adviser, the student is to take one of the following courses:

**Elective (3 credits)**

COMM 363 Communication and Ethnicity ............... 3 cr
COMM 370 Communication and Social Change .......... 3 cr
COMM 490 Special Topics in Communication (topic approval required) .................. 1-3 cr
HIST 260 International Conflict .......................... 3 cr
PHIL 215 Contemporary Moral Problems: Ethics and Conflict .................. 3 cr
PHIL 220 Politics, Law and Society ........................ 3 cr
PHIL 320 Value Theory .................................. 3 cr
POLS 315 Diversity Law: Tribal Nations ................ 3 cr
POLS 341 International Conflict and Cooperation ... 3 cr
SOCA 233 Criminology ................................... 3 cr
SOCA 234 Juvenile Delinquency/ Juvenile Justice .... 3 cr
SOCA 323 Institutional Racism in America .......... 3 cr
SOCA 331 Deviant Behavior ............................... 3 cr
SOCA 354 Class, Status, and Power ..................... 3 cr
SOCA 356 Political Sociology .............................. 3 cr

**MEDIA LITERACY CERTIFICATE (16 CREDITS)**

The media literacy certificate provides critical tools for analyzing, interpreting and questioning corporate media. The certificate is designed for parents, teachers, and citizens concerned with media production, consumption and messages in various media – television, music, film, video games, the Internet, handheld mobile devices, etc. Key themes are media ownership, media/cultural convergence, and the implications of new technologies on human communication and democracy in the U.S. and around the world.

**Core Courses (9 credits)**

- COMM 108 Media and Society ....................... 3 cr
- COMM 368 Children and the Media ................... 3 cr
- COMM 463 Gender, Race, and Class in Media ....... 3 cr

**Electives (6 credits)**

Two of:

- COMM 360 Contemporary Media Industries ........ 3 cr
- COMM 366 Communication and Popular Music .......... 3 cr
- COMM 390 Special Topics in Communication (topic approval required) ................. 3 cr
- COMM 430 Cyberspace Communication ................ 3 cr
- COMM 435 Understanding Advertising Messages .... 3 cr
- COMM 490 Special Topics in Communication (topic approval required) ................. 3 cr
- COMM 494 Communication Internship (approval required) ................................ 3 cr

**Final Project (1 credit)**

- COMM 468 Media Literacy Project ..................... 1 cr

**Courses in Communication (COMM)**

**107 Communication and the Human Condition ........ 3 cr**

Prereq: None. Freq: Fall, Spring.

A systematic inquiry into the consequences of how people in diverse cultural groups communicate for self, for others, and for the social worlds in which they live. Must earn a grade of C or higher for credit toward the major.

**108 Media and Society .................................... 3 cr**

Prereq: None. Freq: Fall, Spring.

Explores the intersection of media with social, economic, historical, and political spheres of contemporary life. Must earn a grade of C or higher for credit toward the major.

**202 Group Communication ................................ 3 cr**

Prereq: None. Freq: Yearly.

Exploration of various concepts in group communication including group development, climate, problem solving, decision making, and power.

**205 Performing Texts ..................................... 3 cr**

Prereq: None. Freq: Fall

Focuses on oral interpretation, the process whereby one reads and interprets text for the purpose of performing it for an audience. Requires in-class performance of selected texts.
Introduction to the Communication Discipline, Part I (COMM 207) 3 cr
Prereq: COMM 107 and 108. Freq: Fall, Spring.
Introduction to the communication discipline as a community of practice. Emphasizes the practical uses of contemporary communication theory and research to solve problems. Students will identify a problem in the local community, formulate a research agenda, and conduct a literature review.

Introduction to the Communication Discipline, Part II (COMM 208) 3 cr
In this follow-up to COMM 207, students continue developing their professional identities as practitioners of communication research. Revision and implementation of the research agenda established during the previous semester. Practice in field research (using a range of methods), in writing the research paper, and in reporting the results to multiple audiences.

Introduction to Public Relations (COMM 240) 3 cr
Prereq: COMM 107, 108. Freq: Fall.
Introduces the theories, methods, and practice of public relations and their application in industry, government, education, social agencies, and other institutions.

Fundamentals of Media Production (COMM 251) 3 cr
Prereq: COMM 108 or consent of the instructor. Freq: Occasionally.
Instruction in the use of video cameras and related equipment; introduction to digital video editing; application of theories of video production.

Introduction to News Writing (COMM 255) 3 cr
Prereq: ENGL 101 and COMM 108, or consent of instructor. Freq: Fall, Spring.
Covers news gathering, basic reporting, journalistic ethics, and other topics.

Introduction to Conflict Analysis and Resolution (COMM 265) 3 cr
Prereq: One of: COMM 107, HIST 101, PHIL 206, POLS 101, SOCA 101, or consent of program adviser. Freq: Fall, Spring.
A survey of approaches to understanding, transforming, and resolving conflicts. Case studies at the interpersonal, organizational, community/cultural, and international levels.

Special Topics in Communication (COMM 290) 1-3 cr
Prereq: None. Freq: Occasionally.
Selected topics in communication will be examined.

Sophomore Seminar (COMM 295) 3 cr
Prereq: COMM 107 or 108. Freq: Fall, Spring.
A conceptual introduction to the communication discipline, exploring critical connections between communication-related course work and the 21st-century work environment.

Organizational Communication (COMM 303) 3 cr
Prereq: Core courses or consent of instructor. Freq: Fall.
An examination of the role of communication in organizational settings. Topics include organizational communication theories and elements, and contemporary organizational systems and their functioning.

Interpersonal Communication (COMM 310) 3 cr
Prereq: COMM 107, 207 and 208. Freq: Fall.
A detailed examination of the role of communication in structuring and accomplishing interpersonal interactions with an emphasis on the ways interactional processes construct relationships and identities.

Communication and Gender (COMM 315) 3 cr
Prereq: Core courses or consent of instructor. Freq: Spring.
An examination of the role of communication in the construction of gender, and the role of gender in the social organization and use of language and communication systems.

Communication and Socialization (COMM 330) 3 cr
Prereq: Core courses and COMM 310, or consent of instructor. Freq: Occasionally.
Examines how children learn to communicate in three major settings: at home, in classrooms, and with peers. Focus on observations of real children in real contexts.

Language in Human Communication (COMM 335) 3 cr
Prereq: Core courses or consent of instructor. Freq: Occasionally.
Examination of the role of language in creating, maintaining, and transforming the social world from cultural, rhetorical, and/or philosophical perspectives. The ethical implications of language use in contemporary contexts will be addressed.

Health Communication (COMM 340) 3 cr
Prereq: Core courses or consent of instructor. Freq: Occasionally.
Focuses on both human interaction and media messages as they apply in health care and related organizations.

Narrative Analysis (COMM 350) 3 cr
Prereq: Core courses or consent of instructor. Freq: Fall.
An examination of the ways that storytelling creates identity and negotiates social life. Topics include structure, function, genres, and contexts of narrative.

Contemporary Media Industries (COMM 360) 3 cr
Prereq: COMM 108, 207, and 208; or consent of instructor. Freq: Fall.
An overview of contemporary media industries in the U.S., including broadcast and cable television, radio, film, newspapers, the Internet, and others. Emphasis is on industrial structures and the ways these industries work together in the 21st century.

Communication and Ethnicity (COMM 363) 3 cr
Prereq: COMM 107 or consent of instructor. Freq: Fall, Spring.
Critical examination of communication practices which construct, maintain, transform, or threaten ethnic identity in a co-cultural context. May be repeated with different content. Emphasis rotates among African Americans, Asian Americans, Latino/a Americans, and Native American Indians. Cross-listed with ETHN 363.

Intercultural Communication (COMM 366) 3 cr
Prereq: COMM 107, 207, and 208; or consent of instructor. Freq: Fall.
Interpretive and critical approaches to understanding communication across cultural differences. Cross-listed with ETHN 365.

Communication and Popular Music (COMM 368) 3 cr
Prereq: Core courses or consent of instructor. Freq: Occasionally.
Explores the cultural politics of popular music as communication in contemporary society. Cross-listed with ETHN 365.

Children and the Media (COMM 369) 3 cr
Prereq: COMM 108, 207, and 208; or consent of instructor. Freq: Spring.
A critical examination of the ways electronic media affect the lives of children. The course gives particular attention to research studies and current policy debates.

Communication and Social Movements (COMM 370) 3 cr
Prereq: Core courses or consent of instructor. Freq: Occasionally.
Focuses on the role of interpersonal and media communication in organizing, carrying out and documenting social movements.

Strategies for Constructive Dialogue (COMM 385) 3 cr
Prereq: COMM 285 or consent of instructor. Freq: Spring.

Special Topics in Communication (COMM 390) 1-3 cr
Prereq: Core courses or consent of instructor. Freq: Occasionally.
Selected topics in communication will be examined.
430 Cyberspace Communication .................................. 3 cr
  Prereq: COMM 360 and junior standing, or consent of instructor.
  Freq: Occasionally.
  Critical analysis of computer-mediated communication, identity and
  community formation, and cyber-activism.

435 Understanding Integrated Marketing Communication...... 3 cr
  Prereq: COMM 360 and junior standing, or consent of instructor.
  Freq: Fall.
  Explores the role of contemporary advertising and marketing
  communication in identity formation as well as the functioning of
  social and economic institutions.

436 Global Media ...................................................... 3 cr
  Prereq: COMM 360 and junior standing, or consent of instructor.
  Freq: Spring.
  A comparative examination of different national and international
  media organizations, both public and private. Covers concepts
  including globalization, cultural imperialism, and information flows.

463 Gender, Race, and Class in Media ......................... 3 cr
  Prereq: COMM 360 and junior standing, or consent of instructor.
  Freq: Fall.
  Explores how mediated representations of gender, race, and class,
  and sexuality contribute to our cultural identities.

468 Media Literacy Project ........................................... 1 cr
  Prereq: Consent of instructor and department chair.
  Freq: Fall, Spring, Summer.
  A capstone experience in which the student, under the guidance of
  a faculty member, prepares and conducts a media literacy activity
  in the community.

480 Practicum in Organizational Communication ............ 3 cr
  Prereq: Consent of instructor. Freq: Yearly.
  Practicum that involves applying principles from public relations
  and/or organizational communication to an actual organization in
  the community. Specific topic may address developing a public
  relations campaign, training and developing, or consulting. May be
  repeated for credit with a different topic.

485 Practicum in Conflict Intervention .......................... 3 cr
  Practicum in conflict intervention in a public setting (school,
  business, or community). Includes in-classroom training and
  supervised field experience.

490 Special Topics in Communication ......................... 1-3 cr
  Prereq: Core courses or consent of instructor. Freq: Occasionally.
  Advanced selected topics in communication will be examined.

494 Communication Internship ................................... 1-3 cr
  Prereq: COMM major, 2.80 GPA in the major, senior standing;
  or consent of instructor and department chair. Freq: Fall, Spring,
  Summer.
  Field experience combined with a guided, systematic and structured
  application of communication concepts. Consult departmental
  internship director for procedures. May be repeated for a maximum
  of 6 credits. Up to 3 credits may be applied to the major.

495 Senior Seminar .................................................. 3 cr
  Prereq: Core courses, graduating senior, and 2.25 cumulative
  GPA; or consent of instructor. Freq: Fall, Spring.
  An intensive seminar for the purposes of assessing, integrating, and
  extending the student's intellectual grasp of the field. To be taken
  during a student's final semester.

499 Independent Study .............................................. 1-3 cr
  Prereq: Core courses and consent of instructor and department
  chair. Freq: Fall, Spring, Summer.
  Individual investigation of selected problems in communication.
  May be repeated for credit.
Degree Offered:
None. A certificate in community based learning is offered.

Faculty Director:
Rosenberg, Ph.D.

Program Overview
Students may earn a certificate in various subject areas that offer credit for community based learning. This is a coherent yet flexible program that documents students’ experiences at putting theoretical concepts to use in applied community settings. This program contributes to the university’s mission by formalizing attempts to connect to the community in a consistent way through establishing experiential learning opportunities in the curriculum.

Community based learning experiences are intended to strengthen students’ ability to contribute meaningfully to the community, enhance their professional preparation and provide relevance to course work. Community based learning courses are designed to help students:

1. Become involved in civic affairs by:
   a. Recognizing community issues that exist locally or globally
   b. Realizing their commitment to learning about and solving those issues
   c. Acquiring the skills and knowledge to take action effectively
   d. Becoming actively engaged.
2. Participate effectively in dialogue around community issues;
3. Maximize their learning of concepts presented in the classroom – in both major and general education courses;
4. Understand how knowledge gained in the classroom can be applied to solving practical problems in both the workplace and in the larger community;
5. Develop skills such as teamwork, problem solving, and making presentations, both inside and outside of the classroom;
6. Gain skills in working with diverse groups;
7. Make relevant professional contacts in the community.

Requirements for the Certificate for Community Based Learning (10 credits)
The introduction and capstone courses are required; other credits are arranged with instructors for individual courses, before each semester begins or by the individual student once in a particular course.

The certificate is awarded for 10 credits of work, which must include the following:

1. CBL 101 Introduction to Community Based Learning...3 cr
2. Four credits earned for community based learning done in conjunction with regularly offered courses:
   a. Courses listed in the course catalog as community based learning (CBL) courses (other than CBL 101 and 495);
   b. Courses designated in the semester course schedule as carrying a certain number of CBL credits (which do not count as additional credits toward graduation); and/or
   c. Credits negotiated with instructors for courses not designated with CBL credit in the course schedule, for individual or collaborative community projects, with the approval of the CBL program director;
   d. Internships may be used for CBL credit and should conform to UW-Parkside policies and procedures for internships (see the Programs and Policies section of this catalog).
3. CBL 495 Capstone in Community Based Learning...3 cr
   This course may be taken as part of another 495 section, e.g. SOCA 495.
The Community-Based Scholarship and Nonprofit Development Advisory Council functional team includes faculty, academic staff, and community members. Current faculty members include Dirk Baldwin, Laura Khoury, Susan Lincke, Helen Rosenberg, Mary Kay Schleiter, Jonathan Shailor, and John Ward. Academic staff members include Crista Kruse, Casey Jones and Debra Karp. Community members include Mary Connolly, Susan Gould, Leonard Iaquinta, Jim Kennedy, Nancy Pierce, and Cooperative Extension faculty Tedi Winnett.

Courses in Community Based Learning (CBL)

101 Introduction to Community Based Learning.................. 3 cr
Prereq: None. Freq: Spring and Fall.
This course prepares students for community based learning experiences by exposing them to relevant philosophical and/or theoretical approaches, good practice and applied exercises. Through this course, students gain a common understanding of the intent of these experiences, improving their ability to capitalize on the relevance for their academic and career objectives.

290 Special Topics in Community Based Learning.............. 1-3 cr
Prereq: None. Freq: Occasionally.
Selected topics in community based learning will be examined.

390 Special Topics in Community Based Learning.............. 1-3 cr
Prereq: None. Freq: Occasionally.
Selected topics in community based learning will be examined.

495 Capstone in Community Based Learning..................... 3 cr
Prereq: CBL 101 or consent of instructor. Freq: Spring and Fall.
This course provides an integrative experience for students after they have completed extensive community based learning work, helping them connect these experiences more fully to other academic principles and to their occupational aspirations, and making certain all intended learning outcomes of the community based learning certificate have been accomplished. Students will do this integration while completing a major community project, with the support of other students also doing community projects, and complete a portfolio documenting the value of the community based learning experience. Major community building perspectives and theories are incorporated into the course.

499 Independent Study in Community Based Learning....... 1-4 cr
Prereq: Consent of instructor and department chair. Freq: Occasionally.
Degrees Offered:
Bachelor of Science in Computer Science.
Master of Science in Computer and Information Systems
(see graduate section).

Associate Professors:
Hansen, Ph.D. (Chair); Lincke, Ph.D.

Assistant Professors:
Quevedo, Ph.D.; Riley, Ph.D.

Lecturers:
Eddy, M.S.; Knautz, M.S.

Student Organizations/Clubs:
Computer Science Club

Career Possibilities:
Software engineer, systems programmer, applications
programmer, network administrator, systems developer,
systems analyst, web developer, security analyst, information
systems auditor, quality assurance analyst.

Department Overview
The Computer Science Department offers strong academic
programs that prepare students for work and continuing
advancement in information technologies. The pervasive
influence of computers in our everyday lives and the strategic
importance that computing systems have in our economy
and government require an increasingly educated and
technologically aware citizenry as well as highly skilled and
knowledgeable computing professionals who understand,
design, implement and manage complex information
systems. Since the inception of the computer science
major at UW-Parkside in 1979, graduates have found highly
successful careers in computing and information technology
throughout the region and the country.

Computing professionals must have a solid grounding of
fundamentals as a basis for adapting to rapid changes
in computing theory and practice. They must also have
knowledge and experience with current methodologies
which they can apply reliably to solve existing problems and
to design systems that work. They must be able to work
cooperatively with others and to communicate effectively.
Combining theory, practice, and collaboration, the computer
science major at UW-Parkside prepares students for
successful careers in computing and information systems
and contributes to their growth as professionals.

Laboratory experiences are integral components of many
of the department’s computer science courses. Computer
science students use the laboratory’s high-performance
workstations, servers, and printing facilities – all available
by card access during building hours – to carry out their
programming and laboratory work.

The computer science major includes 63 credits in computer
science, mathematics, and the sciences. In addition,
students majoring in computer science fulfill a 9-credit
computer science breadth requirement that includes
courses in significant application domains such as science,
mathematics, business and economics.

In collaboration with faculty in management information
systems, the Computer Science Department offers a master of
science in computer and information systems (MSCIS). See the
Graduate Programs section of this catalog for detailed MSCIS
degree requirements, admissions information, and courses.

The Computer Science Department and the Mathematics
Department jointly offer a double major in computer science
and mathematics. The degree requirements for this double
major are listed below.

The Computer Science Department also offers a computer
science minor, a web development minor, and certificates
in World Wide Web publishing, UNIX system administration,
and cyber security.

Preparation for Graduate School
The computer science major is excellent preparation for
students seeking to do graduate work in computer science.
Such students may wish to supplement the minimum
requirements for a computer science major with additional
courses in mathematics and the sciences. Students
considering graduate study in computer science are strongly
encouraged to complete CSCI 331 as one of their electives.

Internships
Many businesses and industrial firms in the area hire UW-
Parkside computer science students as interns in computing-
related jobs. In addition to facilitating these informal non-
credit bearing internships, the Computer Science Department
sponsors a credit-bearing internship program. In a credit-bearing
internship, the student, the computer science faculty, and the
student’s company supervisor collectively agree on fixed-term
internship objectives; progress toward meeting these objectives
is evaluated periodically throughout the term. Students should contact the department chair for more information.

Requirements for the Computer Science Major (71-72 credits)

In addition to meeting the general university requirements of a UW-Parkside degree, students seeking to graduate with a major in computer science must satisfy the following:

- Completion of computer science major requirements.
- Attainment of a minimum UW-Parkside cumulative GPA of 2.50 in all courses eligible to meet the student’s computer science major requirements, including courses that meet the computer science major breadth requirement.

Computer science (CSCI) major required courses (71-72 credits):

Computer Science Breadth Requirement (9 credits)

Students must complete a package of 9 or more credits outside of computer science in a coherent collection of courses that are relevant to computer science and that meet the approval of the computer science faculty. These 9 credits are included as part of the required 71-72 credits for the major. Several such packages have been pre-approved, in areas such as mathematics, the sciences, art, business and economics. Pre-approved packages include:

- MATH 222 and 301
- MATH 222 and PHYS 202
- CHEM 102 and 215
- Select any 3 courses from: ACCT 201, BUS 272, FIN 330, MGT 349, and MKT 350
- ECON 320 or 321, and two additional 300-level ECON courses
- GEOG 455, 460 and 465
- CRMJ 316, CRMJ 380, and BUS 272
- ART 102, 277 and either 271 or 377

Optionally, a student may submit an individually designed computer science breadth package of 9 or more credits for approval by the computer science faculty. See the department chair for details.

Requirements for the Computer Science/Mathematics Double Major (89-90 credits)

Students may satisfy graduation requirements for both computer science and mathematics by completing the degree requirements for computer science with PHYS 201 together with the following mathematics courses (which automatically satisfy the computer science breadth requirement):

- MATH 222 | Calculus and Analytic Geometry II         | 5 cr    |
- MATH 223 | Calculus and Analytic Geometry III        | 5 cr    |
- MATH 301 | Linear Algebra                             | 4 cr    |
- MATH 317 | Differential Equations and their Applications | 4 cr |
- MATH 350 | Advanced Calculus                          | 4 cr    |
- MATH 441 | Abstract Algebra                           | 4 cr    |

Students completing the computer science/mathematics double major are strongly encouraged to take CSCI 331 as one of their electives.
Course Restrictions
Computer science courses are generally not available for audit.

Disruption of Studies
Normally, students must meet the major requirements in effect at the time they declare a major; however, students majoring in computer science who do not attend continuously may be subject to the major requirements in effect upon their return. In particular, students who do not complete (with a passing grade) a computer science course numbered above 241 for four consecutive semesters will be subject to the major requirements in effect upon their next registration for a computer science course.

Substitutions
Requests for course substitutions to meet the requirements of the computer science major need the approval of the computer science faculty. In the case of the computer science/mathematics double major, substitutions require the approval of both the computer science faculty and the mathematics faculty.

Transfer Credits
In addition to the minimum UW-Parkside cumulative GPA requirement of 2.50 for courses in the major, students with transfer credits applying to the computer science major must also attain a minimum cumulative GPA of 2.50 in all course work required, including transfer credits.

Part-Time Study
The computer science major is available to both full-time and part-time students. Classes meet throughout the day, including evenings. Evening classes are offered on a restricted rotation basis to permit persons working full time during the day to complete major requirements during off-the-job hours. Contact the Computer Science Department chair for details.

Requirements for the Minor in Computer Science (25-26 credits)
The Computer Science Department offers a minor in computer science. It is designed to meet the needs of students who are majoring in another field, but who desire a deeper understanding of computers and software. Students seeking to minor in computer science must attain a minimum UW-Parkside cumulative GPA of 2.50 in all courses eligible to meet the student’s computer science minor requirements.

Computer science minor required courses (25-26 credits):

Electives
At least 6 credit hours of CSCI courses numbered 331 or above, excluding CSCI 375.

Requirements for the Minor in Web Development (25-28 credits)
The Computer Science Department, in collaboration with the Art and Business departments, offers a minor in web development. The minor is designed for students who are seeking an in-depth technical understanding of website development and administration. Students completing the minor will be well situated to take on jobs as web programmers, web developers and web server administrators.

Web Development minor required courses (22-25 credits):

| ART 102 | Introduction to 2D Design | 3 cr |
| ART 277 | Introduction to Web Design | 3 cr |
| ART 377 | Web Design for Designers  | 3 cr |
| CSCI 145 | Introduction to Computer Science | 5 cr |
| CSCI 241 | Computer Science I | 4 cr |
| MIS 221 | Business Programming | 3 cr |
| CSCI 220 | Web Concepts I | 3 cr |
| CSCI 322 | Web Concepts II | 3 cr |
| CSCI 492 | Practicum in Web Development* | 2 cr |
| ENGL 202 | Technical Writing | 3 cr |

Electives (Choose any one of the following):

| MIS 422 | Internet Programming | 3 cr |
| MIS 423 | Design Tech. for Web-based IS | 3 cr |
| MIS 328 | Database Management Systems | 3 cr |
| CSCI 445 | Web Security | 3 cr |
| CSCI 380 | Files and Databases | 3 cr |

A pre-approved CSCI 490 or MIS 490 such as Web Services | 3 cr |

Requirements for the Certificate in UNIX System Administration (9-10 credits)
The Computer Science Department offers a certificate in UNIX system administration that provides background and experience for students interested in careers in system administration. This certificate consists of the following courses:

| CSCI 145 | Introduction to Computer Science | 5 cr |
| CSCI 241 | Computer Science I | 4 cr |
| CSCI 242 | Computer Science II | 4 cr |
| CSCI 340 | Data Structures and Algorithms | 3 cr |
| CSCI 380 | Files and Databases | 3 cr |
Certificate in UNIX System Administration required courses (9-10 credits):

- CSCI 145 Introduction to Computer Science...... 5 cr
- OR
- CSCI 241 Computer Science I...................... 4 cr
- CSCI 275 UNIX Concepts and Tools .................. 2 cr
- CSCI 375 UNIX System Administration.............. 3 cr

Requirements for the Certificate in World Wide Web Publishing (15 credits)

In cooperation with the Art Department, the Computer Science Department offers a certificate in World Wide Web publishing. The certificate serves traditional students who want to augment their major and improve their employability by adding webmaster skills, as well as professionals interested in the essentials of webpage design. Individuals may enter the program at any point, depending on background and experience.

Certificate in World Wide Web publishing required courses (15 credits):

- ART 102 Introduction to 2D Design.................. 3 cr
- ART 277 Introduction to Web Design............... 3 cr
- CSCI 130 Introduction to Programming............... 3 cr
- CSCI 220 Web Concepts I.............................. 3 cr
- CSCI 322 Web Concepts II.............................. 3 cr
- OR
- ART 377 Web Design for Designers.................. 3 cr

Requirements for the Certificate in Cyber Security (9 credits)

The Computer Science Department offers a certificate in cyber security for students interested in careers as an information systems auditor or security analyst. With the growth of computer networking and the World Wide Web, cyber security has become of increasing importance to all computer users. Our certificate gives students a background in securing desktop computers, servers, and the networks that connect them. The certificate is supported by a dedicated laboratory that is isolated from the rest of the campus network, allowing students to gain practical hands-on knowledge of the tools used to both attack and defend computers.

Certificate in Cyber Security 9 credits chosen from:

- CSCI 445 Web Security................................. 3 cr
- CSCI 477 Computer Communication and Networks.................. 3 cr
- OR
- MIS 424 Advanced Business Data Communications.................. 3 cr
- CSCI 478 Network Security.............................. 3 cr
- CSCI 479 Information Systems Security...................... 3 cr

Courses in Computer Science (CSCI)

101 Computer Software Tools........................................... 3 cr
Prereq: None. Freq: Fall, Spring.
Each section introduces a particular software tool. Commonly offered tools include: word processors, spreadsheets, presentation software and databases. Meets two hours per week for eight weeks. May be repeated for credit with different content. Students are expected to have basic computer proficiency skills before taking this course. Students seeking basic computer proficiency skills are encouraged to take ACSK 095.

105 Introduction to Computers......................................... 3 cr
Prereq: None. Freq: Fall, Spring, Summer.
Computer components and the principles of operation; networking, the Internet and the World Wide Web; problem solving techniques, introduction to algorithms, elementary programming concepts.

106 Computer Productivity Tools...................................... 3 cr
Prereq: None. Freq: Occasionally.
Introduction to computers, document processing, spreadsheets, and database management tools. Two-hour lecture, two-hour lab.

130 Introduction to Programming.................................... 1 cr
Prereq: MATH 111 or equivalent. Freq: Fall, Spring.
Fundamentals of high-level programming language: object-orientation, methods, functions, variables, program control. Provides programming experience for CSCI 241.

145 Introduction to Computer Science................................. 5 cr
Prereq: C or better in MATH 112 and MATH 113, or MATH 114.
Freq: Fall.
An introduction to the fundamentals of software development; including software classes, objects, logic, selection control, repetition control, subprograms, parameter passage, and rudimentary software engineering techniques. Students complete numerous programming projects using a modern programming language. Three-hour lecture; one-hour discussion; two-hour lab. Not open to those with credit in CSCI 241.

220 Web Concepts I................................................... 3 cr
Prereq: C or better in CSCI 130, CSCI 145 or CSCI 241; or MIS 221; or consent of instructor Freq: Fall.
Web client programming concepts. website authoring, dynamic web pages, object usage, events and event-driven programming, markup languages, document object model. Two-hour lecture, two-hour lab.

231 Discrete Mathematics................................................ 3 cr
Prereq: C of better in MATH 112. Freq: Fall, Spring.
Sets; the number system; Boolean algebra; formal logic and proofs; relations and functions; combinatorics and recurrence relations; graphs and trees.

241 Computer Science I............................................... 4 cr
Prereq: CSCI 130; C or better in MATH 112 and 113, or MATH 114; or consent of instructor. Freq: Yearly.
Fundamentals of software development; including software classes, objects, logic, selection control, repetition control, subprograms, parameter passage, and rudimentary software engineering techniques. Students complete numerous programming projects using a modern programming language. Three-hour lecture; two-hour lab. Not open to those with credit in CSCI 145.

242 Computer Science II............................................. 4 cr
Prereq: C or better in CSCI 145 or 241. Freq: Fall, Spring.
Object-oriented programming concepts including inheritance and polymorphism; recursion; introduction to data structures including: lists, stacks, queues, trees and maps; advanced sorting and searching algorithms. Three-hour lecture, two-hour lab.
245 Assembly Language Programming........................................ 3 cr
   Prereq: C or better in CSCI 231 and either CSCI 145 or 241.
   Freq: Fall.
   Organization of computers, digital representation of data, symbolic
   coding and assembler systems, instructions, addressing modes,
   program segmentation and linkage, and applications.

275 UNIX Concepts and Tools.................................................. 2 cr
   Prereq: CSCI 241 or equivalent programming experience. Freq: Fall.
   Concepts and tools for UNIX including file system organization,
   directory and file manipulation, UNIX processes, editors, text
   formatting software, filters, X11 windows interface, compiler tools,
   interacting with other users, interacting with Internet hosts, text
   processing systems, make files, and shell scripting.

290 Special Topics in Computer Science.................................1-4 cr
   Prereq: Consent of instructor. Freq: Occasionally.
   Elementary topics in computer science.

296 Professional Certification................................................. 1-6 cr
   Prereq: Consent of instructor. Freq: Occasionally.
   Instruction and laboratory work preparing students to take
   professional certification examinations. Credits will vary depending
   on certification program. Special laboratory fees, add/drop
   deadlines, and fee refund policies may apply.

309 Probability and Statistics for Computer Science............... 3 cr
   Prereq: C or better in Math 221 and CSCI 231. Freq: Spring.
   Elementary probability; random variables, properties of distributions,
   sampling, queuing theory, central limit theorem and law of large
   numbers. Examples drawn primarily from computer science.

322 Web Concepts II............................................................ 3 cr
   Prereq: CSCI 220 or consent of instructor. Freq: Spring.
   Server-side programming concepts; server architectures; relational
   databases and database connectivity; dynamic web pages; form
   processing, web services. Two-hour lecture, two-hour lab.

331 Computational Models.................................................... 3 cr
   Prereq: C or better in CSCI 231. Freq: Fall.
   Regular languages, finite automata, context-free languages and
   grammars, push-down automata, Turing machines, algorithms and
   the Church-Turing thesis, and decidability.

333 Programming Languages................................................ 3 cr
   Prereq: C or better in CSCI 231,242. Freq: Spring.
   Introduction to the syntax and semantic issues in programming
   languages and their effect on language implementation. This
   includes methods to specify languages, data storage, and the
   sequence of control in programs. Non-procedural languages,
   including functional and logic languages, will be examined.

340 Data Structures and Algorithm Design............................... 3 cr
   Prereq: C or better in CSCI 231 and CSCI 242. Freq: Spring.
   Study of the design, implementation and analysis of computer
   algorithms; time and space requirements for sorting, searching,
   graph theory, mathematics and string processing algorithms.

355 Computer Architecture.................................................. 3 cr
   Prereq: C or better in 245. Freq: Spring.
   The design of computer systems and components. Processor
   design, control structures and microprogramming; caches, memory
   hierarchies, mass memory, and memory management; buses,
   interrupts and I/O structures; multiprocessors and advanced
   processors.

368 Mathematical Modeling.................................................. 3 cr
   Prereq: MATH 222; MATH 250 or CSCI 242. Freq: Occasionally.
   Survey of mathematical models, models involving differential
   equations, probabilistic models, Markovian models, simulation, and
   Monte-Carlo methods. Cross-listed with MATH 368.

370 Operating Systems......................................................... 3 cr
   Prereq: C or better in CSCI 242 and 355. Freq: Fall.
   Operating system concepts, process definition and implementation,
   deadlock, memory management and protection, distributed system
   architecture, and case studies.

375 UNIX System Administration.......................................... 3 cr
   Prereq: CSCI 275. Freq: Spring.
   UNIX system administration concepts and techniques including
   system organization, kernel configuration, device management,
   system files and runtime maintenance, software configuration
   and installation, and network configuration; comparison of UNIX with
   other operating systems. Laboratory work included.

380 Database Management Systems......................................... 3 cr
   Prereq: C or better in CSCI 242. Freq: Fall.
   The relational model, database design, relational database
   query languages such as Relational Algebra and SQL, database
   normalization techniques, physical database design.

405 Artificial Intelligence (AI).............................................. 3 cr
   Prereq: C or better in CSCI 333. Freq: Occasionally.
   Introduction to Artificial Intelligence (AI) techniques that include
   search, game playing, and knowledge representation. Specific
   subdisciplines of AI including natural language processing and
   neural networks. Programming assignments in both Prolog and
   LISP. Not open to those with credit in CIS 605.

409 Human-Computer Interfaces.......................................... 3 cr
   Prereq: C or better in any 300-level CSCI course and MATH 309.
   Freq: Occasionally.
   A survey of the field of human-computer interaction including the
   user interface development process, human memory, perception,
   and motor abilities as they relate to user interface design. Qualitative
   overview of descriptive and inferential statistics. Students design
   a low-tech prototype of a user interface (user and task analysis,
   design, and evaluation).

420 Computer Graphics....................................................... 3 cr
   Prereq: C or better in CSCI 340. Freq: Occasionally.
   Graphics hardware and software, techniques for representation
   and visualization, two- and three-dimensional transformations,
   concepts and techniques of visual realism.

421 Computer Vision.......................................................... 3 cr
   Prereq: C or better in CSCI 340 or 333. Freq: Occasionally.
   Review of algebra of matrices and partial differentiation. Introduction
   to Machine Vision and Image Processing including image formation,
   thresholding, image filtering, edge detection, image segmentation,
   image data compression, image similarity and some dynamic vision.

422 Multimedia Systems....................................................... 3 cr
   Prereq: C or better in CSCI 333 or 340. Freq: Occasionally.
   Principles and design of multimedia systems; implementation
   of multimedia algorithms; and discussion of current multimedia
   technologies. Not open to students with credit in CIS 622.

440 Compiler Design and Implementation............................... 3 cr
   Prereq: CSCI 331 and 333 or concurrent registration. Freq: Occasionally.
   Theory, design and implementation of compilers and other syntax-
   directed systems. Applies techniques of finite state machines,
   lexical analysis, symbol tables, parsing, storage allocation and
   code generation to the development of a compiler. Laboratory work
   included.

444 Event-Driven Programming............................................ 3 cr
   Prereq: C or better in CSCI 370. Freq: Occasionally.
   Origins of events; the event-driven programming model; interrupt
   processing as event handling; client-server architectures;
   windowing environments and GUI programming; development
   support software; case studies; and student project.
445 Web Security ................................................................. 3 cr
Prereq: CSCI 242 or 322. Freq: Occasionally.
Vulnerabilities of web languages, interfaces, servers and databases.
Identifying and avoiding vulnerabilities with shopping carts, HTTP/HTTPS and the URL.
Detecting and preventing hacking techniques such as cyber graffiti, e-shoplifting, impersonation, buffer overflows and cross-site scripting.

467 Computability and Automata ........................................... 3 cr
Prereq: C or better in CSCI 331 or consent of instructor.
FREQ: Occasionally.
Turing machines, recursive functions, Kleene’s T Predicate, Ackermann’s function, finite automata, grammars and languages.
Cross-listed with MATH 467.

470 Operating System Implementation .................................. 3 cr
Prereq: C or better in CSCI 370. Freq: Occasionally.
Operating system design including memory management, inter-process communication, protection, distributed systems, multiprocessor systems, network services, file systems, exception handling and system configuration.

475 Software Engineering Principles and Practice I .................. 3 cr
Prereq: C or better in CSCI 333, 340, 370 or 380. Freq: Fall.
An introduction to UML design and teamwork in the development of a larger software system. The use of UML use case, activity, class/object, interaction, and state diagrams in the creation of efficient designs and systems.

476 Software Engineering Principles and Practice II .................. 3 cr
Prereq: C or better in CSCI 475. Freq: Spring.
Software development from an engineering perspective including software development models, team organization and management, implementation strategies, software testing and verification, and project cost estimation. Students will demonstrate their mastery of software engineering design and development strategies through implementation of a significant team-based project.

477 Computer Communications and Networks ....................... 3 cr
Prereq: C or better in CSCI 355 or 370. Freq: Occasionally.
Transmission protocols, layered network protocols, network topology, message routing, performance analysis, security, and case studies.

478 Network Security .......................................................... 3 cr
Prereq: C or better in CSCI 370, 375, 477 or MIS 327.
Freq: Occasionally.
Computer and network security related to operating systems, networks and system administration issues, including hacking, incident response, firewalls, VPNs, intrusion detection, and auditing. A background in computer networking is helpful.

479 Information Systems Security .......................................... 3 cr
Prereq: C or better in CSCI 242 or MIS 328. Freq: Occasionally.
Introduction to information systems security. Considers technical, administrative, and physical aspects of IT security. Topics include fraud, risk, information protection, business continuity, network security, auditing, and security planning and governance.

480 Advanced Databases .................................................... 3 cr
Prereq: C or better in CSCI 380. Freq: Occasionally.
Review of relational database languages such as SQL and Relational Algebra, and query optimization techniques. Non-relational database models including object-oriented databases, XML databases, and deductive databases. Data mining, transaction management, concurrency control, text retrieval, and web data management.

490 Special Topics in Computer Science ............................... 1-4 cr
Prereq: Consent of instructor. Freq: Occasionally.
Advanced topics in computer science with applications.
Degree Offered:
Bachelor of Arts.

Professor:
Rome, Ph.D., Takata, Ph.D., (Chair)

Associate Professor:
Johnson, Ph.D.

Assistant Professor:
Barfield-Cottledge, Ph.D.; Makarios, Ph.D.; Vidales, Ph.D.

Lecturer:
Loud, M.S.Ed.

Career Possibilities:
The criminal justice major is designed to provide a broad-based liberal arts education for undergraduates interested in careers in criminal justice and criminal law. Increasingly, criminal justice agencies require bachelor’s degrees for entry-level and management positions. Possible career opportunities include federal, state, and local law enforcement, probation and parole officers, youth counselors, private investigators, criminal investigators, correctional officers, intelligence analysts, legal assistants, family violence counselors, victim-witness advocates and counselors, statistical research analysts, court administrators, customs officers, and border patrol agents.

Department Overview
The criminal justice major is an interdisciplinary field with emphasis on the social sciences. Criminal justice examines the scientific study of the structure and function of law enforcement, the courts and corrections. In other words, criminal justice examines decision-making processes, operations and other justice-related issues.

Preparation for Graduate School
The criminal justice major provides preparation for professional and graduate studies in law, criminology, criminal justice, sociology, public administration, and other related fields.

Requirements for Admission to the Criminal Justice Major
In order to declare a major in criminal justice, the student must have 1) CRMJ 101 Introduction to Criminal Justice (or equivalent transfer course) with a grade of C or better, and 2) an overall GPA of at least 2.25.

Requirements for the Criminal Justice Major (42 Credits)
This 42-credit major includes a core of 27 credits of criminal justice courses, and 15 credits of upper-level electives. At least 15 credits of upper-level courses in the major must be completed at UW-Parkside. An internship is strongly recommended.

Complete with a C or better (C-minus is not acceptable) all courses toward the criminal justice major. Courses are selected in consultation with your academic adviser.

### Requirements for the Criminal Justice Minor (24-26 Credits)

The minor in criminal justice consists of a minimum of 24-26 credits, distributed as follows:

#### Core Courses Required (12 credits)

**Required Course:**
- **CRMJ 101**  Introduction to Criminal Justice ........ 3 cr

**Select 9 credits from the following Core Courses:**
- CRMJ 233  Criminology .................................... 3 cr
- CRMJ 234  Juvenile Delinquency/Juvenile Justice 3 cr
- CRMJ 235  Police and Society .......................... 3 cr
- CRMJ 316  Criminal Procedure .......................... 3 cr
- CRMJ 363  Corrections .................................... 3 cr
- CRMJ 365  Race, Crime and Law (DV) ................. 3 cr
- CRMJ 380  Criminal Law .................................. 3 cr

#### II. Research Methods/Statistics (3-5 credits)

- **CRMJ 200**  Criminal Justice Research Methods.... 3 cr

or equivalent methods/statistics course approved by the criminal justice adviser.

#### III. Upper-Level Electives (Select 9 credits)

Recommended, but not required.  Suggested 300-level electives relevant to possible career tracks:

**Law Enforcement**
- CRMJ 305  Family Violence .................................. 3 cr
- CRMJ 335  Liability Issues in Criminal Justice ...... 3 cr
- CRMJ 344  Organized Crime ................................ 3 cr
- CRMJ 345  White Collar Crime ........................... 3 cr
- CRMJ 355  Forensic Evidence ................................ 3 cr
- CRMJ 366  Women, Crime and Criminal Justice .... 3 cr
- CRMJ 370  Psychology of Evil ................................ 3 cr
- CRMJ 371  The Criminal Mind ............................ 3 cr
- CRMJ 372  Violence ......................................... 3 cr
- CRMJ 374  Crime and Human Rights .................... 3 cr

* Only 3 credits will count toward criminal justice upper-division elective credits.
Courses in Criminal Justice (CRMJ)

101 Introduction to Criminal Justice .......................... 3 cr
Prereq: None. Freq: Fall, Spring, Summer.
An introduction to the study of agencies and processes involved in the
criminal justice system: law enforcement, the courts, corrections,
and juvenile justice. An analysis of the roles and problems within
criminal justice agencies in a democratic society.

200 Criminal Justice Research Methods .......................... 3 cr
Prereq: CRMJ 101. Freq: Fall, Spring.
Methods, philosophy and sources of criminal justice research.

233 Criminology .................................................... 3 cr
Prereq: CRMJ 101 or SOCA 100 or 101 or consent of instructor.
Freq: Fall, Spring.
Examination of past and current theory and research. Crime as a
consequence of social, economic, and personal factors.
Critique of approaches to prevention and correction. Cross-listed
with SOCA 233.

234 Juvenile Delinquency/Juvenile Justice ..................... 3 cr
Prereq: CRMJ 101 or SOCA 100 or 101 or consent of instructor.
Freq: Fall, Spring.
Conceptualization of juvenile delinquency; the offender in the juvenile
justice system; the philosophy, structure, and function of juvenile
courts; the philosophy, development, and organization of diversion,
detention, and treatment of the juvenile offender. Cross-listed with
SOCA 234.

235 Police and Society ............................................. 3 cr
Prereq: CRMJ 101 or SOCA 100 or 101 or consent of instructor.
Freq: Fall, Spring.
A study of the various levels, roles, and functions of law enforcement
in America. The nature and responsibilities of law enforcement are
discussed and evaluated, including police accountability and
civil liability. Examines the racial, ethnic, and gender issues in law
enforcement. Cross-listed with SOCA 235.

290 Special Topics in Criminal Justice .......................... 3 cr
Prereq: Consent of instructor. Freq: Occasionally.
Selected topics in criminal justice will be examined. General elective
only, not upper-level elective.

305 Family Violence ............................................... 3 cr
Prereq: CRMJ 101 or consent of instructor. Freq: Occasionally.
An examination of the criminal justice response to family violence,
which includes child abuse, spousal abuse, elder abuse, date rape,
and others. The prevalence and extent of family violence as well as
strategies for treatment and prevention will be explored.

316 Criminal Procedure ............................................ 3 cr
Prereq: CRMJ 101 or consent of instructor. Freq: Fall
This course provides a selective analysis of the constitutional
amendments most relevant to criminal justice process. Designed
to complement criminal law and criminal court process, it offers a
comprehensive explanation of the Fourth, Fifth, Sixth, Eighth, and
14th amendments; more commonly known as the criminal justice
amendments.

325 Restorative Justice ............................................ 3 cr
Prereq: CRMJ 101 or consent of instructor. Freq: Yearly.
This course examines the basic principles of restorative justice and
its variants, such as transformative justice, peacemaking
 criminoology, and community justice systems. Restorative justice is
contrasted with the dominant retributive/punitive model of justice.
The position of the victim, offender, and the community within the
context of restorative justice is also explored and examined.

335 Liability Issues in Criminal Justice ........................ 3 cr
Prereq: CRMJ 101 or consent of instructor. Freq: Occasionally.
Liability issues in criminal justice focuses on the constitutional and
statutory rules governing liability for governmental actions resulting
in harm to citizens under civil rights laws.

344 Organized Crime ............................................... 3 cr
Prereq: CRMJ 101 or consent of instructor. Freq: Occasionally.
This course examines the development of organized crime in
America and internationally, including the history, development,
ethnic links, and impact on society and the economy. International
cooperation in addressing the problem of organized crime will be
covered.
Provides an in-depth examination of capital punishment from a psychological and philosophical perspective. It includes an examination of historic and current trends in capital punishment, and other issues (e.g., the costs, future trends). This course covers a variety of issues in white collar and corporate crime, including the kinds of offenses officially defined in the law as white collar crime. Criminological theories about white collar crime, including controversies over how it is defined, are reviewed.

This course will provide a broad theoretical background against which to explore policies in the system of law, in definition and enforcement of the law, and to follow those policies as they have been and are presently affected by social change. Cross-listed with SOCA 352.

This course explores the theory, policy and practice of justice from the criminological, sociological and philosophical perspectives of justice. The relationship between criminal justice and social justice will be examined.

This course covers a variety of issues in forensic investigation including the types of scientific evidence frequently encountered in the criminal courts. Particular emphasis on scientific evidence in criminal investigations and a few selected cases involving introduction of scientific evidence, are reviewed.

Prereq: CRMJ 101 or consent of instructor. Freq: Yearly.

This course will review the history of correctional treatment in the United States, from doing penance in the earliest forms of prison to modern day rehabilitative techniques. It will include a discussion of both conservative and liberal form of correctional intervention and is intended to give students an understanding of the interventions that are used to reduce criminal behavior in the field of corrections.

Prereq: CRMJ 101, or SOCA 100 or 101. Freq: Occasionally.

An overview of major components of community-based methods of correctional supervision with an emphasis on probation and parole. Community supervision will be examined from historical, philosophial, social and legal perspectives.

Prereq: CRMJ 101 or SOCA 100 or 101 or consent of instructor. Freq: Fall, Spring.

An examination of historic and current trends in capital punishment. Considers the literature and philosophical basis of capital punishment, and other issues (e.g., the costs, future trends). Provides an in-depth examination of capital punishment from a criminal justice policy perspective.

This course covers the intersections of race, crime and law in terms of the historical context, the present-day situation and future directions. From law enforcement to courts and corrections, this course focuses on the multiple perspectives from offender to victim to criminal justice practitioner. Cross-listed with SOCA 365.

Introduces and examines experiences Latinos(as) encounter with and within the U.S. criminal justice system, as well as related international and transnational issues. A range of theoretical frameworks will be utilized, including socio-ecological, political, and psychological. Cross-listed with ISTD 367/POLS 367.

An examination of the causes and consequences of crime victimization. The history and recent re-emergence of the study of the victim, the types and circumstances of criminal victimization. The course addresses victims’ rights and the victims’ rights movement. Cross-listed with SOCA 368.

Cruelty and violence directed by one person or group to another is a major concern for all people. This course relies on the findings of learning theory, social psychology, and other areas of psychological research to explore the issue of human violence. The specific goal is to look beyond the perspective of the victim or observer to examine how the perpetrator of cruelty and violence views those acts. Cross-listed with HUMA 370/PSYC 370.

Criminal behavior will be examined in relation to learning factors, psychopathology, juvenile delinquency, mental disorders, violence and homicide, sexual offenses, economic crimes, drugs and alcohol and the correctional system.

This course introduces students to the study of violence and offers a historically grounded, multidisciplinary approach that integrates perspectives from the social sciences, humanities and the natural and physical sciences, in order to provide a comparative framework within which to understand violence.

Focuses on the interrelationship between crime and human rights. Discusses the Bill of Rights especially the freedom of expression, fundamental fairness and equality. Examines the American criminal justice system via the works of prominent writers, researchers and activists.

An analysis of the criminal court process from the formal charging of criminal cases through sentencing. An examination of the manner in which cases move through the criminal court system.
380 Criminal Law .................................................. 3 cr
Prereq: CRMJ 101 or consent of instructor. Freq: Fall, Spring.
An analysis of substantive criminal law. Included are elements of crime; crimes against person, property and public morality; complicity; and inchoate crime.

385 Media, Crime and Criminal Justice ...................... 3 cr
Prereq: CRMJ 101 or consent of instructor. Freq: Occasionally.
Examination of the interrelationship between the mass media, crime and criminal justice. Some topics covered: media and the social construction of crime; crime and justice in the entertainment and news media; media as a cause of crime; and media-based anti-crime efforts.

387 Terrorism and Security ...................................... 3 cr
Prereq: CRMJ 101 or consent of instructor. Freq: Occasionally.
This course explores and examines the phenomenon of terrorism from a global context. Focusing on a critical understanding of the history and theories of terrorism as well as the societal responses to terrorism, and the civil and human rights implications of such response.

388 Comparative and International Criminal Justice Systems .................................................. 3 cr
Prereq: CRMJ 101 or consent of instructor. Freq: Yearly.
This course examines critically the theory and methods of comparative criminal justice. A survey of the procedures and processes employed by other countries to identify, adjudicate and respond to crime and deviant behaviors.

391 The Criminal Justice Profession .......................... 3 cr
Prereq: CRMJ 101 or consent of instructor. Freq: Occasionally.
This course examines the development of the criminal justice profession – the historical changes, present-day issues and future directions. In addition, this course focuses on various issues such as professional socialization ranging from the macro-occupational structure of the profession to the micro-processes of becoming a criminal justice professional, traditional and non-traditional career paths within criminal justice, promotions, and professional advancement.

490 Special Topics in Criminal Justice ....................... 3 cr
Prereq: CRMJ 101 and junior standing, or consent of instructor. Freq: Fall, Spring.
Selected topics in criminal justice are offered and the content varies from semester to semester.

492 Criminal Justice Research Seminar .................... 3 cr
Prereq: CRMJ 101 and junior standing. Consent of instructor. Freq: Occasionally.
A selected criminal justice research project at the advanced level will be offered to students under faculty supervision. Hands-on community research will be conducted as a class project. Research project will vary from semester to semester. May be repeated for credit with different projects.

494 Criminal Justice Internship ...................... 3-6 cr
Prereq: Junior standing, criminal justice major; departmental permission required. Freq: Fall, Spring, Summer.
Field experience designed to further the student’s integration of theory and practice in a professional setting. Potential placements include federal, state, county and municipal criminal justice or administrative law agencies or nonprofit residential treatment facilities. Limited enrollment. (Only 3 credits of the 6 credits can be used to fulfill the criminal justice upper-level elective credit.)

499 Independent Study ........................................... 1-4 cr
Prereq: Criminal justice major; junior standing, and consent of instructor. Freq: Fall, Spring.
Independent work on specific problems in criminal justice under faculty supervision. Eligible areas of study include topics that are not explored sufficiently in the existing curriculum.
Degree Offered:
Bachelor of Arts.

Professors:
Cloutier, Ph.D.; Khan, Ph.D.

Associate Professor:
Kaufman, Ph.D. (Chair)

Assistant Professor:
Milan, Ph.D.

Student Organizations/Clubs:
Economics Club.

Career Possibilities:
Graduates with a bachelor’s degree in economics are employed in a wide variety of jobs in both the private and public sectors of the economy. Recent economics graduates have obtained positions at Snap-on Inc., Modine Manufacturing, Komatsu, Humana Healthcare, US Bank, Northwestern Mutual, Educators Credit Union, Case-New Holland, Hewitt Associates, the U.S. Veteran’s Administration, Prudential Financial, Runzheimer International, the U.S. Internal Revenue Service, S.C. Johnson, Humana, Diversey, Mercer, AXA Advisors, and Johnson Bank. In addition, economics graduates have become teachers in area high schools or have begun their professional careers by working for local government agencies or nonprofit organizations. Other economics graduates have harnessed their entrepreneurial abilities and have started up their own firms, such as LienBoss LLC and Singh Financial and Insurance services.

The Economics Department offers both a major in economics and a minor in economics. Within the economics major, three courses of study are possible: the general major; the monetary and financial economics concentration in the major; and the quantitative concentration in the major. In addition to core principles and theory courses, the Economics Department teaches a wide range of advanced elective courses in various subfields of economics, including economic development, environmental economics, financial economics, industrial organization, international economics, labor economics, money and banking, public economics, and sports economics.

The Economics Department also supports the Economics Club and participates in the College Fed Challenge, a national economics competition sponsored by the Federal Reserve Bank.

Center for Economic Education
The CEE offers professional development programs and curriculum materials to K-12 teachers that enable them to teach economics and finance more effectively.

Preparation for Graduate School
The economics program provides an excellent foundation for graduate work in business, law, or the social sciences. The quantitative concentration in the economics major is designed particularly for students who expect to study economics or related fields in graduate school.

Internships
The internship in economics is a 1-3 credit learning experience in either the private or public sector for students with a 2.50 cumulative GPA and with department approval.

Requirements for the Economics Major
The Economics Department offers three courses of study in the economics major: the general major; the monetary and financial economics concentration in the major; and the quantitative concentration in the major. Economics majors must attain a minimum cumulative GPA of 2.25 in courses for the major. Transfer students must attain a minimum cumulative
GPA of 2.25 in transfer courses applied to the major in addition to UW-Parkside courses for the major. Courses in introductory accounting and computer skills are recommended.

Required Core Courses

The economics core courses provide students with a solid foundation in both macroeconomics and microeconomics and an introduction to basic quantitative techniques. The following courses, or their equivalents, are required of all students (15 credits):

- ECON 120 Principles of Microeconomics ............. 3 cr
- ECON 121 Principles of Macroeconomics ............. 3 cr
- QM 210 Business Statistics I ........................... 3 cr
- ECON 320 Intermediate Micro Theory .................. 3 cr
- ECON 321 Intermediate Macro Theory .................. 3 cr

Students who receive a B or better in ECON 101 and then declare an economics major after taking ECON 101 may petition to substitute ECON 101 for ECON 121. Transfer students who major in economics must earn at least 3 credits in intermediate theory (ECON 320, 321 or 412) at UW-Parkside.

The General Economics Major (33 credits)

The general major is intended for students who seek a broad experience in economics and do not expect to study economics in graduate school. The general major consists of 33 credits to be completed as follows:

A. Required core courses listed above (15 credits).
B. Electives (18 credits):
   - A minimum of 18 credits in economics, including at least 12 credits in upper-level (300 and 400 level) courses.

The Monetary and Financial Economics Concentration in the Major (36 credits)

The monetary and financial economics concentration is designed for students who are interested in professional positions in the financial and banking sectors. This concentration consists of 36 credits to be completed as follows:

A. Required core courses listed above (15 credits).
B. Additional required courses (18 credits):
   - ACCT 201 Financial Accounting......................... 3 cr
   - FIN 330 Managerial Finance ......................... 3 cr
   - ECON 366 Money and Banking ......................... 3 cr
   - ECON 367 Financial Institutions and Markets ........ 3 cr
   - ECON 409 Introduction to Econometrics ............. 3 cr
   - ECON 411 International Economics - Finance ........ 3 cr

C. Electives: One of the following courses (3 credits).
   - FIN 335 Investments .................................... 3 cr
   - ECON 360 Industrial Organization and Public Policy .... 3 cr
   - FIN 431 Advanced Managerial Finance ............... 3 cr

The Quantitative Concentration in the Major (38 credits)

The quantitative concentration is strongly recommended for students who expect to study economics in graduate school or seek a career using quantitative methods. This concentration consists of 38 credits to be completed as follows:

A. Required core courses listed above (15 credits).
B. Additional required courses (11 credits):
   - MATH 221 Calculus and Analytic Geometry I ...... 5 cr
   - ECON 409 Introduction to Econometrics ............. 3 cr
   - ECON 412 Managerial Economics ................. 3 cr

C. Electives (12 credits):
   - A minimum of 12 credits in economics, including at least 9 credits in upper-level (300 and 400 level) courses. Additional courses in mathematics are strongly recommended. Consult your economics adviser regarding recommended courses.

Requirements for the Economics Minor (18 credits)

The economics minor is intended for students who wish to develop a core understanding of economics that will complement their primary field of study. Whatever the major, a minor in economics signals to prospective employers that a UW-Parkside graduate possesses the analytical tools needed to understand economic phenomena and changing economic conditions.

Economics minors must attain a minimum cumulative GPA of 2.25 in courses for the minor. Transfer students must attain a minimum cumulative GPA of 2.25 in transfer courses applied to the minor in addition to UW-Parkside courses for the minor. The minor consists of 18 credits to be completed as follows:

A. Required courses (9 credits):
   - ECON 120 Principles of Microeconomics ............. 3 cr
   - ECON 121 Principles of Macroeconomics ............. 3 cr

   One of the following theory courses:
   - ECON 320 Intermediate Micro Theory .................. 3 cr
   - ECON 321 Intermediate Macro Theory .................. 3 cr

B. Electives (9 credits):
   - A minimum of nine credits in economics including at least six credits in upper-level (300 and 400 level) courses.
Recommended Courses Outside of Economics

Economics majors who are either seeking a career in business or planning on pursuing an M.B.A. at UW-Parkside are strongly encouraged to complete a minor in business management. Please consult the Business Department for details.

Courses in Economics (ECON)

101 The American Economy ............................................... 3 cr
Prereq: None. Freq: Fall, Spring, Summer.
Provides an overview of the basic economic forces, institutions, and policy governing the U.S. economy. A one-semester survey course for students not intending to major in economics or business management. Not open to students with credit in ECON 120 or 121.

120 Principles of Microeconomics............................................ 3 cr
Prereq: Computational skills required. Freq: Fall, Spring, Summer.
Develops and applies principles and models of demand and supply, consumer behavior, producer behavior, competitive and imperfectly competitive markets, and related contemporary economic policy issues.

121 Principles of Macroeconomics............................................ 3 cr
Prereq: Computational skills required. Freq: Fall, Spring, Summer.
Develops and applies principles and models of economic aggregates such as national income, unemployment, inflation, economic growth, and the monetary system and analyzes monetary and fiscal policy.

210 Contemporary Economic Issues ..................................... 3 cr
Prereq: ECON 101, 120, or 121. Freq: Occasionally.
Discusses and analyzes current economic issues using basic economic principles. May include topical guest lectures by economics faculty.

260 Industrial Organization and Public Policy ......................... 3 cr
Prereq: ECON 120. Freq: Occasionally.
Examines the relationships between economic behavior and environmental quality and analyzes environmental policies in terms of social benefits and costs, incentives, and economic efficiency.

304 Economics of Urban Problems ...................................... 3 cr
Prereq: ECON 101 or 120. Freq: Occasionally.
Applies tools of economic analysis to selected urban problems including housing, urban renewal and development, transportation, pollution, poverty, crime, and the financing of urban services.

305 Economics of Sports .................................................... 3 cr
Prereq: ECON 101, 120, or 121; or consent of instructor.
Freq: Spring.
Examines economic issues in professional sports such as labor relations, player salaries, ticket prices, franchise values, competitive balance, stadium financing, and market structure. Cross-listed with HESM 305.

308 Economic Development .................................................. 3 cr
Prereq: ECON 120, 121. Freq: Occasionally.
Examines economic problems and prospects of developing nations, including theories, methods, and practices of economic development and sustainable development.

310 International Trade .......................................................... 3 cr
Prereq: ECON 120. Freq: Occasionally.
Examines theories of international trade, government policy toward international trade, and international trading arrangements and institutions. Cross-listed with INTS 310.

320 Intermediate Micro Theory ............................................. 3 cr
Prereq: ECON 120, 121. Freq: Fall.
Develops and applies theories of consumption, production, market structures, general equilibrium, and welfare economics.

321 Intermediate Macro Theory ............................................. 3 cr
Prereq: ECON 120, 121. Freq: Spring.
Develops and applies theories of aggregate demand and supply, national income and GDP, savings and consumption, investment, net exports, balance of payment, and schools of economic thought. Examines monetary and fiscal policies.

325 American Economic History .......................................... 3 cr
Prereq: ECON 101 or 120; or consent of instructor.
Freq: Occasionally.
Examines the growth of the American economy from colonial times to the present.

330 The Economics of Gender ............................................... 3 cr
Prereq: ECON 101 or 120. Freq: Occasionally.
Examines feminist approaches to economic theory, gender differentials in the labor market, and women in the global economy.

360 Industrial Organization and Public Policy ......................... 3 cr
Prereq: ECON 120. Freq: Occasionally.
Examines patterns of market structure and business strategies, analyzes policies regarding collusive behavior and monopolization, and discusses current regulatory issues. Offered simultaneously with ECON 260. Cannot receive credit for both ECON 260 and ECON 360.

366 Money and Banking ....................................................... 3 cr
Prereq: ECON 120, 121. Freq: Fall.
Examines the role of money, money creation, the operation of central and commercial banks, monetary policy, and international monetary systems.

367 Financial Institutions and Markets ................................. 3 cr
Prereq: ECON 120, 121. Freq: Occasionally.
Examines financial institutions, money and capital markets, sources and uses of funds, the determination of market yields, asymmetric information, and risk.

380 The Labor Market ......................................................... 3 cr
Prereq: ECON 120. Freq: Occasionally.
Examines the economic and social forces determining labor supply and demand, unemployment, labor mobility, human capital, discrimination by race and gender, and earnings inequality.
Graduate Courses

The 700-level courses listed below are intended only for students enrolled in the UW-Parkside Masters of Business Administration program.

710 International Trade..................................................3 cr
Prereq: ECON 120. Freq: Occasionally.
Examines theories of international trade, government policy toward international trade, and international trading arrangements and institutions. Requires a research project. Not open to students with credit in ECON 310.

711 International Monetary Economics...............................3 cr
Prereq: ECON 121. Freq: Occasionally.
Examines foreign exchange markets, international monetary arrangements and investments, theories of balance of payments and exchange rates, open economy macroeconomics. Requires a research project. Not open to students with credit in ECON 411.

762 Managerial Economics..............................................3 cr
Prereq: ECON 120, 121, QM 210 or MBA 511, and MATH 221. Freq: Spring (even years).
Develops and applies microeconomic models and quantitative and optimizing techniques to business decisions involving demand, production, cost, market structures, and pricing strategies. Requires a research project that involves the collection and analysis of economic data. Not open to students with credit in ECON 412.

764 International Trade and Finance.................................2 cr
Prereq: ECON 120 and 121. Freq: Occasionally.
Examines theories of international trade and finance, including trade policy, balance of payment accounts, foreign exchange markets, and exchange rates.

766 Money and Banking..................................................3 cr
Prereq: ECON 120, 121. Freq: Fall.
Analyzes the role of money, money creation, the operation of central and commercial banks, monetary policy, and international monetary systems. Requires a research project. Not open to students with credit in ECON 411.

767 Financial Institutions and Markets...............................3 cr
Prereq: ECON 129 and 121. Freq: Occasionally.
Examines financial institutions, money and capital markets, sources and uses of funds, the determination of market yields, asymmetric information, and risk. Requires a research project. Not open to students with credit in ECON 367.

790 Special Topics in Economics.....................................1-3 cr
Prereq: ECON 120 and 121; or consent of instructor. Freq: Occasionally.
Examines selected topics in economics. Subject matter varies. May be repeated with different topic.
Degree Offered:
Bachelor of Arts.

Professors:
Vopat, Ph.D.

Associate Professors:
Lenard, Ph.D.; McRoy, Ph.D. (Chair), Oswald, Ph. D.

Assistant Professor:
Coronado, Ph.D.; Martinez, Ph.D.; Pedersen, Ph.D.; Spartz, Ph.D.; Swiderski, Ph.D.

Senior Lecturers:
Glaub, M.A., Jagielnik, M.A.; Karpowicz, M.A.; McGuire, M.Phil.; Miller, M.A.

Lecturers:
Bilbrey, A.B.D.; Kushner, Ph.D.; Schroeder, M.A.; Stone, M.F.A.

Student Organizations/Clubs:
A chapter of Sigma Tau Delta, a national English honor society.

Career Possibilities:
Typical career opportunities for English majors include editors, reporters, teachers, business persons, lawyers, and writers—fiction and poetry, technical and business, and advertising.

Department Overview
The English major is designed to suit the needs of UW-Parkside’s heterogeneous population of traditional and nontraditional-aged students and their varied career paths and goals. Often combined with other majors and minors, it can become a valuable tool for students to achieve a traditional liberal education, helping them acquire a broad view of human experience, a critical approach to cultural traditions, and more complete self-understanding.

Each of its three concentrations, while offering a solid grounding in literature and communication skills, emphasizes a distinct area of expertise and understanding. The standard major is especially appropriate for those planning further graduate or professional study or literary careers, and offers the opportunity to explore the traditions of British and American literature in depth. The writing concentration enables those who envision careers in business, industry, or public service to sharpen their communication skills in both general and specialized areas. The language arts concentration focuses on the needs of education professionals and fulfills Wisconsin Department of Public Instruction requirements for teacher training; it is also appropriate for students generally interested in linguistics and language study.

Acceptance into the English Major
Applicants must have at least 2.0 GPA.

Preparation for Graduate School
Students considering graduate study in English are urged to consult their advisers early in their programs. Their programs should include strong representation in the various historical periods and major authors of English literature and the various genres. In addition, ENGL 366 Theory of Literature and Criticism should be taken, when offered. Advisers may suggest additional reading to fill in gaps. If a course needed for graduate study preparation is not currently offered, it is often possible to cover the same material through independent study (ENGL 499). To explore this possibility, students should consult their advisers.

Internships
English majors who choose the writing concentration must complete a writing internship. Those majors and others interested in internships should see the department chair or those department members listed as teaching English 494 in the course schedule for further information.

Recommended Courses Outside of English
To obtain appropriate background information on the literary works and figures studied in English courses, students are advised to take some of their elective credits in the following courses: U.S. History 101 and 102; Western and European History 118, 119, and 120; Philosophy 101 and 102; Art History 125 and 126; and Humanities 101 and 102.

Requirements for the English Major (36-45 credits)
The English major consists of a minimum of 36 credits (for the standard and writing concentrations) or 36-45 credits (for the language arts concentration) in courses in English and related disciplines beyond the required freshman composition sequence and recommended Introduction to Literature course. Students are encouraged to consult with English Department faculty advisers before choosing a concentration and during its completion to fulfill their program of study most expeditiously and comfortably.
Portfolio Requirement

At the beginning of their last semester, English majors must submit for approval a portfolio of written work that they have done in English courses at UW-Parkside. Unapproved portfolios should be revised. A portfolio of student work should consist of the following:

1. A cover letter describing the content and purpose of the portfolio.
2. A reflective essay by the student on
   a) his or her assessment of the English major or
   b) assessment of development in the major.
3. A paper from ENGL 266.
4. A paper from an upper-level English course.
5. The seminar paper or the senior thesis. (These may be added to the portfolio when they are completed.)

Additional information on the portfolio requirement may be obtained by visiting the English Department office or the department chair's office.

Requirements for the Standard Major (36-39 credits)

The standard major in English is particularly recommended for students intending to go on to graduate study in literature.

ENGL 216 and 217 ................................................. 6 cr
Two courses from ENGL 226, 227, 237 ..................... 6 cr
ENGL 266 Literary Analysis ........................................... 3 cr
One course in women's literature*/**....................... 3 cr
One course in minority literature*/* ......................... 3 cr
Two advanced British literature courses
(300-400 level), one being Shakespeare ................. 6 cr
Two advanced American literature courses
(300-400 level) ..................................................... 6 cr
One advanced modern/cultural literature course
(300/400 level) ..................................................... 3 cr
ENGL 495 Senior Seminar ....................................... 3 cr
OR
ENGL 497 Senior Thesis ....................................... 3 cr

* One of the courses in women's literature or minority literature must be at the 300/400 level.
** ENGL 367 or 469 may satisfy both the women's literature and the minority literature requirement, if subject matter is appropriate. Contact the department to initiate this option through an executive action.

Requirements for the Language Arts Concentration (42 credits)

The language arts concentration in English is recommended for students seeking to eventually go into a teaching profession.

A. BASIC LITERATURE: one class from each section
(21 credits)

British Literature Survey:
ENGL 216 Survey of British Literature to 1800..... 3 cr
ENGL 217 Survey of British Literature, 1800-1920 ..................... 3 cr

American or Contemporary Literature:
ENGL 226 Survey of American Literature to 1855.. 3 cr
ENGL 227 Survey of American Literature, 1855-1920 ..................... 3 cr

ENGL 333  Modern Short Fiction ................................. 3 cr
ENGL 334  Modern & Contemporary Poetry ............... 3 cr
ENGL 468  Holocaust Studies ..................................... 3 cr

With approval from an adviser, some 400-level courses may be substituted for those listed above.

Linguistics: (6 credits)
ENGL 287  Grammar for Writers and Teachers .......... 3 cr
ENGL 387  Linguistics ............................................... 3 cr

Students are encouraged to take either ENGL 380 or PSYC 304.

Speech or theatre arts course (3 credits)

C. SENIOR SEMINAR OR THESIS (3 credits)
ENGL 495  Seminar in Literature ............................... 3 cr
OR
ENGL 497  Senior Thesis ........................................... 3 cr

Requirements for the English Minor (21 credits)

Students who desire to take a substantial number of courses in English but who do not intend to major or minor in English should consider the English minor. The minor provides a foundation for further study, vocational or avocational, in English and the liberal arts, and serves as a useful concentration for students planning to enter professional fields.

Basic Literature: (6 credits), Two courses from
ENGL 167, 216-247, 267, 269

Shakespeare (3 credits)
ENGL 320  Shakespeare ............................................. 3 cr

Writing (3 credits): One course from
ENGL 104, 201-209, 266, 310, 401-409, 489, 494

Advanced Work (9 credits): Three credits from three of the following areas
British literature – ENGL 311-319, 411-419
American literature – ENGL 321-330, 421-430
Modern & Cultural Studies – ENGL 331-370, 436, 437, 464, 468
Writing – ENGL 310, 401-409, 494

Requirements for the Professional Writing Certificate (15 credits)

Degree-seeking and non-degree-seeking students who want to specialize in writing for career enhancement but do not intend to major or minor in English should consider the professional writing certificate, which consists of 15 credits:

Two courses (6 credits) from:
ENGL 104  Basic Reporting ......................................... 3 cr
ENGL 201  Advanced Composition ............................ 3 cr
ENGL 202  Technical Writing ..................................... 3 cr
ENGL 204  Writing for Business and Industry ........... 3 cr

Two courses (6 credits) from:
ENGL 310  Advanced Expository Writing .................. 3 cr
ENGL 402  Advanced Technical Writing ................. 3 cr
ENGL 403  Advanced Business Writing ..................... 3 cr
ENGL 404  Non-Fiction Writing ................................. 3 cr

One course (3 credits) from:
ENGL 494  Internship in Writing and Editing .............. 3-6 cr
COMM 494  Communication Internship 
(project must entail writing) ........................... 3 cr

Requirements for the Film Studies Certificate (15 credits)

Offered through the English Department and Humanities Program, the film studies certificate allows students to obtain an interdisciplinary concentration in film studies. All students awarded the film studies certificate must demonstrate a comprehensive understanding of the history of film across numerous cultures, genres, and movements, as well as the major features of film study and analysis. Additionally, students must complete 15 credit hours of course work in classes with a substantial film component, participate in the film studies certificate presentation/discussion, and maintain a GPA of 3.0 or higher in all film certificate courses.

Required courses (9 credits)
ENGL 252/ HUMA 252  Introduction to Film ..................... 3 cr
ENGL 258  History of Film to 1950 ............................. 3 cr
ENGL 259  History of Film from 1950 ......................... 3 cr

Elective courses (6 credits)
ENGL 290  Special Topics (film or film studies) ........... 3 cr
ENGL 358  Film Genres ............................................. 3 cr
ENGL 458  Studies in Film ......................................... 3 cr
ENGL 490  Special Topics (film or film studies) .......... 3 cr
ENGL 495  Seminar in Literature
Courses in English (ENGL)

100 Fundamentals of English .................................................. 3 cr
  Prereq: Placement score or ACSK 090 with grade of C- or better.
  Freq: Fall, Spring.
  Introduces students to rhetorical, logical, and analytical concepts,
  including synthesis of rhetorical modes in the context of short essays.
  Emphasizes vocabulary development, reading comprehension, and
  the mastery of grammar and mechanics. Implements peer review
  and self-assessment. Introduces students to persuasive writing.

101 Composition and Reading ............................................... 3 cr
  Prereq: Placement score or grade of C or better in ENGL 100.
  Freq: Fall, Spring.
  Development of college-level competencies in writing and reading
  in a variety of subject and thematic contexts, with an emphasis on
  argumentation. Satisfies skills requirements in reading and writing.

104 Basic Reporting .......................................................... 3 cr
  Prereq: ENGL 101 with a grade of C- or better.
  Freq: Occasionally.
  Writing for newspapers with emphasis on journalistic style, format,
  copy editing, and on various reporting methods.

112 Women in Literature ..................................................... 3 cr
  Prereq: None. Freq: Alternate Springs.
  This course surveys women writers from classical times to the
  modern era, in their cultural contexts, and identifies the way in which
  their writing illuminates women's experience. Works by women from
  various cultures and backgrounds are considered. Cross-listed with
  WOMS 112.

166 Literacy Tutor Training .................................................. 1 cr
  Prereq: None. Freq: Fall, Spring.
  Training in tutoring adults in basic literacy and in English as a
  second language (15 hours), and 12 hours of individual tutoring,
  in cooperation with the Racine and Kenosha Literacy Councils.

167 Introduction to Literature ............................................. 3-4 cr
  Prereq: ENGL 100 or consent of instructor.
  Freq: Fall, Spring, Summer.
  Techniques of literary analysis and critical approaches to literature
  organized around examples of major genres (fiction, drama, and
  poetry) selected chiefly from English and American writers. Four-
  credit section will require intensive writing, library research, revision,
  and a higher level of analysis of literary texts.

201 Advanced Composition ................................................ 3 cr
  Prereq: ENGL 101 with a grade of C- or better or writing comp.
  Freq: Fall, Spring.
  Further study and practice in English composition with emphasis
  on exposition.

202 Technical Writing ....................................................... 3 cr
  Prereq: ENGL 101 with a grade of C- or better or consent of
  instructor. Freq: Occasionally.
  Writing instruction with an emphasis on presenting written and oral
  reports and interpreting technical writing.

204 Writing for Business and Industry .................................. 3 cr
  Prereq: ENGL 101 with a grade of C- or better. Freq: Fall, Spring.
  The structure, style, and format of composition as related
  to professional settings. Includes the writing of short forms
  (memoranda, correspondence) and reports that solve problems
  and require research and analysis.

206 Creative Writing-Poetry ............................................... 3 cr
  Prereq: ENGL 101 with a grade of C- or better. Freq: Fall, Spring.
  A workshop in the techniques and practice of poetry writing. A
  student may take no more than six credits of ENGL 206/406 in any
  combination.

207 Creative Writing-Fiction .............................................. 3 cr
  Prereq: ENGL 101 with a grade of C- or better. Freq: Fall, Spring.
  A workshop in the techniques and practice of fiction writing. A
  student may take no more than six credits of ENGL 207/407 in any
  combination.

216 Survey of British Literature to 1800 .............................. 3 cr
  Prereq: ENGL 101 with a grade of C- or better or consent of
  instructor. Freq: Yearly.
  Survey of major writers such as Chaucer, Spenser, Shakespeare,
  Milton, Swift, Pope and principal developments from medieval
times through the 18th century.

217 Survey of British Literature, 1800-1920 .......................... 3 cr
  Prereq: ENGL 101 with a grade of C- or better or consent of
  instructor. Freq: Yearly.
  Survey of major writers such as Wordsworth, Keats, Tennyson,
  Dickens, Hardy, Conrad and principal developments from the
  Romantic movement to the end of World War I.

226 Survey of American Literature to 1855 .......................... 3 cr
  Prereq: ENGL 101 with a grade of C- or better or consent of
  instructor. Freq: Yearly.
  Survey of major writers such as Hawthorne, Poe, Emerson,
  Thoreau, Melville and principal developments from colonial
times to mid-19th century.
227 Survey of American Literature, 1855-1920 .......................... 3 cr
Prereq: ENGL 101 with a grade of C- or better or consent of instructor. Freq: Fall, Spring.
Survey of major writers such as Whitman, Dickinson, Twain, James, Chopin, Frost and principal developments from the mid-19th century to the end of World War I.

237 Survey of Modern and Contemporary Literature, 1920 to the Present .......................................................... 3 cr
Prereq: ENGL 101 with a grade of C- or better or consent of instructor. Freq: Fall, Spring.
Survey of major writers such as Eliot, Yeats, Joyce, Faulkner, Hemingway, Woolf and Morrison and principal developments in literature, chiefly English and American, since World War I.

246 Survey of World Literature .............................................. 3 cr
Prereq: ENGL 101 with a grade of C- or better or consent of instructor. Freq: Yearly.
Broad survey of ancient, medieval, and Renaissance, including non-western literatures, exclusive of English literature.

247 Survey of Modern World Literature .................................... 3 cr
Prereq: ENGL 101 with a grade of C- or better or consent of instructor. Freq: Occasionally.
Broad survey of several national and regional literatures including non-Western literatures, since the Renaissance, exclusive of those of England and the United States. Cross-listed with MODL 247.

252 Introduction to Film .................................................... 3 cr
Prereq: None. Freq: Occasionally.
An examination of the distinctive elements and techniques of film as art and the relationship of film to society. Cross-listed with HUMA 252.

258 History of Film to 1950 .................................................. 3 cr
Prereq: None. Freq: Fall.
The development of film techniques, visual qualities, genre, theory and cinematic art from the silent era to around 1950.

259 History of Film from 1950 ............................................. 3 cr
Prereq: None. Freq: Spring.
The development of film techniques, visual qualities, genre, theory and cinematic art from around 1950 to the present.

266 Literary Analysis ......................................................... 3 cr
Prereq: ENGL 101 with a grade of C- or better.
Freq: Fall, Spring.
Stresses original criticism of literature (British, American, all periods), seminar experience, plus frequent reports and papers to practice original critical analysis. English majors are urged to take this course early in their major program.

267 Literature of Diversity .................................................. 3 cr
Prereq: ENGL 101 with a grade of C- or better. Freq: Yearly.
An introductory survey of literature of American ethnic groups. May be repeated with different topic.

268 Introduction to Holocaust Studies ................................... 3 cr
Prereq: ENGLISH 101 with grade of C- or better or consent of instructor. Freq: Yearly.
Overview of historical, philosophical and other issues surrounding the Holocaust, using texts by those who experienced the Holocaust. Cross-listed with HIST 266/INTS 268.

269 Introduction to Women Writers ........................................ 3 cr
Prereq: ENGL 101 with grade of C- or better. Freq: Yearly.
An introduction to important women writers in their cultural contexts.

287 Grammar for Writers and Teachers .................................. 3 cr
Prereq: English 101 with grade of C- or better. Freq: Yearly.
Review of grammar emphasizing terms and concepts used in discussing writing and usage.

290 Special Topics in English ............................................... 1-4 cr
Prereq: ENGL 101 with a grade of C- or better or consent of instructor. Freq: Occasionally.
Special topics in English will be examined. Course may be repeated for credit when topics change.

310 Advanced Expository Writing ........................................ 3 cr
Prereq: ENGL 201, 202, or 204 or consent of instructor.
Freq: Yearly.
Further study and practice in English composition with emphasis on more complex and advanced projects in expository writing.

311 British Drama ............................................................ 3 cr
Prereq: ENGL 266; and 167 or a 200-level survey; or consent of instructor. Freq: Occasionally.
A study of the history and development of drama from its beginnings through Shaw.

312 British Novel ............................................................. 3 cr
Prereq: ENGL 266; and 167 or a 200-level survey; or consent of instructor. Freq: Yearly.
A study of the history and development of the novel form from its beginnings to the 20th century.

314 British Poetry ............................................................ 3 cr
Prereq: ENGL 266; and 167 or a 200-level survey; or consent of instructor. Freq: Occasionally.
A study of English poetry from its beginnings to about 1914.

320 Shakespeare ............................................................... 3 cr
Prereq: ENGL 266; and 167 or a 200-level survey; or consent of instructor. Freq: Fall, Spring.
A survey of the major plays, their Renaissance context, and meaning today. Some attention to the techniques of scholarship. Required of all majors.

321 American Drama .......................................................... 3 cr
Prereq: ENGL 266; and 167 or a 200-level survey; or consent of instructor. Freq: Occasionally.
A historical study of the development of American drama to about 1900.

322 American Novel ............................................................ 3 cr
Prereq: ENGL 266; and 167 or a 200-level survey; or consent of instructor. Freq: Yearly.
A study of the development of the American novel.

323 American Short Story .................................................... 3 cr
Prereq: ENGL 266; and 167 or a 200-level survey; or consent of instructor. Freq: Yearly.
A study of the development of and range of ideas in the American short story.

324 American Poetry .......................................................... 3 cr
Prereq: ENGL 266; and 167 or a 200-level survey; or consent of instructor. Freq: Occasionally.
A study of the development, range of ideas, and poetic theories of selected American poets.

331 Modern and Contemporary Drama ................................... 3 cr
Prereq: ENGL 266; and 167 or a 200-level survey; or consent of instructor. Freq: Occasionally.
A study of British, American, and/or European drama since World War I.

332 Modern and Contemporary Novel ................................... 3 cr
Prereq: ENGL 266; and 167 or a 200-level survey; or consent of instructor. Freq: Occasionally.
A study of the novel in Britain, America, and/or Europe since World War I.

333 Modern Short Fiction ..................................................... 3 cr
Prereq: ENGL 266; and 167 or a 200-level survey; or consent of instructor. Freq: Occasionally.
An exploration of such genres as the short story and novella since World War I.
334 Modern and Contemporary Poetry ........................................... 3 cr
Prereq: ENGL 266, and 167 or a 200-level survey; or consent of instructor. Freq: Occasionally.
A study of British and American poetry from about 1914 to the present.

354 Young Adult Literature .................................................... 3 cr
Prereq: ENGL 266; and 167 or a 200-level survey; or consent of instructor. Freq: Yearly
A study of representative young adult literature.

358 Film Genres .................................................................. 3 cr
Prereq: ENGL 252, 258 or 259; or consent of instructor.
Freq: Occasionally.
A study of film genres such as film noir, the western, the war movie, science fiction, comedy, the detective film, etc. May be repeated for credit with a different topic.

364 The Epic and Mythology ............................................... 3 cr
Prereq: ENGL 266; and 167 or a 200-level survey; or consent of instructor. Freq: Occasionally.
A study of the major epics including those by Homer, Virgil, and Dante.

366 Theory of Literature & Criticism ................................... 3 cr
Prereq: ENGL 266, 3 credits in literature beyond ENGL 237.
Freq: Occasionally.
An exploration of the nature of literature, the basis of literary criticism, and of different critical schools.

367 Studies in American Ethnic Literature ......................... 3 cr
Prereq: ENGL 266; and 167 or a 200-level survey; or consent of instructor. Freq: Occasionally.
An examination of the literature of one or more American ethnic writers or groups – such as African American, Hispanic, Native American, Asian American, Euro-American – with special emphasis on how literature reflects issues of the diversity of American culture.

368 Bible as Literature ....................................................... 3 cr
Prereq: ENGL 266; and 167 or a 200-level survey; or consent of instructor. Freq: Occasionally.
Study of the literary and cultural background, qualities, and influence of the Jewish and Christian scriptures.

380 History of the English Language ................................ 3 cr
Prereq: ENGL 287 or consent of instructor. Freq: Yearly.
Historical and social varieties of English linguistic approaches to English syntax.

387 Linguistics ................................................................. 3 cr
Prereq: ENGL 287 or consent of instructor. Freq: Yearly.
An introduction to major areas in the study of language, including phonology, syntax, semantics, historical, comparative linguistics and socio-linguistics.

390 Special Topics in English .............................................. 1-4 cr
Prereq: ENGL 266; and 167 or a 200-level survey; or consent of instructor. Freq: Occasionally.
Selected topics in English will be examined. May be repeated for credit with different topic.

402 Advanced Technical Writing ...................................... 3 cr
Prereq: ENGL 202 or equivalent. Freq: Occasionally.
Emphasizes writing and editing skills needed to prepare a project such as a procedures manual, report of experimental findings, proposals, etc.

403 Advanced Business Writing ....................................... 3 cr
Prereq: ENGL 202 or 204 or consent of instructor.
Freq: Occasionally.
Continued study of the forms of business writing and communication. Includes interviewing and appraisal performance documents; further study of written business messages, presentations, meetings and agendas; and writing for specialized situations such as crisis or media events.

404 Non-Fiction Writing .................................................. 3 cr
Prereq: ENGL 201, 204, or consent of instructor. Freq: Yearly.
Explores writing feature-length articles, historical accounts, reviews, opinion pieces, advanced essays, and various professional writing styles.

406 Advanced Creative Writing-Poetry ............................. 1-6 cr
Prereq: ENGL 206 or consent of instructor. Freq: Fall, Spring.
Advanced work in poetry writing under the guidance of a professional poet. A student may take no more than 6 credits of 206/406 in any combination.

407 Advanced Creative Writing-Fiction ............................. 1-6 cr
Prereq: ENGL 207 or consent of instructor. Freq: Fall, Spring.
Advanced fiction writing under the guidance of a professional writer. A student may take no more than 6 credits of ENGL 207/407 in any combination.

416 Major British Authors .................................................. 1-4 cr
Prereq: ENGL 266; and 167 or a 200-level survey; or consent of instructor. Freq: Occasionally.
Topic varies. Intensive study of one or more major British authors. May be repeated for credit with different topic.

417 Studies in British Literature ........................................ 1-6 cr
Prereq: ENGL 266; and 167 or a 200-level survey; or consent of instructor. Freq: Occasionally.
An examination of such topics as Medieval Literature, The Age of Pope, Victorian Poetry, etc. May be repeated for credit with different topic.

420 Advanced Shakespeare ............................................. 1-3 cr
Prereq: ENGL 320. Freq: Occasionally.
An examination of Shakespearean genres (tragedy, history, comedy, romance), dramaturgy, or themes as well as related subjects such as Shakespeare on film.

426 Major American Authors ............................................ 1-4 cr
Prereq: ENGL 266; and 167 or a 200-level survey; or consent of instructor. Freq: Occasionally.
Topic varies. Intensive study of one or more major American authors. May be repeated for credit with different topic.

427 Studies in American Literature ................................ 1-6 cr
Prereq: ENGL 266; and 167 or a 200-level survey; or consent of instructor. Freq: Occasionally.
An examination of such topics as The Rise of Realism, American Naturalism, American Local Colorists, American Literary Criticism, etc. May be repeated for credit with different topic.

436 Major Modern and Contemporary Authors .................. 3 cr
Prereq: ENGL 266; and 167 or a 200-level survey; or consent of instructor. Freq: Occasionally.
Topic varies. Intensive study of one or more major contemporary authors. May be repeated for credit with different topic.

437 Studies in Modern and Contemporary Literature .......... 1-6 cr
Prereq: ENGL 266; and 167 or a 200-level survey; or consent of instructor. Freq: Occasionally.
An examination of such topics as the hero in modern literature, innovations in 20th century drama, experiments in literary form, etc. May be repeated for credit with different topic.

458 Studies in Film .......................................................... 3 cr
Prereq: None. Freq: Occasionally.
An introduction to movements, techniques, theories, national cinemas, genres, directors, or periods. May be repeated for credit with different topic.

460 Literature and Other Disciplines ............................... 1-6 cr
Prereq: ENGL 266; and 167 or a 200-level survey; or consent of instructor. Freq: Occasionally.
The relation of literature to individual disciplines such as science, sociology, psychology, music, philosophy, etc. May be repeated for credit with change in discipline.

</table>
Degree Offered:
None; UW-Parkside offers an environmental studies minor.

Associate Professors:
James, Ph.D.; Kaufman, Ph.D.; Mayer, Ph.D.; Skalbeck, Ph.D.; Thomson, Ph.D.; Walasek, Ph.D.; Wolf, Ph.D.; Wood, Ph.D.

Assistant Professor:
Cleary, Ph.D; Rogers, Ph.D. (Director); Ward, Ph.D.

Lecturer:
Mossman, Ph.D.

Adjunct Instructor:
Kinzelman, Ph.D

Student Organizations/Clubs:
BIOS Club, Geosciences Club, Geography Club, Parkside Environmental Club.

Career Possibilities:
Environmental consulting, environmental law and law enforcement, forestry, journalism, natural resource management, science teaching, sustainable management, wetlands management, wildlife conservation.

Program Overview
The Environmental Studies Program is an interdisciplinary program designed to focus the studies of students having a strong interest in environmental issues. It attempts to develop an appreciation for the scope of environmental problems and the costs and consequences for various solutions. It draws upon the expertise of a diverse group of faculty in the College of Arts and Sciences, and it is open to all students.

Requirements for the Environmental Studies Minor (19 credits)
The environmental studies minor consists of a minimum of 19 credits, of which a minimum of 6 credits must be taken in science and a minimum of 6 credits in liberal arts, chosen from the following courses:

A. ENVS 495 Seminar on Environmental Issues .......... 1 cr
   Required of all students, and may be repeated for credit when the theme is different.

B. Environmental Survey (3 Credits)
   BIOS 104 Environmental Science:
       A Biological Approach* ............... 3 cr
   CHEM 109 Environmental Chemistry ............... 3 cr
   GEOG 308 Conservation of Natural Resources .... 3 cr
   GEOS 103 Environmental Science:
       An Earth Resources Approach .......... 3 cr

   Biological sciences majors should take BIOS 305 Principles of Ecology, not BIOS 104; and Geosciences majors should not take GEOS 103.

C. Environmental Policy (3 Credits)
   ECON 300 Environmental Economics .............. 3 cr
   POLS 302 Environmental Policy ................. 3 cr
   SOCA 379 Society and the Environment .......... 3 cr

D. Electives (12 Credits)
   Twelve elective credits taken outside one’s major field (except for a possible 3-credit independent study which may be taken within the major) selected from the list below or from ENVS 495 and core courses beyond those used to meet requirements A and B.

Other Courses Which Count for the Minor
- BIOS 102, 202 or 303, 305, 313, 318, 324, 330
- ECON 120, 320
- ENGL 202
- ENVS 290, 335, 336, 390, 490, 499
- GEOG 108, 306, 323, 324, 326, 382, 384, 365, 396
- PHIL 210
- POLS 202, 250
- SOCA 482

(Some of these courses have prerequisites; see an environmental studies adviser to plan your program of studies.)

Independent study for 3 credits may be taken under supervision of a member of the environmental studies minor faculty. An independent study within the student’s major field must be approved by the environmental studies faculty committee.
Background Courses
Students pursuing an environmental studies minor are encouraged to take as many of the following as possible:

- CHEM 101, 102
- ECON 121, 325, 405
- ENGL 402
- GEOG 100, 105, 110, 215, 250, 315, 320, 360, 375
- GEOS 100, 101, 102, 301
- HIST 101, 102, 120, 128, 313, 324, 341, 346
- PHIL 101, 206, 320
- POLS 100, 104, 214, 215, 216, 320, 331, 341, 360, 400

Statistics is an important tool for environmental studies, and therefore students are urged to take one of the following:

- BIOS 210
- GEOG 300
- MATH 309, 310
- PSYC 250
- QM 210
- SOCA 250

Courses in Environmental Studies (ENVS)

290 Special Topics in Environmental Studies ...................... 1-4 cr
Prereq: Consent of instructor.  Freq: Occasionally.
Special topics in environmental studies will be examined.

335 Energy ......................................................................... 4 cr
Prereq: MATH 111, PHYS 101.  Freq: Spring.
Students will learn to evaluate unsolved questions regarding modern energy needs and the environment. Topics such as alternative energy sources, vehicle design, nuclear power and waste and public ownership of utilities, will be considered. Three hour lecture, three hour lab, presented in an integrated studio style.

336 Environmental Justice .................................................. 4 cr
Prereq: BIOS 104 or GEOS 103.  Freq: Spring.
Students will learn to evaluate unsolved questions regarding themes of social inequities and environmental contamination. Topics such as industrial zoning, brownfield development, urban agriculture, air quality and toxic waste processing will be considered. Three-hour lecture, three-hour lab.

390 Special Topics in Environmental Studies ...................... 1-4 cr
Prereq: Consent of instructor.  Freq: Occasionally.
Special topics in environmental studies will be examined.

490 Special Topics in Environmental Studies ...................... 1-4 cr
Prereq: Consent of instructor.  Freq: Occasionally.
Special topics in environmental studies will be examined.

495 Seminar on Environmental Issues ................................. 1 cr
Prereq: Junior standing.  Freq: Spring.
Major environmental issues are explored from a multidisciplinary perspective; includes both faculty and student-guided discussions. May be repeated for credit when the theme is different.

499 Independent Study ......................................................... 1-3 cr
Prereq: Consent of instructor and director.
Freq: Fall, Spring, Summer.
An independent project carried out under the supervision of a member of the environmental studies faculty. Up to 3 credits may count as elective credit toward the minor.
Degree Offered:
None. UW-Parkside offers an ethnic studies minor.

Director:
Akindes, Ph.D.

Steering Committee:

Career Possibilities:
Ethnic studies prepares students for an increasingly diverse 21st century. Ethnic studies alumni have continued onto graduate or law school for higher degrees, or found employment in education, social services, media, nonprofit, private and government organizations.

Program Overview
The Center for Ethnic Studies (CES) is an interdisciplinary program that places historically marginalized groups – Native American Indians, African Americans, Latinas/os and Asian Americans – at the center of academic inquiry. Ethnic studies courses critically examine race and ethnic inequality and power relations in the United States, including institutional racism and white privilege. The CES supports UW-Parkside initiatives relating to racial/ethnic diversity, the curriculum, campus climate, and retention of faculty, staff and students of color. The CES is responsible for reviewing course syllabi that fulfill the UW System’s diversity (DV) requirement, and providing support to faculty and staff in developing courses that are inclusive of multiple histories, experiences, and bodies of knowledge. Ethnic studies has relevance to all students seeking a deeper understanding of what it means to be a U.S. American in a complex, diverse society.

Requirements for the Ethnic Studies Minor (18 credits)
The ethnic studies minor may be combined with any major. It consists of 18 credits, 9 in the core courses, 3-6 credits focusing on specific ethnic groups, and 3-6 credits of general electives. All elective courses listed below are 3 credits each. Special topics courses in ethnic studies (ETHN 290/390/490) are offered from time to time and may be substituted as a general elective with the consent of the director.

Core Courses (9 credits)
- ETHN 201: Introduction to Ethnic Studies .......... 3 cr
- ETHN 302: Race/Ethnicity: United States of America 1890 to Present ............ 3 cr
- ETHN 494: Internship ........................................... 3 cr
OR
- ETHN 499: Independent Study ......................... 3 cr

Electives Focused on Particular Ethnic Groups (3-6 credits)
- ETHN 326: African American Music 3 cr
- ETHN 333: Contemporary American Immigration ... 3 cr
- ETHN 337: African American History ................. 3 cr
- ETHN 363: Communication and Ethnicity .......... 3 cr
Focus rotates among African Americans, Asian Americans, Latinas/os, and Native American Indians. May be repeated with different content.

- ETHN/SOCA 243: Latinas/os in the United States ........ 3 cr
- SOCA 227: North American Indians ................. 3 cr
- SOCA 324: African American Studies ............... 3 cr
- SOCA 328: Asians in American Society ............. 3 cr

General Electives (3-6 credits)
- COMM 107: Communication and the Human Condition ........................................... 3 cr
- COMM 463: Gender, Race and, Class, and Sexuality in the Media ......................... 3 cr
- CRMJ 365: Race, Crime & Law ......................... 3 cr
- ENGL 267: Literature of Diversity ...................... 3 cr
- ENGL 268/468: Introduction to Holocaust Studies ...... 3 cr
- ENGL 367: Studies in American Ethnic Literature ... 3 cr
- ETHN 120: Astronomy in Non-Western Cultures ... 3 cr
- ETHN 208: Multicultural Theatre in America ........ 3 cr
- ETHN 320: Understanding White Privilege .......... 3 cr
- ETHN 360: Critical Ethnic Studies ...................... 3 cr
- ETHN 365: Intercultural Communication .............. 3 cr
- GEOG 101: Geography of American Ethnicity and Race ........................................... 3 cr
- HUMA 103: Diversity in the United States ............ 3 cr
- SOCA 206: Race and Ethnic Relations in the U.S.... 3 cr
- SOCA 323: Institutional Racism in America .......... 3 cr
- SOCA 325: Comparative Race and Ethnic Relations ........................................... 3 cr

Additional courses, offered through ethnic studies and other departments, may also count toward completion of the ethnic studies minor. These courses will be determined on
Courses in Ethnic Studies (ETHN)

120 Astronomy in Non-Western Cultures ............................ 3 cr  
Prereq: None. Freq: Fall, Spring.  
Examines primarily the astronomical views of Native Americans and looks at how mythos, science and discrimination intersect. Current cultural conflicts between science and native groups will be examined. Additional examples of the cultural development of astronomy and science will be drawn from the Americas, Africa, Oceania, and Asia. Cross-listed with PHYS 120.

201 Introduction to Ethnic Studies .................................... 3 cr  
Prereq: Sophomore standing. Freq: Fall.  
Key concepts and methodologies of U.S. ethnic studies are examined with particular emphasis on four under-represented groups: Native American Indians, African Americans, Asian Americans, and Latinos/as.

208 Multicultural Theatre in America ............................. 3 cr  
Prereq: ENGL 101. Freq: Fall.  
This survey course in multicultural theatre focusing on African American, Asian American, Latina/o American and Native American cultures utilizes dramatic texts, live performance events and anthropological research as a means of exploring and understanding voices of diversity expressed on the American stage in the past 50 years. Field trips to theatrical productions required. Additional fees required. Cross-listed with THEA 208.

243 Latinas/os in United States ................................. 3 cr  
Prereq: SOCA 100 or 101. Freq: Spring.  
Survey of Latina/o groups in the United States; focus on the Latino experience (i.e., immigration, causes and consequences of minority status, current socioeconomic position, racial and ethnic identity). Cross-listed with SOCA 243.

290 Special Topics in Ethnic Studies ............................. 1-3 cr  
Prereq: None. Freq: Occasionally.  
Selected topics in ethnic studies will be examined.

302 Race/Ethnicity: United States of America 1890 to the Present ...................................................... 3 cr  
Prereq: HIST 250 or consent of instructor. Freq: Spring (even years).  
Examines the continuing evolution of the United States into “an American kaleidoscope” during the 20th century. Tests the various concepts and models of ethnocultural interaction against the complexity and diversity of historical development during a century of rapid, massive change. Cross-listed with HIST 302.

315 Diversity Law: Tribal Nations ..................................... 3 cr  
Prereq: POLS 100 or ETHN minor; POLS 216 recommended. Freq: Occasionally.  
Tribal relationship with the U.S. government, as nations within a nation, tribal sovereignty, the Marshall trilogy, removal, allotment, Reorganization Act, the Indian Civil Rights Act, termination, Public Law 280, religious freedom, and modern tribal governments. The tribal nations of Wisconsin are emphasized. Cross-listed with POLS 315.

316 Diversity Law: African Americans ............................ 3 cr  
Prereq: POLS 100 or ETHN minor; POLS 216 recommended. Freq: Occasionally.  
Analyzes the relationship of African Americans to the United States Constitution, and includes such topics as slavery, the Fugitive Slave Acts, the Civil War Amendments, segregation, the civil rights movement, voting rights, affirmative action, and housing laws. Cross-listed with POLS 316.

320 Understanding White Privilege ................................ 3 cr  
Prereq: Junior standing or consent of instructor. Freq: Yearly.  
White privilege is examined in relation to historically under-represented groups in the United States. Cross-listed with COMM 320.

326 African American Music ........................................ 3 cr  
Prereq: None. Freq: Summer.  
Survey and study of development and evolution of African American music 17th century to present with attention given to historical, sociological, political, and humanistic contexts. Cross-listed with MUS 326.

333 Contemporary American Immigration ........................ 3 cr  
Prereq: None. Freq: Occasionally.  
Examines the global economic, social, and political forces that have shaped immigration to the United States since the passage of the Immigration and Nationality Act of 1965 and the ways in which immigration is changing the nation and the world. Includes models of assimilation, political participation, and psychological and cultural considerations. Cross-listed with HIST 333.

337 African American History .......................................... 3 cr  
Prereq: None. Freq: Spring (odd years).  
Examines the experience of African Americans from colonial times to the present with emphasis on their evolution as an ethnic group and on their struggle for equality. Cross-listed with HIST 337.

360 Critical Ethnic Studies ........................................ 3 cr  
Prereq: SOCA 100 or 101; or consent of instructor. Freq: Yearly.  
A critical examination of the social conditions under which ethnic, including ‘racial’, groups achieve the status of ‘natural’ and ‘pure’ social formations in the United States and in selected other societies. Special attention is given to perceptions of ‘whiteness’ and ‘hybridity’ and their social consequences. Cross-listed with SOCA 360.

363 Communication and Ethnicity .................................. 3 cr  
Prereq: COMM 107 or consent of instructor. Freq: Fall.  
A critical examination of communication practices which construct, maintain, transform, or threaten ethnic identity in a co-cultural context. May be repeated with different content. Emphasis rotates among African Americans, Asian Americans, Latinas/os, and Native Americans. Cross-listed with COMM 363.

365 Intercultural Communication .................................. 3 cr  
Prereq: COMM 107 or consent of instructor. Freq: Fall, Spring.  
A critical examination of communication practices which construct, maintain, transform, or threaten ethnic identity in a co-cultural context. May be repeated with different content. Emphasis rotates among African Americans, Asian Americans, Latinas/os, and Native Americans. Cross-listed with COMM 365.

390 Special Topics in Ethnic Studies ............................. 3 cr  
Prereq: None. Freq: Occasionally.  
Selected topics in ethnic studies will be examined.

490 Special Topics in Ethnic Studies ............................. 1-3 cr  
Prereq: Junior standing, ETHN 201. Freq: Occasionally.  
Selected topics in ethnic studies will be examined.

494 Internship ...................................................... 1-3 cr  
Prereq: Consent of instructor and director. Freq: Fall, Spring.  
Supervised experience in planned projects that expose students to ethnic subcultures in the United States. Up to 3 credits can be applied to the minor.

499 Independent Study .............................................. 1-5 cr  
Prereq: Consent of instructor and director. Freq: Fall, Spring, Summer.  
Topics individually arranged. Descriptions for other minor courses are located in their respective departments.
General Education Program

Degree Offered:
None.

Program Director:
Allen, Ph.D.

Program Overview
General education is the foundation of lifelong learning. The aim of the General Education Program at UW-Parkside is to provide lifelong access to information by developing in students the skills and capacities necessary for a lifetime of continuous learning. Student learning outcomes that are developed through the general education curriculum include the ability to think critically and analytically about problems and issues; the ability to work effectively as a member of a team; and the ability to communicate effectively, both orally and in writing.

UW-Parkside’s General Education Program is designed to ensure that all of its graduates have a solid foundation in the arts and sciences. General education distribution courses provide a broad context for the more concentrated and in-depth study that takes place in the major field of study. Since the general education courses are often the only college courses a student takes in a given area of study, they provide the foundation for lifelong learning; a foundation that is reinforced through the major field of study.

General education requirements are listed in the chapter on Academic Programs and Policies. The purpose of a general education in the liberal arts at UW-Parkside is twofold. First, students will have acquired a knowledge and skill set that is used across all academic disciplines. Second, it will make students aware that knowledge is diverse, and it will make them conversant with the principles and methodologies of disciplines across the spectrum of knowledge. Therefore, all UW-Parkside graduates must have

1. Achieved competency in the following areas:
   A. Communication
      Literacy – reading for understanding and writing for effective communication
      Oral communication – listening, speaking and presenting effectively
      Information technology competence – using modern information technology to retrieve and transmit information
   B. Reasoned Judgment
      Critical thinking – applying logic and reasoning to problem solving
      Ethical thinking – recognizing and analyzing ethical issues and actions
      Scientific thinking – understanding and applying the scientific method
      Analytical skills – understanding how to produce and interpret quantitative and qualitative information
      Aesthetic skills – critiquing and appreciating the fine arts (literary, visual, and performing)
   C. Social and Personal Responsibility
      Individual accountability – understanding what a responsible choice is and that one’s present education and lifelong learning is a personal responsibility
      Social equality – understanding and questioning the social, political, economic and historical conditions that construct diversity and inequality
      Civic engagement – learning to use knowledge and skills to contribute to the community
      Global perspective – acquiring the knowledge and skills that provide an understanding of international/global issues and processes
      Teamwork – working effectively with others for a common goal

2. Demonstrated competency in each of three broad areas: humanities and the arts, social and behavioral science, and natural science.

Courses in General Education (GNED)

190 Special Topics .................................................................1-5 cr
Prereq: Varies by topic. Freq: Occasionally.
Topics of special interest to the process content and assessment of general education. May be repeated for credit with different topic.

290 Special Topics .................................................................1-3 cr
Prereq: Freshman, Sophomore standing. Freq: Occasionally.
Topics of special interest to the process, content and assessment of general education. May be repeated for credit with different topic.
294 Shared Governance Internship........................................... 2 cr
Prereq: Sophomore standing.  Freq: Fall, Spring.
Research and project-related work associated with the General Education Committee. This course is designed for students without prior internship experience.

390 Special Topics .................................................................1-3 cr
Prereq: Junior standing.  Freq: Occasionally.
Topics of special interest to the process, content and assessment of general education.  May be repeated for credit with different topic.

490 Special Topics .................................................................1-3 cr
Prereq: Junior, senior standing.  Freq: Occasionally.
Topics of interest to the process, content and assessment of general education.  May be repeated for credit with different topic.

494 Shared Governance Internship........................................... 2 cr
Prereq: Junior standing, GNED 294 or permission of instructor.
Freq: Fall, Spring.
Research and project-related work associated with the General Education Committee.  This course is designed for the student who has completed another university-related internship course or similar experience or for work that merits the 400-level designation.
Overview
General science courses provide a broad introduction to science and the scientific method for the non-science major. These courses demonstrate the university’s commitment to develop informed citizens who participate in their society with knowledge and understanding of science. Courses in this area are particularly useful for students preparing for careers in education.

Courses in General Science (GSCI)

102 Science and Pseudoscience ................................................. 3 cr
Prereq: None. Freq: Fall, Spring.
This course provides a general introduction to the meaning and method of true science which will be examined in relation to fringe and pseudoscience topics. Three-hour lecture.

108 Introduction to Bioinformatics and Molecular Medicine .. 3 cr
Prereq: None. MATH 111 and ENGL 100; or consent of instructor.
Freq: Yearly.
Basic understanding of molecular aspects regarding health combined with related computer programming experience and discussion of ethical issues. Online/hybrid.

205 Foundations of Science I ................................................. 3 cr
Prereq: None. Freq: Occasionally.
Designed for non-science majors interested in teaching. An integrated approach to selected physical science topics that focus on science as a way of knowing, with emphasis on gathering data and analyzing data critically and/or quantitatively. Provides a model of science education reform. Three-hour lecture.

206 Foundations of Science II ................................................. 3 cr
Prereq: GSCI 205. Freq: Occasionally.
A continuation of GSCI 205 with greater emphasis on the life sciences and the technological impacts of science. Three-hour lecture.

490 Special Topics ................................................................. 1-4 cr
Prereq: None. Freq: Occasionally.
Selected topics in science will be examined.

496 Internship ................................................................. 1-3 cr
Prereq: Consent of instructor and department chair.
Freq: Fall, Spring, Summer.
Supervised science education experience arranged outside of the university setting.

499 Independent Study ............................................................. 1-3 cr
Prereq: Consent of instructor and department chair.
Freq: Fall, Spring, Summer.
Supervised experiences related to science education.
GEOGRAPHY

Molinaro 275 • 262-595-2149 • Keyword: Geography

Degree Offered:
Bachelor of Arts.

Professor:
Walasek, Ph.D.; (Chair)

Associate Professor:
Wolf, Ph.D.

Assistant Professors:
French, Ph.D.; Ward, Ph.D.

Student Organizations/Clubs:
Geography Club, Gamma Theta Upsilon

Career Possibilities:
Students who major in geography are well prepared for careers in many fields including environmental analysis and management, Geographic Information Systems, community development, urban planning, and teaching. In addition, geography is a dynamic liberal arts major which combines cultural perspectives and analytical skills. Opportunities for employment are wide ranging. Employers understand that geography graduates possess a wide variety of useful abilities. Possible employers include mapping firms, environmental agencies, planning departments, site selection companies, marketing departments, school districts, emergency management agencies, nonprofit organizations, and defense agencies.

Department Overview

Geography is the study of the distribution, variation, and interrelation of the natural and cultural features of the Earth’s surface. The UW-Parkside geography curriculum is designed to reflect the needs of society and nature so that students will gain an understanding of the varied spatial factors which influence life in today’s interconnected world. The Geography Department’s mission is to extend geographic knowledge through exceptional educational programs, research projects, and service activities using advanced technology to train students and to solve problems. Geography’s mission is important because aspects of place, area, location, and distribution are essential to resolving issues facing the region, the country and the world. Understanding global, national, and local patterns of economic activity, urban problems, cultural differences and environmental change is vital and emphasized within the department.

Students interested in geography have several options. Some students complete a general major in geography; many students include as part of their geography major one or more of the following:

- Concentration in planning
- Concentration in applied environmental geography
- Certificate in geographic information systems

The department also offers a geography minor.

Opportunities to assist in faculty research projects permit students to learn research tools used in geography and to apply concepts learned in the classroom. For example, students might learn how to take soil samples in the field, to analyze tree rings in the lab, to measure quality of life in segregated neighborhoods, or to use GIS for mapping, analysis, and decision making. In addition, students can gain service experiences through community-based learning projects.

Preparation for Graduate School

A major in geography provides excellent preparation for students seeking graduate study and degrees in geography, urban planning, environmental studies, international affairs, resource management, and other related fields.

Internships

The department is strengthened by an internship program with placement in local public or private sector locations. Students can gain valuable experience in a variety of real world settings which increases their skills and adds to their resumes.

Requirements for the Geography Major Core Courses (26 or 27 credits)

All geography majors are required to complete the following courses or their equivalents:

- GEOG 100 Physical Geography and the Environment ......................... 3 cr
- GEOG 110 Intro to Geography-World Regions .... 3 cr
- GEOG 215 Economic Geography................................. 3 cr
- GEOG 250 Map Use and Analysis.............................. 3 cr
- GEOG 300 Geographic Methods............................ 3 cr
- GEOG 350 Cartography and GIS ......................... 3 cr
- GEOG 495 Senior Seminar.................................. 2 cr

Plus one of the following human geography courses:

- GEOG 101 Geography of American Ethnicity & Race ......................... 3 cr
GEOG 105  Contemporary Human Geography...... 3 cr
GEOG 108  Culture and Environmental
          Sustainability.................................. 3 cr

Plus one of the following advanced physical geography
courses:
GEOG 324  Landforms and Environmental
          Processes..................................... 4 cr
GEOG 326  Biogeography.............................. 3 cr
GEOG 382  Soil Ecosystems and Resources.... 4 cr
GEOG 384  Landscape Ecology....................... 3 cr
GEOG 396  Field Methods in Geography......... 3 cr
GEOG 494  Internship in Geography............... 3 cr

Note that GEOG 494 must be with an approved agency/
organization or other suitable location in order to count for
this concentration.

Requirements for the General
Geography Major (38-39 credits)
The general major is designed for students wanting a broad
background in geography. The core courses (26-27 credits)
plus 12 credits of 300-level and above courses or their
equivalents are required.

Requirements for the
Concentration in Planning
(38-39 credits)
The concentration in planning is for students interested in
positions or graduate study in urban and regional planning,
business planning, or related fields. The core courses (26-27
credits) plus the following or their equivalents are required.

GEOG 360  Urban Geography......................... 3 cr
GEOG 365  Geography in Land Use Planning...... 3 cr

Plus two of the following:
GEOG 330  Population Geography.................. 3 cr
GEOG 340  Political Geography..................... 3 cr
GEOG 375  Geography of Transportation.......... 3 cr
GEOG 494  Internship in Geography............... 3 cr

Note that GEOG 494 must be with an approved agency/
organization or other suitable location in order to count for
this concentration.

Requirements for the
Concentration in Applied
Environmental Geography
(38-40 credits)
This concentration allows students to emphasize physical
geography and environmental analysis. A career in
environmental management is one example of where this
concentration could be used. The core courses (26-27
credits) plus the following or their equivalent are required.

Four of the following:
GEOG 306  Natural Disasters and Society......... 3 cr
GEOG 308  Conservation of Natural Resources .... 3 cr
GEOG 323  Climate Change.......................... 3 cr
GEOG 324  Landforms and Environmental
          Processes..................................... 4 cr
GEOG 326  Biogeography.............................. 3 cr
GEOG 382  Soil Ecosystems and Resources.... 4 cr
GEOG 384  Landscape Ecology....................... 3 cr
GEOG 396  Field Methods in Geography......... 3 cr
GEOG 494  Internship in Geography............... 3 cr

Note that GEOG 494 must be with an approved agency/
organization or other suitable location in order to count for
this concentration.

Requirements for the
Geography Minor (18 credits)
The minor in geography consists of a minimum of 18 credits.
The following courses or their equivalents are required:

GEOG 100  Physical Geography and the
          Environment................................... 3 cr

One of the following:
GEOG 101  Geography of American
          Ethnicity & Race.............................. 3 cr
GEOG 105  Contemporary Human Geography...... 3 cr
GEOG 108  Culture and Environmental
          Sustainability................................. 3 cr
GEOG 110  Intro to Geography-World Regions.... 3 cr

One of the following:
GEOG 215  Economic Geography................... 3 cr
GEOG 250  Map Use and Analysis.................. 3 cr

The remaining 9 credits must be selected from geography
courses at the 300-level and above.

Requirements for the Certificate
in Geographic Information
Systems (12 credits)
Geographic Information Systems (GIS) are used to store,
display, and analyze spatially referenced databases to
help solve problems and to assist in decision making. GIS
is increasingly important in a variety of applications like
transportation planning, business logistics, and environmental
impact analysis. This certificate can be earned by completing
the following or their equivalents.

GEOG 250  Map Use and Analysis.................. 3 cr
GEOG 350  Cartography and GIS.................... 3 cr
GEOG 460  Introduction to GIS Analysis.......... 3 cr

Plus one of the following:
GEOG 455  Remote Sensing.......................... 3 cr
GEOG 465  Advanced GIS Applications............ 3 cr
GEOG 490  Special Topics (on GIS topics)........ 3 cr

The GIS certificate requires a 2.25 GPA minimum in the
courses for the certificate.
Courses in Geography (GEOG)

100 Physical Geography and the Environment .................... 3 cr
Prereq: None. Freq: Fall, Spring, Summer.
Investigates the patterns and processes of Earth's physical and biological systems and their influence on human behavior and distribution. Includes human impacts on climate, hydrologic cycle, and ecosystem development.

101 Geography of American Ethnicity & Race ..................... 3 cr
Prereq: None. Freq: Fall, Summer.
American ethnic and racial patterns from a distinctly geographic perspective. Historical forces shaping the geographical patterns of race and ethnicity as well as contemporary issues in ethnic and race relations including immigration.

105 Contemporary Human Geography ................................. 3 cr
Prereq: None. Freq: Spring.
An overview of significant themes in human geography including population issues, cultural differences, globalization, languages, politics and foreign affairs, settlement patterns, migration, and economic organization.

108 Culture and Environmental Sustainability ................... 3 cr
Prereq: None. Freq: Fall.
Explores interrelationships of cultural and natural systems, need for sustainability, and how different cultural groups view nature. Varying perspectives on environmentalism and what going green means to different parts of society. Resolving environmental problems and building sustainable futures.

110 Introduction to Geography-World Regions .................... 3 cr
Prereq: None. Freq: Fall, Spring, Summer.
A study of the cultural and physical characteristics of major world regions. How people live in different parts of the world. Globalization, environmentalism, and geographic perspectives on current international issues are emphasized.

215 Economic Geography .............................................. 3 cr
Prereq: None. Freq: Spring.
Analysis of the factors which influence the spatial patterns of economic activities and economic variables. The geography of transportation systems, labor supplies, markets, trade, technology, and government regulations. Investigation of how geography affects economic processes and problems. Introductory course in geography recommended.

250 Map Use and Analysis ............................................ 3 cr
Prereq: None. Freq: Fall.
Interpretation, analysis, and function of topographic and thematic maps. Navigation and data collection using GPS. Compass use and orienteering. Map projections and coordinate systems. Measurement and pattern analysis using maps. Air photo interpretation. Hands-on experience using maps and GPS in both the classroom and the field.

290 Special Topics in Geography .................................... 1-4 cr
Prereq: None. Freq: Occasionally.
Selected topics in geography will be examined.

300 Geographic Methods .............................................. 3 cr
Prereq: Junior standing and 9 credits in geography or consent of instructor; Freq: Fall.
Introduction to geographic concepts, methods, and procedures. Applications of selected descriptive and inferential statistical methods to geographic problems. Hypothesis testing, correlation, and regression. Analysis of point patterns.

306 Natural Disasters and Society ................................... 3 cr
Prereq: None. Freq: Occasionally.
Exploration of natural disasters and their impacts on humans. Topics include earthquakes, tsunamis, volcanoes, tornadoes, hurricanes, floods, asteroid and comet impacts. Disaster planning and mitigation, GIS applications in disaster management.

308 Conservation of Natural Resources ............................ 3 cr
Prereq: None. Freq: Summer.
Examination of significant environmental issues. Policies and problems in the use and management of natural resources. Energy alternatives, climate change, water resources issues, endangered species, and others. Selected topics taken from southeastern Wisconsin.

310 Geography of the United States and Canada ................... 3 cr
Prereq: None. Freq: Occasionally.
Covers the physical features, resources, people, settlement patterns, historical geography, land utilization and economic development of the United States and Canada. Particular emphasis on environmental issues, economic ties, and political relations.

315 Geography of Wisconsin ...................................... 3 cr
Prereq: None. Freq: Summer.
Wisconsin's characteristics are explained and compared to those of the rest of the United States. Explores patterns of history, population, climate, topography, economic activity, transportation, culture, and recreation. Current and ongoing statewide issues are examined from a geographic perspective.

320 Regional Geography ............................................. 3 cr
Prereq: None. Freq: Occasionally.
Explores the physical and cultural features of a selected region with emphasis on past and present spatial patterns. Included geographic viewpoints on current issues and problems within the region. May be taken for credit each time a different region is studied.

323 Climate Change .................................................... 3 cr
Prereq: GEOG 100. Freq: Occasionally.
Investigates characteristics, processes, distribution, classification and geographical significance of Earth's climates. Causes and consequences of climate change, especially its impacts on human populations.

324 Landforms and Environmental Processes ..................... 4 cr
Prereq: GEOG 100 or introductory course in geology; Freq: Occasionally.
Examines Earth's landforms concerning their characteristics, processes, and distribution. Focuses on historical geology, tectonic events, rock formation, glaciations, river systems, soil development and consequences for humans. Includes field trip, lab applications, and aerial photo interpretation.

326 Biogeography ....................................................... 3 cr
Prereq: GEOG 100 or introductory course in biology; Freq: Spring.
Focuses on the distribution of biodiversity in space and time. Includes plant identification, ecological and evolutionary patterns, conservation, restoration ecology, paleodynamics, and human impacts on species distributions. Includes field trips.

330 Population Geography ........................................... 3 cr
Prereq: A course in geography; Freq: Occasionally.
Geographic factors that influence patterns of human settlement and existence. Examines population distributions and growth as related to environmental and resource issues. Are there too many people on Earth? How do the demographics of the United States compare to other parts of the world? Includes case studies, applications, and methods of analysis.

340 Political Geography .............................................. 3 cr
Prereq: A course in geography; Freq: Occasionally.
Geographical explanation of the political organization of space and territory. Issues are explored at scales ranging from global to local. Globalization, nationalism, boundary problems, regional conflict, ethnic nationalism, and the local context for planning and policy are stressed.

350 Cartography and GIS ............................................. 3 cr
Prereq: GEOG 250 or consent of instructor; Freq: Spring.
Cartographic theory and methods. Role of maps in society. Introduction to GIS technology. Digital cartographic design and data processing using GIS. Also emphasizes history of cartography, quantitative and qualitative thematic mapping, and maps as both art and science.
360 Urban Geography .................................................. 3 cr
Prereq: A course in geography. Freq: Fall.
Focuses on characteristics of urban regions. Analysis of the factors that determine urban development as well as patterns within urban areas. Transportation and housing issues. Ethnic neighborhoods and urban government. Urban planning models and practices are introduced to study urban problems like poverty, congestion, crime and infrastructure.

365 Geography in Land Use Planning ................................ 3 cr
Prereq: A course in geography. Freq: Spring.
A detailed examination of the forces and factors that shape contemporary land use patterns in the United States. The study of the concepts, theories, and tools of land use planning. How planning leads to more efficient, productive, and pleasant urban and rural environments. Uses selected case studies from southeastern Wisconsin and northern Illinois.

375 Geography of Transportation ................................... 3 cr
Prereq: A course in geography. Freq: Occasionally.
The significance of transportation within the modern world. Geographic analysis of transportation systems with emphasis on networks, costs, new technologies, commodity flows, traffic patterns, impacts on development, the different modes, and transportation problems. Transportation planning is included.

382 Soil Ecosystems and Resources ................................. 4 cr
Prereq: GEOG 100. Freq: Occasionally.
Understanding of soils as both natural bodies and as managed resources. Students learn how soil science fits into the broader topic of physical geography by exploring physical and chemical properties of soils, plant nutrition from soils, environmental impacts of climate, geomorphology, organisms on soils, and how soils are managed. Includes lab and field experience.

384 Landscape Ecology .................................................. 3 cr
Prereq: GEOG 100 or 326 or consent of instructor. Freq: Occasionally.
Focuses on how spatial structure affects ecosystem processes and biodiversity at the landscape level. Concepts include landscape scale, natural disturbances, animal movements, patch dynamics, design of nature reserves, and the wildland-urban interface.

390 Special Topics in Geography .................................... 3 cr
Prereq: None. Freq: Occasionally.
Selected topics in geography will be examined.

396 Field Methods in Geography ...................................... 3 cr
Prereq: Consent of instructor. Freq: Fall.
Application of geographic concepts, scientific inquiry, methods, and tools in a hands-on field setting. Current focus is on understanding patterns of biodiversity in natural habitats, assessing native ecosystems as influenced by human activities, and designing sampling methods to quantify vegetation dynamics. Techniques can include taxonomy keys, dendrochronology, soil sampling, and spatial statistics. May be taken for credit each time a different focus or area is studied. Additional fees required.

455 Remote Sensing .................................................... 3 cr
Prereq: GEOG 250 or 350 or consent of instructor.
Freq: Occasionally.
Overview of remote-sensing systems (airborne and satellite). Principles of photographic and electromagnetic remote sensing systems which detect, record and measure distributions of natural and cultural phenomena. Interpretation of aerial and orbital imagery for urban planning and environmental research.

460 Introduction to GIS Analysis .................................... 3 cr
Prereq: GEOG 250 or 350 or consent of instructor. Freq: Fall.
Introduction to spatial analysis using GIS technology. Data acquisition, integration, and editing. Spatial analysis of natural and cultural phenomena using both vector and raster data models. Application of GIS technologies to environmental management and urban planning. Field based data collection using GPS. Focus on local community issues. Individual and group projects.

465 Advanced GIS Applications ..................................... 3 cr
Prereq: GEOG 460 or consent of instructor. Freq: Spring.

490 Special Topics in Geography ....................................1-3 cr
Prereq: Consent of instructor. Freq: Occasionally.
Selected topics in geography will be examined.

494 Internship in Geography ..........................................1-12 cr
Prereq: Junior standing, geography or related major; 2.75 GPA in geography courses, and consent of instructor.
Freq: Fall, Spring, Summer.
Practical application of geographic concepts, methods, and technologies. By working in planning agencies, GIS departments, environmental organizations, other private or public units, students gain real-world experience. Enrollment dependent on availability of suitable placement. May be repeated for a maximum of 12 credits with up to 6 credits toward the major.

495 Senior Seminar ..................................................... 2 cr
Prereq: Senior standing, geography or related major.
Freq: Fall, Spring.
Capstone course applying knowledge, concepts, and methods of geography. Includes completing a major research project and communicating the results.

499 Independent Study .................................................1-3 cr
Prereq: Junior standing, 2.25 overall GPA, and consent of instructor. Freq: Fall, Spring, Summer.
Under instructor supervision, individual investigation of a topic related to geography. Maximum of 6 credits may be applied toward the major.

Graduate Courses

596 Field Methods in Geography ...................................... 3 cr
Prereq: Consent of instructor. Freq: Summer.
Extensive application of geographic concepts, scientific inquiry, methods, and tools in a hands-on field setting. Focus is on understanding patterns of biodiversity in natural habitats, assessing native ecosystems as influenced by human activities, and designing sampling methods to quantify vegetation dynamics. Techniques can include taxonomy keys, dendrochronology, soil sampling, and spatial statistics. May be taken for credit each time a different focus or area is studied. Additional fees required.

690 Special Topics in Geography .....................................1-4 cr
Prereq: None. Freq: Occasionally.
Advanced study on selected topics in geography.
Degree Offered:
Bachelor of Science.

Professor:
Li, Ph.D. (Chair)

Associate Professor:
Skalbeck, Ph.D.

Assistant Professor:
Cleary, Ph.D.

Student Organizations/Clubs:
Geosciences Club; Sigma Gamma Epsilon.

Career Possibilities
Students in the Geosciences Department select between two concentrations: environmental geosciences or earth science, depending on their career goals.

The environmental geosciences concentration will prepare students for employment in private sector and various governmental agencies. Students completing this concentration will also have appropriate course work to be eligible for the certification exam as a professional geologist and/or professional hydrogeologist in Wisconsin. The expertise in hydrogeology and contaminant fate and transport afforded by this concentration can lead to employment as an environmental geoscientist in a variety of governmental and private organizations. Students interested in taking certification exams as professional soil scientists in Wisconsin may choose electives in soil science. Graduates with this background may work with governmental and private agencies in such applied fields as water resource management, soil conservation, and land-use planning.

The earth science concentration is extraordinarily flexible, as 15 credits of support courses are built into the major. These courses will be selected by the students and their advisers in order to develop a focal point related to their geosciences curriculum. The 15 credits are part of the major; therefore, a student electing to complete a minor cannot use these credits for that minor. Typical uses for the support courses include preparation for teacher licensure, law school, M.B.A. or M.P.A. programs.

Department Overview
The department’s primary activities center around providing UW-Parkside students with a high-quality major program that will enable them to satisfy their specialized employment objectives. Toward this end, the Geosciences Department provides a core curriculum plus concentrations in environmental geosciences and earth science. Students electing the first concentration may choose to fulfill curricular requirements preparatory to professional certification by the state of Wisconsin as a geologist, hydrogeologist, or soil scientist. The earth science concentration provides a broad and flexible foundation for students with wide-ranging interests in the sciences, education, and the liberal arts. Furthermore, upper-level courses are intensively hands-on, enabling students to generate and analyze real-time data while gaining experience with innovative methods and instrumentation used by environmental professionals. The department has installed and maintains a network of ground water monitoring wells on campus and at other university properties in the community. These sites will serve students as hands-on learning sites, through which they can provide environmental quality assessment data that will assist surrounding communities in recognizing and interpreting long-term effects of land use changes. The department has also established an ozone monitoring program in Kenosha that tracks differences between off-shore and on-shore levels on a daily and seasonal basis.

It is the purpose of the Geosciences Department to become a key resource for environmental earth-system science at the UW-Parkside, and in Kenosha and Racine counties. To this end, the department fosters faculty, student, and staff involvement and investment in local and regional environmental issues. Geosciences faculty are also taking leadership roles in the establishment of the Root River Environmental Education Community Center (REC) in Racine, and the Center for Environmental Education and Research (CEDAR) in Kenosha.

The Geosciences Department encourages and supports research and publication by students in cooperation with faculty. The department also supports a program of student research projects on local environmental problems as part of the introductory and advanced courses. The department encourages and aids advanced students to attend professional society meetings at national, regional, and local levels. Departmental faculty members are actively engaged in research and continue to seek and obtain research support from appropriate federal, state, University of Wisconsin
System, and campus sources. Currently, the geosciences faculty is supported by UW System groundwater funding to do work related to remediation of heavy metal, organic, and anionic contaminants, and pharmaceuticals and personal care products in water.

**Preparation for Graduate School**

The environmental geosciences curriculum provides a strong background in mathematics and the physical sciences that prepares students for graduate work in the natural and environmental sciences. The earth science concentration—with an appropriate support course plan—is good preparation for advanced degree programs in law, public administration, education, and library science.

**Requirements for the Geosciences Major (66-70 credits)**

The Geosciences major requires a selection of core courses and courses in a concentration. Students select between two concentrations: environmental geosciences or earth science.

Core Courses required for all majors (16 credits):
- GEOS 102 Origin and History of the Earth .......... 3 cr
- GEOS 104 Introductory Geology Laboratory ...... 2 cr
- GEOS 200 Minerals and Rocks .................... 4 cr
- GEOS 355 Stratigraphy and Sedimentation .......... 3 cr
- GEOS 495 Senior Seminar .......................... 1 cr
- GEOS 496 Geoscience Applications ................. 3 cr

**Requirements for the Environmental Geosciences Concentration (51-54 credits)**

- GEOS 101 Introductory Geology ..................... 3 cr
- GEOS 106 Great Lakes Water Resources .......... 3 cr
 OR GEOS 109 Fundamentals of Global Climate Change ............................................. 3 cr
- GEOS 331 Introduction to Geochemistry ............ 3 cr
- GEOS 345 Geophysics .................................. 3 cr
 OR GEOS 330 Environmental Geology ................. 4 cr
- GEOS 361 Hydrogeology ............................... 3 cr
- GEOS 431 Aqueous & Contaminant Geochemistry .... 3 cr
- GEOS 470 Remediation Science and Technology .... 3 cr
 OR GEOS 440 Contaminants in Terrestrial Systems ... 3 cr
- GEOS 445 Environmental Sampling, Monitoring, & Assessment ................. 4 cr
- GEOS 465 Applied Hydrogeology ..................... 4 cr
- MATH 114 College Algebra II w/Trigonometry ...... 5 cr
- MATH 221 Calculus & Analytic Geometry I ........ 5 cr
- CHEM 100 The World of Chemistry ................. 3 cr
 OR CHEM 109 Environmental Chemistry ............ 3 cr

Elective courses (15 credits):
- Supporting geosciences courses must be 300 and above.

**Requirements for the Earth Science Concentration (47 credits)**

Required courses (32 credits):
- GEOS 100 Earth in Perspective ........................ 3 cr
 OR GEOS 101 Introductory Geology ..................... 3 cr
 OR GEOS 103 Environmental Science: An Earth Resources Approach ........ 3 cr
- GEOS 106 Great Lakes Water Resources .......... 3 cr
- GEOS 109 Fundamentals of Global Climate Change ......................... 3 cr
- GEOS 207 Field Methods ................................ 2 cr
- GEOS 301 Geomorphology ............................. 3 cr
- GEOS 330 Environmental Geology ................. 4 cr
- GEOS 420 Glacial Geology .............................. 4 cr
- GEOS 382 Soil Ecosystems and Resources .......... 4 cr
- ENVS 335 Energy ....................................... 4 cr
 OR MATH 102 Survey of Mathematics .................. 3 cr
 (or higher)
- CHEM 100 The World of Chemistry ................. 3 cr
 OR CHEM 109 Environmental Chemistry ............ 3 cr

**Requirements for the Geosciences Minor (18 credits)**

The geosciences minor offers students who are majoring in other academic disciplines, either in science or non-science areas, the opportunity to acquire an appreciation and basic knowledge of geology. This may enhance and add flexibility regarding career opportunities.

Students must complete a minimum of 18 credits in geosciences as follows:

Required courses (12 credits):
- GEOS 101 Introductory Geology
 (or acceptable substitute) ......................... 3 cr
- GEOS 102 Origin and History of the Earth ........ 3 cr
- GEOS 104 Introductory Geology Laboratory ...... 2 cr
- GEOS 200 Minerals and Rocks ...................... 4 cr

Elective courses (6 credits):
- Six additional geology credits; 3 of the 6 credits must be upper level (300/400).
Courses in Geosciences (GEOS)

<tbody>
<tr>
<td>100</td>
<td>Earth in Perspective</td>
<td>3 cr</td>
<td>None, Freq: Fall, Summer</td>
<td></td>
<td>Survey of the physical environment, including Earth's place in space, atmospheric processes, the oceans, and the solid earth; humanity's place in the system. Three-hour lecture.</td>
</tr>
<tr>
<td>101</td>
<td>Introductory Geology</td>
<td>3 cr</td>
<td>None, Freq: Fall</td>
<td></td>
<td>Origin, age, and structure of the Earth; mountain building, volcanism, and continental drift; earth materials; rocks, minerals, and mineral and fossil fuel resources. Field trips. Three-hour lecture.</td>
</tr>
<tr>
<td>102</td>
<td>Origin and History of the Earth</td>
<td>3 cr</td>
<td>GEOS 104 or consent of instructor</td>
<td>Fall (even years)</td>
<td>Origin of the solar system and Earth; age of the Earth; origin of the oceans, atmosphere and life; geologic and life history. Field trips. Three-hour lecture.</td>
</tr>
<tr>
<td>103</td>
<td>Environmental Science: An Earth Resources Approach</td>
<td>3 cr</td>
<td>None, Freq: Fall</td>
<td></td>
<td>Interactions between earth system processes and human activities: geologic hazards, water quality, pollution, land use, energy, mineral resources. Uses the physical earth to enable student consideration of the settings and values that produce environmental quality. Meets DPI content requirement in environmental education.</td>
</tr>
<tr>
<td>104</td>
<td>Introductory Geology Laboratory</td>
<td>2 cr</td>
<td>GEOS 101 or acceptable substitute</td>
<td>Spring (even years)</td>
<td>Rock, mineral, and fossil identification; topographic and geologic map interpretation; aerial photographs; hydrology, soils, and environmental geology. Field trips. Six-hour lab.</td>
</tr>
<tr>
<td>105</td>
<td>Oceanography</td>
<td>3 cr</td>
<td>None, Freq: Spring</td>
<td></td>
<td>Origin of ocean basins; nature of seawater; ocean circulation; waves and tides; life in the sea; marine resources. Course specifically intended for non-majors. Three-hour lecture.</td>
</tr>
<tr>
<td>108</td>
<td>Dirt Appreciation: Soils for Survival</td>
<td>3 cr</td>
<td>None, Freq: Occasionally</td>
<td></td>
<td>Provides an understanding of the critical role of soils in determining and maintaining environmental quality. Also introduces the scientific foundations for using soil surveys in land-use planning. Three-hour lecture.</td>
</tr>
<tr>
<td>109</td>
<td>Fundamentals of Global Climate Change</td>
<td>3 cr</td>
<td>None, Freq: Spring</td>
<td></td>
<td>Survey of current state of climate science including Earth's energy budget, the atmosphere, the greenhouse effect, ocean circulation, climate feedbacks, climate modeling and Earth's past climate. Also considers uncertainty in projections of future climate and solutions involving carbon sequestration, carbon-trade markets and energy efficiency. Three-hour lecture.</td>
</tr>
<tr>
<td>200</td>
<td>Minerals and Rocks</td>
<td>4 cr</td>
<td>GEOS 104 or consent of instructor</td>
<td>Fall (odd years)</td>
<td>Internal order of crystals; physical, chemical, and optical properties of minerals; mineral identification; mineral associations and the classification of igneous, metamorphic, and sedimentary rocks; ore deposits. Field trips. Three-hour lecture, three-hour lab.</td>
</tr>
<tr>
<td>207</td>
<td>Field Methods</td>
<td>2 cr</td>
<td>GEOS 101, 104, Freq: Spring (odd years)</td>
<td></td>
<td>Field methods used in geologic study; including occurrence and contact relations of geologic bodies, geologic mapping, rock, soil and water sampling. Field trips.</td>
</tr>
<tr>
<td>290</td>
<td>Special Topics in Geosciences</td>
<td>1-4 cr</td>
<td>Consent of instructor, Freq: Occasionally</td>
<td></td>
<td>Selected topics in the geosciences will be examined.</td>
</tr>
<tr>
<td>300</td>
<td>Petrology</td>
<td>3 cr</td>
<td>GEOS 102, 200, Freq: Occasionally</td>
<td></td>
<td>Origins of igneous, sedimentary, and metamorphic rocks. Review of hand sample and microscopic description; chemical analysis; nature and origin of magma; phase equilibria; magmatic series and differentiation; deposit and diagenesis of sediments; metamorphism. Field trips. Two-hour lecture; four-hour lab.</td>
</tr>
<tr>
<td>301</td>
<td>Geomorphology</td>
<td>3 cr</td>
<td>GEOS 102, 200, or consent of instructor</td>
<td>Spring (even years)</td>
<td>Analysis and description of landforms; emphasis on genesis, surficial processes, and relation to geologic structure. Includes some regional treatment of landscapes. Field trips. Two-hour lecture; three-hour lab.</td>
</tr>
<tr>
<td>309</td>
<td>Paleontology</td>
<td>3 cr</td>
<td>GEOS 102 or BIOS 102 or consent of instructor</td>
<td>Spring</td>
<td>Principles, practices, and procedures applied to important fossil invertebrate groups; generalized discussion of plants and vertebrates; elements of biostratigraphy; paleoenvironmental interpretations. Field trips. Two-hour lecture; four-hour lab.</td>
</tr>
<tr>
<td>310</td>
<td>Structural Geology</td>
<td>3 cr</td>
<td>GEOS 102, 200, or consent of instructor</td>
<td></td>
<td>Formation and description of folds, faults, joints, and foliation; tectonic processes; structures related to intrusive and extrusive igneous rocks; interpretation of geologic maps; field techniques. Field trips. Two-hour lecture; three-hour lab.</td>
</tr>
<tr>
<td>330</td>
<td>Environmental Geology</td>
<td>4 cr</td>
<td>GEOS 104, Freq: Spring (odd years)</td>
<td></td>
<td>Application of basic geologic concepts to environmental problems; emphasis on geologic hazards, waste disposal, urban planning, resource policy issues, and environmental trends and programs. Field trips. Three-hour lecture; three-hour lab.</td>
</tr>
<tr>
<td>331</td>
<td>Introduction to Geochemistry</td>
<td>3 cr</td>
<td>CHEM 102 or equivalent, Freq: Spring (even years)</td>
<td></td>
<td>Chemical principles and their application to various geologic environments; chemical weathering, geochemical prospecting; phase equilibria; geochronology. Field trip. Three-hour lecture.</td>
</tr>
<tr>
<td>345</td>
<td>Geophysics</td>
<td>3 cr</td>
<td>GEOS 102, MATH 114 or consent of instructor</td>
<td>Spring (even years)</td>
<td>Surface and subsurface geophysics; principles and procedures of magnetics, gravity, seismology, electromagnetics, ground penetrating radar; applications in hydrogeology, petroleum and mineral exploration, environmental and water resource investigations. Field trips. Three-hour lecture.</td>
</tr>
</tbody>
</table>
355 Stratigraphy and Sedimentation .................................................. 3 cr
Prereq: GEOS 102, 200 or consent of instructor.
Freq: Spring (odd years).
The sedimentary rock record, correlation, nomenclature, paleoecotectonic, subsurface techniques, sedimentary processes and environments, recent sediments. Field trips. Two-hour lecture; three-hour lab.

361 Hydrogeology ........................................................................... 3 cr
Prereq: GEOS 200, MATH 114 or consent of instructor.
Freq: Spring (even years).
Surface water hydrogeology; runoff and stream flow; ground water hydrogeology; distribution of ground water, aquifer properties, local and regional ground water flow, geology of ground water occurrence; aqueous chemistry, and water quality. Field trips. Three-hour lecture.

370 Field Studies in Regional Geology ............................................. 1-4 cr
Prereq: GEOS 102 and consent of instructor.
Freq: Occasional summers.
Intensive study of the geology of selected regions. Application of field methods. Based upon a field trip of up to several weeks duration to a selected region. May be repeated for credit. Additional fees required.

390 Special Topics ............................................................................ 1-4 cr
Prereq: None. Freq: Occasionally.
Selected topics in the geosciences will be examined. May be repeated for credit with different topic.

420 Glacial Geology ................................................................. 4 cr
Prereq: GEOS 102 or consent of instructor.
Freq: Spring (odd years).
Regimen and flow of glaciers; glacial erosion and deposition; glacial landforms; Pleistocene history in glaciated and nonglaciated regions; stratigraphy and chronology of Pleistocene deposits in the Midwest and Great Lakes. Field trips. Three-hour lecture; three-hour lab.

431 Aqueous and Contaminant Geochemistry ............................ 3 cr
Prereq: GEOS 331 or equivalent. Freq: Fall (even years).
Solution chemistry; aqueous chemical speciation, organic chemistry; contaminant-sediment interaction; contaminant fate and transport. Field trip. Two-hour lecture; three-hour lab.

440 Contaminants in Terrestrial Systems ................................. 3 cr
Prereq: GEOS 331. Freq: Occasionally.
Sources, transport, and fate of major environmental contaminants; natural and anthropogenic processes affecting contaminant mobility and bioavailability; cycling of contaminants through terrestrial ecosystems and the vadose zone. Three-hour lecture.

445 Environmental Sampling, Monitoring, and Assessment .......... 4 cr
Prereq: GEOS 361, 440. Freq: Fall (odd years).
A hands-on methods survey course, using EPA-referenced field and laboratory methods for evaluating contaminant levels in terrestrial and ground water systems. Students learn and practice sampling and monitoring techniques and gain experience with chromatographic and spectroscopic techniques. Two-hour lecture; six-hour lab.

465 Applied Hydrogeology ............................................................ 4 cr
Prereq: GEOS 361. Freq: Fall (even years).
Mass transport in vadose and saturated zones; origin and behavior of inorganic and organic contaminants; investigative techniques; ground water models; site remediation; ground water resource development and management; water law. Field trips. Three-hour lecture, three-hour lab.

470 Remediation Science and Technology ................................. 3 cr
Prereq: GEOS 430. Freq: Spring (even years).
Methods and techniques for reducing, removing or immobilizing metals and radionuclides, including natural attenuation, in situ stabilization, phytoremediation and bioremediation. Each student will propose and test a new method or a new application of an established method, devised with guidance from research faculty. Three-hour lecture.

490 Special Topics in Geosciences ............................................... 1-4 cr
Prereq: Consent of instructor. Freq: Occasionally.
Intensive treatment of specialized areas in the geosciences.

495 Senior Seminar ................................................................. 1 cr
Prereq: Senior standing, GEOS 355. Freq: Spring.
Individual student preparations and detailed oral and written presentations, in professional-style format, on knowledge of specialized topics acquired through library, laboratory, and/or field research. May be repeated for credit.

496 Geoscience Applications ....................................................... 3 cr
Prereq: Senior standing, GEOS 355, or consent of instructor.
Freq: Fall (even years).
Course in which students apply their knowledge in service to the community. Project may involve teamwork on environmental assessment, land-use planning, etc., or individual internships with corporate or governmental agencies. Culminates in report/recommendation based on investigations.

497 Senior Thesis ................................................................. 1-2 cr
Prereq: Senior standing and consent of instructor.
Freq: Fall, Spring.
Familiarization with the processes of research and scientific writing based upon laboratory, field, and literature study; oral defense of the thesis. Course may be repeated for up to 4 credits.

499 Independent Study ............................................................. 1-2 cr
Prereq: Consent of instructor and department chair.
Freq: Fall, Spring.
Individual investigation of selected problems in the geosciences. Allows students to pursue independent field, laboratory, or library research interests under supervision of faculty members. Maximum 6 credits.

Graduate Courses

570 Field Studies in Regional Geology ........................................ 1-4 cr
Prereq: Consent of instructor and department chair.
Freq: Occasional summers.
Intensive study of the geology of selected regions. Application of field methods. Based upon a field trip of up to several weeks duration to a selected region. May be repeated for credit. Additional fees required.

690 Special Topics in Geosciences ............................................... 1-4 cr
Prereq: None. Freq: Occasionally.
Intensive treatment of specialized areas in the geosciences.
Degree Offered:
None. A certificate in gerontology is offered.

Director:
Rosenberg, Ph.D.

Certificate in Gerontology:
Gerontology is the study of the process of aging from diverse perspectives. The study of gerontology provides us with an understanding of the biological, psychological, and social influences on people as they age. In addition, the study of gerontology examines the impact of social, political, economic, and health-care policies on the welfare of the elderly.

A certificate in gerontology verifies that a student has taken courses that directly relate to the needs of aging populations and is motivated and prepared to work in this field. The certificate indicates that the student has received college credit for work and that the performance meets the standards of a program offered through the University of Wisconsin-Parkside.

Career Opportunities
As the population of the United States ages, the number of elderly requiring support will increase greatly. Students seeking careers in gerontology will find new opportunities in the public, private, and nonprofit sectors. Entry-level positions are available in programs for the elderly that specialize in housing and long-term residential care, health care, recreation and fitness, and administration of community-based programs that serve older adult populations.

Requirements for Gerontology Certificate (15 credits)
The certificate in gerontology will require the successful completion of 15 credits among the required and elective courses described below. Students must achieve a 2.5 GPA or better in this program to receive a certificate.

Required Courses:
- BIOS 109 Biology of Aging (no prerequisite) ............................. 3 cr
- PSYC 241 Psychology of Aging (prerequisite: PSYC 101 Introduction to Psychological Science) ............. 3 cr
- SOCA 326 Social Gerontology (prerequisite: SOCA 101 Introduction to Sociology) ...................... 3 cr
- Department Specific Internship in Gerontology* .............................. 3 cr

* Students who already have experience in the field of gerontology may receive credit for an internship through written agreement with a faculty member of this program.

Elective Courses:
- BIOS 190 Fundamentals in Human Nutrition** .... 2 cr
- HESM 340 Aging and Wellness ..................... 3 cr
- SOCA 319 Death and Dying .......................... 3 cr
- SOCA 499 Independent Study .......................... 3 cr

** Students seeking a certificate in gerontology must complete an additional credit of course work. Students may choose a topic of interest to explore in depth as part of a 1-credit independent study. This independent study may be in any of the departments that are part of the Gerontology Certificate Program and must be with the consent of the instructor.

Internships in Gerontology
Students in the Gerontology Certificate Program are required to complete an internship at an area agency that serves the elderly. Such internships are designed to provide experiential learning opportunities as well as introduce students to community expectations with regard to service needs of the elderly. In addition, this is an excellent way of networking with people currently working in this area and learning about possible job opportunities. Internships will be provided through the certificate program, but students who are connected with area aging agencies who wish to complete the internship at a pre-arranged site can do so. Students will receive 3 credits for their participation.
HEALTH, EXERCISE SCIENCE AND SPORT MANAGEMENT

Degrees Offered:
Bachelor of Science in Fitness Management.
Bachelor of Science in Sport Management.

Associate Professors:
Lyter, Ph.D. (Chair); Ebben, Ph.D; Klaver, Ed.D

Assistant Professors:
McCoy, J.D.; Miller, William, J.D.

Lecturer:
Wolter, M.S. (Wellness Center Coordinator)

Clinical Associate Professors:
Draft, M.S.; Kilps, ATC-L/M.S. (Coach)

Clinical Assistant Professors:
Benoit, M.S. (Coach); Knight-Kenesie, M.S. (Coach); Miller, Wendy, M.S. (Aquatic Director); Wilka, M.E.D. ATC (Director of Sports Medicine)

Clinical Lecturer:
Lenssen, B.S. ATC (Athletic Trainer)

Department Overview
The Health, Exercise Science and Sport Management (HESM) Department offers majors in sport management and fitness management as well as certificates in exercise science, sport management and coaching. Both majors feature a foundation in management, business, marketing, legal, and accounting principles along with additional specialized course work that prepares students for careers in their particular industry segment.

The department also significantly supports the applied health sciences major. Please see “Applied Health Sciences” for more information.

The certificates in exercise science, sport management and coaching are designed to supplement an existing major with career-specific course work to enhance employment opportunities.

In addition, the curriculum provides all students with the possibility of obtaining an education in lifetime wellness and a variety of lifetime activities stressing awareness, knowledge and skills to promote lifelong wellness and improved quality of life.

Career Possibilities
Majors can find employment within the sport or fitness fields with numerous types of organizations including amateur and professional sport organizations, educational institutions, health and fitness centers, private and municipal recreation programs or the sporting goods industry. Careers include administration, coaching, marketing, consulting, facility operations, journalism, personal training, directing fitness facilities, program development, public relations, sales and sports information.

Preparation for Graduate Studies
Undergraduate study in sport management provides excellent preparation for graduate study in sport administration, business and sport law. Undergraduate study in fitness management provides preparation for advanced study in such areas as biomechanics, exercise physiology, kinesiology, athletic training, occupational therapy and physical therapy.

Student Organizations/Clubs
Sport & Fitness Management Club.

Requirements for Admission to the Fitness Management and Sport Management Majors
To be accepted into the fitness management major or the sport management major, a student must have:
- A cumulative GPA of 2.0 or better, and
- A GPA of 2.5 or better in 12 or more completed credits from their respective major (these 12 credits must include HESM 210 Introduction to Sport and Fitness Management and cannot include fieldwork credits). These requirements can be satisfied by equivalent transfer work that is accepted by the department.
Requirements for the Fitness Management Major (66 credits)

In addition to satisfying the general university requirements, students seeking to graduate with a fitness management degree must satisfy the following:

Complete all required course work (66 credits) for the major; and achieve a minimum 2.5 GPA in the major.

ACCT 201 Financial Accounting .................... 3 cr
BUS 100 Introduction to Business .................... 3 cr
BIOS 105 Human Physiology and Anatomy I ...... 4 cr
BIOS 106 Human Physiology and Anatomy II ..... 4 cr
HESM 210 Introduction to Sport and Fitness Management ........................................ 3 cr
HESM 270 Lifetime Wellness and Lab ............... 3 cr
HESM 280 Sport and Fitness Nutrition ............... 3 cr
HESM 300 Legal Issues in Sport and Fitness Management ........................................ 3 cr
HESM 345 Prevention and Care of Athletic Injuries ........................................... 3 cr
HESM 353 Biomechanics ................................ 4 cr
HESM 354 Physiology of Exercise .................... 3 cr
HESM 358 Sport and Fitness Psychology ............ 3 cr
HESM 410 Fitness Assessment and Prescription ... 3 cr
HESM 415 Scientific Principles of Strength and Conditioning ................................. 3 cr
HESM 430 Fitness Program Management .......... 3 cr
HESM 450 Sport and Fitness Marketing ............. 3 cr
HESM 498 Fieldwork in Fitness Management .... 12 cr*
MGT 349 Organizational Behavior ..................... 3 cr

1) Fieldwork Only Option

Twelve (12) credits with at least 3 of these credits completed in the student’s last semester of studies.

2) Fieldwork/Course Option

Twelve (12) credits of 300- or 400-level pre-approved courses.

A minimum of 9 credits must be in HESM 495 Fieldwork in Sport Management with at least 3 of these credits completed in the student’s last year of studies.

Requirements for Exercise Science Certificate (21 credits)

Complete all required course work (21 credits) for the certificate; and achieve a minimum 2.5 GPA in certificate coursework.

BIOS 105 Human Physiology and Anatomy I ...... 4 cr
BIOS 106 Human Physiology and Anatomy II ..... 4 cr
HPEA 270 Lifetime Wellness and Lab ............... 3 cr
HPEA 280 Sport and Fitness Nutrition ............... 3 cr
HPEA 353 Biomechanics ................................ 4 cr
HPEA 354 Physiology of Exercise .................... 4 cr

Requirements for Sport Management Certificate (15 credits)

Complete all required course work (15 credits) for the certificate; and achieve a minimum 2.5 GPA in certificate coursework.

HPEA 210 Introduction to Sport and Fitness Management ........................................ 3 cr
HPEA 282 Ethics and Issues in Sport Management ............................................... 3 cr
HPEA 300 Legal Issues in Sport and Fitness Management ........................................ 3 cr
HPEA 450 Sport and Fitness Marketing ............. 3 cr
Elective 3 credits of approved 300- or 400-level course work......................... 3 cr
Requirements for the Coaching Certificate (15 credits)

Complete all required course work (15 credits) for the certificate; and achieve a minimum 2.5 GPA in certificate course work.

Individuals who successfully complete the coaching certificate requirements will meet Wisconsin Intercollegiate Athletic Association (WIAC) requirements for coaching. Individuals will also meet Illinois High School Association (IHSA) course requirements for coaching but will also need to pass the Illinois By-Law Examination to be certified to coach in Illinois high schools.

The certificate consists of 15 credits to be completed as follows:

<table>
<thead>

* Each of the coaching theory courses has a corresponding activity course (1 credit each) as a prerequisite.

Students attempting to complete the coaching certificate can seek a waiver of the activity course prerequisite requirement if they can provide acceptable written proof that they currently compete or previously competed in that sport at the varsity level in either college or high school.

Courses in Health, Exercise Science and Sport Management (HESM)

105 Beginning Swimming .............................................. 1 cr
Prereq: Non-swimmers only. Freq: Occasionally.
This course is for the non-swimmers or those who cannot swim 10 yards. Three basic strokes, basic water skills and water safety skills are taught.

106 Intermediate Swimming ........................................ 1 cr
Prereq: Able to swim 25 yards using a minimum three basic strokes, or pass HESM 105. Freq: Occasionally.
This course is for the swimmers of average swimming ability. This course will refine current swimming skills, teach new strokes and skills and cover personal water safety skills.

107 Advanced Swimming ............................................. 1 cr
Prereq: Strong swimming skills, able to swim 25 yards using four different strokes. Freq: Occasionally.
Designed for the advanced swimmer. This course will improve upon six basic strokes, increase efficiency and endurance. Great class for those interested in HESM 112 Swim for Fitness.

108 Water Exercise and Conditioning ......................... 1 cr
Prereq: None. Freq: Occasionally.
Designed to provide students a means of conditioning in a low-impact environment. Suitable for any student wanting to begin an exercise program, cross-train or maintain their current level of fitness. Swimming skills are not required.

110 Scuba Diving .................................................... 1 cr
Prereq: None. Freq: Fall, Spring.
The fundamentals of scuba diving including diving equipment and techniques. Successful completion of the course qualifies students for check-out dives and final scuba diver certification. This course is taught under the auspices of the Professional Association of Diving Instructors (PADI). Two-hour lab. Extra fees required.

112 Swim for Fitness .................................................. 1 cr
Prereq: Consent of instructor or ability to swim a minimum of 100 yards using any stroke. Freq: Fall, Spring.
Improve cardiovascular fitness through swimming. Additional swimming outside of class is required. Not appropriate for weak or non-swimmers. Two-hour lab.

113 Badminton ......................................................... 1 cr
Prereq: None. Freq: Occasionally.
Introduction to basic skills, rules, proper court position and conditioning. Two-hour lab.

115 Baseball .......................................................... 1 cr
Prereq: None. Freq: Occasionally.
Introduction to fundamental skills and the elements of position play. Two-hour lab.

117 Basketball ......................................................... 1 cr
Prereq: None. Freq: Spring.
Practical experience in fundamentals and team play. Two-hour lab.

130 Relaxation ......................................................... 1 cr
Prereq: None. Freq: Occasionally.
The purpose of this course is to provide the student with the necessary knowledge and the ability to recognize stressors and their effects on one’s life, as well as the implementation of various relaxation techniques. Relaxation techniques including deep breathing, meditation, imagery and progressive relaxation are among those covered in the course.

131 Pilates and Fitness Yoga ....................................... 1 cr
Prereq: None. Freq: Occasionally.
Pilates is a type of movement system that uses a series of floor exercises to increase strength, flexibility, balance, stamina, and concentration while focusing on your center or core. Fitness Yoga is a program for a more powerful defined physique using traditional yoga asanas geared toward the athlete and fitness enthusiast.

132 Social Dance ...................................................... 1 cr
Prereq: None. Freq: Occasionally.
Includes an array of social dances which best meet the modern dancing needs for current college students. Two-hour lab.
138 Jogging for Fun & Fitness ......................................................... 1 cr
Prereq: None. Freq: Fall, Spring.
To teach students proper running techniques, how to set up a personal fitness plan, how to assess one's cardiovascular fitness, and safety issues related to running. This course may be taken a maximum of four times for credit.

139 Disc Golf ...................................................................................... 1 cr
Prereq: None. Freq: Fall.
To provide the student with the knowledge and skills needed to play disc golf. Students will also learn rules necessary to play at a competitive level.

141 Golf I ............................................................................................. 1 cr
Prereq: None. Freq: Spring.
Fundamentals of golf: grip, stance, swing, rules and etiquette. Practice with all clubs with emphasis upon fundamental mechanics. Opportunity to develop skills on local golf courses. Two-hour lab.

142 Golf II ........................................................................................... 1 cr
Prereq: HESM 141 or consent of instructor. Freq: Occasionally.
Continuation of Golf I. Advanced shots, playing, and planning all types of tournaments.

143 Step Aerobics I ............................................................................. 1 cr
Prereq: None. Freq: Occasionally.
Basic step aerobics fundamentals and medium impact levels of cardiovascular development.

144 Step Aerobics II ........................................................................... 1 cr
Prereq: HESM 143. Freq: Occasionally.
Advanced techniques in step aerobics to develop high-level skills and fitness.

149 Aerobics I .................................................................................. 1 cr
Prereq: None. Freq: Occasionally.
Provides a study of aerobic dance, exercise theory and techniques.

150 Aerobics II .................................................................................. 1 cr
Prereq: HESM 149 or consent of instructor. Freq: Occasionally.
Advanced techniques of aerobics including step aerobics designed to improve fitness levels and provide greater understanding of the values of exercise theory.

157 Karate I ...................................................................................... 1 cr
Prereq: None. Freq: Fall, Spring.
Fundamentals of basic karate techniques. Emphasis placed on proper overall organization of hand and foot techniques, stances, posture, and physical principles of power.

158 Karate II ..................................................................................... 1 cr
Prereq: HESM 157 or consent of instructor. Freq: Fall, Spring.
Intermediate study in the art of self-defense. Introduction to defense against an actual assailant and concentrated study of prearranged formal exercises.

159 Karate III ................................................................................... 1 cr
Prereq: HESM 158 or consent of instructor. Freq: Fall, Spring.
Advanced study in the art of self-defense. Instruction in defense against attacks with a weapon and multiple assailants. Combined physical psychological principles of power.

163 Yoga I ......................................................................................... 1 cr
Prereq: None. Freq: Fall, Spring.
A study of the various yoga disciplines. Emphasis on the total health of a person through the discipline.

164 Yoga II ........................................................................................ 1 cr
Prereq: HESM 163 or consent of instructor. Freq: Fall, Spring.
Lecture and instruction in fundamental yoga philosophy and in the physical exercises (asanas) as they involve both psychological and physiological processes. Students will gain a deeper understanding and appreciation of the principles of relaxation to enhance their well-being.

167 Racquetball I ............................................................................ 1 cr
Prereq: None. Freq: Occasionally.
Practice in fundamentals of stroke and hand techniques through various types of drills for all levels of ability; rule interpretation; and single and double play. Two-hour lab.

168 Racquetball II ............................................................................ 1 cr
Prereq: HESM 167 or consent of instructor. Freq: Occasionally.
Teach advanced racquetball techniques for students with beginning racquetball experience. Advanced tactics, strategy, shot selections and court positions are taught. Two-hour lab.

169 Personal Defense ........................................................................ 1 cr
Prereq: None. Freq: Occasionally.
This is a practical basic course consisting of a small "repertoire" of defense actions, easy to learn and easy to remember. These simple actions can be combined and applied to most situations.

171 Wellness Lab ............................................................................ 1 cr
Prereq: HESM 270 Freq: Fall, Spring, Summer.
To learn and develop a personal fitness program using the Wellness Center and to measure and evaluate personal fitness parameters. Participants engage in a pre-assessment/orientation session during the first week of classes and complete a post-assessment session at the end of the semester. This course may be taken a maximum of four times for credit.

178 Cross Country Skiing ................................................................. 1 cr
Prereq: None. Freq: Occasionally.
Fundamentals of skiing, including equipment, conditioning, and waxing with both recreational ski jogging and competitive running a part of the program. Two-hour lab.

179 Aerobic Walking ......................................................................... 1 cr
Prereq: None. Freq: Fall, Spring.
To learn and develop proper aerobic walking techniques and develop appropriate personal fitness benefits of walking. This course may be taken for a maximum of four times for credit.

180 Soccer I ..................................................................................... 1 cr
Prereq: None. Freq: Alternate Springs.
Practice in basic principles of soccer skills. Class is divided into groups for principles of team play and the use of these skills in game situations. Two-hour lab.

181 Soccer II .................................................................................... 1 cr
Prereq: HESM 180 or consent of instructor. Freq: Occasionally.
Advanced study and practice in the tactics, strategy and fitness of the game of soccer, with emphasis on theory rather than techniques.

182 Softball .................................................................................... 1 cr
Prereq: None. Freq: Occasionally.
Fundamentals of softball, position play stressed, offensive and defensive team play presented. Two-hour lab.

183 Cross Training I ......................................................................... 1 cr
Prereq: Consent of Instructor. Freq: Spring.
This course, combining plyometrics, agility, and speed training, is designed for developing power and quickness for the athlete who participates in serious recreational leagues and amateur sports competition.

184 Cross Training II ....................................................................... 1 cr
Prereq: HESM 183 or consent of instructor. Freq: Spring.
Mid-level developmental skill for the serious recreational and amateur sports competitor (in the areas of plyometrics, agility, and speed).

185 Cross Training III ...................................................................... 1 cr
Prereq: HESM 184 or consent of instructor. Freq: Spring.
Advanced skill development in the areas of plyometrics, agility, and speed for the serious competitor in amateur athletics.
186 Cross Training IV .......................................................... 1 cr
Prereq: HESM 185 or consent of instructor. Freq: Spring.
High performance development in advanced skills of plyometrics, agility and speed for the serious competitor and amateur athlete.

188 Tennis I ........................................................................ 1 cr
Prereq: None. Freq: Occasionally
Fundamentals of stroke technique through drills designed for all levels of ability, rules interpretation and match play. Two-hour lab.

189 Tennis II ......................................................................... 1 cr
Prereq: HESM 188 or consent of instructor. Freq: Occasionally.
Tennis II involves the intermediate strokes of competitive tennis. This course includes preparation for tournament play in both singles and doubles.

190 Special Topics .................................................................. 1 cr
Prereq: None. Freq: Fall, Spring, Summer.
Selected activity courses will be examined.

192 Track and Field ................................................................ 1 cr
Prereq: None. Freq: Occasionally.
Fundamentals of track and field events. Two-hour lab.

194 Volleyball ........................................................................ 1 cr
Prereq: None. Freq: Spring.
Fundamentals of technique, elements of attack and defense, rules interpretation, game strategy, officiating and skill testing. Two-hour lab.

195 Physical Education Workshop .........................................1-3 cr
Prereq: Consent of instructor. Freq: Occasionally.
Activities, models, methods, and instructional resources in physical education. Emphasis on participant involvement through individual/group experience, problem solving and expression.

196 Weight Training ............................................................. 1 cr
Prereq: None. Freq: Occasionally.
Elementary weight training to introduce the student to a general program of the basic lifts, the muscle groups affected by these lifts, and procedures of safety factors and theory of weight training. Two-hour lab.

201 Community First Aid and Cardio Pulmonary Resuscitation ........................................ 1 cr
Prereq: None. Freq: Occasionally.
To train responders to recognize and care for non life- threatening emergencies and life-threatening respiratory or cardiac emergencies in adults, children and infants. Certifications include Standard First Aid and Adult, Children and Infant Cardio-Pulmonary Resuscitation and Automated External Defibrillation (CPR/AED).

210 Introduction to Sport and Fitness Management ............ 3 cr
Prereq: None. Freq: Fall, Spring.
This introductory course will provide an overview of the sport and fitness management industry. Emphasis will be placed on basic management principles and career opportunities.

211 Sport Safety Training and Automated External Defibrillation .................................................. 1 cr
Prereq: None. Freq: Spring.
Provide coaches with the knowledge and skills necessary to help provide a safe environment for athletes while they are practicing and competing. To sustain life until EMS personnel arrive. Upon successful completion certificates for CPR/FA and AED will be issued.

232 Lifeguard Training ........................................................... 2 cr
Prereq: Ability to swim 500 yards continuously using the front crawl with rhythmic breathing. Freq: Spring.
To teach lifeguard skills and knowledge needed to prevent and respond to aquatic emergencies. Upon successful completion American Red Cross certifications will be issued.

233 Water Safety Instructor .................................................... 2 cr
Prereq: Swimmer level skills, current emergency water safety or current lifeguard training certification. Freq: Occasionally.
Students completing this course will be eligible to teach progressive swimming courses and four other certifying courses. Meets American Red Cross standards. One-hour lecture, two-hour lab.

240 Ballet I .......................................................................... 2 cr
Prereq: None. Freq: Fall, Spring.
Ballet I offers the student the opportunity to get in shape and achieve positive personal goals through the study of classical ballet technique, terminology and style.

241 Ballet II ........................................................................... 2 cr
Prereq: HESM 240 or previous ballet dance training. Freq: Occasionally.
A continuing study of ballet techniques, music and performance styles for dancers who have already experienced beginning ballet study.

242 Jazz Dance I .................................................................... 2 cr
Prereq: None. Freq: Fall, Spring.
Jazz Dance offers the opportunity to get in shape and achieve positive personal goals through the study of jazz dance, terminology and styles of dancing.

243 Jazz Dance II ................................................................. 2 cr
Prereq: HESM 242 or consent of instructor. Freq: Occasionally.
Further study of jazz dance technique, terminology, style, musicality, and quality of motion. Includes the origin of jazz dance and the continuing evolution of this indigenous American art form.

251-266 COACHING THEORY

250 Sport Safety Training for Coaches ................................. 3 cr
Prereq: None. Freq: Fall.
Provides coaches with a knowledge and skills to help provide a safe environment for athletes while they are practicing, competing and recovering from injury. During this course students/coaches will learn basic taping techniques, concussion evaluations and injury management.

251 Baseball ........................................................................ 2 cr
Prereq: HESM 115 or consent of instructor. Freq: Occasionally.
A study of the techniques necessary to organize, administer, and teach baseball for interscholastic competition. Two-hour lecture.

252 Basketball ....................................................................... 2 cr
Prereq: HESM 117 or consent of instructor. Freq: Spring.
A study of the techniques necessary to organize, administer, and teach basketball for interscholastic competition. Two-hour lecture.

259 Soccer ............................................................................ 2 cr
Prereq: HESM 180 or consent of instructor. Freq: Alternate Springs.
A study of the techniques necessary to organize, administer, and teach soccer for interscholastic competition. Two-hour lecture.

260 Softball .......................................................................... 2 cr
Prereq: HESM 182 or consent of instructor. Freq: Occasionally.
A study of the techniques necessary to organize, administer, and teach softball for interscholastic competition. Two-hour lecture.

264 Track and Field ............................................................... 2 cr
Prereq: HESM 192 or consent of instructor. Freq: Occasionally.
A study of the techniques necessary to organize, administer, and teach track and field for interscholastic competition. Two-hour lecture.

266 Volleyball ............................................................. 2 cr
Prereq: HESM 194 or consent of instructor. Freq: Spring.
A study of the techniques necessary to organize, administer, and teach volleyball for interscholastic competition. Two-hour lecture.
268 Officiating Team and Dual Sports ................................. 2 cr
Prereq: None. Freq: Occasionally.
Rule interpretations and techniques of officiating; practice in actual officiating required. Graduates are eligible for certification by the WIAA as an official and by the intramural board for university officiating.

270 Lifetime Wellness and Lab ........................................... 3 cr
Prereq: None. Freq: Fall, Spring, Summer.
Provide the necessary knowledge and skills to develop a personal fitness/wellness program and to achieve greater lifelong health and wellness. Learn and develop a personal fitness program using individually selected lab techniques to measure and evaluate personal fitness parameters. Participants engage in a pre-assessment/orientation session during the first week of classes and complete a post-assessment session at the end of the semester.

275 Practicum in Aerobics Instruction ................................. 1-3 cr
Prereq: Consent of department. Freq: Occasionally.
Provide students with an opportunity to apply their knowledge of aerobic conditioning techniques in the classroom setting. Students will gain experience by serving as teaching aides in an area where they have had previous instruction.

276 Practicum in Sport Event Management ............................ 1-3 cr
Prereq: Consent of instructor. Freq: Occasionally.
Provides an opportunity to experience NCAA or UW-Parkside intercollegiate sport game management including protocols for budgeting, marketing, ticketing, crowd control, sports information, and event conduct.

280 Sport and Fitness Nutrition ......................................... 3 cr
Prereq: None. Freq: Fall, Spring.
The goal of this course is to develop an understanding of the interaction of good nutrition and exercise habits. Focus on nutritional strategies to maximize energy to get the most out of exercise. The needs and responses of special populations to diet and exercise will also be considered.

282 Ethics and Issues in Sport Management .......................... 3 cr
Prereq: None. Freq: Fall, Spring.
A study of ethical and behavioral issues as they relate to current issues and problems in sport management. Topics include college, youth and professional sport, academic standards, eligibility criteria, sportsmanship, gamesmanship, gambling, diversity, media, athletes as role models, and solving ethical dilemmas confronting professionals in sport management.

283 Orientation to Coaching .............................................. 3 cr
Prereq: None. Freq: Spring.
Designed to introduce the student to the general techniques and responsibilities necessary for success in athletic coaching.

290 Special Topics in Health, Exercise Science and Sport Management ............................................. 1-3 cr
Prereq: Varies with topic. Freq: Occasionally.
Selected topics in health, exercise science and sport management will be examined.

292 Basketball Officiating Certification ................................. 2 cr
Prereq: None. Freq: Occasionally.
Prepare students who aspire to coach and/or officiate basketball games at the elementary, middle, and secondary levels in the greater UW-Parkside community.

300 Legal Issues in Sport and Fitness Management ................. 3 cr
Prereq: Junior/senior standing. Freq: Fall, Spring.
A presentation of the basic legal system, terminology and principles as applied to sport and fitness management. Emphasis is placed on identifying and analyzing legal issues, the ramifications of those issues, and the means of limiting liability of sport and fitness organizations. Topics covered include negligence, risk management, and contract law.

301 Sport Conditioning Practice Design ............................... 2 cr
Prereq: None. Freq: Yearly.
Designed to develop a general understanding of aerobic and anaerobic conditioning principles and techniques for developing agility, strength, and quickness. Includes practice design for peak performance. Emphasis on how to apply these principles and techniques in a practice setting.

305 The Economics of Sports ............................................ 3 cr
Prereq: ECON 101, 120, or 121; or consent of instructor.
Freq: Spring.
Examines economic issues in professional sports such as labor relations, player salaries, ticket prices, franchise values, competitive balance, stadium financing, and market structure. Cross-listed with ECON 305.

321 Women's Health Issues .............................................. 3 cr
Prereq: Junior/senior standing. Freq: Occasionally.
This course will provide a comprehensive overview of critical, contemporary women's health topics and a framework for informed personal and social health decision-making. Topics include women's health, overview of definitions; health status and implications; nutrition and fitness; sexuality and reproductive health; violence in women's lives; health of women across the life span; chronic diseases; and substance use/abuse issues.

322 First Aid and Emergency Response ............................... 3 cr
Prereq: None. Freq: Fall, Spring.
Provide knowledge and skills necessary to help sustain life, reduce pain and minimize the consequences of injury or sudden illness until help arrives. American Red Cross certified in adult CPR and first aid.

330 Sport in Society ....................................................... 3 cr
Prereq: Sophomore standing (minimum). Freq: Fall, Spring.
A survey of the past and present roles sport has played within our society including its impact on our educational system, the media, the family, and economic structures. Areas including heritage, social status, personality and race will be addressed. Cross-listed with SOCA 330.

335 Race, Ethnicity and Baseball in American Society ............ 3 cr
Prereq: Sophomore standing or consent of instructor. Freq: Summer.
Examine the economic, political and social impact of the American, Asian American, Latino American and Native American cultures on the professional baseball industry on American Society.

339 Sustainable Sport Management ................................. 3 cr
Prereq: At least sophomore standing. Freq: Occasionally.
A survey of sustainable business techniques employed by sports organizations in the areas of facility financing, facility development, marketing and event operations. Course will also examine how sports organizations employ marketing techniques focused on and including sustainable/green concepts.

340 Aging and Wellness ................................................ 3 cr
Prereq: HESM 270 or BIOS 109, or consent of instructor.
Freq: Occasionally.
This course addresses the health needs of an aging population covering the multifaceted dimensions of wellness during the aging process with focus on biological, psychological, social, and political factors. Emphasis will be placed on health promotion.

345 Prevention and Care of Athletic Injuries ........................ 3 cr
Prereq: BIOS 105 and BIOS 106. Freq: Fall.
A study of the latest techniques in the prevention of injuries related to fitness, recreation and athletics. Areas covered will focus on injury evaluation and care, including conditioning, taping, wound care, therapeutic modalities, and rehabilitation exercises.
352 Physical Education Techniques ........................................... 2 cr
Prereq: None. Freq: Occasionally.
Designed to acquaint the student with various methods of conducting the instructional period in physical education and teaching aids; the underlying principles basic to sound teaching practices; and practical experience as teacher aids to instructional staff. One-hour lecture; two-hour lab.

353 Biomechanics .............................................................. 4 cr
Prereq: BIOS 105, 106, MATH 111. Freq: Fall.
Examines human movement from anatomical and mechanical perspectives. Topics include fundamental biomechanical concepts, terminology, principles, and their application as they relate to sport and exercise. Three hour lecture; two hour lab.

354 Physiology of Exercise.................................................. 3 cr
Prereq: BIOS 105, 106, MATH 111. Freq: Spring.
A study of the physiological changes of the human body, during and after exercise, and their implications to human performance.

355 Physiology of Exercise Lab............................................ 1 cr
Prereq: HESM 354 or concurrent enrollment. Freq: Occasionally.
Provides students the opportunity to apply fundamental techniques of physiology of exercise.

358 Sport and Fitness Psychology ....................................... 3 cr
Prereq: Junior/senior standing; Freq: Fall.
Presents a theoretical overview of principles of sports, exercise, and rehabilitation psychology. Theoretical foundations are augmented with practical intervention skills, which can be applied in a wide variety of occupational situations.

365 Personal, School, and Community Health....................... 2 cr
Prereq: None. Freq: Occasionally.
Examines problem issues in health and hygiene. Discussion includes problems involving pollution, drugs, nutrition, disease, sanitation, and personal safety.

370 Event Management..................................................... 3 cr
Prereq: Junior/senior standing; Freq: Spring.
A study of the knowledge and skills necessary for an effective event manager. Topics include planning, conducting, staffing, financing and evaluating events. Students will be involved in the development of medical emergency, evacuation, crowd control, registration and risk management plans. Students will study theoretical concepts and have opportunities for practical application.

380 Facility Development and Management ......................... 3 cr
Prereq: Junior/senior standing; Freq: Fall, Spring.
A study of the planning, development, and management of sport and fitness facilities including standard setting, financial planning, architectural design, functional concerns, budget, and personnel management.

390 Special Topics in Health, Exercise Science and Sport Management...............1-3 cr
Prereq: Varies with topic. Freq: Occasionally.
Selected topics in health, exercise science and sport management will be examined.

400 Advanced Legal Issues in Sport Management .................. 3 cr
Prereq: HESM 300. Freq: Spring.
An in-depth study of the relationship between sport management and the law. Topics to be covered include labor law, antitrust law, collective bargaining, amateur athletics, facility issues, constitutional law and tort liability.

410 Fitness Assessment and Prescription.............................. 3 cr
Prereq: HESM 353, 354, or consent of instructor. Freq: Spring.
Provides the knowledge and skills to assess, analyze, and prescribe appropriate fitness and health behavior programs for a diverse population. Special focus will be on standards set forth by the American College of Sport Medicine.

415 Scientific Principles of Strength and Conditioning .......... 4 cr
Prereq: HESM 353 with a grade of C or better. Freq: Spring.
Examines theoretical and applied aspects of strength and conditioning including exercise physiology, biomechanics, nutrition, sport psychology and training adaptations. This course also covers exercise technique, flexibility development, testing, resistance training program design, periodization, plyometrics, aerobic and anaerobic conditioning, and facilities and risk management. Required laboratory session.

420 Sport Business and Finance ........................................ 3 cr
Prereq: Junior/senior standing; Freq: Fall.
A study of theory and applications in the fundamental business practices as applied to sport management. Topics covered include revenue sources, budget development, ownership, taxation, financial analysis and economic impact studies.

430 Fitness Program Management ..................................... 3 cr
Prereq: HESM 353, 354, 410 or consent of instructor. Freq: Fall.
Utilizes theoretical considerations and practical applications for planning, developing and managing health and fitness organizations. Includes the management of personnel, the facility, marketing, and programming.

445 Therapeutic Exercise for Athletic Injuries ...................... 3 cr
Prereq: HESM 345. Freq: Spring (odd years).
Comprehensive approach to therapeutic exercises for treatment and rehabilitation of athletic injuries.

450 Sport and Fitness Marketing ....................................... 3 cr
Prereq: Junior/senior standing; Freq: Fall, Spring.
A study of basic marketing concepts with application to sport and fitness organizations. Topics include promotions and public relations, sponsorship, endorsements, consumer demographics, consumer behavior and market research. Activities include the development of a promotion and a detailed marketing plan for a sport or fitness enterprise.

455 Sport Sales and Customer Service ................................ 3 cr
Prereq: Junior/senior standing; Freq: Occasionally.
A study of basic sales and customer service concepts with application to sports organizations. Topics include sales techniques, prospect identification and customer service principles. Included is the development of detailed sales and customer service materials for a sports enterprise.

480 Senior Seminar in Sport Management ............................ 3 cr
Prereq: Accepted into Sport Management major with Senior standing. Freq: Fall, Spring.
A capstone experience for sport management majors in their last year. Course features review and discussion of current industry materials and topics. Students must also complete an individual research project focused on a current sport management topic that includes an in-class presentation.

490 Special Topics in Health, Exercise Science and Sport Management...............1-3 cr
Prereq: Varies with topic. Freq: Occasionally.
Selected topics in health, exercise science and sport management will be examined.

491 Varsity Sports Field Experience .................................. 1 cr
Prereq: Open to all students by tryout; consent of instructor. Freq: Fall, Spring.
Advanced training in techniques through participation in the varsity athletic program for both men and women. A maximum of four credits may be applied to the graduation requirement.

494 Internship...............................................................1-3 cr
Prereq: Consent of instructor. Freq: Fall, Spring, Summer.
Practical application of the methods and techniques in various sport and fitness fields. Under guidance of a supervising instructor. May be repeated for a maximum of 6 credits.
495 Fieldwork in Sport Management.................................1-12 cr
Prereq: Accepted Sport Management major with a minimum major GPA of 2.5. A minimum of 3 credits are required to be completed in the student's last year of course work. Freq: Fall, Spring, Summer.
A supervised field-based sport management experience in the conditions, practices, and environmental settings where intended vocational roles are conducted. Requires placement approval by HESM academic adviser or faculty member.

496 Directed Studies ....................................................1-3 cr
Prereq: Consent of instructor. Freq: Occasionally.
Directed independent work under the guidance of the supervising professor. May be repeated for credit.

498 Fieldwork in Fitness Management.................................1-12 cr
Prereq: Accepted Fitness Management major with a minimum major GPA of 2.5. A minimum of 3 credits are required to be completed in the student's last semester of course work. Freq: Fall, Spring, Summer.
A supervised field-based fitness management experience in the conditions, practices, and environmental settings where intended vocational roles are conducted. Requires placement approval by HESM academic adviser or faculty member.

499 Independent Study ....................................................1-3 cr
Prereq: Consent of instructor and department chair.
Freq: Fall, Spring, Summer.
Independent work in specific areas under HESM faculty supervision.
Degree Offered:
Bachelor of Arts.

Professors:
Gellott, Ph.D. (chair); Greenfield, Ph.D.

Associate Professors:
Alexander, Ph.D.; Moats Ph.D.; Schmitt Ph.D.

Assistant Professors:
Bruce, Ph.D.; Godley, Ph.D.;

Professional Accreditations or Memberships:
American Historical Association

Student Organizations/Clubs:
History Club; Phi Alpha Theta, the National History Honor Society.

Career Possibilities:
The study of history prepares students for careers in teaching, research, archival work, government service, law, politics, editing and publishing, and any other field where the ability to read, write, think, analyze, synthesize, and interpret is a prerequisite.

Department Overview
History is the intellectual discipline that describes, reconstructs, and interprets the human past in order to inform our sense of the present. It provides students with the skills and perspectives necessary to integrate a significant body of knowledge over time and across disciplinary lines, to think critically, and to assess the interaction between continuity and change. UW-Parkside’s history faculty all hold doctorates from distinguished universities and are highly productive scholars as well as experienced, expert and well-regarded teachers. The history curriculum is a healthy blend of traditional and innovative courses and provides students with the opportunity for both breadth and depth of study.

Preparation for Graduate School
A major in history provides a solid educational preparation for graduate study in history law, journalism, library science or related professions. Students who are interested in pursuing graduate study in history are encouraged to join the History Club and Phi Alpha Theta and to take more than the minimally required number of credits for the major.

Internships
The internship, available under HIST 494, provides opportunities for research and administrative work at university and non-university agencies and offices, such as state, county and city historical societies and historical museums.

Requirements for the History Major (39 credits)
The major in history consists of a minimum of 39 credits. At least 15 credits of upper-level courses in the major must be completed at UW-Parkside. The following courses are required:

- **HIST 101** The United States, Origins to Reconstruction ................. 3 cr
- **HIST 102** The United States, Reconstruction to Recent Times ....... 3 cr
- **HIST 118** The Pre-Modern Western World: Ancient and Medieval Civilizations ...... 3 cr
- **OR**
  - **HIST 126** World History from Antiquity to 1450.. 3 cr
  - **HIST 119** Europe from the Renaissance to the French Revolution 1300-1815 ............... 3 cr
- **OR**
  - **HIST 127** World History from 1450 to 1800 ...... 3 cr
  - **HIST 120** Modern Europe, 1815-Present ........... 3 cr
- **OR**
  - **HIST 128** World History from 1800 to the Present ........................................ 3 cr
- **HIST 250** Sources and Methods in History........ 3 cr
- **HIST 350** Historiography and Great Historians .. 3 cr

Elective Courses
Fifteen credits at the 300-400 level. At least 3 of the 15 credits at the 300-400 level must be taken in a non-Western area, e.g. Africa, Asia, Middle East.

Three additional credits at any level.

Requirements for the History Minor (18 credits)
Requirements for the history minor consist of a minimum of 18 credits, to be completed as follows:
1. Two courses from the following: HIST 101, 102, 118, 119, 120, 126, 127, 128 and 250.

2. Electives: 12 credits from courses numbered 200 and above, of which at least 6 credits must be at the 300 or 400 level.

Courses in History (HIST)

101 The United States, Origins to Reconstruction......................... 3 cr
Prereq: None. Freq: Fall, Spring, Summer.
Analyzes the social, economic, ethnic, cultural and political development of the United States from its Native American origins to the end of post-Civil War Reconstruction.

102 The United States, Reconstruction to Recent Times ............ 3 cr
Prereq: None. Freq: Fall, Spring, Summer.
Analyzes the historical development of the United States from the end of Reconstruction to the recent past, with emphasis on its emergence as a modern industrial society and a world power.

103 Introduction to Asia ...................................................... 3 cr
Prereq: None. Freq: Spring.
Covers the social, cultural, economic, religious, literary, and political aspects of life in all regions of Asia, including China, India, Japan, Southeast Asia, and their neighboring countries. Cross-listed with INTS 103.

118 The Pre-Modern Western World: Ancient and Medieval Civilizations.......................................................... 3 cr
Prereq: None. Freq: Fall.
Surveys the classical and medieval antecedents of modern European economic, social, and political institutions and culture.

119 Europe from the Renaissance to the French Revolution 1300-1815 .................................................. 3 cr
Prereq: None. Freq: Spring.
Surveys the political, religious, social and cultural changes in Europe which gave rise to the modern world.

120 Modern Europe 1815 to the Present.................................... 3 cr
Prereq: None. Freq: Fall.
Europe in the age of industrialization and the nation-state; the rise of modern political ideologies and their accompanying political revolutions; the age of global hegemony and warfare, the origins of a unified Europe.

126 World History from Antiquity to 1450................................. 3 cr
Prereq: None. Freq: Spring.
The rise of major civilizations; an examination of their institutions and cultures; and their interaction with each other and with neighboring societies.

127 World History from 1450 to 1800......................................... 3 cr
Prereq: None. Freq: Fall.
The rise of Europe to world dominance and its consequences from the time of Columbus down to the industrial revolution and the French Revolution.

128 World History from 1800 to the Present.............................. 3 cr
Prereq: None. Freq: Fall, Spring, Summer.
The growth of European global domination from the industrial revolution through World War II; the subsequent superpower rivalry and its consequences; and recent independence movements in the developing world.

180 Popular Culture.............................................................. 3 cr
Prereq: None. Freq: Occasionally.
History of different forms of popular cultural expression in music, literature, film, magazines, art, etc. Topics may vary for different Western and non-Western societies. May be repeated for credit with different topics.

213 Religion in America...................................................... 3 cr
Prereq: ENGL 101. Freq: Occasionally.
A survey of the religious experience in America from colonial times to the present. Includes consideration of the relationship of religion to ethnicity and the role of religion in American politics.

236 Women in Modern Society.............................................. 3 cr
Prereq: ENGL 101. Freq: Occasionally.
Surveys the social and demographic patterns of pre-industrial society; focuses on the role of women in modern, industrial society. Topics include working-class women, middle class and modernization reform movements; feminism, suffrage, socialism, women in the era of the world wars, and the contemporary women’s movement. Cross-listed with WOMS 238.

247 Evolution of Latin America ............................................ 3 cr
Prereq: ENGL 101. Freq: Fall.
Broad topical survey of Latin America from pre-Columbian civilizations to the present.

250 Sources and Methods in History..................................... 3 cr
Prereq: Completion of at least two of the following with a C or better: HIST 101, 102, 118, 119, 120, 126, 127, 128. Freq: Fall.
Familiarizes students with ways of studying history, basics of historical methods in research and writing, mechanics of archival and library research, oral history, and the role of historians in contemporary society.

260 International Conflict................................................... 3 cr
Prereq: ENGL 101 and one 100-level HIST course. Freq: Occasionally.
Focuses on the conflict generated by modernization, industrialization, the search for colonies and nationalism. Topics vary and course may be repeated for credit with different content.

268 Introduction to Holocaust Studies ................................ 3 cr
Prereq: English 101 with grade of C- or better or consent of instructor. Freq: Yearly.
Overview of historical, philosophical and other issues surrounding the Holocaust, using texts by those who experienced the Holocaust. Cross-listed with ENGL 268/INTS 268.

290 Special Topics in History ............................................... 1-4 cr
Prereq: ENGL 101 and one 100-level HIST course. Freq: Occasionally.
Selected topics in history will be examined.

291 Topics in Multicultural History.................................... 3 cr
Prereq: ENGL 101 and one 100-level HIST course. Freq: Occasionally.
Selected topics in multicultural American history will be examined. May be repeated for credit with different content.

301 Race/Ethnicity: United States of America 1492-1890............. 3 cr
Prereq: HIST 250 or consent of instructor. Freq: Occasionally.
Examines the historical evolution of the American people and culture resulting from the interaction among diverse ethnic elements from initial contacts to the closing of the frontier. Explores the concept of ethnicity and its relationship to socioeconomic, political and diplomatic developments.

302 Race/Ethnicity: United States of America 1890 to the Present... 3 cr
Prereq: HIST 250 or consent of instructor. Freq: Spring (even years).
Examines the continuing evolution of the United States into “an American kaleidoscope” during the 20th century. Tests the various concepts and models of ethno-cultural interaction against the complexity and diversity of historical development during a century of rapid, massive change. Cross-listed with ETHN 302.
307 History of Wisconsin ........................................... 3 cr
    Prereq: HIST 250 or consent of instructor. Freq: Occasionally.
    The transformation of Wisconsin from an agrarian territory to an
    urban, industrial, ethnically diverse state. Uses the facilities
    of the Area Research Center and the State Historical Society, and
    examines oral history.

313 Colonialism .................................................... 3 cr
    Prereq: HIST 250 or consent of instructor. Freq: Spring.
    Examines the causes and consequences of European and American
    colonial expansion in Africa, Asia, and Latin America, focusing on
    the 19th and 20th centuries, with attention to the experiences of
    both colonized and colonizers.

315 History of the Modern Middle East .......................... 3 cr
    Prereq: HIST 250. Freq: Fall (odd years).
    Social and political history of Middle Eastern peoples and societies
    since 1800. Impact of factors such as Western intervention in the
    region, Islam, and oil wealth.

317 History of North Africa ........................................ 3 cr
    Prereq: HIST 250 or consent of instructor. Freq: Fall (odd years).
    History of North African societies, with a focus on indigenous
    inhabitants, from prehistory to the present. Impact of various
    incursions, including Phoenicians, Romans, Arab Muslims, and
    European colonialism; local resistance to political and military
    domination; evolution of gender relations and other social structures;
    nationalist movements; effects of globalization on the region.

318 History of Islam .................................................. 3 cr
    Prereq: HIST 250 or consent of instructor. Freq: Spring (even years).
    History of the Islamic faith and of those peoples who have
    embraced it; birth of Muhammad to recent revivalism, radicalism,
    and modernization. Evolution of Islam as a religion and a social
    and political system; different interpretations of Islam, including
    the Sunni-Shi’a split; Islam and the state; relations between the Islamic
    world and non-Islamic societies.

320 Germany 1815 to the Present ................................ 3 cr
    Prereq: HIST 250 or consent of instructor. Freq: Fall (even years).
    Examines the failure of liberalism, triumph of political and social
    reaction, World War I, the fascist response to political defeat and
    social modernization, World War II and the postwar era, German
    reunification.

324 History of American Politics ................................ 3 cr
    Prereq: HIST 250 or consent of instructor. Freq: Occasionally.
    Interdisciplinary course in the development of the American political
    system from colonial times to the present, utilizing concepts of
    history, political science and sociology. Emphasis on the causes
    and nature of political change.

327 History of Britain I: To 1603 .................................. 3 cr
    Prereq: ENGL 101. Freq: Fall.
    A survey of British social and political developments, beginning with
    the arrival of the Romans in 55 BC and continuing through to the
    death of Elizabeth I in 1603. While the primary emphasis will be
    on England, the course will touch on all the regions that form the
    United Kingdom.

328 History of Britain II: 1603 to 1953 ............................ 3 cr
    Prereq: ENGL 101. Freq: Fall.
    The course continues the examination of British social and political
    developments, beginning with the Stuart Dynasty through to the
    ascension of Elizabeth II in 1953. Focus includes such topics as the
    English Civil War, the Industrial Revolution, Britain and Abolitionism,
    Colonialism, and the rise and fall of the British Empire.

330 The Evolution of Pre-Modern Russia ....................... 3 cr
    Prereq: HIST 250 or consent of instructor. Freq: Occasionally.
    Russia in the heyday of serfdom, responses to industrialization,
    intensified contact with the West, and demand for modernization
    through the revolutions of 1917.

331 History of Soviet Russia, 1917 to the Present ............. 3 cr
    Prereq: HIST 250 or consent of instructor. Freq: Occasionally.
    The modern political, cultural and economic systems created in
    Russia since 1917.

333 Contemporary American Immigration ....................... 3 cr
    Prereq: None. Freq: Occasionally.
    Examines the global economic, social, and political forces that
    have shaped immigration to the United States since the passage
    of the Immigration Nationality Act of 1965 and the ways in which
    immigration is changing the nation and the world. Includes models
    of assimilation, political participation, and psychological and cultural
    considerations. Cross-listed with ETHN 333.

335 Native American History ..................................... 3 cr
    Prereq: HIST 101 and HIST 250, or consent of instructor.
    Freq: Occasionally.
    An in-depth examination of the major themes of Native American
    history, beginning with the period before European contact and
    ending with the current emphasis on tribal self determination. Topics
    to be discussed include the devastating effects of colonization on
    Native Americans, and the contradictory federal policies of removal,
    reservations, and allotment/assimilation.

336 Poverty in American History ................................ 3 cr
    Prereq: HIST 101 or 102, and 250. Freq: Occasionally.
    An exploration of the problem of poverty in American history,
    with particular attention to the experiences of poor Americans,
    the evolution of explanations of poverty, and the range of ways
    Americans have confronted the issue. A community-based learning
    component is central to the course.

337 African-American History ................................... 3 cr
    Prereq: HIST 101 or 102. Freq: Spring (odd years).
    Examines the experience of African Americans from colonial times
    to the present, with emphasis on their evolution as an ethnic group
    and on their struggle for equality. Cross-listed with ETHN 337.

339 American Colonial History ................................. 3 cr
    Prereq: HIST 101, and HIST 250 or consent of instructor. Freq:
    Spring (odd years).
    An examination of the European exploration and colonization
    of North America, including interactions with native populations
    culminating with the American Revolution.

340 Early American Republic ..................................... 3 cr
    Prereq: HIST 101, and HIST 250 or consent of instructor. Freq:
    Fall (odd years).
    Traces the political, cultural and social development of the United
    States from the American Revolution to the antebellum period.

341 The Urbanization of the United States ..................... 3 cr
    Prereq: HIST 250 or consent of instructor. Freq: Occasionally.
    Analyzes the evolution of urban places and cities in the United
    States from a network of tiny colonial outposts to a complex system
    of consolidated metropolitan statistical areas, as well as the impact
    that the historical process of urbanization has had upon other
    aspects of national development.

342 The American Civil War ...................................... 3 cr
    Prereq: HIST 250 or consent of instructor. Freq: Spring (even years).
    Examines the origins and outcomes of the United States’ bloodiest
    conflict, including slavery, westward expansion, and Reconstruction.

344 Gilded Age and Progressive Era, 1877-1917 ............... 3 cr
    Prereq: HIST 250 or consent of instructor. Freq: Fall (even years).
    Explores the emergence of the United States as a modern,
    urban, industrial, multiethnic world power between the end of
    Reconstruction and American entry into World War I. Stresses the
    many efforts to reform various aspects of life during the Populist
    and Progressive eras.
345 America in Power and Peril 1917-1953 .......................... 3 cr
Prereq: HIST 250 or consent of instructor. Freq: Fall (even years).
A survey of the nation’s experience as an emergent global power
along with the effects of waxing and waning domestic prosperity
during the first half of the 20th century; examines the challenges of
urban/rural, racial/ethnic, and gender divisions in the nation, along
with the growth of American culture.

346 Recent America, 1953-Present ........................................ 3 cr
Prereq: HIST 250 or consent of instructor. Freq: Spring (odd
years).
An examination of the United States as superpower, the benefits and
limits of postwar prosperity, the rights revolution, the era of cynicism
and limits on government, the challenges and opportunities of
multiculturalism, and the redefinition of the nation’s role in the world.

347 Topics in Latin American History ................................. 3 cr
Prereq: HIST 250 or consent of instructor. Freq: Occasionally.
Focuses on specific countries or on particular aspects of Latin
American development; for example, revolution and land reform.
May be repeated for credit with different topics.

350 Historiography and Great Historians .............................. 3 cr
Prereq: HIST 250. Freq: Spring.
Examines the development of history as a system of knowledge
from ancient times to the present, focusing on major schools of
interpretation and significant historians.

362 Topics in 19th Century Europe ....................................... 3 cr
Prereq: HIST 120, and HIST 250 or consent of instructor.
Freq: Occasionally.
Topics include political and social revolutions; modernization and
industrialization; nationalism; new cultural movements; the rise of
modern ideologies; feminism and women’s rights.

363 Europe Between the Wars: 1919-1939 .............................. 3 cr
Prereq: HIST 120, HIST 250 or consent of instructor.
Freq: Occasionally.
Europe from the end of the first world war to the beginnings of
the second. Topics include the Treaty of Versailles, revolutions in
Central Europe, the successor states in Eastern Europe, political
change in the west, the rise of fascism, appeasement, and the road
to war.

364 Europe Since 1945 ........................................................ 3 cr
Prereq: HIST 120, HIST 250 or consent of instructor.
Freq: Spring (even years).
The end of World War II; the Cold War and Sovietization of Eastern
Europe; political change in the West; decolonization; European
unification; revolutions of 1989; recent developments in Europe.

368 Immigration and Race in Modern Europe ....................... 3 cr
Prereq: HIST 250 or consent of instructor. Freq: Fall (even years).
Covers migration both within and from outside Europe from the
19th century to the present; government policies encouraging and
discouraging immigration; ideas of race and racism; experiences of
immigrants, and hybrid cultures resulting from immigration.

384 Late Imperial China, 618-1860 CE ................................. 3 cr
Prereq: HIST 250 or consent of instructor. Freq: Fall.
Explores themes of political and religious discord, arrival and growth of
Buddhism, the Confucian educational system, the impact of
Western technology, and the roles of corruption and natural disaster
in China’s Tang, Song, Yuan, Ming, and Qing dynasties.

385 Ancient and Imperial China, 2200 BCE – 1644 CE .......... 3 cr
Prereq: HIST 250 or consent of instructor.
Freq: Occasionally.
Explores China’s history from the fossil record through the end of the
Ming Dynasty in 1644 CE. Topics include Chinese culture, philosophy, innovation, technology, warfare, and artistic
achievements, as well as major archaeological finds.

386 China Since World War II ............................................. 3 cr
Prereq: HIST 250 or consent of instructor.
Freq: Spring (odd years).
Explores the violent birth of the People’s Republic, China’s war
against the United States in Korea, Mao Zedong’s cult of personality,
China’s rapid economic reforms during the 1980s and 1990s, and
the triumph of the Beijing Olympics.

387 Japan in the Late Samurai Age: 1400-1867 ..................... 3 cr
Prereq: HIST 250 or consent of instructor. Freq: Fall (odd years).
Examines the lives of Japan’s samurai class, the way of the warrior,
the role of the shogun, the origins of Japan’s greatest cities and
castles, the truth about geisha, and the real life among Japan’s
peasants, rebels, and outcasts.

388 Japan Since the Samurai Age: 1868-Present .................... 3 cr
Prereq: HIST 250 or consent of instructor.
Freq: Spring (even years).
Explores Japan’s last samurai revolution and the creation of the
Japanese Empire, followed by Japan’s attack on Pearl Harbor in
1941, defeat by the United States in 1945, and stunning resurgence
into a leading industrial and economic superpower by the late 20th
century.

400 International Conflict .................................................. 3 cr
Prereq: HIST 250 or consent of instructor. Freq: Occasionally.
Focuses on the conflict generated by modernization,
industrialization, the search for colonies, and nationalism. Topics
vary and course may be repeated for credit with different content.
Course differs from HIST 260 in that a research paper will be
required.

468 Holocaust Studies ....................................................... 3 cr
Prereq: English 266 and 167 or a 200-level survey; or consent of
instructor. Freq: Occasionally.
Intensive study of various aspects of the Holocaust, such
as literature of the Holocaust, film and the Holocaust,
literature of the Second Generation, etc. Cross-listed with
ENGL 468// HUMA 468.

490 Special Topics in History ................................. 1-4 cr
Prereq: HIST 250 or consent of instructor. Freq: Occasionally.
Selected topics in history will be examined. Research paper
required.

491 Topics in Multicultural History ............................... 3 cr
Prereq: HIST 250 or consent of instructor.
Selected topics in multicultural American history will be examined.
May be repeated for credit with different content.

494 Internship in History .................................................. 1-6 cr
Prereq: HIST 250, 3.0 GPA in history, consent of instructor and
department chair. Freq: Fall, Spring, Summer.
Research and project-related work at university and non-university
agencies and offices, such as state and county historical societies.
A limited number of internships are available; thus the awarding of
internships will be on a competitive basis, taking into account
GPA and number of credits completed. A maximum of 3 credits of
internship work may be counted toward the major.

499 Independent Study .................................................... 1-6 cr
Prereq: Consent of instructor and department chair; minimum 3.3
GPA in history. Freq: Fall, Spring, Summer.
Independent study is designed to enable students to pursue an
interest or area in history not served by existing departmental
offerings. Note: A maximum of 3 credits of independent study
may be counted toward the major.
Program Overview
The Honors Program is a university-wide multidisciplinary program that encourages and rewards excellence. It provides opportunities for students to expand beyond the normal boundaries of their courses through research, special projects and community-based work. Students who complete all of the program requirements receive recognition at graduation and on their transcripts. The Honors Program has two tracks: academic honors, and civic honors. To enroll in honors courses or participate in honors projects in either track, students must first be admitted to the program. Applications are accepted at any time. Contact the Honors Program director for more details or to obtain an application form, or visit the Honors Program website by entering “honors” into the keyword search on the UW-Parkside homepage.

Academic Honors
The academic honors track provides thematically integrated and challenging opportunities for UW-Parkside’s most talented students, ensures that UW-Parkside’s best students and faculty scholars engage in collegial working relationships on in-depth projects of mutual interest, and fosters fellowship and community among UW-Parkside honors students. Academic honors is earned primarily through the completion of honors courses and honors thesis work.

Program admission requirements for new freshmen include standing in the upper 5 percent of their high school graduating class or a 95th percentile ACT score, or standing in the upper 10 percent of their high school graduating class and a 90th percentile ACT score. Continuing or transfer students must have a cumulative GPA of 3.5 or better and must have completed at least 12 credits of college work. All applicants must submit a letter of recommendation from a faculty member from this or another institution. Students transferring from another institution may receive up to 9 credits toward the Honors Program. Transferred honors credits must be approved by the director.

Requirements for Academic Honors
To receive official transcript designation and recognition at graduation, students must be admitted to the program, must have a cumulative GPA of at least 3.5 and must earn 24 credits in honors course work. The 24 credits must include three 1-credit Honors Seminars, and at least 3 credits of Honors Thesis. The remaining credits may be earned through honors projects attached to regularly scheduled courses or through additional Honors Seminars or honors designated courses. A grade of B+ or higher must be earned for a student to be awarded honors credit for any course.

In order to receive honors credit for a course not designated as an honors course, a student must first complete an honors agreement with the instructor. The agreement must state the specific nature of the additional honors work for the class and must be approved by the director of the Honors Program.

Students may also earn up to 3 honors credits by participating in academic campus activities outside the classroom such as lectures, discussions, and presentations.

One activity credit for honors requires:
- Prior approval of the Honors Program director.
- At least six hours of activities (note that the actual number of attended events may be more or less than this).
- Written presentation of a summary and critical evaluation of the experience to the Honors Program director.

Honors credits achieved in this manner will not count toward graduation nor toward the completion of any academic requirement other than those for the Honors Program. It is recommended that incoming freshmen who are eligible for the Honors Program enroll in HONS 495 Honors Seminar.

Civic Honors
The civic honors track provides a mechanism to support and sustain student involvement in a particular public issue and to examine and respond to public issues from multiple disciplinary perspectives.

The goals of the civic honors track are to:
Deeply embed a student’s exploration of a specific public issue into his or her academic experience.

Develop a network of support that encourages students to embrace their responsibilities as citizens in a diverse democracy within a broad global arena.

Deepen the positive impact that students have on communities through community engagement and civic learning initiatives.

Foster thorough knowledge of a particular academic discipline.

Students who participate in the civic honors track will develop
civic competencies through academic and community involvement including specific courses, targeted assignments, service learning, presentations, employment and volunteer activities, and community projects that demonstrate the civic competencies in the issue they have chosen.

Normally, students will enroll in the civic honors track no later than the fall semester of their junior year. To apply for the civic honors track, students must have completed at least 18 credits of university course work with a cumulative GPA of 3.0 or higher. Newly admitted students who have not taken CBL 101 Introduction to Community Based Learning, must complete this course within one year after admission to the program. The CBL 101 course offers students an opportunity to explore a broad range of civic and community issues. During the course, students will select an issue of personal interest and develop a plan to intentionally focus their university experience and course work toward developing the knowledge, skills, and abilities necessary to impact that issue. Students who choose to participate in the civic honors track will use the plan created as part of the CBL 101 course to guide their development of civic competencies throughout the remainder of their university experience.

Requirements for Civic Honors

To receive official transcript designation and recognition at graduation students must be admitted to the program, must have a cumulative GPA of at least 3.0, successfully complete CBL 101 Introduction to Community Based Learning, HONS 496 Civic Honors Senior Seminar, and demonstrate proficiency in the following six civic competencies.

1. General knowledge of relevant public issues affecting local and global communities.
2. In-depth knowledge of one public issue.
3. Knowledge of groups, networks and systems that address or have the ability to impact the public issue.
4. Demonstrated ability in developing a wide range of civic skills, attitudes and beliefs needed to effect change.
5. Demonstrated ability to inform various audiences about the issue.
6. Demonstrated ability to impact a public issue through effective participation in projects, groups, networks, political or civic processes.

Proficiency in the competencies will be demonstrated through a portfolio documenting the student’s accomplishments over the course of his or her college career. During the senior year, students are required to enroll in HONS 496 Civic Honors Senior Seminar, where they will finalize the portfolio. The final requirement for the civic honors designation is a public presentation and defense of the portfolio to a panel consisting of at least one faculty expert on the topic, one community partner involved in the issue, and a representative from the Honors Program steering committee.

Courses in the Honors Program (HONS)

100 Freshman Honors Seminar.................................................. 1 cr
   Prereq: Consent of director.  Freq: Fall.
   Provides incoming students who qualify for the Honors Program an introduction to the Honors Program and explores how it can provide challenging learning opportunities that will enrich their academic experience, involve them in faculty scholarship and engage them in community and civic issues.

290 Special Topics................................................................. 1-3 cr
   Prereq: Admission to Honors Program and consent of director.
   Freq: Occasionally. Selected topics of interest will be examined.

490 Special Topics................................................................. 3 cr
   Prereq: Admission to Honors Program and consent of director.
   Freq: Occasionally. Selected topics of interest will be examined.

494 Honors Internship............................................................ 1-3 cr
   Prereq: Admission to Honors Program and consent of director.
   Freq: Fall, Spring.
   Community work experience with investigation of an academic question. Students engage in field work obtaining material for an applied research project. May be repeated up to 3 credits.

495 Honors Seminar.............................................................. 1 cr
   Prereq: Admission to Honors Program and consent of director.
   Freq: Fall, Spring.
   Critical examination and discussion of the annual theme of the Honors Program. Content will vary to reflect the interests of the participants and faculty. May be repeated for credit.

496 Civic Honors Senior Seminar.......................................... 1 cr
   Prereq: Consent of Instructor.  Freq: Fall, Spring.
   Critical examination and discussion of work and study related to a public issue. Culminates in finalization of portfolio and preparation for final defense.

497 Honors Thesis............................................................... 1-6 cr
   Prereq: Second-year honors student and consent of director.
   Freq: Fall, Spring.
   Directed original research project under a professor in the student’s major. Completed work will be presented to the honors steering committee. May be repeated up to 6 credits.

499 Independent Study........................................................ 1-3 cr
   Prereq: Admission to Honors Program and consent of director.
   Freq: Occasionally.
   Directed work under the guidance of a supervising professor and the Honors Program director. May be repeated up to 3 credits.
Degree offered:
Bachelor of Arts.

Director:
McNair, Ph.D.

Career Possibilities:
There are many possible careers for humanities graduates, depending on how students plan their course work. Some recent graduates are enrolled in graduate programs. Others are employed in a diverse range of occupations, including teaching, finance, and graphic design.

Program Overview
Humanities is a broadly interdisciplinary program focusing on the expression of values and ideals in human culture. It concerns itself with literature and the arts, religion and philosophy, and political and social institutions. Its emphasis is not so much on acquiring a body of accepted knowledge or skills. Rather, it encourages students to ask critical questions and make informed assessments.

Humanities is a flexible degree program. After the completion of foundational course work, students define their own plans of study in consultation with their advisers. Transfer and returning students often find the humanities major a suitable degree-completion option.

Program Competency Areas
The flexible humanities curriculum is guided by six areas in which students are expected to demonstrate competency. These areas should guide students’ selection of course electives as well as guide their focus within particular courses. Understanding of the competencies is demonstrated by the successful completion of a senior portfolio. The competency areas are as follows:

Aesthetics
The more we “read” or interpret verbal and non-verbal texts and imagery, the more we refine our abilities to make, articulate, and explicate informed judgments. Aesthetics in general refers to the ability to reflect on the importance of artistic and humanistic pursuits to human existence.

Communication
We must be able to communicate effectively, in a variety of communication situations, using the media of the 21st century, which means being aware of how choices of language, rhetoric, and action affect the ways messages are understood. Effective communication also entails understanding the traditions and purposes of many different modes of expression.

Ethics
Ethics is about the practice of moral judgment, which involves the ability to reflect on what it means to be human, the ability to reflect critically on notions of validity and truth, as well as willingness to explore issues and events from a variety of perspectives.

History
History is about recognizing patterns in past events and seeing their relevance to present-day life, demonstrating how contemporary social issues are rooted in past events and political choices. It’s also about being able to speculate in informed ways about how present-day trends might affect the future.

Critical Thinking
Critical thinking deals with how value systems shape human knowledge. Critical thinking includes epistemology, the ability and willingness to question the nature of human knowledge.

Interdisciplinarity
Interdisciplinarity refers to the ability to make deliberate connections among various academic disciplines, to comprehend and participate in more than one discipline. It’s also the ability to reflect on the nature of interdisciplinarity itself and to articulate the value of an interdisciplinary perspective.

Preparation for Graduate School
No special preparation beyond completion of the major is necessary to enter graduate programs in the humanities. In many cases a student may wish to enter a program in some specific field within the humanities, and in such cases specific preparation with the chosen field is desirable.

Requirements for the Major in Humanities (35 credits)
Thirty-five credits in courses selected in consultation with the student’s major adviser, including the following:

1. Two courses from HUMA 101, 102, or 103 (6 credits).
2. HUMA 200 (3 credits).
3. Skills or research methods courses selected from appropriate departments (6 credits).
4. A combination of 300- and 400-level courses, selected in consultation with adviser, that address the competency areas* (18 credits).

* In consultation with their advisers, students may count the following self-paced humanities courses toward their upper-level electives:

- HUMA 302, 311, 312, 321, 322, 331, 332, 403, 413, 423, 433, 441, 442

5. Capstone course (HUMA 498) in which students compile portfolios demonstrating facility with the six competency areas. This course is to be taken in the final semester before graduation (2 credits).

Courses in Humanities (HUMA)

101 Introduction to Humanities-World Cultures
3 cr
Prereq: None. Freq: Yearly.
A thematic and comparative approach to the history of world cultures, focusing on the West, but including significant material from a variety of non-Western cultures, with particular emphasis on political movements, literature, fine arts, religion, and philosophy from prehistory to 1500.

102 Introduction to Humanities-World Cultures
1500 to Present
3 cr
Prereq: None. Freq: Yearly.
A thematic and comparative approach to the history of world cultures, focusing on the West, but including significant material from a variety of non-Western cultures, with particular emphasis on political movements, literature, fine arts, religion, and philosophy from 1500 to present.

103 Diversity in the United States
3 cr
Prereq: None. Freq: Yearly.
A thematic and comparative approach to the history and culture of the United States, focusing on one or more of the diverse groups that comprise that culture.

200 Humanistic Studies
3 cr
Prereq: ENGL 101 with a grade of C- or better or consent of instructor. Freq: Yearly.
Introduction to philosophies, methods, and issues in the humanities.

252 Introduction to Film
3 cr
Prereq: None. Freq: Occasionally.
An examination of the distinctive elements and techniques of film as art and the relationship of film to society. Cross-listed with ENGL 252.

302 Development of a Global Culture
3 cr
Prereq: HUMA 200 and consent of instructor. Freq: Yearly.
A study of the evolution of those conditions which have encouraged the development of an international and industrial culture while also increasing global political fragmentation.

311 History of Industrialization in Europe and the United States
3 cr
Prereq: HUMA 200 and consent of instructor. Freq: Yearly.
A survey of important historical events, technological innovations, economic changes, and social alterations during the period of the Industrial Revolution in Western Europe and America.

312 History of the 20th Century Industrial Revolution
3 cr
Prereq: HUMA 200 and consent of instructor. Freq: Yearly.
An examination of the emerging post-industrial society of the 20th century, focusing upon the interaction of social, political, and economic movements with industrialism and technology.

321 Intellectual History of the Industrial Revolution
3 cr
(self-paced course)
Prereq: HUMA 200 and consent of instructor. Freq: Yearly.
A survey of the major ideas that heralded, accompanied, and advanced the technological, social, and cultural upheavals of the Industrial Revolution.

322 Intellectual History of the 20th Century Industrial Revolution
3 cr
(self-paced course)
Prereq: HUMA 200 and consent of instructor. Freq: Yearly.
An examination of the impact of technology and industrialism on the philosophy and ideology of the 20th-century western world.

331 Post-Industrial Revolution Arts
3 cr
(self-paced course)
Prereq: HUMA 200 and consent of instructor. Freq: Yearly.
An examination of the post-industrial society of the 20th century, the period in which the world was transformed by technological and social changes.

332 Modernism in Literature and Art of the 20th Century Industrial Revolution
3 cr
(self-paced course)
Prereq: HUMA 200 and consent of instructor. Freq: Yearly.
An examination of the post-industrial society of the 20th century, the period in which the world was transformed by technological and social changes.

Aesthetic Values
3 cr
Prereq: HUMA 200 or consent of instructor. Freq: Occasionally.
Exploration of the nature of aesthetic judgments and their justification in aesthetic discourse, and the nature and role of art in human life, focusing in particular on the visual arts and music.

Ethical Values
3 cr
Prereq: HUMA 200 or consent of instructor. Freq: Occasionally.
Exploration of the nature of ethical judgments and their justification in ethical discourse, and the role of ethical values in the human pursuit of the good.

Knowledge and Understanding
3 cr
Prereq: HUMA 200 or consent of instructor. Freq: Occasionally.
Exploration of the place of knowledge in human life, the ways in which knowledge is hindered and acquired, and the way in which cultural norms and knowledge interact.

Psychology of Evil
3 cr
Prereq: Consent of instructor. Freq: Fall.
Cruelty and violence directed by one person or group to another is a major concern for all people. This course relies on the findings of learning theory, social psychology, and other areas of psychological research to explore the issue of human violence. The specific goal is to look beyond the perspective of the victim or observer to examine how the perpetrator of cruelty and violence views those acts. Cross-listed with CRMJ 370/PSYC 370.

Special Topics
1-3 cr
Prereq: Humanities major, junior standing; or consent of instructor. Freq: Occasionally.
Selected topics in the humanities. May be repeated for credit with different topic.

Humanities Colloquium
1 cr
Prereq: None. Freq: Occasionally.
In-depth approach to a single experience such as attending a play, visiting a museum, or reading a novel. Significant course project will be required. May be repeated for credit with different topic. May require a course fee.
403 Crucial Choices ......................................................... 6 cr
(self-paced course)
Prereq: HUMA 200 and consent of instructor. Freq: Yearly
An investigation of crucial political and social issues such as energy
and resources, international law, health, work, and leisure and how
they impinge on national and international policies and actions.

413 Culture and Civilization ............................................... 6 cr
(self-paced course)
Prereq: HUMA 200 and consent of instructor. Freq: Yearly.
An investigation of the nature of culture and the interplay between
culture and society in pre-modern and modern societies.

423 The Divided World ................................................... 6 cr
(self-paced course)
Prereq: HUMA 200 and consent of instructor. Freq: Yearly.
An examination of the distinctions which have divided the modern
world – religious and political ideologies, sex, class, race, ethnicity
– and their relationships to world order.

433 The Changing Arts .................................................. 6 cr
(self-paced course)
Prereq: HUMA 200 and consent of instructor. Freq: Yearly.
A study of modern western art forms – music, design, and film – with
respect to their interaction with and influences on a technological
society.

441 Problems in Industrial Society I ................................. 3 cr
(self-paced course)
Prereq: HUMA 200, 413 and 423; or consent of instructor. Freq: Yearly.
An opportunity for the student to explore in greater depth a topic
from HUMA 413 or HUMA 423, using local research and primary
archival and/or community resources.

442 Problems in Industrial Society II ................................. 3 cr
(self-paced course)
Prereq: HUMA 200, 403 and 433; or consent of instructor.
Freq: Yearly.
An opportunity for the student to explore in greater depth a topic
from HUMA 403 or HUMA 433, using local research and primary
archival and/or community resources.

468 Holocaust Studies ................................................... 3 cr
Prereq: Junior standing or consent of instructor.
Freq: Occasionally.
Intensive study of various aspects of the Holocaust, such as
literature of the Holocaust, film and the Holocaust, and literature of
the Second Generation, etc. Cross-listed with ENGL 468/HIST 468.

490 Special Topics ......................................................... 1-3 cr
Prereq: Humanities major, junior standing; or consent of instructor.
Freq: Occasionally.
Selected topics in the humanities at the senior level. May be
repeated for credit with different topic.

494 Internship ............................................................. 1-4 cr
Prereq: Humanities major, junior standing, and consent of
instructor and program director. Freq: Fall, Spring.
Directed field experience, focusing on application of scholarly
concepts to the workplace. Specific arrangements to be made in
consultation with adviser. Maximum of 4 credits may be applied to
the major.

498 Humanities Capstone .............................................. 2 cr
Prereq: HUMA 200 and consent of instructor, graduating senior.
Freq: Fall, Spring.
Portfolio-based course in which graduating seniors demonstrate
mastery of the six humanities competency areas.

499 Independent Study ................................................... 1-6 cr
Prereq: Junior standing and consent of instructor and program
director. Freq: Fall, Spring.
Individual study of selected topics in humanities.
Degree Offered:
Bachelor of Arts.

Director:
Gurnack, Ph.D.

Career Possibilities:
The interdisciplinary studies major and leadership certificate provide organizational expertise for use in public and private sector employment settings. Recent program graduates work as managers, directors, and supervisors at multinational and regional manufacturing, nonprofit, service and media organizations.

Department Overview
The interdisciplinary studies major is a flexible program whose breadth ensures coverage of several behavioral and social-science disciplines. The major is designed to meet the needs of students whose interests and career goals go beyond the boundaries of a single discipline. Interdisciplinary studies is a major where critical thinking and the ability to identify and inter-relate meaning among a variety of broad areas and disciplines are connected to practical workplace settings and issues. Students are independent and self-directed adults with clear educational and career goals. For those interested in developing or refining their leadership skills, a separate 12-credit (four-course) certificate in leadership is available.

Requirements for the Organizational Studies Concentration (36-37 credits)
The organizational studies concentration is designed to help students understand the structures, operations, and functions of complex organizations in both the public and private sectors. Faculty members form a number of academic disciplines including sociology/anthropology, economics, psychology, geography, history, political science, communication, philosophy, and business provide students with a multidimensional, multi-perspective, comprehensive understanding of complex organizations in our society.

I. Foundational Courses (9 credits)
   ISTD 345 Organization Theories.............................................. 3 cr
   Plus 6 credits of 100- or 200-level work in the behavioral and/or social sciences, one of which may be:
   ISTD 200 Introduction to Leadership...................................... 3 cr

II. Statistics Course (3-4 credits)
   ISTD 250 Consumer Statistics.............................................. 3 cr
   Or one course from the following: SOCA 250, POLS 200, PSYC 250, or QM 210 (consult with instructor regarding prerequisites).

III. Concentration Courses (21 credits, with no more than 9 credits from any one area).
    Other courses in the UW-Parkside catalog, as well as ISTD 490, may count for concentration credit. Pre-approval from adviser is required.

    History/Political Science/Geography:
    GEOG 340 Political Geography ............................................. 3 cr
    GEOG 360 Urban Geography.................................................. 3 cr
    HIST301/ETHN 302 Race and Ethnicity in the U.S. ................. 3 cr
    HIST/ETHN 333 Contemporary American Immigration ........... 3 cr
    POLS 202 Public Policy....................................................... 3 cr
    POLS 250 Introduction to Public Administration .................. 3 cr

    Economics/Business:
    ECON 380 The Labor Market................................................. 3 cr
    HRM 343 Human Resource Management............................... 3 cr
    MGT 349 Organizational Behavior........................................ 3 cr
    MGT 447 Management Techniques ........................................ 3 cr
MIS 320 Management Information Systems .... 3 cr
MKT 350 Marketing Principles .................... 3 cr

Psychology/Sociology:
ISTD 300 Human Resources Issues.............. 3 cr
ISTD 346 Interorganizational Relationships...... 3 cr
PSYC 307 Cross-Cultural Psychology .......... 3 cr
PSYC 330 Interviewing ............................ 3 cr
SOCA 304 Skill Development in Leadership..... 3 cr
SOCA 306 Research in Community Needs ...... 3 cr
SOCA 326 Social Gerontology ..................... 3 cr
SOCA 372 Technology and Society ............... 3 cr
SOCA 373 Formal Organization .................... 3 cr

Communication:
COMM 285 Introduction to Conflict Analysis and Resolution .......... 3 cr
COMM 303 Organizational Communication ........ 3 cr
COMM 365 Intercultural Communication ........ 3 cr
ENGL 204 Writing for Business and Industry .... 3 cr
ISTD 492 Practicum in Leadership ............... 3 cr

IV. Capstone (3 credits)
ISTD 498 Senior Seminar Project ................. 3 cr

Requirements for the Social Science Studies Concentration (33-45 credits)

The distinguishing feature of the second concentration option is the independently designed theme. Working with the program adviser, students design a course of study built around a particular theme or problem in the social and behavioral sciences. Students will be accepted as interdisciplinary majors and allowed to proceed with an approved, independently designed theme. Working with the program adviser, students design a course of study built around a particular theme or problem in the social and behavioral sciences. Some examples of themes chosen by current students and approved by the review committee are as follows:

Introductory and methodology courses should be chosen as consistent with the approved, independently designed theme.

I. Introductory Courses (9 credits):

Three introductory courses from the following list, chosen from two different disciplines:

COMM 107 Communication and the Human Condition .................... 3 cr
COMM 108 Media and Society ......................... 3 cr
ECON 101 The American Economy ................... 3 cr
GEOG 100 Physical Geography and the Environment ................... 3 cr
GEOG 105 Contemporary Human Geography .... 3 cr
GEOG 110 Introduction to Geography-World Regions ......... 3 cr
HIST 102 The United States, Reconstruction to Recent Times .......... 3 cr
HIST 120 Modern Europe 1815 to the Present .. 3 cr
POLS 100 American Politics ......................... 3 cr
POLS 104 Introduction to International Relations... 3 cr
POLS 105 Political Beliefs .......................... 3 cr
PSYC 101 Psychological Science ..................... 3 cr
SOCA 100 Introduction to Anthropology ......... 3 cr
SOCA 208 Introduction to Archaeology ............ 3 cr
WOMS 110 Introduction to Women’s and Gender Studies .............. 3 cr

II. Methodology Courses (3 credits):

At least one methodology course from the following list is required.

GEOG 300 Geographic Methods .......................... 3 cr
HIST 250 Sources and Methods in History ....... 3 cr
ISTD 250 Consumer Statistics ......................... 3 cr
POLS 200 Research Methods and Sources ....... 4 cr
PSYC 300 Research Methods .......................... 3 cr
QM 210 Business Statistics ............................ 3 cr
SOCA 250 Statistics for the Social Sciences ........ 4 cr
SOCA 295* Social Science Research Methods ...... 2 cr

* This is a 2-credit course. Students who opt to complete it must consult with the interdisciplinary studies adviser with regard to the additional required credit.

III. Scope of Coverage (12 credits)

At least one 3-credit course from four of the following disciplines is required: communication, economics, geography, history, political science, psychology, sociology/anthropology, or women’s studies. The purpose of the scope of coverage requirement is to ensure the interdisciplinary nature of the program. Courses identified as meeting the requirements of the scope of coverage section of the major may also be counted under sections I, II, and IV.

IV. Theme (18 credits)

The 18 credits must revolve around or be related to some central theme or issue which the student has identified within the social and behavioral sciences. Some examples of themes chosen by current students and approved by the review committee are as follows:

- The American Worker in Adaptation to Change
- Poverty and Social Welfare
- Crime and Psychological Problems Among Children
- Illiteracy in America
- Ethnicity and Political/Social Patterns in the U.S.
- Politics and Mass Communication
- Health Care
- The American Worker
- Poverty and Social Welfare
- Crimes and Psychological Problems Among Children
- Illiteracy in America
- Ethnicity and Political/Social Patterns in the U.S.
- Politics and Mass Communication
- Environment Policy
- Public Education
The 18 credits of the theme must meet the following requirements:

A. 15 credits must be at the 300/400 level.
B. No more than 12 credits can be from one single department.
C. No more than 6 credits can be earned by directed or independent study.
D. Introductory and methods courses cannot count toward the 18 required credits in the theme.

V. ISTD 498 Senior Seminar Project  (3 credits)

**Requirements for the Women’s and Gender Studies Concentration (30 credits)**

To earn a major in interdisciplinary studies with a concentration in women’s and gender studies, students must complete 30 credits in approved women’s and gender studies courses distributed as follows:

I. Introductory Courses (6 credits):
   - WOMS 110 Introduction to Women’s and Gender Studies .......................... 3 cr
   - AND
   - Feminist Theories (Appropriate classes offered in English, history, philosophy, communication, psychology, etc., with approval of program adviser.)

II. Concentration Courses (9 credits):
   - Select 9 credits from at least two of the following three areas.

   **A. Humanities and Art**
   - Approved women’s and gender studies courses from English, art, communication, theatre arts, humanities, music, philosophy, and modern languages. Examples include:
     - COMM 315 Communication and Gender .................. 3 cr
     - COMM 483 Gender, Race & Class in Media ............. 3 cr
     - ENGL 269 Studies in Women Writers .................... 3 cr
     - ENGL 367 Studies in American Ethnic Literature: (Depending on Topic) ...................... 3 cr
     - ENGL 417 Studies in British Literature: British Women Novelists ..................... 3 cr
     - ENGL 464 Studies in Cultural Patterns: Gay and Lesbian Literature .................. 3 cr
     - ENGL 469 Studies in Women Writers .................... 3 cr
     - PHIL 290 Special Topics in Philosophy: Feminism in Philosophy .......................... 3 cr
     - THEA 215 Gender and Sexuality on the Stage and Screen .............................. 3 cr
     - WOMS 112 Women in Literature .......................... 3 cr
     - WOMS 215 Gender and Sexuality on the Stage and Screen .............................. 3 cr

   **B. Social Sciences**
   - Approved women’s and gender studies courses from sociology, history, international studies, political science, psychology, economics, and business. Examples include:
     - CRMJ 366 Women, Crime, and Criminal Justice .......................... 3 cr
     - HIST 236 Women in Modern Society .......................... 3 cr
     - MGT 446 Global Issues in Management ........................ 3 cr
     - POLS 203 Women, Power, and Politics .......................... 3 cr
     - POLS 301 Sexuality and Politics .............................. 3 cr
     - PSYC 230 Psychology of Human Sexuality .................. 3 cr
     - PSYC 280/380 Psychology of Gender .......................... 3 cr
     - SOCA 213 Gender and Society .................................. 3 cr
     - SOCA 290 Special Topics: LGBTQ Studies .................. 3 cr

   **C. Natural Sciences**
   - Approved women’s and gender studies courses from biology, chemistry, physics, environmental studies, and health exercise science and sport management. Examples include:
     - BIOS 103 Human Biology .................. 3 cr
     - HESM 321 Women’s Health Issues .................. 1-4 cr
     - HESM 330 Sport in Society .............................. 3 cr
     - SOCA 379 Society and Environment .................. 3 cr
     - WOMS 250 Women in Science .............................. 3 cr

III. Electives (12 credits of approved courses selected with program adviser)

IV. One of the following courses (3 credits):
   - WOMS 494 Internship in Women’s and Gender Studies .............................. 1-3 cr
   - WOMS 495 Women’s and Gender Studies Seminar .......................... 3 cr
   - WOMS 497 Women’s and Gender Studies
     - Senior Thesis .................................................. 3 cr
   - WOMS 499 Independent Study ............................... 1-3 cr

**Requirements for the Leadership Certificate (12 credits)**

The leadership certificate provides a curriculum that combines conceptual and theoretical frameworks with opportunities to apply those concepts and theories in real-world situations. Students who complete the certificate program will have an enhanced understanding of the personal qualities, interpersonal dynamics and social patterns that influence leadership efforts. They will also have the opportunity to hone specific leadership skills such as self-assessment and public speaking; be exposed to other modes of communication; identify and assess resources; work in diverse settings; and evaluate and reflect on their own situation. They will develop their own leadership style and learn how to work through civic engagement.

All courses will be offered in weekend format, and scheduled so that students are able to complete the certificate within a calendar year.

**Required Courses (6 credits):**

- ISTD 200 Introduction to Leadership .......................... 3 cr
- ISTD 492 Practicum in Leadership ............................. 3 cr

INTERNATIONAL STUDIES

Tallent 180 • 262-595-2701 • Keyword: International Studies

Degree Offered:
Bachelor of Arts.

Co-Directors:
Farida Khan, Ph.D.; Jonathan Olsen, Ph.D.

Student Organizations/Clubs Activities:
The International Studies Program coordinates with the Parkside International Club and offers many academic lectures and programs on international studies. The program also engages in intercollegiate simulations such as the Model Organization of American States for high school students.

Career Possibilities:
The international studies curriculum provides excellent training for persons interested in a wide variety of careers, including professional positions in private firms, government agencies, higher education, non-governmental organizations, or any institution that operates in a global context.

Steering Committee:
The steering committee serves as the executive decision-making body for the center. It is co-chaired by the co-directors. The current steering committee includes: Simon Akindes, Jeffrey Alexander, Siegfried Christoph, Consuelo Clemens, Seif Dana, Nat Godley, Gail Gonzalez, Stephen Hawk, Peggy James, Farida Khan, Marcelo Milan, Jonathan Olsen, Carmel Ruffolo, Theron Snell, Xun Wang and Zhemin Wang (representing the School of Business and Technology’s Center for Global Education).

Department Overview
International studies combines courses from various departments to create a broad, interdisciplinary program with a flexible curriculum that emphasizes the knowledge and analytical approaches needed to understand the contemporary global system. The program offers a major, two minors, and a certificate in global skills. In addition to choosing one of four thematic options, students majoring in international studies may arrange, with the approval of the program steering committee, a special option to suit particular academic interests or career goals.

The program also has oversight of international student and faculty exchanges, study abroad opportunities, and a variety of international activities and programs on campus that are open to the broader community.

Study Abroad
The international studies program maintains the notion that studying abroad, working abroad or doing an internship abroad can be an excellent complement to the major, minor, or certificate programs and can generally be a rewarding and life-changing experience for any student. Incorporating study abroad into a student’s college experience can enhance the value of any academic program. The Center for International Studies has a number of study abroad programs available for students to choose from so as to offer flexibility keeping in mind their schedules as well as academic and non-academic commitments.

Preparation for Graduate School
The international studies major provides excellent preparation for individuals interested in law, business administration, and graduate school in fields such as international relations, development studies, area/regional studies, or public policy.

Internships and Research Fellowships
The program can arrange for internships and service learning opportunities in both domestic and international contexts. Summer research fellowships are available through the program on a competitive basis. The center has also developed an internship to prepare students for a profession in international education through office experience in study abroad and international student services.

Requirements for the Major in International Studies (42 credits)
Students majoring in international studies must complete a total of 42 credits of which 15 credits are introductory or prerequisite courses.

1. Introductory Courses (15 credits)
Introductory courses are required of all majors. These courses provide students with the introductory background knowledge for the wide range of disciplinary perspectives that comprise the International Studies Program. In some cases, these courses are required for upper-level work in a discipline that is related to international studies. In many cases, these courses fulfill university general education requirements.
2. Required course (3 credits):

INTS 100 Introduction to International Studies ... 3 cr

Elective courses (12 credits):

These 12 introductory credits must be from at least three of the following groups:

Group I
ECON 120 Principles of Microeconomics .......... 3 cr
ECON 121 Principles of Macroeconomics .......... 3 cr

Group II
GEOG 105 Contemporary to Human Geography .................. 3 cr
GEOG 110 Introduction to Geography- World Regions .................. 3 cr

Group III
HIST 118 Pre-Modern Western World:
Ancient and Medieval Civilizations ...... 3 cr
HIST 126 World History from Antiquity to 1450 .................. 3 cr
HIST 127 World History from 450-1800 .................. 3 cr
HIST 128 World History from 1800-Present .................. 3 cr
HIST 103/INTS 103 Peoples of Asia .................. 3 cr

Group IV
HUMA 101 Introduction to the Humanities-
World Cultures to 1500 .................. 3 cr
HUMA 102 Introduction to Humanities-
World Cultures 1500-Present .................. 3 cr

Group V
POLS 103 Introduction to Comparative Politics ... 3 cr
POLS 104 Introduction to International Relations .................. 3 cr

Group VI
SOCA 100 Introduction to Anthropology ............... 3 cr
SOCA 101 Introduction to Sociology ............... 3 cr

2. Core Courses (12 credits):

These courses provide the broad comparative and global perspective and theoretical background essential to a major in international studies. These 12 introductory credits must be from at least three of the following groups:

Group I
ENGL 246 Survey of World Literature .................. 3 cr
ENGL 247 Survey of Modern World Literature .................. 3 cr

Group II
POLS 304 Theories of International Relations ..... 3 cr
POLS 350 Theories of Comparative Politics........... 3 cr

3. Elective Options (12 credits):

Elective options allow a student to focus on an area of interest within the broad scope of international studies. The courses in the option should be selected in consultation with the student's faculty advisor from the International Studies Program. The courses in each option must be from at least two different departments. A list of currently approved courses for each option is available from the Center for International Studies office and the department website. Students may propose an individually designed option, subject to approval of the International Studies Steering Committee. Each major in international studies is required to complete a minimum of 12 credits of work in one of the following options:

Option A - Globalization and Development
Focus on the processes of political, economic and socio-cultural change that accompany globalization and development, with an emphasis on developing nations.

Option B - International Relations
Focus on the major interactions among nations, including politics, trade and intercultural communication. Also includes consideration of international organizations and non-governmental organizations.

Option C - Comparative Cultures and Societies
Focus on cross-cultural and comparative study of societies and cultures, including the arts, literature, politics and social organization.

Option D – International Commerce
Focus on commercial and economic relations among nations, including a business perspective as well as national economic policy.

4. Senior Seminar (3 Credits):

The Senior Seminar is a capstone course in which students are expected to integrate their studies, especially from their selected option, and to carry out original research as the basis for a research paper. The Senior Seminar is required of all majors and minors in international studies. It is expected that students will have taken a research methods course in another department such as history, political science, communication, English, business, sociology-anthropology or another discipline relevant to international studies. This research methods
course should be completed prior to taking the Senior Seminar so that students are appropriately equipped to carry out the research required for their senior project. Check with your International Studies adviser regarding an appropriate research methods course.

INTS 495 Senior Seminar in International Studies .................. 3 cr

Recommended for the Major in International Studies

Study abroad or other experiential learning activity in international studies is strongly recommended.

Each student planning to major in international studies must consult regularly with an international studies faculty adviser to schedule a coherent program consonant with their interests. This is particularly important when selecting options. Students are cautioned to match pre-requisite classes with higher level classes within the major.

Languages

The International Studies Program faculty strongly encourages students to gain additional language competence beyond the introductory level required for graduation. This is critical for students who choose option C (Comparative Cultures and Societies).

Experiential Learning Activities

All majors in international studies are strongly encouraged to take part in experiential learning in international studies. This may be accomplished through study abroad, participation in short-term faculty-led study tours, or working/volunteering with an international agency or non-governmental organization in the international arena.

Requirements for the International Studies Minor (18 credits)

The international studies minor consists of 18 credits. The following courses are required:

Required course (3 credits):
INTS 100 Introduction to International Studies .................. 3 cr

Core courses (9 credits):
Nine credits must be from at least three of the following groups:

Group I
ENGL 246 Survey of World Literature .................. 3 cr
ENGL 247 Survey of Modern World Literature .................. 3 cr

Group II
POLS 304 Theories of International Relations ...... 3 cr
POLS 350 Theories of Comparative Politics ......... 3 cr

Group III
INTS 210/ SOCA 202 Cultural Anthropology .................. 3 cr
SOCA 379 Society and Environment .................. 3 cr

Group IV
INTS 310/ ECON 310 International Trade .................. 3 cr
ECON 308 Economic Development .................. 3 cr

Group V
HIST 313 POLS 350 Colonialism .................. 3 cr
COMM 365 Intercultural Communication .................. 3 cr

Elective course (3 credits):
One 3-credit option/elective course from any option of the student’s choice.

Senior Seminar (3 credits):
INTS 495 Senior Seminar in International Studies .................. 3 cr

Requirements for the Asian Studies Minor (18 credits) and Certificate (12 credits)

The Asian studies minor consists of 9 credits of core and 9 credits of elective classes.

Core courses (9 credits):

Required courses
INTS/HIST 103 Introduction to Asia .................. 3 cr

Any two from the following courses
HIST 386 China since World War Two .................. 3 cr
HIST 388 Japan since the Samurai Age: 1868-Present .................. 3 cr
SOCA 228 Peoples of Southeast Asia .................. 3 cr
SOCA 329 Social Institutions in Contemporary China .................. 3 cr

Elective Courses (9 credits):
ECON 301 Economic Issues of South Asia .................. 3 cr
HIST 384 Ancient and Imperial China, 2200 BCE – 1644 CE .................. 3 cr
HIST 385 China from the Opium Wars to World War Two .................. 3 cr
HIST 387 Japan in the Late Samurai Age: 1400-1867 .................. 3 cr
ISTD 309 Gender, Marriage, and Families in Chinese Society .................. 3 cr
SOCA 328 Asians in American Society .................. 3 cr

The courses below count as electives when they focus on Asian languages or a topic on Asia for a senior seminar project. This must be pre-approved by the student’s adviser as well as the administrator of the Asian studies minor.

2011-2013
Requirements for the Asian Studies Certificate (12 credits)

Required course (3 credits):
INTS/HIST 103 Introduction to Asia .......................... 3 cr

Elective courses (9 credits):
ECON 301 Economic Issues of South Asia .................. 3 cr
HIST 384 Ancient and Imperial China, 2200 BCE – 1644 CE .................. 3 cr
HIST 385 China from the Opium Wars to World War Two .................. 3 cr
HIST 386 China since World War Two .................. 3 cr
HIST 387 Japan in the Late Samurai Age: 1400-1867 .................. 3 cr
HIST 388 Japan since the Samurai Age: 1868-Present .................. 3 cr
ISTD 309 Gender, Marriage, and Families in Chinese Society .......................... 3 cr
SOCA 228 Peoples of Southeast Asia .................. 3 cr
SOCA 328 Asians in American Society .................. 3 cr
SOCA 329 Social Institutions in Contemporary China .......................... 3 cr

The courses below count as electives when they focus on Asian languages or a topic on Asia for a senior seminar project. This must be pre-approved by the student’s adviser as well as the administrator of the Asian studies minor.

INTS 495 Senior Seminar in International Studies ............ 3 cr
MODL 103 Modern Language I .................................. 4 cr
MODL 104 Modern Language II ............................. 4 cr

The Asian studies certificate consists of INTS/HIST 103 Introduction to Asia, and 9 credits of any combination of core and elective courses in the Asian studies minor. The certificate is open to degree and non-degree students. For inquiries regarding the minor or the certificate, contact Professor Jeffrey Alexander.

Required courses (7 credits):
INTS 100 Introduction to International Studies ............. 3 cr
INTS 201 Global Skills Practicum – Basic Global Skills .... 1 cr
INTS 202 Global Skills Practicum - Internationalization vs. Globalization .... 1 cr
INTS 203 Global Skills Practicum - Political and Economic Systems .................. 1 cr
INTS 204 Global Skills Practicum - Culture and Language .................. 1 cr

Core course (3 credits):
COMM 365 Intercultural Communication .................. 3 cr
ECON 308 Economic Development .................. 3 cr
ENGL 246 Survey of World Literature .................. 3 cr
ENGL 247 Survey of Modern World Literature .................. 3 cr
HIST 313 Colonialism .................................. 3 cr
INTS 210/ SOCA 202 Cultural Anthropology ............ 3 cr
INTS 310/ ECON 310 International Trade .................. 3 cr
POLS 304 Theories of International Relations ............ 3 cr
POLS 350 Theories of Comparative Politics ............ 3 cr
SOCA 379 Society and Environment .................. 3 cr

Options course (3 credits):
Choose one course from the options courses as listed in the international studies major requirements.

Students are strongly encouraged to keep in mind that both core and options classes may have prerequisites.

Courses in International Studies (INTS)

100 Introduction to International Studies .................. 3 cr
Prereq: None. Freq: Fall.
The course is intended as a broad introduction to the increasing international impact at the state, community and individual levels. Its objectives include developing practical orientations toward the international experience, such as language and cultural appreciation, social and political tolerance, and environmental adaptation.

110 American Language and Culture .................. 3 cr
Prereq: Required of entering international students; consent of instructor. Freq: Occasionally.
Cultural and communication patterns in American society, for international students who speak English as a second language.

201 Global Skills Practicum - Basic Global Skills .... 1 cr
Prereq: None. Freq: Yearly.
The Basic Global Skills Practicum helps students to develop cultural sensitivity and essential knowledge needed when traveling, working or communicating on the international level. Topics include cross-cultural comparisons of living conditions, customs and manners, languages, religions, technology, educational systems, and business, economic, and political issues.
202 Global Skills Practicum -
Internationalization vs. Globalization.................. 1 cr
Prereq: None. Freq: Yearly.
Internationalization is presented as the penetration of one country by another country, corporation or international organization. Globalization involves the creation of new cooperative networks, multi-connectivity, and a shifting of the loci of power on the international level. Two interpretations of globalization will be discussed – corporate and popular.

203 Global Skills Practicum –
Political and Economic Systems.......................... 1 cr
Prereq: None. Freq: Yearly.
Students are exposed to the global context, the increased internationalization of economic relations, and its political ramifications. Topics include foreign investment/trade, economic development, and democratic development.

204 Global Skills Practicum – Culture and Language........... 1 cr
Prereq: None. Freq: Yearly.
Introduction to the diversity in cultures across the world and how such diversity translates into differences in language, food, psychology, religions, family relationships and bodily expressions.

205 Orientation to Study Abroad.................................. 1 cr
Prereq: None None. Freq: Yearly.
Provides an introduction to various challenges (academic, social, cultural, linguistic, political and economic) related to studying in a foreign country. Students are familiarized with theories associated with culture shock, intercultural sensitivity, communication and reverse culture shock and learn to apply these to their own upcoming international experience.

206 Study Abroad Journaling..................................... 2 cr
Prereq: None. Freq: Yearly.
Primarily taught through guided written assignments while studying abroad; demonstrate an understanding of various stages and theories associated with culture shock by applying them to their living and studying abroad experiences in their host country.

207 Cross-Cultural Reentry from Study Abroad............. 1 cr
Prereq: None. Freq: Yearly.
Designed for students returning from study abroad; reviews the concept of reentry shock, examines the process of reentry, and provides strategies for integrating the study abroad experiences with academics, professional goals and personal development.

210 Cultural Anthropology...................................... 3 cr
Prereq: SOCA 100 or 101 Freq: Fall.

226 Peoples of Africa............................................ 3 cr
Prereq: SOCA 100 or 101 Freq: Fall.
A survey of the societies and cultures of Africa. Discusses history, cultural variation, and contemporary social change. Cross-listed with SOCA 226.

268 Introduction to Holocaust Studies......................... 3 cr
Prereq: English 101 with grade of C- or better or consent of instructor. Freq: Yearly.
Overview of historical, philosophical and other issues surrounding the Holocaust, using texts by those who experienced the Holocaust. Cross-listed with ENGL 268/HIST 268.

290 Special Topics in International Studies................... 1-3 cr
Prereq: Consent of instructor. Freq: Occasionally.
Subject matter is topical. Subject varies; see current course schedule.

300 International Study Tours...................................... 1-3 cr
Prereq: Consent of instructor. Freq: Yearly.
This serves as a preparatory course for students planning to participate in overseas study tours. Recent UW-Parkside study tours offered include Russia, China, and Ghana.

310 International Trade............................................ 3 cr
Prereq: ECON 120 Freq: Occasionally.
Examines theories of international trade, government policy toward international trade, international trading arrangements and institutions. Cross-listed with ECON 310.

334 Resistance..................................................... 3 cr
Prereq: Junior Standing or Consent of Instructor Freq: Yearly.
Examines the concept and genealogy of modernity as understood by Foucault and Adorno, extends the Foucauldian understanding of Power and Resistance within modern and post-modern contexts by examining the works of Deleuze, Hardt and Negri, and other. Cross-listed with POLS 334.

390 Special Topics in International Studies..................... 1-3 cr
Prereq: Consent of instructor. Freq: Occasionally.
Selected topics in international studies are examined. Subject varies; see current course schedule.

400 Non-UW-Parkside Study Abroad........................... 0 cr
Prereq: Enrollment in approved semester study abroad program. Freq: Fall, Spring.
This course allows students to retain their good standing at UW-Parkside while they participate in non-UW-Parkside academic study abroad programs.

405 Internship In International Education Services.......... 1-3 cr
Prereq: Junior standing, major/minor in international studies, consent of instructor and program director. Freq: Spring.
The internship provides an opportunity for students to apply their international education knowledge in an experiential learning environment to gain experience in the professional world in two areas of international education: international student services and study abroad. Intended for students seeking an international experience in higher education or in other international education organizations.

411 International Monetary Economics........................ 3 cr
Prereq: ECON 121 Freq: Occasionally.
Examines foreign exchange markets, international monetary arrangements and investments, theories of balance of payments and exchange rates, open economy macroeconomics. Cross-listed with ECON 411.

490 Special Topics in International Studies..................... 1-3 cr
Prereq: Consent of instructor. Freq: Occasionally.
Selected topics in international studies are examined. Subject varies; see current course schedule.

495 Senior Seminar in International Studies................... 3 cr
Prereq: Completion of major or minor requirements or consent of instructor and program director. Freq: Yearly.
The senior seminar is the capstone course in the major and is required of all majors and minors. Students are expected to integrate the material studied in the major, and especially in their selected option. Students carry out an independent research project leading to a formal research paper and presentation.

499 Independent Study............................................ 1-4 cr
Prereq: Consent of instructor and program director. Freq: Fall, Spring, Summer.
Available to qualified students under supervision of instructor. Topic must be mutually agreed upon between professor and student.
Mathematics Core (24 credits)

These courses provide the background concepts and techniques required in upper-level mathematics offerings.

- MATH 221 Calculus and Analytic Geometry I ...... 5 cr
- MATH 222 Calculus and Analytic Geometry II ...... 5 cr
- MATH 223 Calculus and Analytic Geometry III ...... 5 cr
- MATH 301 Linear Algebra............................. 4 cr
- PHYS 201 General Physics I........................... 5 cr

General Mathematics Option (15-20 credits)

This sequence of courses leads to an undergraduate mathematics major covering the principal areas of modern mathematics. It is recommended for students planning to study mathematics in graduate school. Students in this program are required to take all of the courses in the Mathematics Core together with those listed below. They are also encouraged to broaden their mathematics background by electing additional advanced courses.

- MATH 350 Advanced Calculus .......................... 4 cr
  OR
- MATH 451 Topology .................................... 3 cr

Electives:
At least two additional courses from MATH 310, 317, 361, 367, and at least two additional courses from the 400 level.

Applied Mathematics Option (19 credits)

This sequence of courses is intended for those students who are interested in mathematics and the application of mathematics. Students in this program are required to take all of the courses in the mathematics core together with those listed below. They are also encouraged to broaden their mathematics background by electing additional advanced courses.
Mathematics with a Second Major

Students are encouraged to consider combining a major in mathematics with a major in a related area, such as computer science, behavioral science, a physical science, business or economics. This has the advantage of enhancing the understanding of two allied areas, as well as improving the prospects for employment after graduation. Students with a second major may, with the consent of their mathematics adviser, make substitutions for the Physics 201 requirement in the mathematics core. For example, mathematics-business management double majors may request substitution consisting of at least 5 credits of quantitative business management courses which use a substantial amount of mathematics.

Mathematics/Computer Science Double Major

The mathematics/computer science double major has been specifically designed for students with interests in both areas. This double major emphasizes the companionship between computer science and mathematics and gives students a particularly strong theoretical background in addition to a wide variety of applications. A complete description of the double major requirements may be found in the computer science catalog section.

Requirements for the Mathematics Minor (25-27 credits)

To earn a mathematics minor students must complete a minimum of 25 credits in mathematics by completing the four required courses and at least two other upper level courses, one of which must be at the 400 level.

Required courses:

- MATH 221 Calculus and Analytic Geometry I ....... 5 cr
- MATH 222 Calculus and Analytic Geometry II ...... 5 cr
- MATH 223 Calculus and Analytic Geometry III ..... 5 cr
- MATH 301 Linear Algebra .............................. 4 cr

Courses in Mathematics (MATH):

102 Survey of Mathematics.................................................. 3 cr
   Prereq: ACSK A015 with a grade of C or better or appropriate placement. Freq: Fall, Spring.
   Intended for students who need no further mathematics courses beyond competency. Topics selected from sets and logic, number theory, numeration systems, geometry, probability and statistics.

111 College Algebra I......................................................... 4 cr
   Prereq: ACSK A015 with a grade of C or better or appropriate placement. Freq: Fall, Spring.
   Linear equations and inequalities; lines in the plane, rational exponents and radicals, polynomials and rational expressions, quadratic polynomials, systems of equations, exponential equations and logarithms.

High School Preparation

Students entering a degree program at UW-Parkside should have taken at least three years of high school mathematics including ninth-grade algebra, 10th-grade geometry and 11th-grade advanced algebra and trigonometry. Students intending to take college-level mathematics courses are encouraged to strengthen their preparation by taking 12th-grade pre-calculus. ACSK A010, A015 and MATH 111 are not replacements for high school mathematics courses.

Computational Skills Requirement

Students satisfy this requirement with the completion of either MATH 102 for 3 credits or MATH 111 for 4 credits (with a grade of C-minus or better).

Students are exempt from the requirement if their placement results (based on ACT scores or Wisconsin Placement Test) are above MATH 102 or MATH 111. Students must complete computational skills within their first 60 academic credits.

Students seeking teacher licensure must complete the course that satisfies this requirement with a grade of C or better.

Mathematics Placement Examination

Mathematics Placement is by ACT mathematics scores. It is possible as well to take a placement test administered by the Learning Assistance Center. This examination serves as a guide for placement in mathematics courses. Placement in mathematics courses is usually made at the following levels:

1) ACSK A010 Essential Math Skills, or ACSK A015 Elementary Algebra or MATH 102 or MATH 111 – students with fewer than three years of high school math, or inadequate background, or who have been out of school for an extended period of time.
2) MATH 112, MATH 113 or MATH 114 – students with three years of high school mathematics.
3) MATH 221 – students with four years of high school mathematics.
112 College Algebra II ......................................................... 4 cr
Prereq: A grade of C- or better in MATH 111 or equivalent; or appropriate placement score. Freq: Fall, Spring.
Functions and graphs, polynomial functions, exponential and logarithmic functions, sequences, series, induction and combinatorics.

113 Trigonometry ................................................................. 2 cr
Prereq: MATH 112 or equivalent or concurrent registration. Freq: Fall, Spring.
An introduction to trigonometry with applications. Angular and circular definitions of trigonometric functions, graphing, use of fundamental identities.

114 College Algebra II with Trigonometry .............................. 5 cr
Prereq: A grade of C- or better in MATH 111 or equivalent or appropriate placement score. Freq: Fall, Spring.
Functions and graphs, polynomial functions, exponential and logarithmic functions, trigonometric functions, trigonometric identities and equations, applications, sequences, series. Not open to those with credit in MATH 112 or 113.

215 Mathematics for Middle Childhood Through Early Adolescence Teachers I ......................................................... 3 cr
Prereq: A grade of C or better in MATH 111 or consent of instructor. Freq: Fall, Spring.
Topics include the development of the algorithms of arithmetic, numeration systems, problem solving, number theory and set theory.

216 Mathematics for Middle Childhood Through Early Adolescence Teachers II ......................................................... 3 cr
Prereq: MATH 215. Freq: Spring.
Topics include introductory geometry, constructions, congruence, similarity, motion geometry, concepts of measurements, probability and statistics.

221 Calculus and Analytic Geometry I ........................................ 5 cr
Prereq: MATH 112 and 113 or equivalent or appropriate placement score. Freq: Fall, Spring.
Rate of change and limits, differentiation, applications of the derivative, integration, applications of the integral and transcendental functions.

222 Calculus and Analytic Geometry II ........................................ 5 cr
Prereq: MATH 221 or equivalent. Freq: Fall, Spring.
Methods of integration, analytic geometry, polar coordinates, hyperbolic functions, infinite series, power series, and introduction to ordinary differential equations.

223 Calculus and Analytic Geometry III ........................................ 5 cr
Prereq: MATH 222. Freq: Fall, Spring.
Vectors and parametric equations, vector functions and their derivatives, partial and directional derivatives, multiple integrals, vector analysis, Green’s Theorem and Stokes’ Theorem.

290 Special Topics in Mathematics ........................................ 1-4 cr
Prereq: None. Freq: Occasionally.
Selected topics in mathematics will be examined.

301 Linear Algebra ............................................................. 4 cr
Prereq: MATH 223 or MATH 222 and consent of instructor. Freq: Fall.
Introduction to linear algebra including systems of equations, matrices, determinants, vector spaces and linear transformations, and diagonalization.

303 Set Theory and Logic ...................................................... 3 cr
Prereq: MATH 222 or PHIL 201 and consent of instructor. Freq: Spring.
Elementary propositional and predicate logic; language and axioms of set theory; operations on sets; well-orderings, ordinals, transfinite induction and recursion; cardinals; the axiom of choice; and some equivalents. Cross-listed with PHIL 303.

310 Advanced Probability Theory and Statistics ......................... 4 cr
Prereq: MATH 223. Freq: Fall.
The main mathematical methods and techniques of probability theory; random variables, expected values, variance, central limit theorem, parameter estimation, and hypothesis testing.

317 Differential Equations and Their Applications .................... 4 cr
Prereq: MATH 222. Freq: Yearly.
First- and second-order differential equations and applications; higher-order linear differential equations; series solutions of second-order differential equations; Laplace transforms; matrix algebra, systems of equations, eigen values and eigenvectors; systems of differential equations; and partial differential equations. Not open to those with credit in MATH 321.

331 Logic and Combinatorics ................................................ 3 cr
Prereq: MATH 222 Calculus and Analytic Geometry II. Freq: Occasionally.
Permutations and combinations, graphs, trees, mathematical induction, propositional calculus, Mathematica and its applications in combinatorics, number theory and linear programming. Intended for students working for teaching certification in mathematics.

350 Advanced Calculus .......................................................... 4 cr
Prereq: MATH 223, 301. Freq: Yearly.
This course covers the fundamental notions of limits, continuity, uniform continuity, derivative, and integral. Also examines infinite series with a study of convergence and uniform convergence.

361 Foundations of Geometry ................................................ 3 cr
Prereq: MATH 222. Freq: Alternate years.
Introduction to axiomatic geometry including Euclidean, non-Euclidean, and projective geometries.

367 Elementary Number Theory .............................................. 3 cr
Prereq: MATH 222. Freq: Alternate years.
Prime numbers, fundamental theorem of arithmetic, congruence, quadratic residues and quadratic reciprocity, number theoretic functions and diophantine equations.

368 Mathematical Modeling ................................................... 3 cr
Prereq: MATH 222; MATH 250 or CSCI 242. Freq: Alternate years.
Survey of mathematical models, models involving differential equations, probabilistic models, Markovian models, simulation, and Monte Carlo methods. Cross-listed with CSCI 368.

373 History of Mathematics ................................................... 3 cr
Prereq: MATH 221 or consent of instructor. Freq: Alternate years.
Main lines of mathematical development from the Babylonians, Egyptians and Greeks to the present day; the lives of great mathematicians: Euclid, Archimedes, Descartes, Newton, Gauss, Cantor.

421 Real Analysis ............................................................... 4 cr
Prereq: MATH 350. Freq: Fall.
Construction of the real number system; basic theory of metric spaces; fundamental notions of limit, continuity, uniform continuity and basic theorems concerning these; convergence and uniform convergence; differentiation and the Riemann integral.

422 Topics in Real Analysis .................................................... 4 cr
Prereq: MATH 421. Freq: Occasionally.
Differentials and Jacobians; implicit and inverse function theorems; introduction to the Lebesque integral; additional topics chosen in accordance with the interests and needs of the participants.

423 Complex Analysis .......................................................... 4 cr
Prereq: MATH 223. Freq: Alternate years.
Elementary functions of a complex variable; analytic functions; complex integrals and residue theory; conformal mapping; applications to electrostatics and hydrodynamics.

Degree Offered:
Bachelor of Arts.

Faculty:
See listings under each language.

Student Organizations/Clubs:
French Club, German Club, Spanish Club

Career Possibilities:
Teaching, translation, foreign or diplomatic service, editing and publishing, media (film, radio, etc.), banking, business (purchasing, marketing, advertising, etc.), and travel services. Consult with faculty members about your interests.

Department Overview
In this time of internationalization and globalization, knowledge of a second language and the culture in which that language operates is a fundamental qualification necessary to many professions. The Modern Languages Department at UW-Parkside offers courses in the French, German, Italian and Spanish languages, literatures, and cultures, as well as introductory courses in other languages such as Mandarin Chinese when staffing and funding allow. Modern Languages courses also fulfill requirements in other academic areas on campus including international studies, ethnic studies, humanities, women's studies, business management, and music. The department encourages all students to pursue study-abroad programs and assists students in finding a program suitable for their needs.

Preparation for Graduate School
Students who intend to do graduate work in the modern languages should be aware that graduate programs often expect specific course work/concentrations from their applicants. Note, for example, that students of French and German have the option of fulfilling their majors with course work in other departments, but should plan to do as much work in the French/German language as possible if they plan to apply for graduate school. Consult your faculty adviser.

Internships
The Modern Languages Department offers internships in collaboration with area businesses, governmental agencies and not-for-profit agencies.

General Enrichment Courses Offered in English
The following courses, when taught in English, do not carry modern language credit, do not fulfill language requirements, and may not count toward the modern language major. They are offered occasionally for general enrichment.

McNair, Ph.D.

Senior Lecturer:
Leavitt, M.A.

Lecturers:
Fill, M.A.; Rodriguez-Juarez, M.A.T.

The Spanish program, which offers a Spanish major and a Spanish minor, seeks to give students the requisite linguistic skills with which to read, discuss, and write intelligibly in Spanish. For students wishing to broaden their proficiency, the Spanish program offers a variety of advanced Spanish-language courses which deal with aspects of both Peninsular and Latin American literature and culture. Students have an opportunity in these courses to sharpen their linguistic proficiency while at the same time gaining a better understanding of the contributions made by Spanish-language philosophers, artists, and writers.
Requirements for Admission to the Spanish Major

To be eligible for entrance into the Spanish major, the student must (1a) have either a 3.0 GPA in SPAN 203 or a combined GPA of 3.0 in SPAN 203 and 204, or (1b) place into SPAN 303 and complete that course with a 3.0. Additionally, to be eligible for entrance into the Spanish major, the student must (2) have an overall GPA of 3.0.

Requirements for the Spanish Major (34 credits)

ALL students entering into the 300 level of Spanish classes must take an oral proficiency test. This test is administered in the language lab, at the convenience of the lab director. Students whose scores fall below the cutoff on this oral proficiency test must enroll in SPAN 307, concurrently with SPAN 303, and must take a total of 12 additional credits of electives. Students whose scores fall above the cutoff on this oral proficiency test can not enroll in SPAN 307 and must take a total of 15 additional credits of electives. Students must pass all classes counting toward the major and minor in Spanish with a grade of C+ or better.

The Spanish major consists of a minimum of 34 credits in Spanish beyond the second-year level (203-204). Students are expected to demonstrate basic standards of linguistic proficiency and content competency (cultural and literary) that have been established and will likely include a senior examination.

At least 15 credits of upper-level courses in the major must be completed at UW-Parkside.

The following courses are required of all Spanish majors (34 credits):

Requirements for the Spanish Minor (15 credits)

To be eligible for entrance into the Spanish minor, the student must (1a) have either a 3.0 GPA in SPAN 203 or a combined GPA of 3.0 in SPAN 203 and 204, or (1b) place into SPAN 303 and complete that course with a 3.0. Additionally, to be eligible for entrance into the Spanish minor, the student must (2) have an overall GPA of 3.0.

Students must pass all classes counting toward the major and minor in Spanish with a grade of C+ or better.

The minor in Spanish consists of a minimum of 15 credits beyond the second-year level (203-204). The following courses are required of all Spanish minors (15 credits):

Electives must include at least 3 credits of course work in literature.

Courses in Spanish (SPAN)

Students entering from high school must have placement test results (UW System placement tests offered at regional testing and at UW-Parkside) in order to enter SPAN 104, 203, 204, and 303. The Modern Languages Department reserves the right to refuse access to any language class (including 103) to any student under the following circumstances:

1. the student has not taken the placement exam or
2. the student’s previous experience in the study of the language makes enrollment in the class in question inappropriate.

ONCE STUDENTS HAVE TAKEN A COURSE IN THE SPANISH LANGUAGE SEQUENCE (103-304 AND 403) THEY MAY NOT AFTERWARDS TAKE A LOWER COURSE IN THE SEQUENCE FOR CREDIT.

103 Introductory Spanish I

Prereq: Placement exam or no prior knowledge of Spanish.
Freq: Fall, Spring, Summer.
Development of basic listening, speaking, reading and writing skills in Spanish.

104 Introductory Spanish II

Prereq: SPAN 103 or equivalent or placement exam.
Freq: Fall, Spring, Summer.
A continuation of Spanish 103.
111 Spanish for Singers ................................. 1 cr
Prereq: Enrollment in vocal music. Freq: As needed.
To help university vocal and choral students gain theoretical understanding and practical mastery of diction in Spanish as it pertains to specific, select songs and choral pieces being learned with texts in those languages. Does not count for credit toward Spanish major or minor.

203 Intermediate Spanish I ............................ 4 cr
Prereq: SPAN 104 or equivalent or placement exam. Freq: Fall. Review and further development of listening, speaking, reading and writing skills in Spanish.

204 Intermediate Spanish II .............................. 4 cr
Prereq: SPAN 203 or equivalent or placement exam. Freq: Spring. A continuation of Spanish 203.

225 Contemporary Hispanic Writers in the U.S.A. .................. 3 cr
Prereq: None. Freq: Occasionally. An exploration of the literary works on contemporary Hispanic writers. May not be counted toward Spanish major when taught in English.

290 Special Topics in Spanish ................................ 1-3 cr
Prereq: None. Freq: Occasionally. Selected topics in Spanish studies will be examined. May not be counted toward Spanish major when taught in English.

303 Spanish Grammar and Composition I .................. 3 cr
Prereq: SPAN 204 or equivalent. Oral proficiency exam required. Concurrent enrollment in SPAN 307 required of students who do not test out by oral proficiency exam. Freq: Fall. Essential points of grammar, with emphasis on syntax and development of writing skills. Concurrent enrollment in SPAN 321 recommended for major.

304 Spanish Grammar and Composition II .................. 3 cr
Prereq: SPAN 303 and 307 (or test out of 307). Freq: Spring. A continuation of Spanish 303. Essential themes of grammar, with emphasis on the syntax of verbs and the acquisition of terminology and skills to facilitate analysis. Concurrent enrollment in SPAN 322 and/or SPAN 335 recommended for major.

307 Advanced Spanish Conversation ..................... 3 cr
Prereq: SPAN 204 or placement in SPAN 303; concurrent enrollment in SPAN 303 and oral proficiency exam required along with consent of instructor. Freq: Fall, Spring. Focus on improving oral proficiency through intensive conversation practice. Topics vary. May be repeated as needed for up to 3 elective credits with different topic.

318 Spanish Civilization and Culture ..................... 3 cr
Prereq: None in English, SPAN 303 and 307 (or test out of 307) in Spanish. Freq: Occasionally. Presentation and discussion of historical, philosophical, and artistic elements of the Spanish society. Does not apply for Spanish major unless conducted in Spanish. Occasionally in English.

319 Latin American Civilization and Culture ................ 3 cr
Prereq: None in English, SPAN 303 and 307 (or test out of 307) in Spanish. Freq: Occasionally. Presentation and discussion of historical, philosophical and artistic elements of Latin America. Does not apply for Spanish major unless conducted in Spanish. Offered variously in Spanish or English, occasionally in English.

321 Spanish and Spanish-American Literature to 1700 .......... 3 cr
Prereq: SPAN 303 and 307 (or test out of 307). Freq: Fall. Survey of literature of the Spanish-speaking world from beginnings to 1700; includes American Pre-Colombian, Mozarabic, and Andalusian Arabic literature in translation in addition to Spanish literature of the Peninsula and its colonial possessions.

322 Spanish Literature Since 1700 .......................... 3 cr
Prereq: SPAN 303 and 307 (or test out of 307). Freq: Spring. Survey of Spanish peninsular literature since 1700.

335 Spanish-American Literature Since 1700 .................. 3 cr
Prereq: SPAN 303 and 307 (or test out of 307). Freq: Spring. Survey of Spanish-American literature since 1700.

350 Spanish Phonetics ........................................ 3 cr
Prereq: SPAN 304 or equivalent. Freq: Occasionally. Theory of Spanish sounds in contrast to English combined with practical laboratory training in pronunciation and orthography. Required of all students preparing for certification as language teachers.

403 Advanced Spanish Grammar .............................. 3 cr
Prereq: SPAN 304 or equivalent. Freq: Occasionally. Analysis of questions of syntax and style; emphasis on idiomatic Spanish.

413 Translation ................................................. 3 cr
Prereq: SPAN 304 or consent of instructor. Freq: Occasionally. Acquire techniques for translation from English to Spanish. Discuss general theory about common translation problems and practice translation to increase vocabulary and reinforce the structures of the Spanish language.

415 Spanish for Journalism .................................... 3 cr
Prereq: SPAN 303 and 307 (or test out of 307). Freq: Occasionally. Designed to refine writing in Spanish through the process of creating and editing newsworthy articles.

416 Children’s Literature ....................................... 3 cr
Prereq: SPAN 303 and 307 (or test out of 307). Freq: Occasionally. A study of the oral and written literature for children from the pre-Hispanic period to the present. Highly recommended for teacher certification candidates.

417 Spanish for Criminal Justice ............................. 3 cr
Prereq: SPAN 303 and 307 (or test out of 307). Freq: Occasionally. Course will focus on legal terminology and proceedings in order to help police officers and other professionals in criminal justice.

418 Medical Spanish ............................................ 3 cr
Prereq: SPAN 303 and 307 (or test out of 307). Freq: Summer, Fall (even years). Introduction to and practice in conversational Spanish medical terminology applicable to the different branches of medical care.

419 Spanish for Business ....................................... 3 cr
Prereq: SPAN 303 and 307 (or test out of 307). Freq: Occasionally. The course focuses on business terminology and procedure for Spanish-speaking countries. Emphasis is on written Spanish supplemented by conversational work.

420 Topics in Spanish Literature and Culture ................ 3 cr
Prereq: SPAN 322 or equivalent, or consent of instructor. Freq: Occasionally. In-depth analysis of an aspect of the literature or culture of Spain. Content will vary. Course may be repeated under different subtitle.

435 Topics in Latin American Literature or Culture .......... 3 cr
Prereq: SPAN 304 or equivalent, or consent of instructor. Freq: Fall, Spring. In-depth analysis of an aspect of the literature or culture of Latin America. Content will vary. Course may be repeated under different subtitle.

440 Advanced Studies in Hispanic Literature in Translation ........................................ 3 cr
Prereq: Junior standing. Freq: Occasionally. Study of representative Spanish and Latin American works in translation from the standpoint of analytic methods: approaches to critical analysis or problems in the theory of literature (genre theory, comparative study of themes or styles, discussion of literary movements). May be repeated for credit with different subject matters. May not be counted toward Spanish major.
Requirements for the French Studies Major (24 credits)

The French studies major consists of a minimum of 24 credits beyond the second-year level (203–204). At least 15 credits of upper-level courses in the major must be completed at UW-Parkside. Basic standards of linguistic proficiency and content competency (cultural and literary) have been established and will include a senior project and a minimal portfolio.

For entrance into the French studies major, the student must: (1a) have a grade of at least C+ (2.33) in FREN 203 or a combined GPA of 2.50 in FREN 203-204 or (1b) place into FREN 301, and (2) have a 2.50 overall GPA.

Please note that declaration of majors for French Studies has been suspended by the administration as of fall 2006. The major may resume if there is increased student interest. Please contact the department for information as to whether the suspension has been lifted. The MINOR REMAINS UNCHANGED.

French

Coordinator/Lecturer:
Hicks, Ph.D.

The French program, which offers a French studies major and a French minor, seeks to give students the requisite linguistic skills with which to read, discuss, and write intelligibly in French. For students wishing to broaden their proficiency, the French program offers advanced French language courses which deal with various aspects of French literature and culture.

Students have an opportunity in these courses to sharpen their linguistic proficiency while at the same time gaining a better understanding of the contributions made by French-language philosophers, artists, and writers. The French program’s course offerings can be supplemented by a number of courses from other departments as part of the French studies major. Students who wish to pursue the study of French at the graduate level are encouraged to take as many French program courses as possible.

Requirements for Admission to the French Studies Major:

Note: New major program declarations in French Studies are currently suspended.

For entrance into the French studies major, the student must: (1a) have a grade of at least C+ (2.33) in FREN 203 or a combined GPA of 2.50 in FREN 203-204 or (1b) place into FREN 301, and (2) have a 2.50 overall GPA.

Total courses for French Studies Major (24 credits):

Core courses in French .................................................................................. 12 cr
Additional four courses .................................................................................. 12 cr

Requirements for Admission to the French Studies Minor:

For entrance into the French minor, the student must: (1a) have a grade of at least C+ (2.33) in FREN 203 or a combined GPA of 2.50 in FREN 203-204 or (1b) place into FREN 301, and (2) have a 2.50 overall GPA.
Requirements for the French Minor (12 credits)

The minor in French consists of a minimum of 12 credits beyond the second-year level (203-204). The following courses are required of all French minors (12 credits):

- **FREN 301** French Conversation & Composition .......... 3 cr
- **FREN 318** French Civilization and Culture .................. 3 cr
- **FREN 320** Introduction to French Literature ............. 3 cr
- One 3 cr elective ................................................. 3 cr

Courses in French (FREN)

Students entering from high school must have placement test results (UW System placement tests offered at regional testing centers) or to enter French 104, 203, 204, and 301. The Modern Languages Department reserves the right to refuse access to any language class (including 103) to any student following the following circumstances:

1. the student has not taken the placement exam or
2. the student’s previous experience in the study of the language makes enrollment in the class class inappropriate.

Once students have taken a course in the French language sequence (103-301) they may not afterwards take a lower course in the sequence for credit.

**103 Introductory French I** ........................................... 4 cr
Prereq: Placement exam or no prior knowledge of French. Freq: Fall. Development of basic listening, speaking, reading, and writing skills in French.

**104 Introductory French II** ........................................... 4 cr
Prereq: FREN 103 or equivalent or placement exam. Freq: Fall. A continuation of French 103.

**111 French for Singers** .................................................. 1 cr
Prereq: Enrollment in vocal music. Freq: As needed. To help university vocal and choral students gain theoretical understanding and practical mastery of diction in French as it pertains to specific, select songs and choral pieces being learned with texts in those languages. Does not count for credit toward French major or minor.

**203 Intermediate French I** ........................................... 4 cr
Prereq: FREN 104 or equivalent or placement exam. Freq: Fall. Review and further development of listening, speaking, reading, and writing skills in French.

**204 Intermediate French II** ........................................... 4 cr
Prereq: FREN 203 or equivalent or placement exam. Freq: Spring. A continuation of FREN 203.

**218 French Civilization and Culture (in English)** .............. 3 cr

**290 Special Topics in French** ........................................... 1-3 cr
Prereq: None. Freq: Occasionally. Special topics in French studies will be examined. May not be counted toward French major when taught in English.

**301 French Conversation and Composition** ......................... 3 cr
Prereq: FREN 204 or equivalent or placement exam. Freq: Every other Fall. Advanced training in conversation and composition with emphasis on acquiring communicative skills in colloquial French.

**318 French Civilization and Culture** .................................. 3 cr
Prereq: FREN 204 or equivalent. Freq: Alternate Springs. Multi-media presentation and discussion of historical, philosophical, and artistic developments in various periods in France. Readings in French. May be repeated for credit with different content.

**320 Introduction to French Literature** .............................. 3 cr
Prereq: FREN 204 or equivalent. Freq: Alternate Springs. Study of a major literary genre and/or a cultural/literary period or movement. Development of historical perspective and techniques of critical analysis through the study of selected masterpieces of French poetry, drama or prose. May be repeated for credit with different content.

**350 French Phonetics** ..................................................... 3 cr
Prereq: FREN 204 or equivalent. Freq: Every other Fall. Theory of French sounds in contrast to English, combined with practical laboratory training in pronunciation and orthography. Required of all intending to be teachers.

**402 Advanced Studies in French** ....................................... 3 cr
Prereq: FREN 301 and consent of instructor. Freq: Occasionally. Studies in French language, culture or literature. May be repeated for credit with different subject matter.

**475 Translation Internship** ............................................. 1-3 cr
Prereq: FREN 301 or equivalent, French studies major, and consent of instructor and department chair. Freq: Fall, Spring. Translation internships work with area businesses and service agencies to furnish translations from and into French. May be repeated for credit.

**490 Special Topics in French** ........................................... 1-4 cr
Prereq: None. Freq: Occasionally. Selected topics in French studies will be examined.

**494 Fieldwork in French** ............................................... 1-3 cr
Prereq: Consent of instructor and department chair. Freq: Occasionally. Application of French in areas of community concern and in local business and industry. May be repeated for maximum of 6 credits.

**495 Senior Project** ....................................................... 3 cr
Prereq: Senior standing in French studies. Freq: Spring. The senior project in French studies is designed to be a capstone experience which offers graduating students an opportunity to bring together several aspects of their French studies and general undergraduate course work in the form of an independent research project.

**499 Independent Study** .................................................. 1-3 cr
Prereq: Junior standing, consent of instructor and department chair. Freq: Occasionally. Available to qualified students under supervision of individual instructor. Normally, no more than 6 credits of Independent Study may be counted toward the major.
Please note that declaration of majors for German Studies has been suspended by the administration as of fall 2006. The major may resume if there is increased student interest. Please contact the department for information as to whether the suspension has been lifted. The MINOR REMAINS UNCHANGED.

**German**

**Professor:**
Christoph, Ph.D.

The German program, which offers a German studies major and a German minor, seeks to give students the requisite linguistic skills with which to read, discuss and write intelligibly in German. For students wishing to broaden their proficiency, the German program offers advanced German-language courses which deal with various aspects of German literature and culture.

Students have an opportunity in these courses to sharpen their linguistic proficiency while at the same time gaining a better understanding of the contributions made by German-language philosophers, artists, and writers. The German program’s course offerings can also be supplemented by a number of courses from other departments as part of the German studies major. Students who wish to pursue the study of German at the graduate level are encouraged to take as many German program courses as possible.

**Requirements for Admission to the German Studies Major**

**Note:** New major program declarations in German Studies are currently suspended.

For entrance into the German studies major, the student must: (1a) have a grade of at least C+ (2.33) in GER 203 or a combined GPA of 2.50 in GER 203-204 or (1b) place into German 305, and (2) have a 2.50 overall GPA.

**Requirements for the German Studies Major (25 credits)**

The German studies major consists of a minimum of 25 credits beyond the second-year level (203-204). At least 15 credits of upper-level courses in the major must be completed at UW-Parkside. Basic standards of linguistic proficiency and content competency (cultural and literary) have been established and will include a senior project and a minimal portfolio.

The following core courses beyond the second year-level (203-204) are required of all German studies majors (13 credits):

- GER 305 German Conversation and Composition 3 cr
- GER 310 German Civilization and Culture 3 cr
- GER 320 Introduction to German Literature 3 cr
- GER 495 Senior Project 3 cr

In addition, students must complete at least four courses selected from the following list. Students who wish to emphasize study in and about German language and literature are encouraged to choose as many German program offerings as possible. Alternate courses from other departments may be chosen after consultation with the student’s adviser in German. Students should also contact the German faculty about distance-learning possibilities. Students must fulfill any course prerequisites for courses in other departments:

- ART 343 Modern Art 3 cr
- ECON 310 International Trade 3 cr
- ENGL 247 Survey of Modern World Literature 3 cr
- HIST 320 Germany 1848 to the Present 3 cr
- HIST 362 Topics in 19th Century Europe 3 cr
- HIST 363 Europe Between the Wars 1919-1939 3 cr
- HIST 364 Europe Since 1945 3 cr
- MUS 414 History of Western Music II 3 cr
- POLS 330 European Politics 3 cr
- GER 350 German Phonetics 3 cr
- GER 402 Advanced Studies in German 3 cr
- GER 475 Translation Internship 1-3 cr
- GER 490 Special Topics in German 3 cr
- GER 494 Fieldwork in German 3 cr
- GER 499 Independent Study 3 cr

**Total courses for German Studies Major (25 credits):**

Core courses in German 12 cr
Additional four courses 12 cr

**Requirements for the German Minor (9 credits)**

The minor in German consists of a minimum of 9 credits beyond the second-year level (203-204). The following courses are required of all German minors:

- GER 305 German Conversation and Composition 3 cr
- GER 310 German Civilization and Culture 3 cr
- GER 320 Introduction to German Literature 3 cr

Students who have completed at least the German minor with a GPA of 3.00 or better will normally test successfully for the Zertifikat Deutsch als Fremdsprache, the internationally recognized certificate of German language proficiency, which is offered through the Goethe Institute.

**Courses in German (GER)**

Students entering from high school must have placement test results (UW System placement tests offered at regional testing and at UW-Parkside) in order to enter GER 104, 203, 204, and 305. The Modern Languages Department reserves the right to refuse access to any language class (including 103) to any student under the following circumstances:

1. the student has not taken the placement exam or
2. the student’s previous experience in the study of the language makes enrollment in the class in question inappropriate.
Once students have taken a course in the German language sequence (103-305) they may not afterwards take a lower course in the sequence for credit.

103 Introductory German I .................................................. 4 cr
Prereq: Placement exam or no prior knowledge of German. Freq: Fall.
Development of basic listening, speaking, reading and writing skills.

104 Introductory German II .................................................. 4 cr
Prereq: GER 103 or equivalent or placement exam. Freq: Spring.
Continuation of GER 103.

111 German for Singers ...................................................... 1 cr
Prereq: Enrollment in vocal music. Freq: As needed.
To help university vocal and choral students gain theoretical understanding and practical mastery of diction in German as it pertains to specific, select songs and choral pieces being learned with texts in those languages. Does not count for credit toward German major or minor.

203 Intermediate German I .................................................. 4 cr
Prereq: GER 104 or equivalent or placement exam. Freq: Fall.
Review and further development of listening, speaking, reading and writing skills.

204 Intermediate German II .................................................. 4 cr
Prereq: GER 203 or equivalent or placement exam. Freq: Spring.
Review and further development of listening, speaking, reading and writing skills. Emphasis on written German through reading selections.

210 German Civilization & Culture (in English) ...................... 3 cr
Prereq: None. Freq: Occasionally.
Introduction to historical, social, technological, and creative forces characteristic of the German-speaking countries.

290 Special Topics in German .............................................. 1-3 cr
Prereq: None. Freq: Occasionally.
Selected topics in German studies will be examined. May not be counted toward German studies major when taught in English.

305 German Conversation and Composition ......................... 3 cr
Prereq: GER 204 or equivalent or placement exam. Freq: Fall.
Advanced training in conversation and composition with emphasis upon acquiring communicative skills in colloquial German.

310 German Civilization and Culture .................................... 3 cr
Prereq: GER 204 or equivalent. Freq: Alternate years.
Introduction to historical, social, technological, and creative forces characteristic of the German speaking countries. Readings in German. May be counted toward major.

320 Introduction to German Literature .................................. 3 cr
Prereq: GER 204 or equivalent. Freq: Alternate years.
Introduction to German literary periods, genres, and personalities through representative works.

350 German Phonetics ....................................................... 3 cr
Prereq: GER 204 or equivalent. Freq: Occasionally.
Theory of German sounds in contrast to English combined with practical laboratory training in pronunciation and orthography. Required of all intending teachers.

402 Advanced Studies in German ....................................... 3 cr
Prereq: GER 305 or equivalent, or consent of instructor. Freq: Occasionally.
Studies in German language, culture or literature. May be repeated for credit with different subject matter.

475 Translation Internship .................................................. 1-3 cr
Prereq: GER 305 or equivalent, German studies major and consent of instructor and department chair. Freq: Fall, Spring.
Translation interns work with area businesses and service agencies to furnish translations from and into German. May repeat for credit.

490 Special Topics in German .............................................. 1-4 cr
Prereq: None. Freq: Occasionally.
Selected topics in German studies will be examined.

494 Fieldwork in German .................................................. 1-3 cr
Prereq: Consent of instructor and department chair. Freq: Occasionally.
Application of German in areas of community concern and in local business and industry. May be repeated for maximum of 6 credits.

495 Senior Project .......................................................... 3 cr
Prereq: Senior standing in German studies. Freq: Spring.
The senior project in German studies is designed to be a capstone experience which offers graduating students an opportunity to bring together several aspects of their German studies and general undergraduate course work in the form of an independent research project.

499 Independent Study ..................................................... 1-3 cr
Prereq: Junior standing, consent of instructor and department chair. Freq: Occasionally.
Available to qualified students under supervision of individual instructor. Normally, no more than 6 credits of Independent Study may be counted toward the major.

Courses in Italian (ITAL)

Students entering from high school must have placement test results (UW System placement tests offered at regional testing and at UW-Parkside) in order to enter ITAL 104, 203, and 204. The Modern Languages Department reserves the right to refuse access to any language class (including 103) to any student under the following circumstances:

1. the student has not taken the placement exam or
2. the student’s previous experience in the study of the language makes enrollment in the class in question inappropriate.

Once students have taken a course in the Italian language sequence (103-204) they may not afterwards take a lower course in the sequence for credit.

103 Introductory Italian I .................................................. 4 cr
Prereq: None. Freq: Fall.
Development of basic listening, speaking, reading and writing skills in Italian.

104 Introductory Italian II .................................................. 4 cr
Prereq: ITAL 103 or equivalent. Freq: Spring.
Continued development of basic listening, speaking, reading and writing skills in Italian.

203 Intermediate Italian I .................................................. 4 cr
Prereq: ITAL 104 or equivalent. Freq: Fall.
Development of intermediate level proficiency in listening, speaking, reading and writing Italian.

204 Intermediate Italian II .................................................. 4 cr
Prereq: ITAL 203 or equivalent. Freq: Spring.
Continued development of intermediate level proficiency in listening, speaking, reading and writing Italian.
Courses in Modern Languages (MODL)

The program offers occasionally, under MODL 103 and 104, first-year courses in modern languages other than French, German, Italian or Spanish.

103 Modern Languages I .......................................................... 4 cr
Prereq: None. Freq: Occasionally.
Semester I of a modern language other than those regularly offered in the Modern Languages Department. May be repeated with different language content.

104 Modern Languages II ....................................................... 4 cr
Prereq: MODL 103 or equivalent. Freq: Occasionally.
Semester II of a modern language other than those regularly offered in the Modern Languages Department. May be repeated with different language content.

203 Intermediate Modern Languages I .................................. 4 cr
Prereq: MODL 104 in the same language or equivalent.
Freq: Occasionally.
Continued training in listening, speaking, reading and writing skills through conversation, composition and grammar review.

204 Intermediate Modern Languages II .................................. 4 cr
Prereq: MODL 203 in the same language or equivalent.
Freq: Occasionally.
Continued training in listening, speaking, reading and writing skills through conversation, composition and grammar review.

247 Survey of Modern World Literature ............................ 3 cr
Prereq: ENGL 101 with a grade of C- or better or consent of instructor. Freq: Occasionally.
Broad survey of several national and regional literatures including non-Western literatures, since the Renaissance, exclusive of those of England and the United States. Cross-listed with ENGL 247.

499 Independent Study ....................................................... 1-3 cr
Prereq: Junior standing, consent of instructor and department chair. Freq: Occasionally.
Available to qualified students under supervision of individual instructor.
Degrees Offered:
None. A certificate in museum studies is offered.

Coordinator:
Sasso, Ph.D.

Program Overview
Museum studies is an interdisciplinary certificate program designed to provide students with an introduction to the diverse aspects of museum work, information concerning opportunities for employment in museums and related institutions (such as archives and public history parks), and hands-on experience, including formal internships in local museums. The certificate program provides a solid background for interested students in such fields as anthropology, art, art history, history, and other fields to pursue graduate degrees in museum studies and employment in museums.

Internships
An internship in museum studies is required, allowing students to gain practical experience working in an art, history, anthropology, or public museum.

Requirements for Museum Studies Certificate (16 credits)

Prereq: Sophomore standing or consent of instructor.
Freq: Occasionally.
Introduction to aspects of essential management and administration involved in the operation of museums.
Degree Offered:
Bachelor of Arts.

Professors:
Kinchen, Ed.D.; McKeever, D.M.A. (Chair)

Associate Professors:
Crowley, D.M.; Eichner, M.M.; Garcia, M.M.

Assistant Professor:
Bouterse, M.M.

Lecturer:
Johnson, M.M.

Student Organizations/Clubs:
The Beat (Music Club)

Career Possibilities:
Many career opportunities are available to graduates in the field of music. Opportunities for teaching music include instruction at the elementary, secondary and university levels. In addition, many musicians teach independently, establishing their own music studios and working with students of all ages.

Although opportunities in the area of full-time professional performance are limited, many musicians perform on a part-time basis. Students who seek performance careers should consider continued studies in a graduate school of music. Beyond the fields of teaching and performing, career opportunities exist in many related areas such as music publishing, radio and television, arts management, recording engineering, arranging, sales, manufacturing, and various aspects of the music business. Accomplished musicians are vital to and needed in all areas of the music profession.

Department Overview
The Music Department is staffed by a faculty of highly qualified teaching performers who have extensive concert experience and are active in teaching, research and performance. Their skills span all areas of undergraduate music study, and students can expect to receive excellent training in the applied and academic branches of music. Music faculty members maintain high professional standards in the education and training of students.

All music majors complete the requirements of the bachelor of arts in music degree. Students who want to prepare for careers in music education, performance, or arts management should complete additional course work in the appropriate concentration.

Requirements for Admission to the Music Major
An audition/interview and faculty approval is required for admission to the music major or minor. Auditions are held in November, January, February, March, May, and August. Prospective students who audition before March 31 are eligible for scholarship consideration. For detailed audition information and registration, visit the Music Department website at www.uwp.edu or call the Fine Arts Office at 262-595-2457.

Entrance into the music program later than the freshman year will prolong the time required to complete the degree. Courses should be taken in the sequence outlined in the official UW-Parkside Handbook for Music Majors. Students who take fewer credits than the recommended course load prolong the time required for graduation. The handbook may be viewed or downloaded at www.uwp.edu see Music Handbook under Guidelines.

Applied Music Courses (MUSA)
Private Instruction in music performance is available to music majors and minors. Concurrent registration in an academic course in music and appropriate ensemble participation is required.

Instruction is offered in piano, organ, trumpet, horn, trombone, baritone, tuba, violin, viola, cello, string bass, classical guitar, harp, flute, oboe, clarinet, saxophone, bassoon, voice, and percussion. Consult the Music Department chair for details. Course numbers indicate the level of study. Course numbers that begin with a zero are 1-credit courses at the secondary or preparatory level. Freshman, sophomore, junior, and senior levels are 2-credit courses indicated by an initial number of 1, 2, 3, or 4.

Successful completion of a full faculty jury is required for enrollment at the 300 level. Students must demonstrate a breadth of musical styles and genres at the full faculty jury. To be granted access to a full faculty jury, the student must complete or be in the process of completing MUS 122 and MUS 126 with a grade of C or better.

Completion of the second semester 300 applied level is required for graduation in the music major.
Re-entry Policy

Students are encouraged to complete degree requirements by continuous study. In the event of an enrollment gap of one year, a re-audition and transcript evaluation is required. In such cases, students may be required to repeat specific courses.

Transfer Students

Transfer students must audition for admission to the Music Department. Based on the audition, transcript evaluation and music faculty advising, transfer students will be placed at the appropriate level of applied instruction, Music Theory and Keyboard Musicianship. Students must complete at least 30 credits, including 15 credits of upper-level courses in the major, at UW-Parkside.

Requirements for the Music Major (50 credits)

The Music Department offers a 50-credit program leading to the bachelor of arts degree with a major in music. Each music major must pass a keyboard proficiency examination. This examination must be prefaced with Keyboard Musicianship IV. The following courses or their equivalent are required:

Major (principal) Applied Instrument * ... 12 cr

Music Electives (upper level)** ........... 6 cr

* Completion of the second semester 300-level course appropriate to the student's principal instrument.

** Students who complete concentrations in teacher licensure or performance are exempt from this requirement. However, 36 credits in upper-division course work are required of all students.

Ensemble Requirement

While all students are encouraged to play and/or sing in departmental large ensembles, the department requires all applied music students (full-time and part-time) to participate in an ensemble.

For students whose primary instrument is voice, enrollment in Chorale is required in every semester of full-time enrollment.

For students whose primary instrument is an orchestral string instrument, enrollment in Parkside Symphony is required in every semester of full-time enrollment.

For students whose primary instrument is a band instrument, enrollment in Wind Ensemble is required in every semester of full-time enrollment.

For students whose primary instrument is classical guitar, four semesters of large ensemble (Chorale, Parkside Symphony, or Wind Ensemble) and four semesters of guitar ensemble enrollment are required.

Students admitted to the jazz studies concentration are required to enroll in Jazz Ensemble in every semester of full-time enrollment and complete at least four semesters of concurrent enrollment in a large ensemble (Chorale, Parkside Symphony, or Wind Ensemble).

For students whose primary instrument is a keyboard instrument, ensemble enrollment is required every semester in which such students are registered as full-time students. At least 4 of these credits must be in a large ensemble (listed above). At least 2 of these credits must be in keyboard accompanying and chamber music performance.

Students who are taking applied study on their non-principal instrument (this includes majors, minors, and non-majors) are expected to concurrently enroll in the ensemble relevant to that applied study, unless excused in writing by the appropriate ensemble director or exemption is granted by the department.

Students who pursue a music degree largely through part-time enrollment are required to participate in a large ensemble in at least six semesters.

Concentration Options in Performance:

Concentrations can be taken in addition to major requirements to provide options of specialization.

Requirements for the Music Performance Concentration (15-16 credits)

Students who aspire to a career in professional performance should plan on pursuing advanced studies in a graduate school of music. The music performance concentration is designed to give students a thorough background appropriate for acceptance into a graduate program in applied music. A Full Faculty audition is required for acceptance into the music performance concentration on completion of the applied music sophomore level.
Music majors in the piano pedagogy and literature concentration begin course work as second-year students, after completion of the music theory prerequisite course work. The six-semester sequence can be started in the fall semester of any year, resulting in a four-year degree plan.

Requirements for the Music Minor (20 credits)

The objective of the music minor is to provide students from any area of study with the opportunity to be introduced to the field of music through theoretical, historical and performance experiences. Twenty credits consisting of the following courses or their equivalents must be completed. An audition is required.

- **MUS 001** Concert Attendance (2 semesters with a grade of “CR”)..... 0 cr
- **MUS 102** Large Music Ensemble......................... 2 cr
- **MUS 121** Music Theory I.................................. 2 cr
- **MUS 122** Music Theory II................................ 2 cr
- **MUS 125** Aural Music Theory I........................... 2 cr
- **MUS 126** Aural Music Theory II......................... 2 cr
- **MUS 142** Keyboard Musicianship II..................... 2 cr
- **MUS 202** Music Literature.................................. 3 cr
- **MUS 313** Music in Western Civilization I.............. 3 cr
- **MUSA 0-level** Major Applied Instrument................. 2 cr (2 semesters)

Music minors may continue applied music study beyond minimum requirements if concurrently enrolled in the appropriate large ensemble.

Requirements for the Certificate in Piano Pedagogy and Literature (18 credits)

The certificate in piano pedagogy and literature offers a program of professional preparation for teachers and students pursuing careers in piano teaching. A working knowledge of the theoretical foundations of music is essential for participants in this program. This may be accomplished by completion of Music Theory and Aural Theory I and II at UW-Parkside or by transfer. Students may also demonstrate proficiency in these areas by examination. The certificate consists of 18 credits, including the following courses:

- **MUSA 110/111** Applied Piano (2 semesters).............. 4 cr
- **MUS 305** Piano Pedagogy.................................... 2 cr
- **MUS 306** Advanced Piano Pedagogy....................... 2 cr
- **MUS 450** Piano Teaching Practicum....................... 2 cr
- **MUS 460** Seminar in Piano Literature and Performance Practice (4 semesters)... 8 cr
Courses in Music (MUS)

001 Concert Attendance .......................................................... 0 cr
   Prereq: Music major or minor. Freq: Fall, Spring.
   Attendance of a minimum of 14 music programs selected from an approved concert calendar for the purpose of broadening the student’s musical experience.

100 The World of Music ............................................................ 3 cr
   Prereq: None. Freq: Fall, Spring.
   Introduces the many styles and types of music heard in America today; explores contributions made by cultures from around the world.

101 Fundamentals of Music ...................................................... 3 cr
   Prereq: None. Freq: Fall, Spring.
   Designed to acquaint the student with a basic music vocabulary. Includes study of notation, scales, melody and basic harmony. Open to all students.

102 Large Music Ensemble ..................................................... 1 cr
   Prereq: None. Freq: Fall, Spring.
   Study and performance of music in the genres and historical styles appropriate to a variety of choral and instrumental ensembles. Chorale, Master Singers, Jazz Ensemble, Wind Ensemble, Community Band, Parkside Symphony, and Community Orchestra are offered every semester. May be repeated for credit.

103 Keyboard Accompanying and Chamber Music Performance ..... 1 cr
   Prereq: None. Freq: Fall, Spring.
   Coaching for performance, including the study of accompanying technique, balance, instrumental color, vocal texts, articulation, style and pedaling. May be repeated for credit.

113 Vocal Jazz Ensemble .......................................................... 1 cr
   Prereq: Audition and concurrent enrollment in Chorale, Voices of Parkside, or Master Singers (MUS 102). Freq: Fall, Spring.
   A small ensemble committed to study and performance of vocal jazz literature.

117 Foundations of Music Theory I ............................................ 2 cr
   Prereq: Music Theory Pre-Test Freq: Fall.
   An introduction to and application of basic principles of music theory. Includes the notation of pitch and rhythm, intervals, scales, chords and other theory concepts, and ear training.

118 Foundations of Music Theory II ........................................... 2 cr
   Prereq: MUS 117 with grade of C or better or Music Theory Pre-Test Freq: Spring.
   Continued study of basic principles of music theory. Includes intervals, scales, chord inversions, seventh-chords, and other theory concepts, and ear training.

121 Music Theory I ............................................................... 2 cr
   Prereq: Music major, minor or consent of instructor, concurrent registration in MUS 125. Freq: Fall.
   This course develops the fundamentals of music, in depth. Studies include notation, acoustics, scales, rhythm, diatonic harmony, melody, intervals, keys and chord functions. Other topics include figured bass, melodic composition, Roman numeral analysis, and the principles of four-part writing.

122 Music Theory II ............................................................... 2 cr
   Prereq: Grade of C in MUS 121, concurrent registration MUS 126. Freq: Spring.
   This course expands topics presented in Music Theory I and introduces harmonic progression, non-chord tones, cadences, phrase and period structure, dominant seventh chords, and harmonization of melodies. Includes projects in analysis and composition.

125 Aural Music Theory I ...................................................... 2 cr
   Prereq: Music major, minor or consent of instructor, concurrent registration in MUS 121. Freq: Fall.
   Sight singing and aural recognition of the elements of tonal music including intervals, harmony, melody, rhythm and tonality.

126 Aural Music Theory II ..................................................... 2 cr
   Prereq: MUS 121 and 125 (minimum grade of C in MUS 125) or equivalent; concurrent registration MUS 122. Freq: Spring.
   Continuation of Aural Music Theory I with an emphasis on aural recognition of the elements of 18th-century music.

141 Keyboard Musicianship I ................................................... 2 cr
   Prereq: Music major, minor or consent of instructor. Freq: Fall.
   Basic piano literature, development of keyboard sight reading, harmonization, transposition and improvisation.

142 Keyboard Musicianship II .................................................. 2 cr
   Prereq: Music major and MUS 141 (minimum grade of C minus or equivalent) or consent of instructor. Freq: Spring.
   Continuation of MUS 141 to a higher level of performance and difficulty; includes contrapuntal literature.

180 Class Voice ................................................................. 2 cr
   Prereq: None. Freq: Fall, Spring.
   Development of the elements of singing with emphasis on tone production, correct breathing and diction. Open to all students.

181 Basic Voice for Instrumentalists ....................................... 1 cr
   Prereq: None. Freq: Alternate Springs.
   Elements of singing and tone production.

201 Music Appreciation ....................................................... 3 cr
   Prereq: None. Freq: Fall, Spring.
   A guide to musical enjoyment and understanding. Includes listening experiences in the various styles and forms of music, assigned readings and attendance at performances. Open to all students.

202 Music Literature ........................................................... 3 cr
   Prereq: Music major, minor or consent of instructor. Freq: Spring.
   The development of musical perception through a variety of styles and forms.

206 Jazz Appreciation .......................................................... 3 cr
   Prereq: None. Freq: Fall, Spring.
   Study of the stylistic periods of jazz from its beginning through the present. Emphasis on key performers and their styles. Recordings and live performance included. Open to all students.

207 Jazz History ................................................................. 3 cr
   Prereq: Music major with jazz studies concentration. Freq: Fall, Spring.
   Study of stylistic periods of jazz from origins to present with emphasis on major performers and styles. Recordings and live performances included. A research paper is required.

221 Music Theory III ........................................................... 2 cr
   Prereq: Grade of C in MUS 122, concurrent registration MUS 225. Freq: Fall.
   Studies in diatonic seventh chords, chromaticism, secondary functions, modulatory techniques, and binary and ternary forms. Includes projects in analysis and composition.

222 Music Theory IV ........................................................... 2 cr
   Prereq: Grade of C in MUS 221, concurrent registration MUS 226. Freq: Spring.
   Studies in 19th-century music, including mode mixture, Neapolitan chords, augmented sixth chords, enharmonic reinterpretation, and advanced modulatory techniques. Includes projects in analysis and composition.
223 Jazz Fundamentals ......................................... 2 cr
Prereq: MUS 121 or consent of instructor. Freq: Spring.
The study of scales, modes and associated chords used in jazz improvisation. Methods include applied, aural and written study.

224 Jazz Improvisation I ....................................... 1 cr
Prereq: MUS 223 or equivalent or consent of instructor. Freq: Fall.
Improvisation in a small-group setting playing major and minor blues and basic jazz tunes including introductions and endings.

225 Aural Music Theory III .................................... 2 cr
Prereq: MUS 122 and 126 (minimum of C in MUS 126) or equivalent; concurrent registration MUS 221. Freq: Fall.
Continuation of Aural Music Theory II with an emphasis on aural recognition of the elements of 19th-century music.

226 Aural Music Theory IV .................................... 2 cr
Prereq: MUS 221 and 225 (minimum grade of C in MUS 225) or equivalent; concurrent registration MUS 222. Freq: Spring.
Advanced sight singing and aural recognition of the elements of 19th- and 20th-century music.

241 Keyboard Musicianship III ............................... 2 cr
Prereq: Music major, minor and MUS 142 (minimum grade of C-minus) or equivalent, or consent of instructor. Freq: Fall.
Playing of three-part scores, vocal and instrumental accompaniments, chorales, more difficult transposition and harmonization; use of pedals.

242 Keyboard Musicianship IV ................................ 2 cr
Prereq: MUS 241 (minimum grade of C-minus) or equivalent, or consent of instructor. Freq: Spring.
Playing of four-part vocal scores, orchestral scores, harmonization with secondary dominants, more complex progressions, modulation, transposition, more difficult piano technique, accompaniments and literature.

271 Instrumental Techniques-Brass .......................... 2 cr
Prereq: Music major. Freq: Spring (even years).
Theory and practice of playing individual instruments. Includes pedagogic techniques. Six hours pre-clinical field experience is required.

272 Instrumental Techniques-Classroom and Fretted Instruments ............................................. 2 cr
Prereq: Music major. Freq: Fall (even years).
Theory and practice of playing individual instruments. Includes pedagogic techniques. Six hours pre-clinical field experience is required.

273 Instrumental Techniques-Percussion .................... 1 cr
Prereq: Music major. Freq: Alternate Springs.
Theory and practice of playing individual instruments. Includes pedagogic techniques. Four hours pre-clinical field experience is required.

274 Instrumental Techniques-Strings .......................... 2 cr
Prereq: Music major. Freq: Fall (odd years).
Theory and practice of playing individual instruments. Includes pedagogic techniques. Six hours pre-clinical field experience is required.

275 Instrumental Techniques-Woodwinds .................... 2 cr
Prereq: Music major. Freq: Spring (odd years).
Theory and practice of playing individual instruments. Includes pedagogic techniques. Six hours pre-clinical field experience are required.

290 Special Topics in Music .................................... 1-4 cr
Prereq: None. Freq: Fall, Spring.
Selected topics in music will be examined.

302 Conducting .................................................. 2 cr
Prereq: MUS 221. Freq: Spring.
The development of basic manual technique for conducting: beat patterns, expressive gestures, cueing, rehearsal techniques.

305 Piano Pedagogy ............................................ 2 cr
Prereq: MUS 221 and 222 or equivalent. Freq: Every third Fall.
Study of how to teach piano including pedagogic approaches, method books for elementary students, basic keyboard technique, sight reading, theory, musical concepts, group lessons, and business practices. Observation and practice teaching are included.

306 Advanced Piano Pedagogy ............................... 2 cr
Prereq: MUS 221 and 222 or equivalent, MUS 305. Freq: Every third Spring.
Teaching the intermediate and advanced student; technical approaches, appropriate teaching literature, advanced reading skills, listening and ensemble skills. Observation and practice teaching are included.

317 Diction—English & Italian ................................ 2 cr
Prereq: MUSA 181, concurrent registration in applied voice. Freq: Fall (even years).
Application of the International Phonetic Alphabet to English and Italian songs and arias.

318 Diction—French & German ................................ 2 cr
Prereq: MUSA 181, concurrent registration in applied voice. Freq: Spring (odd years).
Application of the International Phonetic Alphabet to German and French songs and arias.

319 Music in Western Civilization I ............................ 3 cr
Prereq: Grade of C minus or better in MUS 202. Freq: Fall.
A survey of Western music from primitive music to the early 18th century. Not open to students with credit in MUS 413.

314 Music in Western Civilization II .......................... 3 cr
Prereq: MUS 313. Freq: Spring.
Study of the stylistic evolution of music from the 18th century through the present. Not open to students with credit in MUS 414.

321 Music Theory V ............................................. 3 cr
Prereq: Grade of C in MUS 222. Freq: Fall.
Studies in 20th-century music including impressionism, neoclassicism, atonality, serialism, aleatoric music, minimalism, technological developments, sound mass, and new approaches to rhythm. Includes pitch-class set analysis and projects in composition.

322 Jazz Improvisation II ...................................... 1 cr
Prereq: MUS 224. Freq: Spring.
Improvisation in a small group setting utilizing tunes based on II-V chord progressions with appropriate scale choices.

324 Jazz Improvisation III ..................................... 1 cr
Prereq: MUS 323. Freq: Spring.
Improvisation in a small group setting utilizing tunes with advanced II-V and chromatic progressions with faster tempos.

325 African American Music ................................... 3 cr
Prereq: None. Freq: Summer.
Survey and study of development and evolution of African American music 17th century to present with attention given to historical, sociological, political and humanistic contexts. Cross-listed with ETHN 326.

333 Advanced Keyboard Accompanying and Chamber Music Performance ..................... 1 cr
Prereq: MUS 103. Freq: Every semester.
Coaching of vocal and instrumental music for performance including the study of accompanying technique, balance, instrumental color, vocal texts, articulation, style and pedaling. May be repeated for credit.
341 Vocal Materials and Methods .................................................. 3 cr
Prereq: MUS 222 or consent of instructor.
Freq: Spring (odd years).
Methods and techniques of instruction in vocal music in the secondary school. Twenty-five hours pre-clinical field experience is required.

342 Instrumental Materials and Methods ..................................... 3 cr
Prereq: MUS 222 or consent of instructor. Freq: Alternate Springs.
Methods and techniques of instruction in instrumental music in the secondary school. Ten hours pre-clinical field experience is required.

343 General Music Materials and Methods: Childhood ............. 2 cr
Prereq: MUS 222 or consent of instructor. Freq: Fall (odd years).
Methods and techniques in music instruction for the elementary school, stressing techniques in singing, rhythm, listening and reading-readiness activities. Eight hours pre-clinical field experience is required.

344 General Music Materials and Methods: Adolescence ......... 2 cr
Prereq: MUS 222 or consent of instructor.
Freq: Spring (odd years).
Methods and techniques of instruction in non-performing music classes for middle schools and senior high schools. Eight hours pre-clinical field experience is required.

355 Instrumental Conducting ...................................................... 2 cr
Prereq: MUS 302. Freq: Alternate Falls.
Techniques of instrumental conducting including baton technique, score reading and preparation, and rehearsal techniques. Eight hours pre-clinical field experience is required.

356 Choral Conducting and Arranging ......................................... 3 cr
Prereq: MUS 302. Freq: Fall (even years).
Techniques of choral conducting including score reading and preparation, rehearsal techniques and basics of choral arranging. Fifteen hours pre-clinical field experience is required.

360 Voices of Parkside .............................................................. 1 cr
Prereq: Audition, Freq: Fall, Spring.
In-depth study, intensive preparation, and refined performance of a wide range of challenging art, folk, and popular literature appropriate for chamber choral ensemble. Occasional additional rehearsals, frequent performances, and occasional tours required.

361 Chamber Music: Brass Ensemble ......................................... 1 cr
Prereq: Audition. Freq: Fall, Spring.
Study and performance of literature for small ensembles. Open to all students. May be repeated for credit.

362 Chamber Music: Classical Guitar Ensemble ......................... 1 cr
Prereq: Audition. Freq: Fall, Spring.
Study and performance of literature for small ensembles. Open to all students. May be repeated for credit.

363 Chamber Music: Woodwind Ensemble ............................... 1 cr
Prereq: Audition. Freq: Fall, Spring.
Study and performance of literature for small ensembles. Open to all students. May be repeated for credit.

364 Chamber Music: Percussion Ensemble ............................... 1 cr
Prereq: Audition. Freq: Fall, Spring.
Study and performance of literature for small ensembles. Open to all students. May be repeated for credit.

365 Chamber Music: String Ensemble ....................................... 1 cr
Prereq: Audition. Freq: Fall, Spring.
Study and performance of literature for small ensembles. Open to all students. May be repeated for credit.

366 Jazz Combo ........................................................................... 1 cr
Prereq: Audition, consent of instructor. Freq: Fall, Spring.
Study and performance of appropriate literature for small jazz ensemble. Open to all students. May be repeated for credit.

395 Music Business Seminar ................................................... 2 cr
Prereq: None. Freq: Alternate Springs.
Investigation of employment in music through education, performing and various aspects of music as a business: publishing, instrument sales, recording and management. Open to all students.

407 Jazz Styles ............................................................................ 2 cr
Prereq: MUS 207 or consent of instructor. Freq: Alternate years.
Study of Jazz History through solo analysis, listening, ear training, and the performance of specific transcriptions from major jazz artists.

413 History of Western Music I .................................................. 3 cr
Prereq: Grade of C minus or better in MUS 202. Freq: Fall.
A survey of Western music from primitive music to the early 18th century. Concept of evolutionary style changes both within music and in relation to an evolving civilization. Not open to students with credit in MUS 313.

414 History of Western Music II .................................................. 3 cr
Prereq: MUS 413 Freq: Spring.
Study of the stylistic evolution of music from the 18th century through the present. Research paper required. Not open to students with credit in MUS 314.

423 Orchestration ................................................................. 2 cr
Prereq: MUS 222. Freq: Alternate Falls.
A study of individual instruments; scoring practices for orchestral instruments.

425 Jazz Arranging ................................................................. 3 cr
Prereq: MUS 222 or equivalent and MUS 223.
Freq: Alternate years.
Study idiomatic writing for jazz instruments. Creating written arrangements in a variety of jazz styles for small and large jazz ensembles.

427 Musical Theatre Workshop ................................................. 1-3 cr
Prereq: Audition. Freq: Occasionally.
Study, research, preparation and performance of scenes, songs, and dances from musical theatre. May be repeated for credit.

428 Opera Theatre Workshop ................................................... 1-3 cr
Perform opera/operetta roles/ensemble in scenes or a complete work. Behind the scenes opportunities include stage management, stage direction, production crew, or costumes/makeup for qualified students. May be repeated for credit. Field trips required. Additional fees required. Course offering usually every Fall and Summer.

430 Analytic Techniques ......................................................... 2 cr
Prereq: Minimum grade of C-minus in MUS 321. Freq: Spring.
The structural and harmonic analysis of small and large musical forms.

450 Piano Teaching Practicum .................................................. 1 cr
Prereq: MUS 305. Freq: Fall, Spring, Summer.
Assigned teaching of private students and/or group classes with supervision; observation and evaluation used to develop pedagogic skills. May be repeated for credit.

460 Seminar in Piano Literature and Performance Practice ........ 2 cr
Prereq: MUS 122, 125. Freq: Yearly.
Advanced study of a specific era of the solo repertoire including all aspects of performance practice: tempo, rhythm, articulation, rubato, dynamics, ornamentation, pedaling and historical context. Each time offered, this course will examine a different era or composer. May be repeated for credit under different topics.

490 Special Topics in Music ...................................................... 1-4 cr
Prereq: None. Freq: Fall, Spring.
Selected topics in music will be studied.

- 2011-2013 Music - 165 -
495 Music Composition Seminar .............................................. 2 cr
Prereq: Consent of instructor. Freq: Fall, Spring.
Analysis and composition. Seminar participation and individual composition lessons. May be repeated for a maximum of 8 credits.

497 Solo Recital ........................................................... 1-2 cr
Prereq: Consent of music faculty, senior standing.
Freq: Fall, Spring.
Supervised recital preparation and performance with appropriate research and writing of the recital program notes. May be repeated for credit.

499 Independent Study ..................................................... 1-5 cr
Prereq: Consent of instructor and department chair.
Freq: Fall, Spring.

Graduate Courses

690 Special Topics .......................................................... 1-4 cr
Prereq: Consent of instructor. Freq: Occasionally.
Selected topics in music will be studied.

695 Advanced Music Composition Seminar .............................................. 2 cr
Prereq: Consent of instructor. Freq: Fall, Spring.
Advanced analysis and composition. Seminar participation and individual composition lessons. May be repeated for a maximum of 8 credits.

699 Independent Study ..................................................... 1-5 cr
Prereq: Consent of instructor and department chair.
Freq: Fall, Spring.

Courses in Applied Music (MUSA)

Prereq: Private instruction in applied music is available to music majors and minors. Concurrent registration in a core music course and a large ensemble is required. To enroll, obtain the required class and permission numbers from a Music Department faculty academic adviser. Applied music instruction requires additional fees. Other additional fees may be required. Freq: Fall, Spring.

Degree Offered:
Bachelor of Science from UW-Milwaukee.

Dean College of Nursing:
Sally Lundeen, R.N., Ph.D., FAAN

Associate Dean for Academic Affairs College of Nursing:
Susan Dean-Baar, R.N., Ph.D., FAAN

Coordinator, Consortial Nursing Program:
Rochelle Nelson, R.N., M.S.N.

Consortial Nursing Academic Adviser:
Jennifer Daood, M.S.

Lab Manager:
Pamela Wagner, R.N., B.S.N.

Student Organizations/Clubs:
Student Nurse Association of Parkside (SNAP)

Department Overview
The University of Wisconsin-Milwaukee College of Nursing offers a bachelor of science degree (B.S.) in nursing. The undergraduate program is offered on the UW-Milwaukee campus and at the UW-Parkside campus through a consortial program, initiated in June 1979. Students accepted into the program will complete the same curricular requirements as students enrolled on the UW-Milwaukee campus and must meet the same eligibility requirements for admission to the nursing major.

The program prepares students to begin positions of responsibility and leadership in providing professional care for clients and their families in their homes and in a variety of community health-care agencies. Students gain experience through a range of diverse programs in classroom and clinical settings.

Students are admitted to UW-Parkside, complete pre-nursing and nursing courses as UW-Parkside students, and earn their degree from UW-Milwaukee. For this reason, each consortial nursing student is responsible for meeting all UW-Milwaukee requirements. All course work required to complete the undergraduate degree in nursing is offered on the UW-Parkside campus, and all clinical courses utilize health-care agencies in and around Racine, Kenosha, and Walworth counties. This UW-Parkside catalog states policies specific to the Consortial Nursing Program. Other UW-Milwaukee regulations, including academic policies, procedures, and requirements, are printed in the current UW-Milwaukee undergraduate bulletin. This and other UW-Milwaukee publications are available in the nursing adviser's office on the UW-Parkside campus in Tallent Hall 288.

The College of Nursing also offers an a number of graduate degree programs, such as the master of nursing degree (M.N.) doctor of philosophy degree (Ph.D.) and doctor of nursing practice degree (DNP). For more information about our graduate programs, please see www.nursing.uwm.edu or call UWM College of Nursing 414-229-5047. These nursing programs are fully accredited through the state of Wisconsin Board of Nursing and the Commission on Collegiate Nursing Education.

The Nursing Learning Resource Center (NLRC), Tallent Hall 181, which serves nursing students, faculty, and the community, is an integral component of the undergraduate curriculum. This college laboratory is a mediated and simulated learning environment in which students perform skills foundational to safe nursing practice in settings with clients. In addition, the NLRC houses a modern, well-equipped micro-computer laboratory.

Overview of Clinical Experiences
As part of the educational program, nursing students participate in a variety of clinical experiences. These experiences take place in hospitals and nursing homes, community health centers and clinics, medical centers and mental health units, birthing centers, hospice settings, homes and parishes. Students work with individuals and families from many cultures and across all age groups who are dealing with physical and/or mental health problems or seeking to remain healthy, including children, teens, adults and the elderly. The selection of clinical experiences is based on the objectives of courses and the learning that is expected. Upon completion of the program, students will have all experiences necessary to become licensed as a registered nurse and secure employment.

The amount of time spent in the clinical experiences varies. As part of Foundations of Clinical Practice courses in the junior year, five hours per week for nine weeks will be spent in clinical practice. The clinical experience for the Senior
Nursing Practice courses is 24 hours per week spread over three days. Clinical experiences may be on any day of the week including weekends. The experience may start as early as 6:30 a.m. and end as late as 11:00 p.m.

Admission to UW-Parkside

Students intending to pursue study in nursing are advised to complete the following units (one unit equals one year) in high school:

- 1/2 unit of speech (if available)
- 2-4 units of a foreign language (at least two years/units of the SAME foreign language)
- 3 units of college preparatory mathematics at or above algebra level
- 1/2 unit of computer science
- 1 unit of biology
- 1 unit of chemistry
- 1 unit of physics
- 1 unit of history
- 3 units of social studies
- 4 units of English

Pre-nursing students are admitted to UW-Parkside as matriculates and are classified as pre-nursing. Admission to the pre-nursing classification does not guarantee later admission to the nursing major. This subsequent admission occurs after a student has successfully completed the pre-professional requirements outlined in this catalog. Admission does not imply or guarantee that a student will be able to enter or complete the professional program within any specific time period.

Policies and Procedures of the College of Nursing

See College of Nursing Student Handbook for more information.

The policies and procedures of the College of Nursing apply to all students even though the student may be enrolled in courses in another college or school within the university. The general regulations governing UW-Milwaukee presented in this catalog apply to all consortial nursing students; therefore, these students do not need to fulfill UW-Parkside degree requirements.

Minors

Students who desire to pursue a minor at UW-Parkside are required to follow UW-Parkside requirements to complete a minor. The UW-Parkside catalog lists the minors available and their course requirements for completing the minor.

Nursing students, who complete a UW-Parkside minor, will have the minor posted on the UW-Milwaukee transcript.

UW-Milwaukee faculty and administration reserve the right to make changes in these regulations after publication; some of these changes may affect students’ programs. Efforts will be made to publicize all changes, but it is the responsibility of students to ascertain the requirements of their program at all times. Admission to UW-Parkside does not imply or guarantee a student will be able to enter or complete a professional program within any specific time period.

Admission to Nursing Major

The College of Nursing requires a minimum GPA of 2.75 as calculated on the prerequisite courses completed prior to the nursing major and a minimum science GPA of 2.50. In addition, nursing faculty evaluate students on a written essay, work and volunteer experiences. Admission to the major is competitive. The minimum GPA required for admission can be significantly higher when there is a large applicant pool. Pre-nursing students who seek to enter the major and meet eligibility criteria (see below) are required to file an application with the nursing adviser in Tallent Hall 288. The College of Nursing Undergraduate Program Committee reviews the applications and makes recommendations for admission.

Application Deadline

Pre-nursing students who seek to enter the nursing major in September must submit applications by January 15 of the current academic year. Applications received after this date will be reviewed on a space-available basis.

Eligibility Criteria:

Students are required to meet the following criteria to be reviewed for selection into the nursing major:

A. Satisfactorily complete or be enrolled in the following courses:

B. Courses may be repeated only once. No more than three required courses may be repeated. All credit for required courses must have been earned in the 10 years preceding progression into the nursing major. Grades of less than 2.0 (C) must be replaced by grades greater than 2.0 (C) no later than August for fall applicants.
C. Achieve a minimum grade point average of 2.75 on a 4.0 scale. This GPA is computed on the courses listed above.

Achieve a minimum science grade point average of 2.50 on a 4.0 scale. This GPA is computed within the required sciences.

D. Achieve a minimum grade of 2.0 (C) in each of the required nursing and non-nursing courses as listed under part A.

E. Remove all incompletes and replace with acceptable grades before beginning the nursing major.

F. In addition to the satisfactory completion of courses listed in part A, applicants must demonstrate competency in math and English. Competencies must be fulfilled through testing or course work by the date of entry into the nursing major. Information about competency testing is available through the Consortial Nursing Office. Refer to the UW-Parkside Advising and Career Center for definition of competencies.

G. A statement written by the applicant.

H. Meet application deadlines.

I. A letter of recommendation is required if an applicant has been enrolled in clinical nursing courses at another school of nursing. This reference must be from the director of that College of Nursing. The letter should reflect a positive recommendation for the student’s progression into the nursing major.

J. An interview with the student making application may be requested at the discretion of the Undergraduate Program Committee.

K. Following a review of the student’s record and the progression of the student into the nursing major, the Undergraduate Program Committee may make recommendations intended to assist the student. These recommendations will be communicated to the student.

* Enrollment in freshman-level courses is based on ACT scores and in some cases, placement testing. As a result of ACT scores or placement testing, one or more preparatory courses may be required before enrollment in higher-level courses is permitted. Credits earned at the Academic Skill course/ASCK level in preparatory courses and English 100 do not apply to the 124 credits required for graduation.

Student Responsibilities in the Nursing Major

Students are expected to provide their own transportation, uniforms, books, supplies, equipment and other learning resources such as clients for practice experience as deemed necessary to meet course objectives.

Health

Good physical and mental health is essential for study and practice in professional nursing. The faculty of the College of Nursing reserves the responsibility for retaining only those students who demonstrate qualities of physical and mental health generally considered to be imperative for professional nursing practice.

A physical examination and specified immunizations are required of all students prior to enrollment in nursing practice courses. Expenses of this examination are the student’s responsibility. Evidence of a physical examination, to be completed by a nurse practitioner, university physician, or a physician of the student’s choice, must be submitted to Tallent Hall 288 on a date specified by the College of Nursing. The examination must be completed within one year before the date on which the student begins clinical nursing course work. Students who do not meet these health requirements may not be able continue in the nursing major.

After an offer of admission to the nursing major is made, admission is contingent upon demonstration of satisfactory health as evidenced by physical examination and fulfillment of the health and immunization requirements by the appropriate deadline. The College of Nursing reserves the right to require a student to seek advice of health-care professionals where it is believed that a condition of health would impede his/her progress or jeopardize the health of others. The College of Nursing does not discriminate based on a disability and provides reasonable accommodation to qualified students on an individual basis.

Illness or Prolonged Absence

Students are expected to be present at all scheduled classes and clinical laboratory experiences. Since space in nursing courses is assigned during the first week of the semester, students are expected to be present for all instructional periods during that week as well. Frequent or prolonged absences from scheduled classes and/or clinical experiences may necessitate that the student drop a nursing course. Any planned interruption in course work should be discussed with the student’s instructor(s), course coordinator and the nursing adviser.

CPR Certification

Students must be certified in CPR at the health professional level prior to the first day of classes for the first semester in the nursing major. Authorized programs include those offered by the American Heart Association and the Red Cross. Local community groups offer programs sponsored by these agencies. Students admitted to the major must provide clinical instructors with a copy of their CPR card at the first meeting of their clinical lab group. Evidence of continued certification in CPR will be required throughout the program.

Background Check

Admission to the nursing major is contingent upon successful completion of a criminal background check. A processing fee will be charged for the background check. Additional fees will be charged for students who have resided outside of Wisconsin in the past three years. Consult the UWM Student Affairs Office, 414-229-5047. Official documentation will be accepted for background checks done within one year prior to the start of the clinical program. This documentation must come directly from the agency that had the background check done for the student.

Should a background check reveal that a student has a history of one of the crimes that are listed as a permanent bar or bar with rehabilitation, they will be asked to make an appointment to see the associate dean to discuss the
Implications of this finding on their educational plan. For other crimes, the decision about whether a student will be able to complete a clinical experience will be made by the clinical agency. More information on the Wisconsin Caregiver Background Check Law is available at www.dhfs.state.wi.us/caregiver/index.htm.

Requirements for Employment, Licensing, or Professional Organizations
Students should be aware that some professions, occupations, and employers are subject to licensing and/or bonding requirements. When a course of study includes clinical or field training, practice teaching, internships, or the like, students may be subjected to a check of criminal conviction records prior to acceptance of a student by the placement site. Students are responsible for obtaining the information necessary for them to become knowledgeable about these requirements and plan their studies accordingly.

Professional Credentials
Wisconsin state law requires nurses to be licensed to practice nursing within the state. Licensure is obtained by endorsement or by passing an examination. Students graduating from the College of Nursing are eligible to write the examination if they:

1. are at least 18 years of age,
2. are graduates of a high school or its equivalent,
3. are able to speak, read, and write English, and
4. pay the fee for licensure.

Applicants for registration/licensure in the state of Wisconsin will be asked to state if they have ever been convicted of a criminal offense, excluding minor traffic violations. When individuals have such a conviction, an explanation is requested. An investigation may follow depending upon the circumstances and all the facts related to the situation.

Safe Professional Practice in Clinical Settings
Students are expected to demonstrate patterns of professional behaviors which follow the legal and ethical codes of nursing; promote the actual or potential well-being of clients, health-care workers, and self in the biological, psychological, sociological, and cultural realms; demonstrate accountability in preparation, documentation, communication, and continuity of care; and show respect for the human rights of individuals. A student whose pattern of behavior is found to be unsafe may be terminated from a clinical practicum for reason of unsafe practice at any time during the semester. If the behavior is identified before the drop date, the student will be directed to drop. If the drop date has passed, the student will receive a grade of F for the course. In order to continue in the nursing program, a student who is terminated from a clinical practicum must appeal to the Undergraduate Program Committee for readmission to the nursing program.

Travel
Students in nursing are responsible for arranging transportation to and from all agencies or clients’ homes used to provide clinical experience for the program. They are also responsible for any related liability. Students are expected to carry insurance on their vehicles.

Uniforms
Information about the uniform is shared at the nursing orientation and again in NURS 331 courses. Students purchase their uniforms after acceptance.

College of Nursing Academic Regulations

Required Grade Point Average
Every nursing student is required to maintain a minimum of a C average (cumulative GPA of 2.0 on a 4.0 scale) on all work attempted in each semester or summer session. Failure to meet this minimum GPA will automatically result in a status of academic probation.

In addition to maintaining a cumulative GPA of 2.0, a student must earn at least a C (2.0) in each required nursing course. (In a practicum course, a student must earn at least a C in both the clinical and theoretical components in order to receive a C as the final course grade.) Any student who earns a grade below C (2.0) in a required nursing course is automatically dropped from the nursing major. Such a student must appeal to the Undergraduate Program Committee for readmission and permission to repeat the course in which a minimum grade of C was not earned.

In a nursing course with limited enrollment or a waiting list, qualified students who have not taken the course previously will have enrollment priority. Progression to the next level of courses is not permitted until all courses of the previous level have been successfully completed.

Dropping Courses
Students should refer to a current class schedule for information concerning existing UW-Parkside drop policy guidelines and any exceptions for individual courses.

A student who wishes to drop from a required or elective clinical nursing course or to withdraw from the nursing program must discuss the matter with the instructor, coordinator of the Consortial Nursing Program, and as advised, the director of the undergraduate program and the associate dean for academic affairs. In addition, the student may wish to discuss the matter with an academic adviser in the Consortial Nursing Program. Written approval to drop must be secured from the instructor and the director of the undergraduate program irrespective of the week of the semester. Any such interruption in the sequence of courses following acceptance into the major requires readmission to the nursing major. Information about the procedure for applying for re-admission is available in the Consortial Nursing Office. For additional information please refer to the College of Nursing Student Handbook which is available in the Consortial Nursing Office (Tallent Hall 288).

Grievance Procedure
The College of Nursing has a formal written grievance procedure, available in the Consortial Nursing Office (Tallent Hall 288). A grievance is defined as any situation affecting the status of a student in which the student believes his/ her rights have been compromised or denied because of an erroneous or arbitrary interpretation or application of rules. Student grievances are reviewed by the College of Nursing.
Undergraduate Program Committee, which recommends the disposition of the grievance to the associate dean for academic affairs. In addition, this committee reviews and acts upon all cases of academic misconduct as described in Chapter UWS 17, UW-Milwaukee Student Disciplinary Procedures.

Degree Requirements
Students must earn a minimum of 124 semester credits to complete requirements for the undergraduate UW-Milwaukee degree. A cumulative GPA of 2.0 for all credits earned for UW-Milwaukee is required for graduation. The last 30 semester credits must be completed on the UW-Parkside campus (through the Consortial Nursing Program); at least 20 of these credits must be earned in nursing. The required courses are listed below. Students who pursue nursing through the Consortial Nursing Program must follow UW-Milwaukee general education requirements for graduation. See below for *general education requirements (GER). If a student decides to change his/her major from nursing to a UW-Parkside major, the student must then follow UW-Parkside general education requirements for graduation.

UW-Milwaukee General Education Requirements for nursing students*:

** Humanities**
Consult nursing adviser for approved GER .................. 6 cr

** The Arts**
Consult nursing adviser for approved GER arts .......... 3 cr

** History**
Any course offered by History Department .............. 3 cr

** Foreign Language**
Two semesters of the same language ...................... 0-8 cr

** Electives** .................................................. 4 cr

* All nursing students are responsible for checking whether they meet the UW-Milwaukee general education requirements (written above).

Pre-Nursing Prerequisites (48 credits)

ENGL 201 Advanced Composition ....................... 3 cr
SOC 101 Sociology Course (Any) ...................... 3 cr
PSYC 101 General Psychology .......................... 3 cr
PSYC 210 Introduction to Human Development ...... 3 cr
CHEM 115 Chemical Science .............................. 4 cr
CHEM 215 Introductory Biochemistry .................. 4 cr
PHYS 101 Principles of Physics .......................... 4 cr
BIOS 105 Human Physiology & Anatomy I .......... 4 cr
BIOS 106 Human Physiology & Anatomy II ........ 4 cr
BIOS 190 Fundamentals of Human Nutrition ........ 2 cr
BIOS 202 General Microbiology ....................... 4 cr
NURS 101 Cultural Diversity in Health Care ....... 3 cr
NURS 102 Perspectives on Health Care Systems .... 2 cr
NURS 300 Introduction to Nursing Research ........ 2 cr

** See nursing adviser for list.

Nursing Courses in the Major (60 credits)
Students must be admitted to the nursing major or have special permission to enroll in nursing courses. See nursing adviser, Tallent Hall 288.

* Prior to enrolling in NURS 331 Foundation of Clinical Practice I, students will be expected to have some knowledge of a computer word-processing application. It is not recommended that students wait until they are in the course to learn this application due to time constraints. It will also be helpful if students become familiar with computer-assisted library research and applications of databases.

Prior to enrolling in the first clinical practice course, NURS 331 Foundation of Clinical Practice I, students must complete a level 3 CPR certification program for health professionals. Students will be required to provide their clinical instructors with a copy of their CPR card at the first meeting of their clinical lab group.

Courses in the Consortial Nursing Program (NURS)

101 Cultural Diversity in Health Care .......................... 3 cr
Prereq: None. Freq: Fall.
Enables student to conceptualize cultural diversity as a basic component of American society with implications for sensitivity and respect in health promotion and human relations.

102 Perspectives on Health Care Systems .......................... 2 cr
Prereq: None. Freq: Spring.
Provides students with an orientation to the complexity of health care, health-care delivery systems, and the populations served.

190 Special Studies in Nursing .................................... 1-5 cr
Prereq: Consent of instructor. Freq: Fall, Spring, Summer.
An elective nursing course in which the students establish their objectives and actively participate in the selection of their learning experiences. They may register for 1 to 5 credits under a specified instructor who will approve their course of study.
205 Clinical Pharmacology ....................................................... 3 cr
Prereq: Admission to nursing major, NURS 320 or R.N. status, or concurrent registration, consent of instructor. Freq: Spring.
This course focuses on the principles of pharmacology and administration; legislative controls; mechanisms of drug actions; contraindications; adverse and toxic effects and lifespan considerations.

211 Health Assessment .......................................................... 3 cr
Prereq: NURS 315, NURS 331, admission to nursing major or consent of instructor. Freq: Fall.
This course focuses on concepts and skills to comprehensively assess the health status of individuals. History taking, physical examination techniques, developmental, and other assessments are presented.

290 Special Studies in Nursing .............................................. 1-5 cr
Prereq: Sophomore standing, consent of instructor.
Freq: Fall, Spring, Summer.
An elective nursing course in which the students establish their objectives and actively participate in the selection of their learning experiences. They may register for 1 to 5 credits under a specified instructor who will approve their course of study.

300 Introduction to Nursing Research ..................................... 2 cr
Prereq: None. Freq: Spring.
Examination of the history, principles, purposes, methods, and strategies of the research process with particular emphasis on learning critical appraisal of current nursing research literature.

315 Nursing Science I: Promoting and Maintaining Health ....................................................... 2 cr
Prereq: Admission to nursing major or consent of instructor. Freq: Fall.
Nursing science related to health promotion, disease prevention, and maintaining health are investigated along with responses of individual and families in acute and community settings.

320 Concepts of Illness I .......................................................... 3 cr
Prereq: BIOS 106, BIOS 202, CHEM 215, and PHYS 101, R.N. status, or consent of instructor. Freq: Fall.
This course focuses on mechanisms, manifestations, diagnosis, and treatment of disease states for selected body systems.

321 Concepts of Illness II ......................................................... 3 cr
Prereq: NURS 320 or consent of instructor. Freq: Spring.
This course focuses on the mechanisms, manifestations, diagnosis and treatment of disease states for selected body systems; continuation of NURS 320.

326 Nursing Science II: Concepts of Aging & Long-Term Health Care ................................................. 3 cr
Prereq: Admission to nursing major or consent of instructor. Freq: Fall.
Identification and management of factors influencing and compromising health and functional ability of older adults and exploration of long-term health care in various settings.

327 Nursing Science III: Concepts of Health Care for Women and Children .................................................. 4 cr
Prereq: NURS 211, 320, 321, 331. Freq: Spring.
Nursing science related to the acute, chronic, and health promotion care of women and children and their families in acute and community care settings.

328 Nursing Science IV: Concepts of Health Care of the Adult ................................................................. 4 cr
Nursing science related to adults with acute and chronic health problems in both acute and community care settings, individual and family responses are investigated.

331 Foundations of Clinical Practice I .................................... 5 cr
Prereq: Admission to nursing major. Freq: Fall.
Introductory course includes communication, philosophy, theory, and decision-making content, and psychomotor skills to be used as a base for planning and providing nursing care.

334 Foundation of Clinical Practice II ...................................... 3 cr
Refine clinical decision-making skills within the nursing process, professional communication, and psychomotor skills necessary for helping clients needing nursing care.

390 Special Studies in Nursing .............................................. 1-5 cr
Prereq: Junior standing, consent of instructor.
Freq: Fall, Spring, Summer.
An elective nursing course in which the students establish their objectives and actively participate in the selection of their learning experiences. They may register for 1 to 5 credits under a specified instructor who will approve their course of study.

403 Practice, Research, and Leadership Role Development I ......................................................... 3 cr
Prereq: NURS 334, 442 Freq: Fall.
Emphasis is on the professional nurse as a practitioner, researcher, manager, and leader. The role of the nurse in these endeavors is explored and evaluated.

404 Practice, Research & Leadership Role Development II ................................................................. 3 cr
Prereq: NURS 403, 415. Freq: Spring.
Critical issues impacting the development of current and emerging professional roles.

415 Nursing Science V: Concepts of Community Health Care of Aggregates .................................................. 3 cr
Prereq: NURS 403, 415. Freq: Spring.
Nursing care of individuals, families, and communities, as well as aggregates and special populations in the community. Roles of community health nurses are explored.

440 Nursing Specialty Course .................................................. 2 cr
Prereq: Admission to nursing major; NURS 403, 415, 442. Freq: Spring.
Topics of current interest in nursing specialty areas.

442 Nursing Practice I ............................................................ 8 cr
Prereq: Admission to nursing major; NURS 205, 321, 327, 328, 334. Freq: Fall.
Clinical practice course for providing nursing care for adults and children experiencing acute and/or chronic health problems.

443 Nursing Practice II ........................................................... 8 cr
Prereq: Admission to nursing major; NURS 403, 442. Freq: Spring.
Clinical practice course for providing nursing care to individuals, families, groups, and communities.
Degree Offered:
Bachelor of Arts.

Assistant Professor:
Keefe, Ph.D.

Senior Lecturer:
Pearson, M.A.

Lecturer:
Hudspeth, Ph.D.

Professional Accreditations or Memberships:
American Philosophical Association, Philosophy of Science Association.

Student Organizations/Clubs:
Parkside Philosophical Society, Phi Sigma Tau.

Career Possibilities:
Because of its emphasis on critical thinking and conceptual analysis, philosophy provides excellent preparation for a wide variety of professional studies and careers. UW-Parkside philosophy graduates have pursued many vocational interests in the past, from graduate school in philosophy and other fields in the humanities and social sciences, to law, librarianship, medical school, and business.

Department Overview
“The unexamined life is not worth living.”
- Socrates

Philosophy is the rational investigation of those truths about reality, knowledge and values essential to understanding the place of human beings in the world and the nature of the good life. It includes within its scope both the study of logic and scientific method, including the metaphysical presuppositions of the sciences, and the investigation of ethical and political values, and so it often provides reflective insight for other fields of study.

The Philosophy Department offers its majors and minors a variety of courses in traditional areas of philosophical inquiry while providing a broad range of general education courses and courses bearing on other disciplines, which are cross-listed in other departments.

Preparation for Graduate School
Completing the major in philosophy will prepare students for entrance into graduate school in the field, but those interested in this option should endeavor to take as many upper level courses as they can in as many areas as possible, including especially the history of philosophy. Graduates in philosophy have also pursued graduate study in psychology, art history, library science, business (M.B.A.) and law.

Philosophy Honors
To be eligible for a B.A. with honors in Philosophy, a philosophy major must attain a GPA of 3.5 or better in all philosophy courses taken. In addition an overall GPA of 3.00 must be attained.

Requirements for the Philosophy Major (36 credits)
The major in philosophy consists of a minimum of 36 credits in philosophy courses. The following requirements apply to all majors:

1. Required Courses:
   - PHIL 201 Logic ................................................. 3 cr
   - PHIL 260 History of Philosophy: Ancient ........... 3 cr
   - PHIL 261 History of Philosophy: Early Modern .. 3 cr
   - PHIL 275 Techniques of Philosophical Research ................................................. 3 cr

2. At least 15 credits of upper level courses in the major must be completed at UW-Parkside. PHIL 499 Independent Study does not count toward these 15 credits.

3. A total of no more than 6 credits of PHIL 499 Independent Study, will count toward the major

4. A grade of C-minus or higher is required in any course to be counted toward the major.

5. A 2.50 or better GPA in courses counting toward the major is required. Not all philosophy courses taken need be counted toward the major.

6. All majors are required to complete two courses (with one at the 300 level) in two of the following three areas: (1) ethics, value theory; and social and political thought; (2) metaphysics and philosophy of mind; and (3) epistemology and the philosophy of science. No
course may be used to cover two areas at once. This requirement is a total of four courses with a minimum of two at the 300 level. The department will sometimes assign courses to different areas depending on their topics, and majors will be informed of such assignments in advance. Otherwise the following courses will count in each area:

1. **Ethics, value theory and political thought.**
   - PHIL 206 Introduction to Ethics ........................................... 3 cr
   - PHIL 207 Classical Political Philosophy .................................. 3 cr
   - PHIL 213 Aesthetics ................................................................. 3 cr
   - PHIL 215 Contemporary Moral Problems ................................. 3 cr
   - PHIL 220 Politics, Law and Society ........................................... 3 cr
   - PHIL 306 Modern Political Philosophy .................................... 3 cr
   - PHIL 307 Contemporary Political Thought ............................... 3 cr
   - PHIL 320 Value Theory ............................................................ 3 cr
   - PHIL 328 Ethics in the Criminal Justice System ......................... 3 cr
   - PHIL 350 Philosophy of Law ..................................................... 3 cr

2. **Metaphysics and Philosophy of Mind**
   - PHIL 204 Reason and Reality .................................................. 3 cr
   - PHIL 205 Philosophy of Religion .............................................. 3 cr
   - PHIL 231 Christian Thought .................................................... 3 cr
   - PHIL 255 Topics in Continental Thought .................................. 3 cr
   - PHIL 305 Philosophical Analysis (depending on the topic) .......... 3 cr
   - PHIL 315 Metaphysics ............................................................... 3 cr
   - PHIL 355 Topics in Continental Thought .................................. 3 cr

3. **Epistemology and philosophy of science**
   - GSCI 102 Science and Pseudoscience ...................................... 3 cr
   - PHIL 203 Truth, Knowledge and Belief .................................... 3 cr
   - PHIL 303 Set Theory and Logic ............................................... 3 cr
   - PHIL 305 Philosophical Analysis (depending on the topic) ....... 3 cr
   - PHIL 310 Philosophy of Science .............................................. 3 cr

### Requirements for the Philosophy Minor (18 credits)

The minor in philosophy consists of a minimum of 18 credits in philosophy. The following requirements apply to all philosophy minors:

1. A minimum of 15 credits of the 18 required must be taken in 200-level or above courses. A minimum of 9 of these credits must be taken at UW-Parkside in 300-level or above course.
2. A grade of C-minus or higher is required in any course to be counted toward the minor.
3. A 2.50 or better GPA in courses counting toward the minor is required.

### Requirements for the Philosophy of Natural Science Minor (18 credits)

The minor in philosophy of natural science is open to students majoring in biological sciences, geology, mathematics, computer science and physics, and to others by consent of the chair of the Philosophy Department. A minimum of 18 credits of course work will be required to complete the minor.

**I. Required Courses:**

- GSCI 102 Science and Pseudoscience ...................................... 3 cr
- PHIL 201 Logic .............................................................................. 3 cr
- PHIL 310 Philosophy of Science History .................................. 3 cr

**II. Electives (Choose 3):**

- MATH 373 History of Mathematics ............................................. 3 cr
- PHIL 102 Great Thinkers ............................................................ 3 cr
- PHIL 203 Truth, Knowledge and Belief ..................................... 3 cr
- PHIL 204 Reason and Reality ...................................................... 3 cr
- PHIL 303/ MATH 303 Set Theory and Logic ................................ 3 cr
- PHIL 310 Philosophy of Science (may repeat with different topic) 3 cr

Other courses will be accepted as electives from time to time as suitable.

### Courses in Philosophy (PHIL)

Students who are required to take English 100 should not enroll in a philosophy course until they have satisfactorily completed English 100.

**101 Introduction to Philosophy .................................................. 3 cr**

*Prereq: None. Freq: Fall, Spring.*

An introduction to philosophical method and typical philosophical issues, such as the existence of God, life after death, free will, the nature and sources of knowledge and the nature of justice.

**102 Great Thinkers ................................................................. 3 cr**

*Prereq: None. Freq: Fall.*

A survey of the history of philosophical thought in the West from its beginnings to the 20th century, emphasizing its social and political context and its relations to the sciences.

**200 Topics in the History of Philosophy .................................... 3 cr**

*Prereq: None. Freq: Spring.*

Examination in depth of a selected figure, movement, or issue in the history of philosophy. Original sources in translation are studied. May be repeated for credit.

**201 Logic .................................................................................. 3 cr**

*Prereq: None. Freq: Fall.*

Emphasis on basic skills of critical thinking, in particular the construction and analysis of arguments in everyday life. Formal and informal arguments are investigated.

**203 Truth, Knowledge and Belief .................................................. 3 cr**

*Prereq: None. Freq: Fall.*

Discussion of epistemological topics such as experience and perception, innate knowledge, skepticism and rational belief, and the nature of truth. May be repeated once for credit with different content.
204 Reason and Reality ........................................ 3 cr
Prereq: None. Freq: Spring.
Metaphysical issues such as free will, cosmology, the nature of reality, space and time, causality, particulars and universals, and humanity's place and meaning in the universe. May be repeated once for credit with different content.

205 Philosophy of Religion .................................... 3 cr
Prereq: None. Freq: Fall, Spring.
Introduction to major philosophical issues in religion, including the existence of God, the supernatural, the problem of evil, life's meaning, faith, reason, religious belief, science and morality and the nature of religious commitment.

206 Introduction to Ethics ..................................... 3 cr
Prereq: None. Freq: Spring.
Examination of the nature of ethics and its relationship to law and religion. Discussion and appraisal of typical meta-ethical challenges to the possibility of ethics, such as relativism, subjectivism, positivism, naturalism, and egoism. Discussion of the most important normative ethical systems: virtue ethics, deontology, and utilitarianism, with particular emphasis on the work of Aristotle, Mill and Kant.

207 Classical Political Philosophy ............................ 3 cr
Prereq: One of the following: POLS 105, PHIL 101, HIST 118; Freq: Occasionally.
The works of the classical Greek political philosophers Thucydides, Plato and Aristotle. Cross-listed with POLS 207.

213 Aesthetics ..................................................... 3 cr
Prereq: None. Freq: Yearly.
Objectivity and criteria of art criticism, nature of aesthetic experience, and nature of art. Papers on theory and criticism will be required from students in ART 461, or any other 300- or 400-level course. May be repeated once under different topics by consent of department chair. Cross-listed with MUS 213 and ART 461.

215 Contemporary Moral Problems .......................... 3 cr
Prereq: None. Freq: Spring.
Discussion of contemporary moral problems and related theoretical issues, focusing on such issues as sexual morality, punishment, abortion, racism, sexism, warfare and civil disobedience.

220 Politics, Law, and Society ................................ 3 cr
Prereq: None. Freq: Yearly.
Issues in political philosophy such as the nature and justification of political doctrines and systems, and analysis of such concepts as justice, freedom, equality and authority. May be repeated once for credit with different content. Cross-listed with POLS 221.

231 Christian Thought .......................................... 3 cr
Prereq: None. Freq: Fall.
Topics in Christian philosophy, both historical and contemporary (i.e. faith and reason, St. Augustine, contemporary Christian). May be repeated once for credit with different topic.

250 Philosophy of Law .......................................... 3 cr
Prereq: None. Freq: Even years.
An examination of the nature of law and legal institutions, with special emphasis on the relationship between law and morality as these play out in the debate between natural law and positivism.

255 Topics in Continental Thought .......................... 3 cr
Prereq: None. Freq: Even years.
An introduction to major thinkers and movements of contemporary Continental philosophy, including Existentialism, Phenomenology, Structuralism, Deconstruction, Neo-Marxist Critical Theory, Semiotics, Philosophical Hermeneutics, French Feminism, Post-Structuralism and Post-Modernity.

260 History of Philosophy: Ancient .......................... 3 cr
Prereq: None. Freq: Fall.
An examination of the philosophy of the Pre-Socratics, Socrates, Plato, Aristotle, the Stoics and Epicureans, and the Neo-Platonists. Not open to students with credit in PHIL 360.

261 History of Philosophy: Early Modern .................... 3 cr
Prereq: None. Freq: Spring.
An examination of the philosophy of Descartes, Spinoza, Leibniz, Locke, Berkeley, Hume and Kant and their contemporaries. Not open to students with credit in PHIL 361.

275 Techniques of Philosophical Research ................... 3 cr
Prereq: One PHIL course completed and one PHIL course concurrently enrolled. PHIL 201 recommended. Freq: Fall, Spring.
Examination of scholarly research as well as techniques for the development and assessment of philosophical arguments and positions.

290 Special Topics in Philosophy .............................. 1-4 cr
Prereq: None. Freq: Occasionally.
Selected topics in philosophy will be examined.

302 Topics in The History of Philosophy ..................... 3 cr
Prereq: One PHIL course or consent of instructor. Freq: Spring.
Examination in depth of a selected figure, movement, or issue in the history of philosophy. Original sources in translation are studied. Research paper required. May be repeated for credit.

303 Set Theory and Logic ....................................... 3 cr
Prereq: MATH 222 or PHIL 201 or consent of instructor. Freq: Occasionally.
Elementary propositional and predicate logic; language and axioms of set theory; operations on sets; well-orderings, ordinals, transfinite induction and recursion; cardinals; the axiom of choice and some equivalents. Additional topics chosen in accordance with the interests and needs of the participants. Cross-listed with MATH 303.

304 Theories of International Relations ...................... 3 cr
Prereq: POLS 104 and 200. Freq: Spring.
Contemporary theories of international relations with selected applications to current issues of relationships in international politics. Emphasis on critical theories in the evaluation and comparison of various theoretical approaches. Cross-listed with POLS 304.

305 Philosophical Analysis ..................................... 3 cr
Prereq: PHIL 201 or 203 or consent of instructor. Freq: Yearly.
Topics in epistemology, philosophical logic, philosophy of language, and/or philosophic method. May be repeated once for credit.

306 Modern Political Philosophy ............................. 3 cr
Prereq: One of the following: POLS 105, PHIL 101, HIST 119, 120. Freq: Occasionally.
The works of modern political thinkers such as Machiavelli, Hobbes, Locke, Rousseau, Mill, Hegel, Marx and Nietzsche. Cross-listed with POLS 306.

307 Contemporary Political Thought .......................... 3 cr
Prereq: One POLS or PHIL course. Freq: Occasionally.
Explores major ideas, directions, issues, and problems of contemporary political thinkers. Philosophical dimensions of contemporary political and social problems; applications of concepts to contemporary problems. Cross-listed with POLS 307.
310 Philosophy of Science .................................................. 3 cr
Prereq: GSCI 102 or PHIL 201 or consent of instructor.
Freq Yearly.
An examination of such topics as the nature of scientific methods
and theories; explanation, prediction, confirmation, reduction, the
relations among the sciences, culture and values, and science
versus pseudoscience. May be repeated once for credit with
different topic.

315 Metaphysics .............................................................. 3 cr
Prereq: PHIL 204 or 205 or consent of instructor. Freq Yearly.
Topics relating to the fundamental nature of reality and of the human
condition (i.e., freewill, mind/body, the meaning of life, etc.). May be
repeated once for credit with different topic.

320 Value Theory ........................................................... 3 cr
Prereq: PHIL 206 or consent of instructor. Freq: Alternate years.
Topics in moral theory or political theory or special issues such
as relativism, science and morality, liberalism, Marxism, fascism,
sexism, and human rights. May be repeated for credit with different
content.

328 Ethics in the Criminal Justice System ........................... 3 cr
Prereq: One course in PHIL, CRMJ 101, or consent of instructor.
Freq: Yearly.
An examination of ethical issues arising in connection with criminal
justice in particular, punishment, legal and police ethics, and the
justice of institutions associated with criminal justice.

350 Philosophy of Law ...................................................... 3 cr
Prereq: One PHIL course of consent of instructor. Freq: Even years.
An examination of the nature of law and legal institutions, with
special emphasis on the relationship between law and morality as
these play out in the debate between natural law and positivism. A
research paper will be required.

355 Topics in Continental Thought .................................... 3 cr
Prereq: One PHIL course or consent of instructor. Freq: Even
years.
An introduction to major thinkers and movements of contemporary
continental philosophy, including existentialism, phenomenology,
structuralism, deconstruction, neo-Marxist critical theory, semiotics,
philosophical hermeneutics, french feminism, post-structuralism
and post-modernism. A research paper will be required.

360 History of Philosophy: Ancient .................................... 3 cr
Prereq: One PHIL course or consent of instructor. Freq: Fall.
An examination of the philosophy of the pre-Socratics, Socrates,
Plato, Aristotle, the Stoics and Epicureans, Skeptics and Cynics,
and the NeoPlatonists. Term paper required. Not open to students
with credit in PHIL 260.

361 History of Philosophy: Early Modern ............................ 3 cr
Prereq: One PHIL course or consent of instructor. Freq: Spring.
An examination of the philosophy of Descartes, Spinoza, Leibniz,
Locke, Berkeley, Hume and Kant and their contemporaries. A
research paper will be required. Not open to students with credit
in PHIL 261.

490 Special Topics in Philosophy ....................................... 1-4 cr
Prereq: 6 credits in PHIL or consent of instructor.
Freq: Occasionally.
Selected topics in philosophy will be examined.

499 Independent Study ..................................................... 1-5 cr
Prereq: Consent of instructor and department chair.
Freq: Occasionally.
Topics individually arranged.
Degree Offered:
Bachelor of Science.

Professors:
Mohazzabi, Ph.D.

Associate Professor:
Schmidt, Ph.D.

Distinguished Lecturer:
Bruning, Ph.D.

Lecturer:
Karanth, Ph.D.

Laboratory Manager:
Pidcock.

Student Organizations/Clubs:
Society of Physics Students

Department Overview

The Physics Department offers a rigorous and well-balanced program of courses leading to a bachelor of science degree in physics. The major is primarily intended for students who wish to pursue graduate work in physics or related areas, careers in higher education, or careers in technology-based industry.

The faculty is active in research. Current areas of research interest include astrophysics, computational physics, condensed matter theory, many-body theory, mathematical physics, quantum field theory, and statistical mechanics. Students majoring in physics have an excellent opportunity to get involved in ongoing research projects. In the recent past students have appeared as co-authors on a number of scientific publications in research and teaching journals.

The department is host to a chapter of the Society of Physics Students, a national organization run by the American Institute of Physics.

Requirements for the Physics Major (65 Credits)
The physics major consists of at least 42 credits of core and elective courses and a minimum of 23 credits of support courses, in addition to the general university requirements. At least 15 credits of upper level courses must be completed at UW-Parkside.

* Qualified students may substitute PHYS 105-106 for the PHYS 201-202 requirement at the discretion of the Physics Department. Students are advised to consult the department for further information.
Courses in Physics (PHYS)

NOTE: In addition to the prerequisites listed below, a grade of C or better in PHYS 201 and 202 is required for entry to all 300- and 400-level physics courses.

101 Principles of Physics .............................................. 4 cr
Prereq: Computational Skills required or equivalent.
Freq: Fall, Spring.
A one-semester introduction to fundamental principles of physics, their experimental basis, and applications. For students who need an introductory course in physics. Not open to students with credit in PHYS 105 or 201. Three-hour lecture; one-hour discussion.

102 Principles of Physics with Medical Applications .......... 4 cr
Prereq: Computational Skills required or equivalent.
Freq: Fall, Spring.
A one-semester introduction to fundamental principles of physics, their experimental basis, and applications in nursing and related fields. For pre-health students who need an introductory course in physics. Not open to students with credit in PHYS 101, 105 or 201. Three-hour lecture; one-hour discussion.

105 College Physics I .................................................. 5 cr
Prereq: MATH 113, 114 or equivalent. Freq: Fall.
Mechanics, heat, and sound. Not recommended for students majoring in physical science or engineering. Not open to students with credit in PHYS 201. Three-hour lecture; one-hour discussion; three-hour lab.

106 College Physics II .................................................. 5 cr
Prereq: PHYS 105. Freq: Spring.
Electricity and magnetism, light and modern physics. Not open to students with credit in PHYS 202. Three-hour lecture; one-hour discussion; three-hour lab.

110 Introduction to Astronomy ....................................... 3 cr
Prereq: None. Freq: Fall, Spring.

120 Astronomy in Non-Western Cultures .......................... 3 cr
Prereq: None. Freq: Fall, Spring.
Examines the astronomical views of Native Americans from a cultural perspective and looks at how worldview, science and discrimination intersect. Current cultural conflicts between Western astronomers and Native groups and the growth of modern astronomy from the astronomical views of indigenous cultures will be examined. Crosslisted with ETHN 120. Three-hour lecture.

150 Physics of Music .................................................... 3 cr
Prereq: None. Freq: Fall.
An introduction to the basic physical principles underlying music and musical instruments. Not for credit towards the physics major.

201 General Physics I ................................................... 5 cr
Prereq: MATH 221 (grade of C or higher) or concurrent registration (only with grade of B or higher in MATH 114 or equivalent). One year high school physics or PHYS 101 required. Freq: Fall.
Mechanics, heat, and sound. For physical science and engineering majors. Three-hour lecture; one-hour discussion; three-hour lab.

202 General Physics II ................................................ 5 cr
Prereq: PHYS 201; MATH 222 or concurrent registration.
Freq: Spring.
Electricity and magnetism, geometrical optics, and physical optics. For physical science and engineering majors. Three-hour lecture; one-hour discussion; three-hour lab.

205 Modern Physics .................................................... 3 cr
Prereq: PHYS 202. Freq: Fall.

241 Scientific Programming .......................................... 3 cr
Prereq: PHYS 201 and MATH 221 or consent of instructor.
Freq: Alternate Springs.
Programming in C, C++, FORTRAN, PERL and symbolic or computer algebra languages with applications to scientific problem solving and simulations. Three-hour lecture/lab.

290 Special Topics in Physics ....................................... 1-4 cr
Prereq: Consent of instructor. Freq: Occasionally.
Special topics in physics will be examined.

301 Classical Mechanics ............................................. 4 cr
Prereq: PHYS 201; MATH 317, or concurrent registration or consent of instructor. Freq: Alternate Falls.
Vector analysis, conservation laws, planetary motion, rigid-body dynamics, free and forced oscillations, normal coordinates, moving coordinate systems, generalized coordinates, Lagrangian and Hamiltonian formulations. Continuum mechanics. Four-hour lecture.

302 Electricity and Magnetism ...................................... 4 cr
Prereq: PHYS 202; MATH 317, or concurrent registration or consent of instructor. Freq: Alternate Falls.

303 Computational Physics ......................................... 3 cr
Prereq: PHYS 205; MATH 223, PHYS 241, or consent of instructor. Freq: Alternate Springs.

306 Advanced Experiments in Physics ............................ 3 cr
Prereq: PHYS 205. Freq: Alternate Springs.
Advanced experiments in optics, atomic, molecular, solid state, and nuclear physics. Analog electronics through transistors and op-amps. Basic digital electronics. Six-hour lab.

307 Mathematical Methods of Physics ............................ 3 cr
Prereq: MATH 222, PHYS 202. Freq: Alternate Falls.
Methods of integration, series and products, combinatorics, statistics, special functions and differential equations, numerical methods and algorithms. Three-hour lecture.

403 Thermodynamics and Statistical Physics .................... 4 cr
Prereq: MATH 301 and 317 or PHYS 307 or consent of instructor.
Freq: Alternate Springs.
An introduction to equilibrium statistical mechanics and its applications. The first half emphasis is on thermodynamics and classical statistical mechanics, microcanonical, canonical, and grand canonical ensembles, partition functions, and the Ising model. The second half is quantum statistical mechanics, Fermi and Bose gases, and critical phenomena. Four-hour lecture.

441 Quantum Physics .................................................. 4 cr
Prereq: PHYS 205; MATH 301 and 317 or PHYS 307 or consent of instructor. Freq: Alternate Springs.

490 Special Topics in Physics ....................................... 1-4 cr
Prereq: Consent of instructor. Freq: Occasionally.
Special topics in physics will be examined.
495  **Senior Seminar** ................................................................. 1 cr  
Prereq: Junior or senior standing. Freq: Fall, Spring.  
A directed study of one of the current topics in physics. Each student is required to submit a written report and present a 50-minute seminar on the subject. Students are recommended to take two consecutive semesters of 495.

497  **Senior Thesis** ................................................................. 1-2 cr  
Prereq: Consent of instructor. Freq: Occasionally.  
By special arrangement with instructor.

499  **Independent Study** ........................................................... 1-3 cr  
Prereq: Consent of instructor and department chair.  
Freq: Occasionally.  
By special arrangement with instructor.
POLITICAL SCIENCE AND LAW

Degree Offered:
Bachelor of Arts.

Professors:
Gurnack, Ph.D.

Associate Professors:
Akindes Ph.D.; James, Ph.D.; Olsen, Ph.D.

Assistant Professor:
Astoria Ph.D

Professional Accreditations or Memberships:
American Political Science Association

Student Organizations/Clubs:
Prelaw Society

Career Possibilities:
For information about graduate school, law school or careers in political science, visit the department’s website at www.uwp.edu Keyword: Political Science.

Department Overview
The Political Science and Law Department at UW-Parkside provides many educational opportunities for the undergraduate student. The department's strengths are in comparative politics, international relations, American politics, public policy and administration, and legal studies. A unique feature of the department is the internship program, which permits students to earn academic credit while directly experiencing government, politics, public administration and law.

Preparation for Graduate School
The undergraduate major in political science can help prepare an individual for graduate study in law, public administration, the policy sciences, political science, or criminal justice. Internships, independent study, and off-campus programs for credit course work in political science provide an opening to the ideas and tools used in the field. Through internships with politicians and public officials, such as the district attorney and social service agencies, these tools and ideas may be used and evaluated in practice. The credit-bearing internship offers an excellent opportunity for exploring employment possibilities while supplementing academic training.

Independent-study projects are strongly encouraged for political science students who wish to acquire the ability to do research and to explore their own interests. Off-campus programs provide a third possibility for professional development outside of regular course work. Programs in New York with the United Nations and in Washington with the federal government are available as are other individualized arrangements.

Requirements for Admission to the Political Science Major and to the Major with a Concentration in Law
1. A student must be in good academic standing at the time of declaring the major.
2. At least two courses in political science in courses numbered 100 through 105 with a grade of C or better in each course. (C-minus does not count.)

Requirements for the Political Science Major (34 credits)
This department offers the two major options: the traditional major in political science and the major in political science with a concentration in law. Students need to complete the requirements for one of these options. For example, a student choosing to major in political science with a concentration in law needs to meet the requirements listed under the concentration in law. The major in political science consists of a minimum of 34 credits. Students must complete a minimum of 15 credits at UW-Parkside in their major in courses numbered 300 or above in addition to POLS 445 Senior Seminar in Political Science. These credits are to be distributed as follows:

1. Three of the following introductory courses: (9 credits)
   - POLS 100 American Politics................................. 3 cr
   - POLS 103 Introduction to Comparative Politics... 3 cr
   - POLS 104 Introduction to International Relations. 3 cr
   - POLS 105 Political Beliefs ................................. 3 cr
   - POLS 202 Public Policy........................................ 3 cr

2. The following course: (4 credits)
   - POLS 200 Research Methods and Sources ........ 4 cr
   This course is required even if another research methods course has been taken.

3. Nine credits from the following advanced courses with at least one course from each of the three groups identified below: (9 credits)
American Politics: POLS 214, 215, 216, 301, 360, 375, 385, 395
World Politics: POLS 224, 304, 330, 331, 332, 334, 335, 340, 341, 350, 415

Note: Students may count POLS 304, 332, 334, and 350 for world politics or political theory, not for both.

4. And at least three additional courses numbered 300 or above: (9 credits)
The political science internship and independent study are recommended options but are not required. No more than 6 credits of internship and 3 credits of independent study can be counted toward meeting the credit-hour requirements for the major. Independent study credits do not count toward meeting the 15 upper level credit-hour requirement for the major. Only 3 credits of internship credit can be used to meet the 15 upper level credit-hour requirement for the major.

5. POLS 445 Senior Seminar in Political Science (3 cr)
All students must complete their degree program within 10 years of declaring a major or minor in political science, or the concentration in law, or completing their first course in political science, whichever is earlier. Credits earned at UW-Parkside or at any other institution that are more than 10 years old cannot be used to complete any major, minor or concentration offered by this department. A student who has been inactive for three or more years must reapply for admission to the major. The department reserves the right to require additional credits or course work.

### Requirements for the Political Science Major with a Concentration in Law (34 credits)

This department offers a concentration in law for political science majors interested in pursuing a career in law or legal studies (practicing law, teaching law, court administration, and government agencies). The concentration in law brings together the most significant perspectives and tools required for a thorough preparation in law and legal studies, grounded in democratic theory and practice.

Students must complete a minimum of 15 credits at UW-Parkside in their major in courses numbered 300 or above. This concentration requires a minimum of 34 credits. These credits are distributed as follows:

<table>
<thead>
<tr>

Requirements for the Public Policy Studies Minor (15 credits)

POLS 202 Public Policy ........................................ 3 cr
POLS 203 Women, Power and Politics .................. 3 cr
POLS 250 Introduction to Public Administration .... 3 cr
POLS 291 Contemporary Political Issues .............. 3 cr

Any relevant public policy POLS 490 special topics course for 3 credits.

Note: POLS 200 Research Methods and Sources is not required for any minor in the department. However, certain advanced courses have POLS 200 as a prerequisite. If you have not taken POLS 200, check with the instructor of a course to see if it is a course prerequisite.

Requirements for the Legal Studies Minor (18 Credits)

POLS 209 Legal Research and Writing ............... 3 cr
POLS 216 Introduction to Law ............................ 3 cr
POLS 310 Constitutional Law: Civil Liberties ...... 3 cr
OR
POLS 320 Constitutional Law: Structure of Government ...................... 3 cr

Three additional courses from the group below, at least 6 credits of which must come from POLS: POLS 221, 310, 316, 320, 415, 444, 490 (with permission of legal studies adviser); BUS 372, 381; CRMJ 316, 325, PHIL 350; SOCA 359.

Courses in Political Science (POLS)

100 American Politics ......................................... 3 cr
Prereq: None. Freq: Fall, Spring, Summer.

The institutions, processes and dynamics of the American governmental system. Special emphasis is placed on problems of policy making in a pluralistic democratic system.

103 Introduction to Comparative Politics .............. 3 cr
Prereq: None. Freq: Fall.

Introduction to comparative governments with selected examples from the developed and developing world. Structural and functional evaluation of comparative performance in areas of political systems, economic programs, social equality and quality of life.

104 Introduction to International Relations ............. 3 cr
Prereq: None. Freq: Fall, Spring.

Historical development of the international political system, basic foreign policy analysis, conflict and cooperation among nation states and emphasis on current issues in international systems (terrorism, arms races/arms control, ecology).

105 Political Beliefs ............................................ 3 cr
Prereq: None. Freq: Fall, Spring.

Introduction to liberalism, conservatism, socialism, fascism, fundamentalism, and concepts of liberation. Discussion of the current political uses of these ideas.

200 Research Methods and Sources ...................... 4 cr
Prereq: Completion of POLS introductory sequence. Freq: Yearly.

Methods, philosophy and sources of political science research. Required for the major in political science and for the concentration in legal studies.

202 Public Policy ............................................ 3 cr
Prereq: POLS 100. Freq: Yearly.

The processes, problems, methods and issues involved in the formulation of public policies. Emphasis on policy formation at the national, state and local levels. Case studies employed.

203 Women, Power and Politics ......................... 3 cr
Prereq: None. Freq: Occasionally.

Examination of the environmental, systematic and political variables that define the existing and potential political position of women in a variety of international cultures. Cross-listed with WOMS 203.

207 Classical Political Philosophy ........................ 3 cr
Prereq: One of the following: POLS 105, PHIL 101, HIST 118.
Freq: Occasionally.

The works of classical Greek political philosophers Thucydides, Plato and Aristotle. Cross-listed with PHIL 207.

209 Legal Research and Writing ................................ 3 cr
Prereq: POLS 100. Freq: Yearly.

Analysis of the case reporting systems, access to legal journals, statutory law reporting, research on the web, and other research tools. The basics of writing legal briefs, documents, and research papers will be covered.

214 Legislative Politics ....................................... 3 cr
Prereq: POLS 100. Freq: Occasionally.

Analysis of the nature of Congressional behavior, the legislative process, and the structure of Congress. Case studies included. Problems of Congressional reform.

215 The Presidency ............................................ 3 cr
Prereq: POLS 100. Freq: Occasionally.

The office of the president of the United States as an institution and as shaped by its incumbent. The president's political, statesman, social and ceremonial roles. Comparative material included where relevant.

216 Introduction to Law ..................................... 3 cr
Prereq: POLS 100. Freq: Spring.

Utilizing the case approach, students will analyze the structure of the legal system, the process of judicial decision making, legal remedies, and will be introduced to substantive areas of the law, including contracts, property, family law and torts.

221 Politics, Law and Society .............................. 3 cr
Prereq: None. Freq: Yearly.

Issues in political philosophy such as the nature and justification of political doctrines and systems, and analysis of such concepts as justice, freedom, equality and authority. May be repeated once for credit with different content. Cross-listed with PHIL 220.

224 American Foreign Policy .............................. 3 cr
Prereq: One POLS course or junior standing. Freq: Occasionally.

Formulation and implementation of foreign policy in the United States. Relationship of American foreign policy to its domestic foundations and to the larger international system.

250 Introduction to Public Administration .............. 3 cr
Prereq: POLS 100. Freq: Occasionally.

Contemporary public administration theory and practice. The impact of politics on administrative decision making. Case studies and simulations where applicable.
290 Special Topics in Political Science ................................. 3 cr
Prereq: POLS 100 or consent of instructor and section prereq.
Freq: Occasionally.
Selected topics in political science will be studied.

291 Contemporary Political Issues ........................................ 3 cr
Prereq: POLS 100 or consent of instructor. Freq: Occasionally.
Examination of issues, problems, and events of current interest.
Subject matter varies. May be taken as often as a new topic is
featured.

301 Sexuality and Politics .................................................... 3 cr
Prereq: POLS 100 or consent of instructor. Freq: Fall, Spring
Explores intersections among various identities—gender, race,
etnicity, class, nationality and sexuality—and American politics.
Central emphasis will be placed upon the roles played by sexual
identity, sexual orientation, and/or sexual desire in American political
debates and public policy questions.

302 Environmental Policy ................................................... 3 cr
Prereq: POLS 100 or ENVIS minor. Freq: Occasionally.
A survey of the political and social aspects of environmental policy
making and how different political decision-making structures
respond to various environmental issues.

303 Science Fiction and Politics ............................................ 3 cr
Prereq: POLS 104 or 105. Freq: Summer
Exploration of current political and social issues using works of
science fiction. Topics include individualism, collectivism,
democracy, gender issues, and biopolitics. Various dystopic
political futures will be discussed.

304 Theories of International Relations ................................. 3 cr
Prereq: POLS 104 and 200. Freq: Spring.
Contemporary theories of international relations with selected
applications to current issues or relationships in international politics.
Emphasis on critical theories in the evaluation and comparison of
various theoretical approaches. Cross-listed with PHIL 304.

306 Modern Political Philosophy ......................................... 3 cr
Prereq: One of the following: POLS 105, PHIL 101, HIST 119,
120. Freq: Occasionally.
The works of modern political thinkers such as Machiavelli, Hobbes,
Locke, Rousseau, Mill, Hegel, Marx and Nietzsche. Cross-listed
with PHIL 306.

307 Contemporary Political Thought ..................................... 3 cr
Prereq: One POLS or PHIL course. Freq: Occasionally.
Explores major ideas, directions, issues and problems of
temporary political thinkers. Philosophical dimensions of
temporary political and social problems; applications of concepts to
contemporary problems. Cross-listed with PHIL 307.

310 Constitutional Law: Civil Liberties ................................. 3 cr
Prereq: POLS 100, 200, 209 216. Freq: Yearly.
The nature and scope of constitutional government and limitations
on government. Includes due process, equal protection, free
speech, freedom of religion, and the implied right to privacy.

316 Diversity Law: African Americans .................................. 3 cr
Prereq: POLS 100 or ETHN minor. POLS 216 recommended.
Freq: Occasionally.
Analyzes the relationship of African Americans to the United States
Constitution, and includes such topics as slavery, the Fugitive
Slave Acts, the Civil War Amendments, segregation, the civil rights
movement, voting rights, and affirmative action, and housing laws.

320 Constitutional Law: The Structure of Government ............ 3 cr
Prereq: POLS 100, 200, 209, 216. Freq: Yearly.
The structure of power in the tri-federal system of government
as viewed through major decisions of the U.S. Supreme Court.
Emphasis on the scope and limitations of executive, judicial, and
legislative powers, and on the relationship between the states,
government, and tribal nations.

330 European Politics ....................................................... 3 cr
Prereq: POLS 103 or 104. Freq: Spring.
Political culture, political institutions, and public choices of European
democratic states. Special focus as well on the history, institutions,
and policies of the European Union.

331 The Politics of Developing Nations .................................. 3 cr
Prereq: POLS 103 or 104 and 200. Freq: Occasionally.
Political systems in selected African, Middle Eastern, Asian and Latin
American countries. Problems of developing political institutions to
cope with and generate processes of social change, economic
development and cultural independence.

332 Socialist Thought and Practice ....................................... 3 cr
Prereq: POLS 103, 104 or 105 and 200. Freq: Occasionally.
The thought of Marx and his later interpreters, such as Lenin and
Bernstein. Discussion of the ideological foundations of and political
movements of socialist systems. May include discussion of other
socialist thinkers.

334 Resistance ............................................................... 3 cr
Prereq: Junior standing or consent of instructor. Freq: Yearly.
Examines the dissemination of and resistance to power (in a
Foucauldian sense) in the global economy/polity. Introduces the
concept of modernity and its underside via Horkheimer, Adorno,
and Foucault's notion of power within modern and post-modern
contexts. Extends these notions through the works of Deleuze,
Hardt and Negri, and others. Cross-listed with INTS 334.

335 Democratization .......................................................... 3 cr
Empirical exploration of how countries democratize as well as
concepts and theories regarding these processes. Topics will
include maximalist versus minimalist definitions of democracy; how
democratization can best be operationalized and measured; and
what cultural, economic and political-institutional factors make
democratization viable and long-lived.

340 The Latin American Left ............................................... 3 cr
Course will focus on the Latin American Left—the environment
that spawned it, its historical role in changing Latin American
politics, and its role in the present and future political and economic
development of the region.

341 International Conflict and Cooperation .......................... 3 cr
Prereq: POLS 104 and 200. Freq: Occasionally.
Cooperation and competition in the anarchic environment of
international politics. Selected models of world order investigating
integration and fragmentation of nation-states; development and
maintenance of international regime structures; and the influence of
international/regional organizations.

350 Theories of Comparative Politics ................................. 3 cr
Contemporary theories in comparative politics focusing on major
differences, current issues, actors, institutions, and processes in the
analysis of political systems worldwide.

356 Political Sociology ..................................................... 3 cr
Prereq: SOCA 100 or 101. Freq: Occasionally.
An examination of the relationship between politics and the larger
social structure, e.g., structure of power in the United States, states,
and the economy; political consciousness and the debate on the
changing nature of industrial societies. Cross-listed with SOCA 356.

360 Political Parties and Interest Groups .............................. 3 cr
Prereq: POLS 100, 200 (or concurrent registration in 200).
Freq: Occasionally.
Political party development in the United States; structure, functions,
and behavior of parties and pressure groups; responsiveness to the
electorate and public opinion; and some theories on the role of parties
and interest groups in a democracy. Comparative material included.
367 Latinos (as) and the Law.................................................... 3 cr
Prereq: CRMJ 101 or POLS 100; or consent of instructor.
FREQ: Occasionally.
Introduces and examines experiences Latinos(as) encounter with and within the U.S. criminal justice system, as well as related international and transnational issues. A range of theoretical frameworks will be utilized, including socio-ecological, political, and psychological. Cross-listed with CRMJ 367/ISTD 367.

375 Campaigns and Elections.................................................... 3 cr
Prereq: POLS 100 and 200 (or concurrent registration in 200).
FREQ: Occasionally.
Strategies, tactics and resources used in modern political campaigns and their implications. Examination of the U.S. electoral process and proposals for change.

385 Public Opinion................................................................. 3 cr
Prereq: POLS 100 and 200 (or concurrent registration in 200).
FREQ: Occasionally.
Formation and interpretation of public opinion and consequence for governance. An analysis of the strengths and weaknesses of opinion surveys will be featured.

390 Special Topics ................................................................. 3 cr
Prereq: None.  FREQ: Occasionally.
Selected topics in political science will be examined. May be repeated for credit with different topic.

395 Voting Behavior and Political Participation ......................... 3 cr
Prereq: POLS 100 and 200 (or concurrent registration in 200).
FREQ: Occasionally.
Examination and criticism of several competing explanations of voting behavior and political participation in the United States. The dynamics of citizen involvement in the political process will be featured.

400 Internship.................................................................1-12 cr
Prereq: POLS 100, 200, junior standing.
FREQ: Fall, Spring, Summer.
Student internship in state, regional, county or local government offices or in the offices of elected officials. A maximum of 6 credits of internship can be counted toward meeting the credit-hour requirements for the major. Internship credit does not count toward the 15 credits of upper-division course work required for the major.

415 International Law.......................................................... 3 cr
Prereq: Senior standing, POLS 104, 200.  FREQ: Occasionally.
Survey course in the international legal relationships among actors in world politics. Although much of the course is an overview of the legal framework of public international law, various case studies are investigated.

444 Legal Studies Capstone................................................... 3 cr
Prereq: Senior standing, POLS 209, POLS 216.  FREQ: Fall.
Moot court experience in which students have the opportunity to apply legal research and legal argumentation skills.

445 Senior Seminar in Political Science.................................... 3 cr
Prereq: Senior standing.  FREQ: Occasionally.
A capstone research experience for majors in their last year. Also serves to assess mastery of the discipline of political science. Required of all political science majors who are not concentrating in legal studies. Required civic initiative project.

490 Special Topics in Political Science.................................... 3 cr
Prereq: POLS 100 or consent of instructor and section prereq.
FREQ: Occasionally.
Select topics in political science will be studied at an advanced level.

499 Independent Study.......................................................1-3 cr
Prereq: POLS 200, 206, junior standing; consent of instructor and department chair.  FREQ: Fall, Spring, Summer.
Each student who wishes to take independent study must work out a program with a member of the political science faculty. A maximum of 3 credits of independent study may be applied toward meeting the credit-hour requirements for the major. Independent study credit does not count toward the 15 credits of upper-division course work required for the major.
Program Overview

Program evaluation is the process of using social science research methods to study, appraise, and help improve programs in nonprofit organizations, educational systems, governmental departments, and businesses. Program evaluation is an important component of strategic planning – working to improve the effectiveness of an organization. Program evaluation can employ both qualitative and quantitative research methods. The ability to conduct a research-based evaluation is valuable preparation for leadership roles in the workplace. Program evaluation includes not only the theory, research, multicultural, and data management skills of the social science disciplines but also verbal communication skills, report writing, teamwork, project management, strategic planning, and leadership.

Community Based Research

Classes in this program give students experiences working on projects for organizations in the community. Hands-on experience helps students to close the gap between theory and practice and strengthen their career development. Students in this certificate program learn how to use their social science knowledge to better understand the role of groups in social change, increasing their effectiveness in social action work. They develop analytical skills and learn methodological tools that are relevant for both the workplace and graduate study.

Requirements for the Program Evaluation Certificate
(15 credits)

Core Courses

SOCA 295 Social Science Research Methods ...... 2 cr
 Similar classes from other departments or universities can be submitted for approval.

SOCA 300 Data Collection and Analysis:
Statistics for Evaluation Research ...... 2 cr
 or
SOCA 250 Statistics for the Social Sciences ...... 4 cr
 Similar classes from other departments or universities can be submitted for approval.

SOCA 406 Advanced Program Evaluation .......... 3 cr
SOCA 498 Portfolio ............................................ 1 cr

Elective Courses

One or more of the following courses adding up to 4 credits

SOCA 107 Diversity Circles.......................... 1 cr
SOCA 300 Data Collection & Analysis ............1-3 cr
SOCA 304 Skill Development in Leadership ......... 1 cr
These include courses on topics such as team building, nonprofit organization, and report writing.

SOCA 306 Research in Community Needs ............ 3 cr
Or other courses approved by the director.
PSYCHOLOGY

Degree Offered:
Bachelor of Science.

Professors:
Beyer, Ph.D. (Chair); Colston, Ph.D.; Gurtman, Ph.D.

Assistant Professors:
Chi, Ph.D.; Langley, Ph.D.; Recker, Ph.D.

Clinical Professor:
Conrad, Ph.D.

Student Organizations/Clubs:
Psi Chi, Psychology Club

Up-to-date information can be found on the Psychology Department website at www.uwp.edu Keyword: Psychology.

Career Possibilities:
Typical careers are in mental health and criminal justice settings including hospitals, half-way houses/group homes, parole and probation, and hospice programs. Some public sector and business-related careers are personnel testing, research, advertising and human resources. For those who obtain a master's or Ph.D. degree, career opportunities are greater; jobs are available in mental health as well as research, teaching and business. Some of the mental health careers are clinical psychologist, social worker, professional counselor, marriage and family counselor, and school psychologist.

Requirements for Admission to the Psychology Major
Students must have 15 credits overall, a passing grade in Introduction to Psychological Science (PSYC 101), and a minimum cumulative GPA of 2.50 in order to be eligible for entrance into the major. Transfer students are special cases and will be considered on an individual basis.

Requirements for the Psychology Major (39 credits)
The psychology major consists of a minimum of 36 credits.

A. Core Courses - 9 credits

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYC 101</td>
<td>Introduction to Psychological Science...</td>

</tr>
<tr>
<td>PSYC 260</td>
<td>Psychology of Personality</td>
<td>3 cr</td>
</tr>
</tbody>
</table>

C. Depth Courses (psychology courses numbered 301 and above) – 15 credits.

Note: PSYC 410 and 499 do not count as depth courses.

These students should also plan on taking more than the minimum 39 credits for the major, and on completing a research project through PSYC 499 Independent Study or a PSYC 410 Externship in Psychology under the guidance of a faculty member.

Students majoring in psychology may be eligible for membership in Psi Chi, the national honor society in psychology. This organization, which is affiliated with the Psychology Club, co-sponsors activities that are of broad interest to psychology students (e.g., workshops on graduate school, discussions of employment opportunities). Contact the department for information about how to join Psi Chi and/or the Psychology Club, as well as for a schedule of events.

Department Overview
The psychology major provides a broadly based education in the content, methods, principles, and theories of the science of psychology. The required courses in the major expose students to the traditional important subject areas of psychology. The elective courses in the major allow students the flexibility to pursue their own interests and goals.

Students who are considering psychology as a major should speak with a psychology faculty member early in their education. This will allow them to develop a long-range plan that best meets their educational and career goals. Students whose interests are in the social service and mental health areas should consider the certificate program in mental health.

Students who intend to pursue graduate study in psychology or a related field should discuss this with their adviser as early as possible to develop a plan of study that will prepare them for graduate school.
Requirements for the Psychology Minor (21 credits)
The minor program offers an organized curriculum for students who wish to develop a core understanding of psychology. The minor is not meant for students whose primary interest is the study of psychology. Instead, it is a complement to other fields of study where knowledge of psychology and its methods would be beneficial.

The psychology minor requires a minimum of 21 credits.

A. Core Courses - 9 credits

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>

</tbody>
</table>

C. Depth Courses (psychology courses numbered 301 and above) – 6 credits.

Note: PSYC 410 and 499 do not count as depth courses.

Requirements for the Certificate in Mental Health (19 credits)
The certificate program in mental health is an innovative, new program designed to teach students the kinds of applied skills necessary for successful entry-level employment in clinical settings.

Core courses include:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYC 318</td>
<td>Psychological Assessment</td>
<td>3 cr</td>

<td>Counseling Psychology</td>
<td>4 cr</td>
</tr>
<tr>
<td>PSYC 360</td>
<td>Abnormal Psychology</td>
<td>3 cr</td>
</tr>
</tbody>
</table>

These courses are complemented with electives (6 credits) outside the program that address issues in diversity, special populations, and social problems.

For further information about the program, including specific requirements for completion, contact the program adviser Michael Gurtman.

Courses in Psychology (PSYC)

101 Introduction to Psychological Science ........................................ 3 cr
Prereq: ENGL 100 or concurrent enrollment. Freq: Fall, Spring.
An introduction to the scientific study of mind and behavior, providing coverage of the major areas of research in Psychology, including thinking, social interaction, human development, the nervous systems, abnormal psychology, personality, learning, the history and applications of psychological science, and others.

205 Cognitive Psychology ................................................................. 3 cr
Coverage of theory and research of human cognitive processes. Topics include perception, attention, visual cognition, learning, memory, language, decision making, problem solving, intelligence, and social cognition.

210 Introduction to Human Development .................................................. 3 cr
Prereq: PSYC 101. Freq: Fall, Spring.
Coverage of theories, concepts, and research pertaining to human development throughout the lifespan including biological, cognitive, emotional, and social development.

220 Social Psychology ........................................................................... 3 cr
Prereq: PSYC 101. Freq: Fall, Spring.
The study of the individual in social contexts. Topics include person perception, attribution processes, the self, interpersonal attraction, attitude formation, aggression, prosocial behavior and social influence.

241 Psychology of Aging .......................................................................... 3 cr
Prereq: PSYC 101. Freq: Spring.
Survey of research and theory on the human aging process including physical, cognitive, and social sciences.

250 Psychological Statistics ..................................................................... 3 cr
Prereq: PSYC 101, completion of computational skills requirement. Freq: Fall, Spring.
Application of descriptive and inferential statistics to the research problems of psychology. Projects include computer analysis of data.

260 Psychology of Personality ................................................................... 3 cr
Prereq: PSYC 101. Freq: Fall, Spring.
Theories, models, and conceptions of personality, methods of studying personality, and research findings.

280 Psychology of Gender .......................................................................... 3 cr
Prereq: PSYC 101. Freq: Fall, Spring.
Research on the effects of gender on cognition, personality, emotions, interpersonal relations, labor-force participation and behavior. Theories of gender role development and gender typing are examined.

290 Special Topics in Psychology ............................................................ 1-4 cr
Prereq: PSYC 101. Freq: Occasionally.
Selected topics in psychology.

300 Research Methods ................................................................................ 3 cr
Prereq: PSYC 250, completion of reading and writing skills and information literacy requirements. Freq: Fall, Spring.
Scientific methods in psychology. Includes research design, data collection and interpretation, computer-based statistical analysis, and writing research reports.

301 Learning and Memory .......................................................................... 3 cr
Prereq: PSYC 205, 300. Freq: Spring.
Coverage of theory and research of human learning and memory. Learning topics include classical and operant conditioning, observational learning, and classroom learning. Memory topics include implicit memory, semantic memory, and episodic memory.
304 Language Development
Prereq: PSYC 300 or ENGL 287. Freq: Yearly.
The child's development of the sounds, grammar, meanings, and social knowledge that underlie the ability to use language: theories of language acquisition; and the relation of oral language to the acquisition of literacy.

306 Sensation and Perception
Prereq: PSYC 205, 300. Freq: Occasionally.
Analysis of the sensory organs and perceptual mechanisms used in vision, hearing, touch, taste, and smell. Primary emphasis is on vision and audition.

307 Cross-Cultural Psychology
Prereq: PSYC 220 or 260. Freq: Spring.
Research and theories on the ways in which culture influences human development, social interactions and perceptions; the self and psychological functioning are also discussed.

314 Cognitive Development of Children
Prereq: PSYC 210, 300. Freq: Occasionally.
Advanced coverage of theories, concepts, and research pertaining to the development of children's thinking. Topics include perceptual and conceptual development, language and cognition, and memory development.

318 Psychological Assessment
Prereq: PSYC 101, 250. Freq: Fall.
Assessment of individual characteristics including issues related to measurement, test construction, test usage, reliability and validity, and specialized applications.

325 Physiological Psychology
Prereq: PSYC 101 or BIOS 101. Freq: Occasionally.
Biological bases of behavior, including neurophysiological and neurochemical processes. Cross-listed with BIOS 325.

330 Interviewing
Prereq: PSYC 101, 6 credits in psychology, sociology or business and consent of instructor. Freq: Spring.
Uses and forms of interviewing; problems of interview communication, reliability, and validity; interview strategies, techniques, and tactics; and behavioral processes and research on interviewing.

331 Counseling Psychology
Prereq: PSYC 101, 260. Freq: Fall.
Fundamental techniques of counseling, including counseling relationship skills, assessment of client problems, exploration of behavioral alternatives, and applying psychological principles to effect personal change. Lab will allow application of counseling principles. Four-hour lecture.

334 Infant Development
Prereq: PSYC 210, 300. Freq: Occasionally.
Advanced coverage of theories, concepts, and research pertaining to human development during the first two years of life. Topics include physical, motor, perceptual, cognitive, and social development, with focus on early mechanisms of change.

360 Abnormal Psychology
Prereq: PSYC 205 or 210 or 220 or 260. Freq: Spring.
Mental and behavioral disorders including theoretical models, diagnosis and classification, research findings, and treatment approaches.

362 Theories of Psychotherapy
Prereq: PSYC 260. Freq: Spring.
A comparative examination of the major, systematic approaches to psychotherapy. Case study analyses will be integrated with theory. Research findings on the process and outcome of psychotherapy.

363 Health Psychology
Prereq: PSYC 220 or 260. Freq: Spring.
An introduction to the major theoretical approaches, research findings, and principles of health psychology. Topics include stress and coping; and the role of lifestyle, personality, and social support in health and illness. Links between psychology and specific diseases will be considered.

370 Psychology of Evil
Prereq: PSYC 220 or CRMJ 101, and consent of instructor.
Freq: Fall.
Cruelty and violence directed by one person or group to another is a major concern for all people. This course relies on the findings of learning theory, social psychology, and other areas of psychological research to explore the issue of human violence. The specific goal is to look beyond the perspective of the victim or observer to examine how the perpetrator of cruelty and violence views those acts. Cross-listed with CRMJ 370/HUMA 370.

380 Psychology of Gender
Prereq: PSYC 220 and either PSYC 300 or SOCA 295.
Freq: Fall, Spring.
Research on the effects of gender on cognition, personality, emotions, interpersonal relations, labor-force participation and behavior. Theories of gender role development and gender typing are examined.

390 Special Topics in Psychology
Prereq: Consent of instructor. Freq: Occasionally.
Selected topics in psychology will be examined.

410 Externship in Psychology
Prereq: 18 credits in psychology, 3.00 GPA in psychology courses, and consent of instructor. Freq: Fall, Spring.
Supervised experiences in planned projects done in a community setting.

421 Advanced Social Psychology
Prereq: PSYC 220 and 300. Freq: Occasionally.
This seminar explores a subject area within social psychology (e.g., the self, stereotyping, social perception, etc.) in an in-depth manner. The course emphasizes the empirical nature of social psychology and teaches research skills.

441 Advanced Human Development Seminar
Prereq: PSYC 210 and PSYC 300. Freq: Occasionally.
Focused study of a specific developmental topic such as moral development, adult cognitive development, Piagetian theory, etc. Primary reliance on advanced methodological issues, research reports, and primary theoretical sources.

460 Developmental Psychopathology
Prereq: PSYC 210, 300. Freq: Occasionally.
This course will provide a broad survey of what is considered to be disordered or abnormal behavior in children within a developmental context. Emphasis will be placed on a scientific view of psychopathology during childhood/adolescence. The two main foci of the course are the (a) description of various behaviors, symptoms, syndromes and illnesses and (b) research and theories concerning etiology.

490 Special Topics in Psychology
Prereq: Consent of instructor. Freq: Occasionally.
Special topics in psychology studied at an advanced level.

497 Thesis in Psychology
Prereq: Consent of instructor. Freq: Occasionally.

499 Independent Study
Prereq: PSYC 300, consent of instructor and department chair.
Freq: Fall, Spring.
Participation in research activities under the direction of a faculty member.
Degree Offered:
Bachelor of Arts.

Associate Professors:
Da’na, Ph.D.; Khoury, Ph.D.; Rosenberg, Ph.D.;
Sasso, Ph.D.; Schleiter, Ph.D.

Assistant Professors:
Barry, Ph.D.; Gillogly, Ph.D.; Kim, Ph.D.; Wang, Ph.D.

Lecturers:
Hicks, M.A.; Reinders, M.A.

Student Organizations/Clubs:
Parkside Anthropological Society, Sociology Club

Career Possibilities:
Social services (rehabilitation, case management, group work with youth or the elderly, recreation, or administration); community work (social service and nonprofit organizations, child-care or community development agencies, or environmental groups); corrections (probation, parole, or other criminal justice work); business (advertising, marketing and consumer research, insurance, real estate, personnel work, training, or sales); college settings (admissions, alumni relations, or placement offices); health services (family planning, substance abuse, rehabilitation counseling, health planning, hospital admissions, and insurance companies); publishing, journalism, and public relations (writing, research, and editing); government (federal, state, and local government jobs in such areas as transportation, housing, agriculture, labor, international development; and historic preservation); contract archaeology and cultural resource management, forensic anthropology, and museum work.

Department Overview
Sociology and anthropology are complementary approaches to the study of society and culture. While sociologists usually study modern urban industrial societies, anthropologists take a broader perspective by focusing on cultural and biological adaptations of all humankind, whether past or present.

Sociology is the scientific study of the processes and patterns of individual and group interaction, of the forms of social organization, and of the influence of group pressures upon individual behavior. Opportunities are available for the application of sociological knowledge and the use of critical thinking to clarify social problems and evaluate policies of public and private agencies, particularly by field experiences in such areas as industrial organizations, social change, intergroup relations, criminal justice, and social welfare.

Anthropology is the comparative study of human life and culture, past and present. It is concerned with human biological and cultural adaptations to physical and social environment throughout time and in all parts of the world. The basic themes of anthropology include adaptation, evolution, change, and continuity. Opportunities exist to apply anthropological knowledge to many problems of modern society, including the social impact of development, economic and political change, and cultural resource management.

The sociology major offers a breadth of exposure to subject matter in both sociology and anthropology, with grounding in the theories and methods of these disciplines. The curriculum includes an understanding of theories and methods used by sociologists and anthropologists, as well as substantive areas to which these theories and methods are applied. The student interested in studying and working in such areas as social change, cultural resource management, museum work, and forensic science may elect a formal concentration in anthropology.

Preparation for Graduate School
Students who graduate with a bachelor’s degree in sociology are qualified to enter graduate and professional programs in many fields such as sociology, social work, law enforcement, and public/social service administration. Those opting for the anthropology concentration are likewise qualified to enter graduate programs in a variety of fields, including historic preservation, cultural resource management, forensic anthropology, museum studies, global studies, international development, as well as find work in a range of business, medical, government, and nonprofit work.

Requirements for the Sociology Major (38-39 credits)
In order to be accepted as a major in sociology, a student must have a 2.25 GPA overall and must have completed SOCA 100 or 101. A major in sociology consists of a minimum of 38 credits. At least 15 credits of upper-level courses in the major must be completed at UW-Parkside. Under consultation with a faculty member, an advanced student may opt to “design” his/her own course as an independent study in sociology/anthropology. The student must work with a faculty member whose expertise is in the selected topic. Together, they negotiate the focus and content of the course, materials to be examined, and so forth. The following core courses, to be completed by the end of the junior year or prior to the completion of 90 credit hours of study, are required of all students majoring in sociology:
### Standard Major

#### Elective Courses (18 credits)

Satisfy either Format 1 or Format 2 with at least 12 credits in upper-level (300-400 level) courses. Courses may be counted only once within any format. Format:

1. Select two of the following areas and complete at least three courses under each area (see below), or
2. Complete one course from at least four of the specialization areas (see below). And then, the student may:
   a. choose to specialize in a particular area or
   b. choose one course each from two additional areas.

### Criminology and Deviance

Students may fulfill a specialization in family and human services by completing one course under the heading of race and ethnic relations.

### Concentration in Anthropology

The concentration in anthropology provides an introduction to the major subfields of anthropology: cultural anthropology, physical anthropology, and archaeology. The concentration emphasizes the comparative study of society and culture. It uses a variety of analytical approaches to study human evolution, the organization of traditional societies and cultures, and change and continuity in contemporary societies and cultures. Students are required to gain first-hand exposure...
Core courses in Sociology and Anthropology (11 credits)

SOCA 248 Research Report Writing for Social Sciences .................. 3 cr
SOCA 295 Social Science Research Methods ................ 2 cr
SOCA 250 Statistics for the Social Sciences ................ 4 cr
SOCA 300 Data Collection and Analysis .................. 2 cr

Theory courses in Anthropology or Sociology (3 credits)

SOCA 301 Introduction to Sociological Theory .......... 3 cr
OR
SOCA 302 Anthropological Theory .................. 3 cr

Program Overview Courses (12 credits)

SOCA 100 Introduction to Anthropology ............ 3 cr
SOCA 202 Cultural Anthropology .................. 3 cr
SOCA 204 Human Evolution .................. 3 cr
SOCA 208 Introduction to Archaeology .................. 3 cr

Regional Ethnographic Course (3 credits)

SOCA 226 Peoples of Africa .................. 3 cr
SOCA 227 North American Indians .................. 3 cr
SOCA 228 Peoples of Southeast Asia .................. 3 cr

A minimum of 6 credits from the following

SOCA 240 Cross-Cultural Encounters .................. 3 cr
SOCA 310 Forensic Anthropology .................. 3 cr
SOCA 312 Anthropology of Language .................. 3 cr
SOCA 315 Anthropology of Non-Western Art .................. 3 cr
SOCA 321 Religion and Society .................. 3 cr
SOCA 322 Sociology of Language and Knowledge .................. 3 cr
SOCA 325 Comparative Race and Ethnic Relations .................. 3 cr
SOCA 327 Archaeology of North America .................. 3 cr
SOCA 328 Asians in American Society .................. 3 cr
SOCA 355 Urbanism and Urbanization .................. 3 cr
SOCA 357 Livelihoods and Exchange .................. 3 cr
SOCA 362 Migration and Immigration .................. 3 cr
SOCA 382 Environmental Anthropology .................. 3 cr
SOCA 455 International Development and Change .................. 3 cr

Anthropology Fieldwork and Senior Portfolio

(4 credits minimum, including one credit for Portfolio)

SOCA 491 Anthropology Fieldwork .................. 1-10 cr

The minor in anthropology consists of a minimum of 21 credits, distributed as follows:

Required Course (3 credits)

SOCA 100 Introduction to Anthropology ............ 3 cr

Overview Courses (9 credits)

SOCA 202 Cultural Anthropology .................. 3 cr
SOCA 204 Human Evolution .................. 3 cr
SOCA 208 Introduction to Archaeology .................. 3 cr

Electives (9 credits, with at least 6 credits at the 300 or 400 level)

SOCA 226 Peoples of Africa .................. 3 cr
SOCA 227 North American Indians .................. 3 cr
SOCA 228 Peoples of Southeast Asia .................. 3 cr
SOCA 240 Cross-Cultural Encounters .................. 3 cr
SOCA 290 Special Topics in Sociology and/or Anthropology .................. 1-3 cr
SOCA 295 Social Science Research Methods .................. 2 cr
SOCA 300 Data Collection and Analysis .................. 1 cr
SOCA 302 Anthropological Theory .................. 3 cr
SOCA 310 Forensic Anthropology .................. 3 cr
SOCA 312 Anthropology of Language .................. 3 cr
SOCA 315 Anthropology of Non-Western Art .................. 3 cr
SOCA 327 Archaeology of North America .................. 3 cr
SOCA 328 Asians in American Society .................. 3 cr
SOCA 355 Urbanism and Urbanization .................. 3 cr
SOCA 357 Livelihoods and Exchange .................. 3 cr
SOCA 362 Migration and Immigration .................. 3 cr
SOCA 382 Environmental Anthropology .................. 3 cr
SOCA 390 Special Topics in Sociology and/or Anthropology .................. 1-3 cr
SOCA 455 International Development and Change .................. 3 cr
SOCA 490 Special Topics in Sociology and/or Anthropology .................. 1-3 cr
SOCA 491 Anthropology Fieldwork .................. 1-3 cr

The minor in sociology consists of a minimum of 21 credits, distributed as follows:

Required Courses (6 credits)

SOCA 101 Introduction to Sociology .................. 3 cr
AND EITHER
SOCA 295 Social Science Research Methods .................. 2 cr
SOCA 300 Data Collection and Analysis .................. 1 cr
OR
SOCA 301 Introduction to Sociological Theory .................. 3 cr

Electives (15 credits, with at least 9 credits at the 300 or 400 level)

SOCA 102 Contemporary Social Problems .................. 3 cr
SOCA 206 Race and Ethnic Relations in the U.S. .................. 3 cr
SOCA 207 Marriage and Family .................. 3 cr
Courses in Sociology/Anthropology (SOCA)

100 Introduction to Anthropology .................................................. 3 cr
   Prereq: None. Freq: Fall, Spring.
   A survey of human evolution and culture. Introduces the subfields
   within anthropology: physical anthropology, archaeology, cultural
   anthropology and linguistics.

101 Introduction to Sociology ..................................................... 3 cr
   Prereq: None. Freq: Fall, Spring.
   Sociology as a special field of behavioral science, examines social
   relations, social organization and social systems through the study
   of process, structure, and function.

102 Contemporary Social Problems............................................... 3 cr
   Prereq: None. Freq: Fall, Spring.
   Sociological examination of selected major problems facing modern
   society. Analysis of important issues of public and academic
   concern; e.g., overpopulation, poverty, women's issues, alienation.

107 Diversity Circles................................................................. 1 cr
   Prereq: None. Freq: Fall, Spring.
   Small group dialogues that help students become aware of their
   own biases as well as understand the impact of racism in schools,
   communities, and society.

202 Cultural Anthropology......................................................... 3 cr
   Prereq: SOCA 100 or 101. Freq: Fall.
   Basic theoretical concepts and an analysis of cultural systems and
   social institutions in a cross-cultural frame of reference. Cross-
   listed with INTS 210.

204 Human Evolution..................................................................... 3 cr
   Prereq: SOCA 100 or 101. Freq: Spring.
   Analysis of the fossil evidence for human evolution. Modern human
   genetics, evolutionary theory, and biological variation within the
   human species.

206 Race and Ethnic Relations in the U.S..................................... 3 cr
   Prereq: SOCA 100 or 101 or consent of instructor. Freq: Fall,
   Spring, Summer.
   Introduction to the formation and dynamics of ethnic and race
   relations in the United States and their social consequences in
   terms of the categorization of people and the distribution of their
   life chances.

207 Marriage and Family............................................................. 3 cr
   Prereq: SOCA 100 or 101 or consent of instructor. Freq: Fall,
   Spring, Summer.
   Nature and functions of the family; cross cultural and/or life course
   comparisons of marriage and family arrangements; gender role
   training; premarital and marital social and sexual activities, power
   dynamics, and other family processes.

208 Introduction to Archaeology.................................................. 3 cr
   Prereq: SOCA 100. Freq: Fall.
   Concepts and methods for the scientific study of prehistoric cultures.
   Discussion of field methods, laboratory analysis, archaeological
   theory, and major trends in world prehistory.

213 Gender and Society............................................................... 3 cr
   Prereq: 3 credits in sociology. Freq: Fall, Spring.
   Overview of theory and research on gender roles and gender
   stratification, focusing on political, economic, family and other
   settings; historical, cross cultural and subcultural comparisons.

216 Social Issues in Substance Use and Abuse.......................... 3 cr
   Prereq: 3 credits in sociology. Freq: Every third semester.
   An overview of theory and research on substance abuse including
   legal (alcohol, tobacco) and controlled substances. The focus is on
   differences in patterns of chemical use within historical, cultural and
   class contexts.
226 Peoples of Africa .................................................. 3 cr
Prereq: SOCA 100 or 101. Freq: Fall.
A survey of the societies and cultures of Africa. Discusses history, cultural variation, and contemporary social change. Cross-listed with INTS 226.

227 North American Indians ........................................... 3 cr
Prereq: SOCA 100 or 101. Freq: Fall.
An anthropological survey of traditional American Indian cultures of the United States and Canada. Focus on various aspects of culture, history and recent culture change.

228 Peoples of Southeast Asia ........................................... 3 cr
Prereq: SOCA 100 or 101 or consent of instructor. Freq: Spring. An anthropological survey of Southeast Asia, including the mainland and islands; focuses on cultures, history, socioeconomic conditions, particularly the everyday life of people.

233 Criminology ......................................................... 3 cr
Prereq: SOCA 100 or 101 or CRMJ 101 or consent of instructor. Freq: Fall, Spring.

234 Juvenile Delinquency/Juvenile Justice ......................... 3 cr
Prereq: SOCA 100 or CRMJ 101 or consent of instructor. Freq: Fall, Spring.
Conceptions of juvenile delinquency; the offender in the juvenile justice system; the philosophy, structure and function of juvenile courts; philosophy, development, and organization of diversion, detention and treatment of the juvenile offender. Cross-listed with CRMJ 234.

235 Police & Society ..................................................... 3 cr
Prereq: SOCA 100 or CRMJ 101 or consent of instructor. Freq: Fall, Spring.
A study of the various levels, roles and functions of law enforcement in America. The nature and responsibilities of law enforcement are discussed and evaluated including police accountability and civil liability. Examines the racial, ethnic, and gender issues in law enforcement. Cross-listed with CRMJ 235.

240 Cross-Cultural Encounters ....................................... 3 cr
Prereq: None. Freq: Occasionally. Cross-cultural interaction, communication, and value differences; applications for those planning to travel, live, work in a new cultural context.

243 Latinas/os in the United States .................................. 3 cr
Prereq: SOCA 100 or 101. Freq: Occasionally. Survey of Latina/o groups in the United States; focus on the Latina/o experience (i.e. immigration, causes and consequences of minority status; current socioeconomic position, racial and ethnic identity). Cross-listed with ETHN 243.

248 Research Report Writing for the Social Sciences ........... 3 cr
Prereq: SOCA 100 or 101. Freq: Fall, Spring.
Preparation of research reports, such as the types assigned in the 300 and 400 level classes. Focus on understanding the format of research papers and improving writing ability.

250 Statistics for the Social Sciences ................................ 4 cr
Prereq: MATH 111, computational skills requirement (MATH 102), or consent of instructor. Freq: Fall, Spring. Descriptive and inferential statistics as applied to nominal, ordinal, and interval measurements of behavior. Examples selected from behavioral-science data.

259 Special Topics ....................................................... 1-3 cr
Prereq: SOCA 100 or 101. Freq: Occasionally. Selected topics in sociology and/or anthropology will be examined.

290 Special Topics ....................................................... 1-3 cr
Prereq: SOCA 100 or 101 and 3 additional credits in sociology, or consent of instructor. Freq: Fall (even years).
A sociological approach to micro-level, interpersonal issues including basic social psychological theories, group processes and dynamics, the micro-level impact of race, class and gender, and postmodern analysis of the dissolution of the self.

295 Social Science Research Methods .............................. 2 cr
Prereq: SOCA 100 or 101 and sophomore standing. Freq: Fall, Spring.
Introduction to philosophies, methods and problems of social research; sampling and data collection techniques; questionnaire construction, interviewing techniques, field methods, and content analysis.

300 Data Collection and Analysis ................................... 1-3 cr
Prereq: SOCA 295 or concurrent registration, or consent of instructor. Freq: Fall, Spring, Summer.
Specific methods of data collection and analysis. Topics will vary. May be taken more than once for credit. A minimum of 2 credits are required for the sociology-anthropology major.

301 Introduction to Sociological Theory ............................ 3 cr
Prereq: SOCA 100 or 101 and junior standing. Freq: Fall, Spring.
Introduction to major sociological concepts and theories, and their application in the analysis of social structures and processes.

302 Anthropological Theory ........................................... 3 cr
Prereq: SOCA 100 or 101 and junior standing. Freq: Spring (even years).
Examines contemporary theories in social and cultural anthropology, including evolutionist, structural functionalist, and symbolic approaches.

304 Skill Development in Leadership ................................ 1 cr
Prereq: SOCA 100 or 101; junior standing. Freq: Occasionally.
Sociological perspectives and intensive training in an important aspect of grass-roots leadership. The particular focus of the course will vary. Areas include grant writing, team building, and working with media. May be taken more than once for credit.

306 Research in Community Needs ................................ 3 cr
Prereq: SOCA 100 or 101; junior standing. Freq: Every third semester.
Assessment of the needs of a community or environment using the methods of evaluation research.

310 Forensic Anthropology ........................................... 3 cr
Prereq: SOCA 204 or consent of instructor. Freq: Spring.
A laboratory/lecture course in human osteology, involving the identification of human skeletal remains for legal and scientific purposes. The establishment from skeletal remains of the age, sex, biological background, stature, trauma, abnormalities of growth, and details of health and nutritional history.

312 Anthropology of Language ........................................ 3 cr
Prereq: SOCA 100 or 101 and junior standing or consent of instructor; Freq: Spring.
Introduces concepts used in the anthropological study of language and communication, including phonetics, historical linguistics, language acquisition, cognition and how meaning is formed through linguistic interactions, modes of communication in different social settings, and how culture influences the transmission of information.

315 Anthropology of Non-Western Art ................................ 3 cr
Prereq: Prereq: SOCA 100 or 101, or ART 125 or 126, or consent of instructor; Freq: Spring (odd years).
An anthropological examination of indigenous arts and material culture. Focus on functions of art related to social organization, belief systems, and culture change; includes selected prehistoric and contemporary art forms. Cross-listed with ART 315.

319 Death and Dying .................................................... 3 cr
Prereq: SOCA 101; Freq: Spring.
Sociological analysis of patterns of behavior and beliefs about death, dying, and bereavement. Medical, legal, and ethical issues are also studied.

320 Sociological Social Psychology ................................... 3 cr
Prereq: SOCA 100 or 101 and 3 additional credits in sociology, or consent of instructor. Freq: Fall (even years).
A sociological approach to micro-level, interpersonal issues including basic social psychological theories, group processes and dynamics, the micro-level impact of race, class and gender, and postmodern analysis of the dissolution of the self.
321 Religion and Society .................................................. 3 cr
Prereq: SOCA 100 or 101. Freq: Occasionally.
Comparative study of religion and society with an emphasis on the major religious traditions. Examination of the relationship between religions, beliefs and social values.

322 Sociology of Language and Knowledge .......................... 3 cr
Prereq: SOCA 100 or 101. Freq: Occasionally.
An introduction to the concepts, theoretical frameworks and concerns of sociolinguists. Emphasis of ethnomethodology, language planning (such as bilingual education, professional languages), and cultural politics affecting linguistic minorities (language maintenance, language shift, and language choice as a human right).

323 Institutional Racism in America ................................... 3 cr
Prereq: SOCA 100 or 101. Freq: Every third semester.
Analysis of racism in America’s social institutions (i.e., law, family, workplace, sports, education, mass media). An examination of social, economic and political institutions within racial/ethnic communities and their relationship to the larger American society.

324 African American Studies ........................................... 3 cr
Prereq: SOCA 100 or 101. Freq: Occasionally.
Examines the experiences of African Americans, both current and historical, using a variety of theoretical models and perspectives; macro-level contexts of those experiences.

325 Comparative Race and Ethnic Relations .......................... 3 cr
Prereq: SOCA 100 or 101. Freq: Every third semester.
A comparison and analysis of race and ethnic relations across at least three different societies.

326 Social Gerontology .................................................... 3 cr
Prereq: SOCA 100 or 101 or Junior standing or consent of instructor. Freq: Fall.
Examination of quality of life issues among elderly; focuses on medical, social, educational, recreational and economic institutions.

327 Archaeology of North America .................................... 3 cr
Prereq: SOCA 100 or 208. Freq: Spring (even years).
Focus on evidence for human migration to the New World and the examination of subsequent cultural developments in all major regions of North America lying north of Mexico.

328 Asians in American Society ......................................... 3 cr
Prereq: SOCA 100 or 101. Freq: Fall.
Examines the culture, social, political, historical, and economic experiences of Asians in America. Among the topics covered are Asian Americans as perpetual foreigners, racism, immigration, citizenship, language, education and job opportunities.

329 Social Institutions in Contemporary China ..................... 3 cr
Prereq: SOCA 100 or 101. Freq: Fall (odd years).
Introduces the social institutions and changes in the twentieth century China. Topics include population, family, education, economy, and politics.

330 Sport in Society ....................................................... 3 cr
Prereq: Sophomore standing (minimum). Freq: Fall, Spring.
A survey of the past and present roles sport has played within our society including its impact on the educational system, the media, the family, and economic structures. Areas including heritage, social status, personality and race are addressed. Cross-listed with HESM 330.

331 Deviant Behavior ...................................................... 3 cr
Prereq: SOCA 100 or 101 and junior standing.
Freq: Every third semester.
A survey of theoretical perspectives on deviant behavior which traces the development of how deviance is defined, explained and controlled.

332 Sociology of Mental Illness .......................................... 3 cr
Prereq: SOCA 100 or 101 and junior standing.
Freq: Every third semester.
Mental illness as a social role/social label is examined in terms of institutional and sociocultural factors.

336 Childhood and Society ............................................... 3 cr
Prereq: SOCA 100 or 101. Freq: Occasionally.
An examination of childhood as a socially constructed idea which has a profound effect on our lives and our communities; ever-changing images, definitions, agreements, and rules about childhood; the social structures incorporating childhood; the relationship of childhood to power distributions and economic inequalities.

352 Law and Social Change .............................................. 3 cr
Prereq: SOCA 100 or 101 or CRMJ 101, or consent of instructor. Freq: Yearly.
This course will provide a broad theoretical background against which to explore policies in the system of law, in definition and enforcement of the law, and to follow those policies as they have been and are presently affected by social change. Cross-listed with CRMJ 352.

354 Class, Status, and Power ............................................. 3 cr
Prereq: SOCA 100 or 101. Freq: Spring.
Patterns of inequalities and their relationship to social conflict, social organization, belief systems, race/ethnic identities, gender roles, and global systems of wealth and power.

355 Urbanism and Urbanization ........................................ 3 cr
Prereq: SOCA 100 or 101. Freq: Occasionally.
Comparative study of cities including preindustrial, industrial and third-world cities. Examines urbanization process, and urban social organization and culture.

356 Political Sociology ................................................... 3 cr
Prereq: SOCA 100 or 101. Freq: Occasionally.
An examination of the relationship between politics and the larger social structure, e.g., structure of power in the United States and the economy; political consciousness and the debate on the changing nature of industrial societies. Cross-listed with POLS 356.

357 Livelihoods and Exchange ............................................ 3 cr
Prereq: SOCA 100 or 101. Freq: Occasionally.
Comparative study of economic organization emphasizing non-Western societies. Focus on livelihood activities, systems of production and exchange and economic change.

358 Introduction to Population Studies 3 cr
Prereq: SOCA 100 or 101 and junior standing. Freq: Occasionally.
Population size, composition and processes, migration, and social and economic determinants of demographic changes with emphasis on their effects upon social organization.

359 Law and Society ..................................................... 3 cr
Prereq: CRMJ 101 or SOCA 100 or 101. Freq: Occasionally.
Selected legal rules, principles, and institutions treated from a sociological perspective. Influence of culture and social organization on law; role of law in social change; social aspects of the administration of justice; and social knowledge and law. Cross-listed with CRMJ 359.

360 Critical Ethnic Studies ............................................... 3 cr
Prereq: SOCA 100 or 101; or consent of instructor. Freq: Yearly.
A critical examination of the social conditions under which ethnic, including "racial", groups achieve the status of "natural" and "pure" social formations in the United States and in selected other societies. Special attention is given to perceptions of "whiteness" and "hybridity" and their social consequences. Cross-listed with ETHN 360.

362 Migration and Immigration ......................................... 3 cr
Prereq: SOCA 100 or 101. Freq: Occasionally.
Migration and immigration as major processes of change in the United States and internationally. Focus on communities, social networks, and work activities of migrants.
363 Corrections ............................................ 3 cr
Prereq: SOCA 100 or 101 or CRMJ 101 or consent of instructor.
Freq: Fall, Spring.

365 Race, Crime and Law .................................. 3 cr
Prereq: CRMJ 101 or SOCA 100 or 101, junior standing.
Freq: Fall, Spring.
This course explores the intersections of race, crime and law in terms of the historical context, the present day situation and future directions. From law enforcement to courts and corrections, this course focuses on the multiple perspectives from offender to victim to criminal justice practitioner. Cross-listed with CRMJ 365.

368 Victimology ............................................. 3 cr
Prereq: SOCA 100 or 101 or CRMJ 101 or consent of instructor.
Freq: Occasionally.
An examination of the causes and consequences of crime victimization. The history and recent re-emergence of the study of the victim, and the types and circumstances of criminal victimization. The course addresses victims' rights and the victims' rights movement. Cross-listed with CRMJ 368.

371 Occupations and Professions .......................... 3 cr
Prereq: SOCA 100 or 101. Freq: Occasionally.
Analysis of selected occupations and professions in modern life; recruitment, socialization, work roles and careers, occupational ideologies and practices.

372 Technology and Society ............................... 3 cr
Prereq: SOCA 100 or 101. Freq: Occasionally.
Examination of critical, structural, contextual, and interactionist approaches to technology and technological change. Develops new perspectives on the interactions between technology and social organization. Discusses the causes and effects of technological change.

373 Formal Organization .................................... 3 cr
Prereq: Consent of instructor. Freq: Fall.
Examines fundamental issues concerning social organization, including such topics as sociological theories of formal organization, research methods for analyzing organizations, individuals, and groups in organizations, organizational structure, communication, leadership, and decision-making, organizational change and effectiveness.

374 Women and Work ...................................... 3 cr
Prereq: SOCA 100 or 101. Freq: Every third semester.
Examines the position of women in the work world including the importance of gender in determining definitions and valuations of “work.” The situation of women globally and historically is considered as context for current patterns in the United States.

375 Sociology of Education ................................. 3 cr
Prereq: SOCA 100 or 101. Freq: Every third semester.
Education analyzed as an institution that influences and is influenced by society. Reviews the functions of education, how social conflict shapes schools, and the connections between education and social inequality.

379 Society and Environment .............................. 3 cr
Prereq: SOCA 100 or 101. Freq: Every third semester.
A sociological examination of environmental philosophies, movements, attitudes, and issues. A diverse, multicultural array of approaches are considered.

380 Social Welfare as a Social Institution ............... 3 cr
Prereq: SOCA 100 or 101. Freq: Occasionally.
A survey of American social work emphasizing recent changes in organization and methods. Special attention is given to work with subcultures and minorities.

382 Environmental Anthropology ......................... 3 cr
Prereq: SOCA 100 or 101 or consent of instructor.
Freq: Fall (odd years).
Anthropological survey of human/environmental relations. Discussion of ecological concepts and processes in relation to past and present human life, in simple and complex societies. Focus on anthropological perspectives on current environmental problems as aspects of the cultural adaptation to natural and social environments.

390 Special Topics ......................................... 1-3 cr
Prereq: SOCA 100 or 101. Freq: Occasionally.
Selected topics in sociology and/or anthropology will be examined.

406 Advanced Program Evaluation ........................ 3 cr
Prereq: Minimum of 2 credits in SOCA 300. Freq: Spring.
Examination of the role of research in program planning and implementation; advanced application of this knowledge in a community based learning project.

430 Public Health ............................................ 3 cr
Prereq: Any one of SOCA 250, 295, or BIOS 210.
Freq: Spring (even years).
Study of the health status of populations and the social, political, economic, and environmental factors that influence health, disease, and illness in populations; special focus on historical patterns, current challenges, and alternatives for future change.

455 International Development and Change ........... 3 cr
Prereq: 6 credits in sociology. Freq: Occasionally.
Comparative analysis of social change and international development. Focuses on theories, the role of development agencies, and case studies of development projects.

490 Special Topics in Sociology and/or Anthropology .... 3 cr
Prereq: SOCA 100 or 101; junior standing or consent of instructor.
Freq: Occasionally.
Selected topics in sociology and/or anthropology will be examined.

491 Anthropology Fieldwork .............................. 1-10 cr
Prereq: SOCA 100 or 101 and consent of instructor. Freq: Fall, Spring, Summer.
Faculty supervision of student field research experience.

492 Internship in Sociology/Anthropology ............. 1-4 cr
Prereq: SOCA 100 or 101; junior standing and consent of instructor. Freq: Fall, Spring, Summer.
Community work experience with emphasis on job preparation skills, i.e., resume writing, networking, interviewing.

495 Senior Seminar ........................................ 3 cr
Prereq: SOCA 295; SOCA 301 or 302; senior standing.
Freq: Fall, Spring.
Capstone experience for majors that includes reflection on the competencies gained from the major, how they relate to experiences after graduation, and work on a major project that allows application of the skills and competencies learned. May be taken for credit more than once with consent of instructor.

498 Portfolio ................................................. 1 cr
Prereq: Senior standing or consent instructor. Freq: Fall, Spring.
This class is designed to aid students in developing a portfolio to document their achievements in a certificate program, minor, or major. The class will make explicit their personal and career abilities and goals through completing a resume and through peer assessment of their work.

499 Independent Study ................................... 1-4 cr
Prereq: Sociology major; junior standing; consent of instructor and department chair. Freq: Fall, Spring, Summer.
Independent work on specific problems in sociology and/or anthropology, under faculty supervision.
SUSTAINABLE MANAGEMENT

Keyword: Sustainable Management

Degree Offered:
Bachelor of Science.

Professor:
Chalasani, Ph.D; Walasek, Ph.D.

Associate Professors:
Kaufman, Ph.D.; Skalbeck, Ph.D. (Director); Wolf, Ph.D.

Assistant Professor:
French, Ph.D; Kuruvilla, Ph.D.; Ward, Ph.D.

Senior Lecturer:
Miller, M.A.

Adjunct Instructors:
Bee, Ph.D. (Stout); Hadley, Ph.D. (River Falls); Hembd, Ph.D. (Superior); Kuehl, Ph.D. (River Falls); Little, Ph.D. (Stout); McDonald, Ph.D. (Stout); Nelson, Ph.D. (Superior); Olson, Ph.D. (River Falls); Sanden, Ph.D., (River Falls); Stewart, R., Ph.D. (Superior); Trudeau, Ph.D. (Superior); Tompkins, J.D. (River Falls); Vanden Bloomen, Ph.D. (Superior); Vignona, Ph.D. (River Falls)

Student Organizations/Clubs:
BIOS Club, Geosciences Club, Geography Club, Parkside Environmental Club

Career Possibilities:
Environmental consulting, environmental law and law enforcement, forestry, journalism, natural resource management, science teaching, sustainable management, wetlands management, wildlife conservation.

Program Overview
This program is a collaborative, online bachelor of science degree completion program in sustainable management offered jointly by UW-Parkside, UW-River Falls, UW-Stout, UW-Superior and UW-Extension. This program consists of 21 courses that constitute the degree completion curriculum (final 63 credits) of the sustainable management degree. Because the first two years of the program curriculum consist primarily of general education requirements and prerequisites, students can enter the program through the UW Colleges, the Wisconsin Technical Colleges, or any of the UW System campuses. Students wishing to complete the entire curriculum online may do so by entering through UW Colleges online and then finishing this online program through any one of the four institutions in the collaboration.

Requirements for the Sustainable Management Major (63 credits)
Students are admitted into the program after completing the UW-Parkside general education requirements and have earned 60 credits of college work. Students are also required to have completed the following prerequisite courses: college algebra, introductory biology, general chemistry, introductory communication, and statistics. Students are required to complete each of the 21 courses of this degree completion curriculum.

Requirements for the Sustainable Management Science Certificate (12 credits)
The Sustainable Management Program offers an online certificate in sustainable management science that is available to undergraduate students as well as to non-degree seeking students. Students applying to the certificate program will have to meet the course prerequisites for the courses listed in the certificate program. Admission to the certificate program does not comprise admission to the bachelor of science in sustainable management (SMGT) degree program. To be admitted to the SMGT degree program, students will have to follow the admissions processes of degree seeking students and meet the requirements for the SMGT degree program. Students who complete courses in a certificate program and are later admitted to the SMGT degree program will be able to use the credits earned in the certificate program toward the degree (cumulative GPA of 2.00 required).

Certificate in sustainable management science required courses (12 credits):
- SMGT 310 Ecology for Sustainable Management ......................... 3 cr
- SMGT 315 Global Environmental Chemistry ........ 3 cr
- SMGT 320 Energy for Sustainable Management ... 3 cr
- SMGT 325 Natural Resource Management .......... 3 cr

Requirements for the Sustainable Enterprise Management Certificate (15 credits)
The Sustainable Management Program offers an online certificate in sustainable enterprise management that is
available to undergraduate students as well as to non-degree seeking students. Students applying to the certificate program will have to meet the course prerequisites for the courses listed in the certificate program. Admission to the certificate program does not comprise admission to the bachelor of science in sustainable management (SMGT) degree program. To be admitted to the SMGT degree program, students will have to follow the admissions processes of degree seeking students and meet the requirements for the SMGT degree program. Students who complete courses in a certificate program and are later admitted to the SMGT degree program will be able to use the credits earned in the certificate program toward the degree (cumulative GPA of 2.00 required).

The certificate in sustainable enterprise management requires five of the six courses (15 credits):

- SMGT 230  Triple Bottom Line Accounting for Managers ................................. 3 cr
- SMGT 235  Economics in Society and Sustainability ........................................... 3 cr
- SMGT 331  Sustainable Organizational Finance .................................................. 3 cr
- SMGT 430  International Management for a Sustainable World ...................... 3 cr

Students select one of these two courses:

- SMGT 335  Management & Environmental Information Systems .................. 3 cr
- OR
- SMGT 350  Operations Management and Sustainability ................................. 3 cr

Courses in Sustainable Management (SMGT)

115 Environmental Science and Sustainability .................................. 3 cr
Prereq:  Admitted SMGT majors only or program adviser consent on space available basis.
Freq:  Fall, Spring, Summer.
This course presents an overview of the interrelationships between humans and the environment. The material presented in the first one-third of the course focuses on important ecological concepts. The remainder of the course deals with human influence on the environment and sustainable practices to avoid or ameliorate the negative impacts. The ecological concepts are used throughout to identify, understand, and provide a basis for proposing possible solutions to contemporary environmental problems. Overall, this course will provide the student with a better understanding of how humans can more positively affect the environment in which they live.

230 Triple Bottom Line Accounting for Managers ................................. 3 cr
Prereq:  UW College MAT 110 or equivalent, admitted SMGT majors only or program adviser consent on space available basis.
Freq:  Fall, Spring, Summer.
Students will be introduced to the discipline of financial and managerial accounting and learn how this information is used. Students will gain a basic knowledge of the preparation of financial statements and their analytical use. Further, students will explore how this accounting information is applied by managers in the decision-making process helping organizations meet the triple bottom line (strong profits, healthy environment, and vital communities).

235 Economics in Society and Sustainability ....................................... 3 cr
Prereq:  UW College MAT 110 or equivalent, admitted SMGT majors only or program adviser consent on space available basis.
Freq:  Fall, Spring, Summer.
General introductory course highlighting economic, social, and environmental issues facing society. In addition to covering traditional issues such as markets and prices (microeconomics), government economic management (macroeconomics), and international trade, it also introduces economic content into the analysis of selected topics such as poverty and discrimination, the environment, and the provision of government services. Critiques of conventional economic thought, within the context of systems thinking and ecological economics, are integrated throughout the course.

240 Technical Writing for Sustainable Management ................................ 3 cr
Prereq:  Admitted SMGT majors only or program adviser consent on space available basis.
Freq:  Fall, Spring, Summer.
The psychology and mechanics of written communications are thoroughly explored and widely applied. Also included are non-written applications in such business areas as international/Intercultural, nonverbal, and ethical communications related to sustainability.

310 Ecology and Sustainability ............................................................. 3 cr
Prereq:  UW College BIO 109 or equivalent, admitted SMGT majors only or program adviser consent on space available basis.
Freq:  Fall, Spring, Summer.
Interrelationships of organisms with each other and their environments. Investigation into composition and dynamics of populations, communities, ecosystems, landscapes, and the biosphere with emphasis on sustainability.

315 Global Environmental Chemistry ................................................. 3 cr
Prereq:  UW College CHE 125 or equivalent, admitted SMGT majors only or program adviser consent on space available basis.
Freq:  Fall, Spring, Summer.
An exploration of chemical environments as interdependent thermodynamic and kinetic systems. The “system/surroundings” perspectives of thermodynamics will be applied to systems of progressively larger size in order to arrive at the comprehensive view of the global environmental system.

320 Energy for Sustainable Management ........................................... 3 cr
Prereq:  UW College CHE 125 or equivalent, admitted SMGT majors only or program adviser consent on space available basis.
Freq:  Fall, Spring, Summer.
Students will learn to apply basic engineering principles to existing and emerging energy technologies to provide a better understanding of energy production, consumption, and environmental impact; and how these principles relate to sustainable management. Topics cover a wide range of energy systems including nuclear, fossil fuels, wind, solar, biofuels and biomass.

325 Natural Resource Management ..................................................... 3 cr
Prereq:  Admitted SMGT majors only or program adviser consent on space available basis.
Freq:  Fall, Spring, Summer.
Examines the interdependence between natural resources associated with land, air, and water. Explores significant environmental issues regarding the policies and problems in the use and management of natural resources related to soils, vegetation, landscape within the context of social needs and sustainability.

330 Marketing for a Sustainable World ................................................ 3 cr
Prereq:  SMGT 235, admitted SMGT majors only or program adviser consent on space available basis.
Freq:  Fall, Spring, Summer.
An analysis of an organization’s opportunities to develop sustainability practices as they relate to the development of product, pricing, supply and distribution channels (retail, wholesale), promotion (advertising, sales promotion, public relations) and target markets.
331 Sustainable Organizational Finance ................................. 3 cr
Prereq: UW College MAT 117 or equivalent, SMGT 230, SMGT 235, admitted SMGT majors only or program adviser consent on space available basis. Freq: Fall, Spring, Summer.
An introduction to the theory and methods of sustainable organizational finance. Topics include financial statements; discounting and budgeting; uncertainty and risk/reward trade-offs; and assessing the financial implications of the triple bottom line (e.g. climate change, carbon trading, human resource management, and creating environmentally-conscious shareholder value).

332 Economics of Environmental Sustainability ..................... 3 cr
Prereq: SMGT 235, admitted SMGT majors only or program adviser consent on space available basis. Freq: Fall, Spring, Summer.
Examines the interaction between market activity and the environment, applies economic analysis to the efficient and sustainable management of environmental goods and resources, and examines how economic institutions and policies can be changed to bring the environmental impacts of economic decision-making more into balance with human desires and the needs of the ecosystem.

335 Management and Environmental Information Systems .......... 3 cr
Prereq: UW College MAT 117 or equivalent, SMGT 230, admitted SMGT majors only or program adviser consent on space available basis. Freq: Fall, Spring, Summer.
Use of the computer as a problem-solving tool, as part of data processing systems; information systems and decision support tools for managers; information systems planning and development; overview of computer hardware, software, database management, networking and web technologies; green data centers; energy efficient trends in information technology; data and information usage in green businesses.

340 Organizational Behavior and Sustainability ..................... 3 cr
Prereq: UW College COM 103 or equivalent, admitted SMGT majors only or program adviser consent on space available basis. Freq: Fall, Spring, Summer.
Management principles and theories underlying human behavior in organizations are investigated. Topics include personality, motivation, communication, decision-making, leadership, teamwork, ethics, power, diversity, and work stress. Constraints and opportunities of an “eco” friendly organization are realized.

350 Operations Management and Sustainability .................... 3 cr
Prereq: UW College MAT 110 or equivalent, UW College MAT 117 or equivalent, admitted SMGT majors only or program adviser consent on space available basis. Freq: Fall, Spring, Summer.
Introduction to the role of the operations function in a sustainable organization. The course will outline how green enterprises address linear programming; continuous and intermittent production processes; aggregate planning; inventory control; materials management; scheduling; project management; quality assurance; and operations.

360 Environmental and Sustainability Policy .......................... 3 cr
Prereq: SMGT 115, admitted SMGT majors only or program adviser consent on space available basis. Freq: Fall, Spring, Summer.
Topics include the spectrum of historical, theoretical and technical issues applicable to sustainable management of natural resources, environmental quality standards and risk management. Administrative structures that form the basis for selecting appropriate responses to complex management problems faced by industry, government and non-governmental agencies are identified. The historical development and current framework of public policy are investigated and specific foundational legislation is critiqued.

370 Logistics, Supply Chain Management, and Sustainability ....... 3 cr
Prereq: SMGT 350, admitted SMGT majors only or program adviser consent on space available basis. Freq: Fall, Spring, Summer.
This course provides an introduction to the concepts, functions, processes, and objectives of logistics and supply chain management activities. It covers those activities that are involved in physically moving raw materials, inventory, and finished goods from point of origin to point of use or consumption. It covers the planning, organizing, and controlling of such activities, and examines the role of supply chain processes in creating sustainable competitive advantage with respect to quality, flexibility, lead-time, and cost. Topics include customer service, inventory management, transportation, warehousing, supply chain management, reverse logistics, green supply chains and international logistics.

430 International Management for a Sustainable World ............ 3 cr
Prereq: SMGT 235, admitted SMGT majors only or program adviser consent on space available basis. Freq: Fall, Spring, Summer.
Analysis of the theory and practice of managing international organizations including socio-cultural aspects and group dynamics of international business and service organizations through the study of sustainable management practices. Implementation of a triple bottom line solution to organizational problems will be emphasized.

435 International Management for a Sustainable World ............ 3 cr
Prereq: SMGT 235, admitted SMGT majors only or program adviser consent on space available basis. Freq: Fall, Spring, Summer.
Historical roots of the idea of development, economic theories of growth and their implications for sustainability, and interrelationships between population growth, food security, poverty, inequality, urbanization, technological change, international trade and environmental change at local, regional and global scales. Contemporary issues and alternatives.

440 Systems Thinking ...................................................... 3 cr
Prereq: SMGT 115, SMGT 235, SMGT 310, admitted SMGT majors only or program adviser consent on space available basis. Freq: Fall, Spring, Summer.
Students use systems thinking to apply the concept of sustainability in various business, social, and scientific contexts. Rather than looking at a problem by analyzing the component parts, students will learn to analyze whole systems. Students will then model the relationships and behaviors to identify leverage points for change.

460 Environment and Society............................................. 3 cr
Prereq: SMGT 115, admitted SMGT majors only or program adviser consent on space available basis. Freq: Fall, Spring, Summer.
Introduce the fundamentals of human-environmental interaction; a grasp of how these interactions create problems; and how the elements of social, technological, and personal choices combine to overcome them.

495 Sustainable Management Capstone ............................... 3 cr
Prereq: Senior standing, admitted SMGT majors only or program adviser consent on space available basis. Freq: Fall, Spring, Summer.
An application and study of sustainable management through the solution of an industry-based project. Implementation of a triple bottom line solution to industrial problems will be emphasized.
Degree Offered:
Bachelor of Arts with optional concentrations in acting, design and technology, or direction and management.

Professor:
Yohnk, Ph.D.

Associate Professors:
Cheatham, M.F.A.; Kornetsky, M.F.A. (Chair);

Assistant Professor:
Bradford, M.F.A.

Artists / Lecturers/ Supervision Staff
Childs-Daly, M.F.A.; Clickner, M.F.A.; DaMata-Geiger, M.F.A.; Harris, M.F.A.; Peterson, M.A.; Wienke, B.A.

Professional Accreditations or Memberships:
Kennedy Center American College Theatre Festival (KCACTF), United States Institute of Theatre Technology (USITT), Alliance for Wisconsin Theatre Education (AWTE), Society of American Fight Directors, Wisconsin High Education Theatre Council (WHETC)

Student Organizations/Clubs:
Drama Club

Department Overview

Program Mission Statement
The Theatre Arts Department at the University of Wisconsin-Parkside endeavors to provide students with the tools necessary to function as developing artists and self-realized individuals, combining theatrical training with a strong liberal arts curriculum. A comprehensive combination of classroom training, company engagement, and realized production work allows for a well-rounded collegiate learning experience with an emphasis on collaboration and creative process. We seek to develop and present enriching theatrical experiences which have relevance and value for the diverse communities that we serve, providing cultural enrichment and a means of better understanding and appreciating human societies and the world.

The speech studies courses reside within the Theatre Arts Department, but is not a part of the Theatre Arts major or minor. Speech courses are listed at the end of the theatre arts section. For more information about the courses, please contact the director, Bonnie Peterson at petersob@uwp.edu.

Program Goals and Objectives
The Theatre Arts Department at the University of Wisconsin-Parkside strives to:

- Serve as an artistic, educational, and cultural forum that utilizes the theatrical arts as a means of exploring, considering, and discussing various diverse aspects of our culture, society, and world;
- Offer students a comprehensive liberal arts degree in theatre arts, in addition to providing practical theatre training concentrations in the areas of acting, arts administration, design and technology, management and direction, theatre education, and music theatre, further preparing students to be successful in their professional, civic, and personal lives;
- Develop a collaborative “company-based” training system that provides a reasonable number of exceptional theatre students the best possible foundational training for careers in the professional theatre or related professions;
- Utilize and integrate new technology, methodologies, and techniques creatively and effectively into theatre courses, programs, and productions.
- Actively utilize professionally trained staff members, guest artists, and partnerships with regional professional theatres and artists to further expand and enhance our educational programming and production opportunities;
- Attract and retain a diverse population of students, staff, faculty, and audiences as we present theatrical programming and presentations that reflect the full diversity of our community and world;
- Enhance our students’ and community’s understanding and appreciation of the multifaceted, diverse theatrical art form by developing and presenting a broad range of accessible, high-quality academic and artistic opportunities;
- Remain viable, productive, and healthy through the effective and reasonable management of our human and financial resources and facilities.

Our Diversity Initiative
UW-Parkside’s commitment to diversity is reflected in a curriculum that prepares students from all genders and all racial, ethnic, national, religious, and other marginalized groups to live in a pluralistic society.
The UW-Parkside Theatre Arts Department fully embraces the university’s multicultural mission and vision, and strives to provide academic and production opportunities that reflect the full diversity of ideas and individuals that exist in our greater community and culture. We endeavor to create a diverse department of students and staff, allowing us to better reflect the demographics of our community in the theatrical works which we produce. We are committed to providing equal opportunity and nondiscrimination in all aspects of our academic and production programming. Except in plays where race or gender is an issue, casting is decided on the basis of ability.

The Program of Study

The UW-Parkside theatre arts curriculum is the systematic study of the all aspects of the theatrical arts, including history and criticism, dramatic literature, performance, directing, design, and technical production. The purpose is to present a comprehensive view of the evolution of theatre to its present form, melding theory with practical applications and creative problem solving. We are dedicated to the preparation of our students for future graduate studies and/or entry-level access to the theatrical profession or related career field after graduation.

Students may choose to either major or minor in theatre arts at UW-Parkside or take selected general education courses in the field. Our comprehensive B.A. degree allows students to graduate with a traditional liberal arts theatre degree or the option of pursuing professional training degrees (comparable to B.F.A. programs at similar institutions) in the areas of acting, design and technology, and direction and management.

Students seeking a major in theatre arts at UW-Parkside will have the benefit of a knowledgeable and professionally active faculty and staff with years of experience in all aspects of the theatre. The department is also affiliated with various professional theaters, allowing opportunities for our students to experience a professional atmosphere within a liberal arts context. Theatre students are encouraged to participate in professional theatre internship and apprenticeship opportunities as a part of their training program and degree completion. Most theatre students also work at professional theatres during the summer months, further developing their skills, experience, and connections to theatre professionals.

Program Entry Requirements:

All students who wish to major in theatre arts at UW-Parkside must participate in program entry interviews and/or auditions and be accepted to the program by a committee of theatre faculty and staff. Prospective students in good academic standing (2.75 GPA, 20 ACT, upper 50 percent of graduating class) who are seeking entry into the theatre arts program must contact the department to schedule an interview and/or audition time. For complete details about the audition process and requirements, visit www.uwp.edu keyword: theatre arts and contact a department representative regarding program entry auditions.

Transfer students from other two- and four-year institutions are welcomed into our program. Entrance into the theatre arts program later than the freshman year can prolong the length of time required to complete the degree. We are committed to assisting transfer students in completing our program in a reasonable period of time.

Once accepted as a major, students are expected to maintain a 2.5 overall GPA, a 2.75 GPA in the theatre arts major, and meet all departmental policies and expectations, which are outlined in the online student handbook at www.uwp.edu keyword: theatre arts then click on “program information” and “handbook.”

Requirements for the Theatre Arts Major (48-69 credits)

Two options of study are available to the theatre arts major:

I. B.A. in theatre arts (generalist)

II. B.A. in theatre arts with professional training concentrations in the following areas: acting, design and technology, or direction and management.

Theatre Arts Core Curriculum (39 credits)

The following theatre core courses (or their equivalents) are required of all theatre arts majors:

**Program Entry Requirements:**

Requirements for the Option I: Generalist Degree (48 credits)

Thirty-nine credits of core curriculum and 9 credits of electives chosen from theatre arts courses numbered 300 or above.
Option II: Concentration Option (67-69 credits)

Students have the option of choosing a concentration that includes a more comprehensive study in a chosen field within the theatre arts. The purpose of these varied concentrations is to further prepare students for graduate school studies or entry-level work in the professional theatre after graduation. Our concentration option is similar to B.F.A. (bachelor of fine arts) degrees at similar liberal arts institutions. Students must interview or audition into the following concentrations, and usually do so at the end of their first or second year in the program.

Requirements for the Concentration in Acting (67 credits)

Thirty-nine credits of theatre core curriculum and 28 credits of concentration curriculum from the following menu:

**Required courses (18 credits):**

- THEA 214 Intermediate Acting Practicum ............ 3 cr
- THEA 225 Acting II ........................................ 3 cr
- THEA 228 Voice for the Actor I ....................... 3 cr
- THEA 314 Advanced Acting Practicum ......... 3 cr

124 Basic Acting Skills

(General Education Course, Arts and Humanities.) **Prereq:** none. **Freq:** Spring. This beginning class introduces students to basic acting and improvisation skills. Through acting exercises, discussion, role-playing, story-telling and other activities, the class will focus on how these activities can improve communication, create flexibility, and introduce the non-actor to important interpretive and interpersonal skills that can be used throughout an individual's life and career. Field trips to theatrical productions required. Additional fees required.

125 Acting I

**Prereq:** Consent of instructor. **Freq:** Fall. Foundations of acting and script analysis based on methods of Stanislavski and Robert Cohen. Emphasis is on acting through doing. Includes exercises, monologues and scene work. Not available for audit. Intended for majors/minors. Field trips to theatrical productions required. Additional fees required.

132 Stagecraft

**Prereq:** Consent of instructor. **Freq:** Fall. Introduction to procedures and theories of theatrical production. Includes stage equipment, scenic construction, scenic painting, technical personnel duties, practical applications, and work on current productions. Lab fee required. Field trips to theatrical productions required; additional fees required.

133 Costumecraft

**Prereq:** Consent of instructor. **Freq:** Spring. Introduction to procedures and theories of costume construction. Includes shop equipment, costume construction techniques, personnel duties, practical applications, and work on current productions. Lab fee required. Field trips to theatrical productions required; additional fees required.

141 Theatre in the City

**Prereq:** Consent of instructor. **Freq:** Occasionally. A study of plays, current productions, playwrights, actors, and theatrical practices in selected cities. May be repeated with different content. May not be taken without THEA 142.

142 Theatre in the City Field Trip

**Prereq:** Consent of instructor. **Freq:** Occasionally. Field trip allowing on-site observation of theory and practice studied in accompanying course. Consists of play attendance, guest lectures, and backstage tours. May be repeated with different content. May be taken with/without THEA 141. Additional fees required.

150 Text Analysis for the Theatre

**Prereq:** Consent of instructor. **Freq:** Fall. This introductory course in text analysis provides performers, designers, directors, and technicians with a variety of viable approaches and critical methodologies useful in reading, researching, analyzing, interpreting, and creatively engaging with a variety of significant scripts from the classical and contemporary theatre. Field trips to theatrical productions required. Additional fees required.

160 Principles of Theatrical Design

**Prereq:** Consent of instructor. **Freq:** Spring. This course is designed to introduce the student to the fundamental elements and principles of design and how they apply to the development and creation of production elements for the live theatre productions. Field trips to theatrical productions required. Additional fees required.

208 Multicultural Theatre in America

**Prereq:** ENGL 101. **Freq:** Fall. This survey course in multicultural theatre focusing on African American, Asian America, Latino American and Native American cultures utilizes dramatic texts, live performance events and anthropological research as a means of exploring and understanding voices of diversity expressed on the American stage in the past 50 years. Field trips to theatrical productions required. Additional fees required. Cross-listed with ETHN 208.
212 Intermediate Technical Production ........................................ 1-3 cr
Prereq: THEA 010, 132, 133 and consent of instructor. Freq: Fall, Spring.
Student serves as supervisor, crew head, or assistant designer for a production. Participation may include but is not limited to scenery, props, costume, makeup, sound or lighting. Additional written and visual research required depending on position. May be repeated in a different area for a maximum of 6 credits.

213 Assistant Director/Assistant Stage Manager ............... 1-3 cr
Prereq: THEA 132 and consent of instructor. Freq: Fall, Spring.
Student serves as either assistant director or assistant stage manager for a production. Additional written and visual research required depending on position. May be repeated in a different area for a maximum of 6 credits.

214 Intermediate Acting Practicum .......................................1-3 cr
Prereq: Audition, THEA 014 and consent of instructor. Freq: Fall, Spring.
Participation as a performer in a faculty-directed theatre production. Requires additional journal and written evidence of research and outside efforts in character development. May be repeated for a maximum of 6 credits.

215 Gender and Sexuality on the Stage and Screen ............. 3 cr
(General Education Course, Arts and Humanities.) Prereq: none. Freq: Spring.
This course will look at the portrayal and representation (or lack of representation) of gender and/or the LGBTQ voice and identity in plays and film during the last century. The course will explore a number of facets of gender and sexual identity and portrayal through theory and criticism as well as through the plays and films themselves. Field trips to theatrical productions required. Additional fees required. Cross-listed with WOMS 215.

217 Theatre Dance II ...................................................... 2 cr
Prereq: THEA 117 and Consent of instructor. Freq: Occasionally.
This course explores a variety of traditional theatre dance styles, including jazz, modern, soft shoe/tap, and chorus dancing. May be taken for credit each time a different topic is studied. Field trips to theatrical productions required. Additional fees required.

221 Theatrical Makeup II .................................................. 1 cr
Prereq: THEA 121 and consent of instructor. Freq: Occasionally.
Intermediate study of principles and techniques of theatrical makeup, including airbrush and special effects. Lab fee required. Field trips to theatrical productions required; additional fees required.

225 Acting II ..................................................................... 3 cr
Prereq: THEA 125 and consent of instructor. Freq: Spring.
Intensification and deepening of an actor’s skills. Emphasizes on simplicity and in-the-moment work, including Meisner and Neutral mask work. Field trips to theatrical productions required. Additional fees required.

228 Voice for the Actor I .................................................... 3 cr
Prereq: THEA 125 and consent of instructor. Freq: Occasionally.
An intensive studio course in the individual development and use of the voice for performance. Articulation and voice projection will be stressed. Field trips to theatrical productions required. Additional fees required.

250 Stage Combat I – Unarmed .......................................... 3 cr
Prereq: THEA 125 and consent of instructor. Freq: Occasionally.
Introduction to unarmed stage combat. Focus on basic combat techniques and movement skills: physical awareness, balance, coordination, and safety. Incorporates acting within choreography. Field trips to theatrical productions required. Additional fees required.

251 Stage Combat II – Basic Swordplay ................................ 3 cr
Prereq: THEA 125 and consent of instructor. Freq: Occasionally.
Focus on sword work (single rapier). Development of high speed, moment-to-moment acting. Benefits include heightened concentration, physical agility and stamina. Field trips to theatrical productions required. Additional fees required.

262 Introduction to Stage Lighting ........................................ 3 cr
Prereq: THEA 132 and consent of instructor. Freq: Spring (odd years).
Introduction to basic lighting theories and practice. Includes stage wiring, familiarization with instruments, terms, computer-assisted drafting, and basic planning for theoretical productions; and work on current productions. Field trips to theatrical productions required; additional fees required.

285 Performance and Portfolio Development ....................... 1 cr
Prereq: Consent of instructor. Freq: Fall, Spring.
Professional development of visual performance material, resumes, and portfolios.

290 Special Topics in Theatre Arts ........................................ 1-4 cr
Prereq: consent of instructor. Freq: Occasionally.
Selected topics in theatre arts will be examined. Field trips to theatrical productions required; additional fees required.

294 Professional Theatre Internship .....................................1-6 cr
Prereq: Consent of instructor and department chair. Freq: Fall, Spring, Summer.
This individualized program of study for freshmen and sophomores includes apprenticeships and internships at professional theatres, under the supervision of campus faculty and professional theatre staff. May be repeated for a maximum of 6 credits.

295 Sophomore Seminar ..................................................... 1 cr
Prereq: 15 credits in THEA and consent of instructor. Freq: Fall
Students will focus on the development and presentation of portfolios (paper and electronic) and audition/interview materials to prepare them for professional careers and/or graduate study. Field trips to theatrical productions required; additional fees required.

299 Independent Study ..................................................... 1-3 cr
Prereq: Consent of instructor and department chair. Freq: Fall, Spring, Summer.
Regularly available under the supervision of theatre faculty members, this course allows individual students with 60 or fewer credits the opportunity to explore a variety of theatrical subjects and/or projects that are not regularly offered in other theatre courses.

310 Fundamentals of Stage Direction .................................... 3 cr
Prereq: THEA 125 and 132, and consent of instructor. Freq: Spring.
Examination of the director’s role in theatre production. Concentrated study of the theoretical and practical principles and techniques of directing and play analysis. Field trips to theatrical productions required. Additional fees required.

312 Studio Designer / Lead Technician ................................. 1-5 cr
Prereq: THEA 212 and consent of instructor. Freq: Fall, Spring.
Student serves as designer or lead technician for a studio production. Designs may include but are not limited to scenery, props, costume, makeup, sound or lighting. Additional written and visual research required depending on position. May be repeated for a maximum of 10 credits with only 6 in one area applied toward the major.

313 Stage Management ..................................................... 3-5 cr
Prereq: THEA 212 and consent of instructor. Freq: Fall, Spring.
Student serves as stage manager for a production. Additional written and visual research required. May be repeated for a maximum of 10 credits.

314 Advanced Acting Practicum ......................................... 1-3 cr
Prereq: Audition, THEA 214 and consent of instructor. Freq: Fall, Spring.
Participation as a performer in a faculty-directed theatre production. Requires additional journal and written evidence of research and outside efforts in character development. May be repeated for a maximum of 6 credits.
315 Styles of Acting.................................................................................. 3 cr
Prereq: THEA 225 and consent of instructor. Freq: Occasionally.
An intensive investigation of a selected style of acting such as comedy, improvisation, physical acting, musical theatre, performance, Shakespeare, etc. May be taken for credit each time a different topic is studied. Field trips to theatrical productions required. Additional fees required.

316 Technical Direction............................................................................. 2-3 cr
Prereq: THEA 212 and consent of instructor. Freq: Fall, Spring.
Student serves as technical director for a production. Additional research and graphic materials are required. May be repeated for a maximum of 9 credits.

321 Three Dimensional Makeup.......................................................... 2 cr
Prereq: THEA 221 and consent of instructor. Freq: Spring.
Principles and techniques of three-dimensional prosthetic makeup for the stage. Lab fee required. Field trips to theatrical productions required; additional fees required.

325 Acting III.......................................................................................... 3 cr
Prereq: THEA 225 and consent of instructor. Freq: Fall.
Advanced scene study and exploration of characterization. Emphasis on adding the layers of complex action (conditioning factors, physicalization, internal obstacles, etc.). Field trips to theatrical productions required. Additional fees required.

328 Voice for the Actor II......................................................................... 3 cr
Prereq: THEA 228 and consent of instructor. Freq: Occasionally.
The continuation of individual development and use of the voice for performance. Development of an aesthetic quality, expressive intonation, and study of the more commonly used American and foreign dialects. Field trips to additional theatrical productions required. Additional fees required.

341 Advance Theatre in the City ............................................................. 1 cr
Prereq: Consent of instructor. Freq: Occasionally.
A study of plays, current productions, playwrights, actors and theatrical practices in selected cities. May be repeated with different content. May not be taken without THEA 342.

342 Advance Theatre in the City Field Trip.......................................... 1 cr
Prereq: Consent of instructor Freq: Occasionally.
Field trip allowing on-site observation of theory and practice studied in accompanying course. Consists of play attendance, guest lectures and backstage tours. May be repeated with different content. May be taken with or without THEA 341. Additional fees required.

345 Writing for the Stage and Screen................................................. 3 cr
Prereq: ENG 101 and consent of instructor. Freq: Occasionally.
This workshop-based course introduces writers to the process of creating monologues, scenes, plays, and/or scripts for the live stage and screen. Field trips to additional theatrical productions required. Additional fees required.

355 Theatre History and Literature to 1660 ........................................ 3 cr
Prereq: ENGL 101 and consent of instructor. Freq: Fall (even years).
This course provides learners a comprehensive overview of key milestones in theatre history and literature from the origins of theatre to 1660. Included in the course will be a study of primary and secondary historical sources which reveal the context for theatrical productions in a variety of cultures and periods through the study of selected play scripts, playwrights, production practices, performance structures, audience composition, and criticism. Field trips to theatrical productions required. Additional fees required.

356 Theatre History and Literature from 1660 to 1915..................... 3 cr
Prereq: ENGL 101 and consent of instructor.
Freq: Spring (odd years).
This course provides learners a comprehensive overview of key milestones in theatre history and literature from 1660 to 1915. Included in the course will be a study of primary and secondary historical sources which reveal the context for theatrical productions in a variety of cultures and periods through the study of selected play scripts, playwrights, production practices, performance structures, audience composition, and criticism. Field trips to theatrical productions required. Additional fees required.

357 Theatre History and Literature from 1915 to Today .................. 3 cr
Prereq: ENGL101 and consent of instructor. Freq: Fall (odd years).
This course provides learners a comprehensive overview of key milestones in theatre history and literature from 1915 to today. Included in the course will be a study of primary and secondary historical sources which reveal the context for theatrical productions in a variety of cultures and periods through the study of selected play scripts, playwrights, production practices, performance structures, audience composition, and criticism. Field trips to theatrical productions required. Additional fees required.

362 Problems in Lighting Design......................................................... 3 cr
Prereq: THEA 262 and consent of instructor. Freq: Spring (odd years).
Intermediate instruction in lighting design. Practical application of lighting theory is stressed. Includes hand and CAD drafting and special applications of lighting for theoretical and practical exercises and work on current productions. Field trips to theatrical productions required; additional fees required.

363 Scenic Design................................................................................... 3 cr
Prereq: THEA 132 and consent of instructor.
Freq: Spring (even years).
Basic theoretical and practical techniques of designing stage scenery. Includes instruction in drafting, ground plans, perspective sketches, rendering and model building and work on current productions. Lab fee required. Field trips to theatrical productions required; additional fees required.

383 Costume Design............................................................................... 3 cr
Prereq: THEA 133 and consent of instructor. Freq: Fall (even years).
Examination of fundamentals inherent in the costume design process including theory, historical research and rendering styles. Lab fee required. Field trips to theatrical productions required; additional fees required.

390 Special Topics in Theatre Arts...................................................... 1-4 cr
Prereq: consent of instructor. Freq: Occasionally.
Selected topics in theatre will be examined. Field trips to theatrical productions required; additional fees required.

410 Problems in Stage Direction.......................................................... 3 cr
Prereq: THEA 310 and consent of instructor. Freq: Spring.
This course builds upon the basic principles of stage direction explored in THEA 310 and provides students with the opportunity to select, research, interpret, stage, and present a wide range of scenes from a variety of theatrical genres and styles. Field trips to theatrical productions required; additional fees required.

412 Main Stage Designer / Lead Technician....................................... 1-5 cr
Prereq: THEA 312 and consent of instructor. Freq: Fall, Spring.
Student serves as designer or lead technician for a main-stage production. Designs may include but are not limited to scenery, props, costume, makeup, sound or lighting. Additional written and visual research required depending on position. May be repeated for a maximum of 10 credits with only 6 in one area applied toward the major.

Degree Offered:
UW-Parkside offers a concentration in women’s and gender studies through the interdisciplinary studies major (ISTD). This major draws upon existing UW-Parkside courses, and students may also receive credit for appropriate transfer courses, distance education courses, and credit for experiential learning.

UW-Parkside also offers a minor in women’s studies through the Center for Women’s and Gender Studies. Interested students should consult the director of the Interdisciplinary Studies Program for the major and the director of the Center for Women’s and Gender Studies for the minor.

Director
Sandra Moats, Ph.D.

Steering Committee:
Erika Behling, Linda Crafton, Kathleen Gillogly, Gail Gonzalez, Anne Gurnack, Vera Kolb-Gregory, Lisa Kornetsky, Mary Lenard, Maria Martinez, Heather Miles, Dana Oswald, Kara Recker, Christine Tutlewski,

Many faculty teach women’s and gender studies courses through their departments; serve on the Women’s and Gender Studies Steering Committee; or work on collaborative projects and initiatives such as the Teresa Peck Award, Women in Science, Technology, Engineering and Math (STEM).

Affiliated Organizations:
The Women’s Center, Wyllie Concourse, 262-595-2170; The Status of Women Committee, 262-595-2592; LGBTQ Resource Center, 262-595-2456

Career Possibilities
Nonprofit organizations, business, creative arts, education, government, health, law, medicine and social work, especially pertaining to issues of gender and sexuality. Graduate school with emphasis in the humanities, social sciences or the professions. Many careers are strengthened and enhanced by a minor in women’s and gender studies. Students are encouraged to discuss career options early with the program director and to consider internships and other activities which allow them to explore career possibilities.

Program Overview
The Center for Women’s and Gender Studies provides an interdisciplinary program that draws upon all departments in the university to provide a systematic analysis of gender roles, sexual identity, and women’s experiences in society. Its goal is to provide insights and generate activities that will lead to a better understanding of gender roles and sexual identity, improve the position of women, and transform society in the process. In such courses, women’s positions are often analyzed relative to those of men, and these courses are relevant for both women and men who are seeking a fuller understanding of the past, present and future social trends.

Preparation for Graduate School
Students who graduate with this minor can go on to professional and graduate programs in law, sociology, humanities, medicine and health, theology and other fields. Consult the director for further information to develop a plan of study.

Internships
Internships and applied experiences in other courses or independent study projects are encouraged. These experiences assist students in evaluating developing skills for possible job settings.

Requirements for the Women’s Studies Minor (18 credits)
Eighteen credits are required for the minor. Students must take three core courses:

Core courses (9 credits, one from each of the following):

1) WOMS 110 Introduction to Women’s and Gender Studies ............................................ 3 cr
2) WOMS 112 Women in Literature ........................................ 3 cr
   OR WOMS 213 Gender in Society ........................................ 3 cr
   OR WOMS 236 Women in Modern Society ..................... 3 cr
3) WOMS 494 Internship in Women’s and Gender Studies ........................................ 1-6 cr
   OR WOMS 495 Women’s and Gender Studies Seminar .............................................. 3 cr
   OR WOMS 497 Women’s and Gender Studies Senior Thesis ........................................... 3 cr
   OR WOMS 499 Independent Study ........................................ 1-3 cr
The minor also requires three elective courses, deriving from at least two of the following three areas: Humanities & Art, Social Sciences, and Natural Sciences. Each semester, courses from other departments that are available for women's and gender studies credit will be listed in the course schedule.

A. Humanities and Art

Approved women's and gender studies courses from English, art, communication, theatre arts, humanities, music, and philosophy. Examples include:

- COMM 315 Communication and Gender .......... 3 cr
- COMM 463 Gender, Race & Class in the Media .... 3 cr
- THEA 215 Gender and Sexuality on the Screen and Stage .......... 3 cr
- ENGL 269 Introduction to Women Writers .......... 3 cr
- ENGL 367 Studies in American Ethnic Literature: (depending on topic) .......... 3 cr
- ENGL 417 Studies in British Literature: British Women Novelists .......... 3 cr
- ENGL 464 Studies in Cultural Patterns: Gay and Lesbian Literature .......... 3 cr
- ENGL 469 Studies in Women Writers .......... 3 cr
- PHIL 290 Special Topics in Philosophy: Feminism in Philosophy .......... 3 cr
- WOMS 112 Women in Literature .......... 3 cr

B. Social Sciences

Approved women's and gender studies courses from sociology, history, international studies, political science, psychology, economics, and business. Examples include:

- CRMJ 366 Women, Crime, and Criminal Justice .......... 3 cr
- HIST 236 Women in Modern Society .......... 3 cr
- MGT 446 Global Issues in Management .......... 3 cr
- POLS 203 Women, Power, and Politics .......... 3 cr
- POLS 301 Sexuality and Politics .......... 3 cr
- PSYC 230 Psychology of Human Sexuality .......... 3 cr
- PSYC 280/380 Psychology of Gender .......... 3 cr
- SOCA 213 Gender and Society .......... 3 cr
- SOCA 290 Special Topics: LGBTQ Studies .......... 3 cr
- SOCA 374 Women and Work .......... 3 cr

C. Natural Sciences

Approved women's and gender studies courses from biology, chemistry, physics, environmental studies, and health exercise science and sport management. Examples include:

- BIOS 103 Human Biology .......... 3 cr
- HESM 321 Women's Health Issues 1-4 cr
- HESM 330 Sport in Society .......... 3 cr
- SOCA 379 Society and Environment .......... 3 cr
- WOMS 250 Women in Science .......... 3 cr

Each semester, courses appropriate for the women's and gender studies minor are listed in the course schedule. Since courses are offered on a rotating basis, students are advised to consult with women's and gender studies faculty and directors to assist them with course selection and proper completion of requirements.

Students may count 3 credits of WOMS 494 Internship or WOMS 499 Independent Study toward the minor. Arrangements for these projects must be made with individual women's and gender studies faculty.

Courses in Women's Studies (WOMS)

110 Introduction to Women's and Gender Studies .......... 3 cr
Prereq: None. Freq: Fall.
This course introduces students to the field of women's studies, its theoretical and methodological bases, and the challenges it creates for other academic disciplines. It emphasizes the diversity among women including diversity in race and ethnicity, sexual preferences, physical abilities, etc.

112 Women in Literature .......... 3 cr
Prereq: None. Freq: Alternate Springs.
This course surveys women writers from classical times to the modern era, in their cultural contexts, and identifies the way in which their writing illuminates women's experience. Works by women from various cultures and backgrounds are considered. Cross-listed with ENGL 112.

203 Women, Power and Politics .......... 3 cr
Prereq: None. Freq: Occasionally.
Examination of the environmental, systematic and political variables that define the existing and potential political position of women in a variety of international cultures. Cross-listed with POLS 203.

213 Gender and Society .......... 3 cr
Prereq: None. Freq: Fall, Spring.
Overview of theory and research on gender roles and gender stratification, focusing on political, economic, family and other settings; historical, cross cultural and sub-cultural comparisons. Cross-listed with SOCA 213.

215 Gender and Sexuality on the Stage and Screen .......... 3 cr
(General Education Course, arts and Humanities) Prereq: none. Freq: Spring.
This course will look at the portrayal and representation (or lack of representation) of gender and/or the LGBTQ voice and identity in plays and film during the last century. The course will explore a number of facets of gender and sexual identity and portrayal through theory and criticism as well as through the plays and films themselves. Field trips to theatrical productions required. Additional fees required. Cross-listed with THEA 215.

236 Women in Modern Society .......... 3 cr
Prereq: ENGL 101. Freq: Occasionally.
Surveys the social and demographic patterns of pre-industrial society; focuses on the role of women in modern, industrial society. Topics include working-class women, middle class and modernization reform movements, feminism, suffrage, socialism, women in the era of the world wars, the 1950s and the contemporary women's movement. Cross-listed with HIST 236.

250 Women in Science .......... 3 cr
Prereq: None. Freq: Occasionally.
Study of the role of women in science; analysis of the gendered social structure of science and how it is changing; and imagining the future. Course can be taken independently. Consult with WOMS program director if interested.

290 Special Topics in Women's and Gender Studies .......... 3 cr
Prereq: None. Freq: Occasionally.
Selected topics in women's and gender studies will be examined.

366 Women, Crime and Criminal Justice .......... 3 cr
Prereq: CRMJ 101 or consent of instructor. Freq: Occasionally.
Examines the study of female crime and delinquency. In addition to women as offenders, this course focuses on women as victims and workers in the criminal justice system. Cross-listed with CRMJ 366.
390 Special Topics in Women's and Gender Studies ..........1-4 cr
Prereq: None. Freq: Occasionally.
Selected topics in women's and gender studies will be studied.

490 Special Topics in Women's and Gender Studies ..........3 cr
Prereq: None. Freq: Occasionally.
Selected topics in women's and gender studies will be examined.

494 Internship in Women's and Gender Studies............1-6 cr
Prereq: Consent of instructor. Freq: Fall, Spring, Summer.
Work experience in a program related environment or supervised experience in planned projects that expose students to applied settings that serve women. Emphasis on applying feminist analysis, qualitative research methods, communication and other skills, while increasing career knowledge and awareness.

495 Women's and Gender Studies Seminar .....................3 cr
Prereq: WOMS 110 and two other WOMS credited courses.
Freq: Alternate years.
Focuses on developments in feminist theory and methodology, with the goal of integrating theory and methods acquired in earlier women's and gender studies courses and encouraging students to apply the material to the community around them. The seminar allows students to work in their own interests within a broad theme selected by the instructor.

497 Women's and Gender Studies Senior Thesis ...............3 cr
Prereq: WOMS 110 and two other WOMS credited courses; and consent of instructor. Freq: Fall, Spring.
Independent research and writing of an essay of substantial length under faculty supervision. Agreement of faculty member to undertake supervision is necessary before registration.

499 Independent Study .............................................1-3 cr
Prereq: Consent instructor and program director. Freq: Fall, Spring.
Individual research projects in women's and gender studies. Up to 3 credits may be applied to the major or minor.
UW-Parkside offers graduate degree programs leading to the master of business administration (M.B.A.) degree, the master of science in applied molecular biology (M.A.M.B.), or the master of science in computer and information systems (M.S.C.I.S.). Additional graduate course work is offered in other fields of study.

The faculty of UW-Parkside has set minimum academic requirements that must be fulfilled by all graduate students. Specific graduate programs may have additional requirements spelled out in greater detail in the description of their programs. This section contains a section on the university-wide graduate study requirements and procedures. Many policies are common to graduate and undergraduate students; these are provided in the Programs and Policies section of this catalog.

**Admission**

Admission is a judgment the faculty of the program makes regarding the probability of the student's success in graduate work. This judgment is usually based on the student's undergraduate and post-graduate academic record and evidence, which varies by program, such as work experience, letters of reference, and aptitude tests. This judgment will be based on the faculty's assessment of the student's current academic abilities.

Some students may be asked to repeat some previous courses, particularly if a considerable time has elapsed since the completion of an applicant's prior studies. Other conditions may also be placed on a student's admission.

**Admission as a Degree-Seeking Student**

Students seeking a UW-Parkside graduate degree should contact the program they wish to enter for the appropriate application forms. They should submit the form and the non-refundable application fee and arrange to have official transcripts, test scores, and any other data required by their specific program sent to the program office. All material should be received at least four weeks before the time the student wishes to register for courses; some programs have earlier deadlines. Based on the faculty's judgment, the university will notify students whether they are admitted and of any conditions placed on their course of study. Registration materials will be sent to students who have been accepted.

Students applying for admission for graduate study must have a baccalaureate degree from a regionally accredited institution and an undergraduate grade-point average (GPA) acceptable to the program to which they are applying (generally at least 2.75 on a 4.00 basis). Degree candidates must furnish a full set of official transcripts of college-level and post-graduate work as part of the application. If a graduate program requires satisfactory test scores on the Graduate Management Admissions Test or the Graduate Record Examination, applicants must make their own arrangements to take the tests and must pay the appropriate examination fee. For further information and assistance in arranging for these tests, contact the UW-Parkside Advising and Career Center 262-595-2321 or write directly to the Educational Testing Service, P.O. Box 966, Princeton, NJ 08540.

**Admission with Probationary Status**

For applicants who do not meet the admission criteria, admission with probationary status may be granted after taking into consideration the applicant's special qualifications and circumstances. Students admitted on probation will be on probation for their first 9 semester credits.

A student who is admitted on probation is required to attain a minimum GPA of 3.00 on the first 9 credits hours of course work completed at UW-Parkside. Students who do not meet the above requirement will be dropped from the program.

**Admission as a Non-Degree-Seeking Student**

Qualified students who hold a baccalaureate degree from a regionally accredited institution and who meet course prerequisites may be admitted by the program to enroll in graduate courses subject to the availability of space in the course. Special students must go to the program office to be advised. Requirements for admission vary with the program. Special students wishing to change to degree-seeking status must submit the full set of credentials required of all applicants. A maximum of 12 graduate credits earned as a special student may be applied toward a UW-Parkside graduate degree, although individual programs may have their own more-restrictive stipulations.
Consortial Programs

Students seeking to earn a degree in one of the consortial programs are formally the other university’s degree-seeking students and will be held accountable for any polices in place at the other university. They should seek admission to the other university’s graduate school and degree program. They should also seek admission to UW-Parkside as a non-degree-seeking student (see above). These students take a combination of the other university’s and UW-Parkside’s graduate courses, all of which are offered at UW-Parkside, and transfer the UW-Parkside courses to the other school.

Audit Students

Subject to the availability of space and the permission of the course instructor, a limited number of audit students may be admitted to graduate courses. Audit students must be admitted and meet the same admission standards as non-degree-seeking, credit students. No grade or credit is given, but a notation that the audit course was completed is made on the student’s transcript. Audit-only students are admitted through the same process as special students and also are required to seek advising before registering.

International Students

Students from other countries whose native language is not English are required to provide evidence of English language competence, normally by presenting a degree from an English-speaking university or satisfactory scores on the Test of English as a Foreign Language (TOEFL), administered through Educational Testing Service, Princeton, NJ 08540, as part of the admissions application. As a general rule, applicants with a computer based score of 213 or Internet based score of 79 are considered to have adequate English ability; those below 213 or 79 will be reviewed more carefully because they may encounter some difficulties with the English language and will usually be asked to complete further study of English before an admission decision can be made.

All students needing student visas to enter or remain in the United States while studying at UW-Parkside must complete additional forms. All forms must be in by May 1 for September admission or November 1 for January admission. International students must be aware that if their visa requires them to be a full-time student, then they should confirm that their graduate program would accommodate a full-time schedule.

Undergraduate Students in Graduate Courses

Graduate credit is available only to those who have been admitted as graduate students or to seniors admitted to a joint graduate/undergraduate status. Certain courses have two numbers, depending on whether they are taken for undergraduate or graduate credit. Under special circumstances, undergraduates in their last year may be admitted to courses offered for graduate students, subject to prior approval by their adviser, the course instructor, head of the graduate program, and the graduate dean. Credits earned in the graduate course will count toward the 120 undergraduate credits required for a bachelor’s degree. Students who have earned credits in excess of the number needed for a bachelor’s degree may petition a graduate program to accept these courses at the time of admission to a graduate program.

Transfer of Graduate Credit

Applicants who have taken graduate courses at another institution must submit official transcripts of this work as part of their credentials. UW-Parkside will accept no more than 12 graduate credits earned at another regionally accredited institution. Only credits earned with a grade of B (3.00 on a 4.00 scale) or higher will be accepted. Individual programs may impose more stringent requirements.

Only credits applicable to the UW-Parkside degree requirements, as determined by the program faculty, will be accepted. Program faculty may request to see textbooks, course syllabi, examinations, etc., in making the determination and may also request the student to take an examination. Students already admitted or enrolled at UW-Parkside must have prior consent from their graduate program faculty in order to take graduate work at another institution and transfer it to UW-Parkside. For further information contact the appropriate graduate program.

Graduate Policies

Degree Requirements

To receive a master’s degree from UW-Parkside, students must meet the following minimum requirements (note that individual programs may impose more stringent requirements):

1. Complete at least 30 graduate credits, of which no more than 12 may be transferred from another institution.
2. Have an overall GPA of at least 3.00 for all graduate work taken at UW-Parkside that is applicable to the degree program.
3. Satisfy all requirements of the graduate degree program. Students may take no more than seven years to complete a degree, beginning with the semester in which they complete their first course as a UW-Parkside degree-seeking graduate student, unless they apply for and receive an extension through the appropriate graduate program. Some programs may impose a shorter time limit. To graduate, students must file a request for graduation. The request form, signed by the student’s adviser and filed in the appropriate graduate program office, initiates the final review of the candidate’s records. Students must also submit a Degree Summary Request Form/Application to Graduate to the Office of the Registrar/Student Records. A one-time, non-refundable graduation fee must be submitted with the form. This form must be filed one semester prior to the semester of intended graduation.
Degree with Distinction

Students completing all requirements for the degree with a cumulative GPA of 3.83 or higher will be awarded the master’s degree “with distinction.”

Transcripts

A transcript is an official record of a student’s academic activity. It reflects a student’s courses and grades, and it provides other academic data, such as semester and cumulative GPAs, academic status, honors a student may have earned, and degrees a student may have been awarded.

Each institution defines what makes its transcript official. At UW-Parkside, an official transcript is printed on special transcript paper, bears the registrar’s signature, the university’s seal, and is issued in a sealed envelope. If the envelope is opened before it is submitted to the office for which it is intended, it is no longer considered official. Some institutions and agencies will not accept a transcript as official unless it arrives from the granting institution by mail.

UW-Parkside requires that students seeking admission to the university submit official transcripts from high school and any other colleges they may have attended. Employers, graduate schools and other universities to which students are applying may require an official copy of the student’s UW-Parkside transcript.

Under the Family Rights and Education Act of 1974 as amended, the student’s record is confidential and UW-Parkside will not release a student’s academic transcript without proper authorization from the student.

An official transcript of a student’s record is issued only by the Office of the Registrar/Student Records. UW-Parkside has partnered with Credentials Solutions, Inc. to provide a fast and secure on-line transcript ordering service that is available to our students/alumni 24 hours a day, 7 days a week.

The student can order a transcript at any time, even if there is an outstanding financial obligation to UW-Parkside, however, the request will not be processed until the obligation has been met and the related hold on the student’s record is released by UW-Parkside. When a hold is on a student’s record when the order is placed, they have 30 days to clear the hold or the transcript request will be purged, requiring the student to submit a new request once the hold has been removed.

Please see our website for more information about how to order a transcript – www.uwp.edu Keyword: Transcripts.

Adding a Course

During the first week of the semester, a student may add any course for which he/she has met the prerequisites. During the second week, appropriate courses may be added with the written consent of the instructor. Beginning the 11th day of classes, a student cannot add a course without written permission of the instructor, the department chair and the dean. The Office of the Registrar/Student Records will determine comparable deadlines for courses less than a semester in length.

Dropping a Course

A student may drop any course during the first half (i.e., the first eight weeks) of the semester. The Office of the Registrar/Student Records will determine comparable deadlines for courses less than a semester in length.

Beginning with the ninth week through the twelfth week of the semester a student may request permission to drop a course only for extraordinary, non-academic reasons. Before requesting permission to drop, the student should discuss his/her circumstances with the instructor. Any such request must be submitted to the Office of the Registrar/Student Records no later than the Friday of the twelfth week of instruction. The Office of the Registrar/Student Records will determine comparable deadlines for courses less than a semester in length. The request must include a written explanation of the circumstances leading to the request.

Requests denied or received after the deadline, may be reviewed by the Academic Actions Committee. Granting of requests by the Academic Actions Committee is not automatic. A student should not assume that his/her request would be granted.

An instructor may request that the registrar drop a student from a course if the student does not meet the stated prerequisites or if the student has not attended the course during the first week of classes and has not notified the instructor. The instructor must submit the request by the date specified on the administrative drop form. However, it is still the student’s responsibility to make sure that he/she has been officially dropped from any class.

A student who never attends (or stops attending) a course in which he/she has enrolled and who does not drop the course through the appropriate office will receive a failing grade.

A student who drops a course after the fourth week of a semester will receive a transcript notation of “W.” (In the case of module or summer session courses, the W notation will be applied if the drop occurs after one-third of the course period has passed.)

Fees for Dropping a Course

After the 10th day of classes, as student will be charged a $15 per credit fee for dropping classes. The Office of the Registrar/Student Records will determine the comparable deadlines for courses with less than a semester in length. Refer to the website for more information: www.uwp.edu Keyword: Registrar.

Retaken Courses

A student may retake any course. Only the most recent grade received at UW-Parkside will be used in calculating the UW-Parkside GPA. A course may be counted only once toward the 120-credit graduation requirement. A student may request that a course taken subsequently at another university be counted as a retake for a course taken previously at UW-Parkside. Such a request must be submitted to the appropriate department chair, who may then certify that such
a course is equivalent to the course taken at UW-Parkside. If a course taken at another institution is accepted as a retake for a course taken at UW-Parkside, the grade and credits assigned to the course when taken at UW-Parkside will not be included in the computation of the student’s UW-Parkside GPA nor total number of attempted and earned credits. The grade received from the other institution will be included in any computation of GPA on transfer credits.

Repeatable Courses
Repeatable courses are those that may be taken more than once for credit, such as special topics, independent studies, internships, and other selected courses. Courses that may be repeated for credit are designated as such in the course description in this catalog.

Course Prerequisites
A prerequisite is a requirement that a student must have completed prior to enrollment in a specific course and is intended to ensure that a student has the knowledge and experience required for successful course completion. The most common prerequisite is completion of a prior course. Other prerequisites include concurrent registration (i.e., enrollment in a specific course simultaneous with another), placement examinations, and the instructor’s consent. Students may enroll in any course for which they have completed the necessary prerequisites or obtained the consent of the instructor. Students who lack the prerequisites but believe they have equivalent backgrounds should consult the instructor before enrolling in a course. A student who enrolls in a course without satisfying the prerequisites and who has not consulted the instructor may be dropped from the class at the instructor’s discretion. All prerequisites are listed in the catalog; the semester course schedule also lists course prerequisites as well as those required for enrollment in a particular course section.

Grade Changes
Except in the case of a demonstrated error on the part of the instructor or the Office of the Registrar/Student Records, a recorded grade will not normally be changed. All grade changes require the approval of the instructor and the department chair. A grade assigned at another institution will not be deleted or changed at UW-Parkside.

Academic Warning
Graduate students whose GPA falls below 3.00 for all graduate work attempted in any semester will be given an academic warning at the end of that semester.

Academic Probation
Graduate students who have attempted 6 or more graduate credit hours at UW-Parkside and have a cumulative GPA below 3.00 for all graduate work attempted at UW-Parkside will be placed on academic probation. Students on academic probation whose cumulative GPA rises to 3.00 or higher will be removed from probation. In some cases students may be admitted to a graduate program on probation; these students will be removed from academic probation upon completion of 9 or more graduate credits with a cumulative GPA of 3.00 or higher.

Academic Drop Policy
Graduate students who are on academic probation will be dropped from the university under the following conditions:

1. If they have attempted 9 or more graduate credits at UW-Parkside while on probation and have not raised their cumulative GPA for all graduate work attempted at UW-Parkside to 3.00 or higher.

2. If their GPA for graduate work attempted in any semester (including a summer session) falls below 3.00. However, no students admitted on probation will be dropped until they have attempted at least 9 graduate credits at UW-Parkside, regardless of semester GPA.

3. If their academic performance falls below the requirements of the graduate program in which they are enrolled.

4. Any of the provisions above not withstanding, students whose cumulative GPA falls below 2.00 will be dropped from the university. This provision does not require that students be on probation initially and does apply to students admitted on probation who have attempted fewer than 9 credits. Students who are dropped from the university may not be readmitted for one year.

Appeals Procedure for Academic Drop
Students who have been dropped from the university may file a written request for a waiver of the period of dismissal with the appropriate graduate program committee. The committee makes a recommendation through its dean to the graduate dean. Students may make an appeal to the Graduate Studies Committee and are entitled to appear before the committees on their own behalf. Appeals should be based on exceptional circumstances beyond the control of the student. Students who are readmitted on appeal will be placed on academic probation.
Readmission

Students who have been dropped must apply for readmission on the usual graduate application form. Programs may ask these applicants to take an examination such as the GMAT or GRE or furnish other credentials. Applicants for readmission must present evidence to the program that they are now likely to do satisfactory work. Readmitted students are subject to the requirements in effect at the time of their readmission.

Withdrawal from the University

A student may withdraw from the university during the first half of the semester. The Office of the Registrar/Student Records will determine comparable deadlines for courses less than a semester in length. After withdrawal, no record will be kept of a student’s grade in his/her courses for that semester. After the deadline, a student may request permission to withdraw only for extraordinary, non-academic reasons. Any such request must be submitted to the student’s program office. The request must include a written explanation of the circumstances leading to the request. Requests will be reviewed periodically by the Graduate Studies Committee. Granting of requests by the Graduate Studies Committee is not automatic. A student should not assume that his/her request will be granted.

Leave Status

Students who do not complete any graduate course within a period of 12 months will be dropped as a graduate student unless they apply for and are granted a leave of absence from graduate work. Dropped students or students exceeding the terms of their leave may apply for readmission to the graduate program.

Accommodation of Religious Observances

In accordance with Wisconsin state law 36.43, UW-Parkside provides for the reasonable accommodation of a student’s sincerely held religious beliefs with regard to all examinations and other academic requirements and also provides a means by which a student can conveniently and confidentially notify an instructor of potential conflicts.

A student with a conflict between an academic requirement and a religious observance must be given an alternative means of meeting the academic requirement, subject to the following:

a. To be granted an alternative means of meeting an academic requirement, students must notify their instructors, within the first two weeks of class, of specific days or dates on which they will request relief from an academic requirement. (The instructor must treat this information as confidential.)

b. Instructors are not obligated to provide alternate arrangements for an individual before the regularly scheduled event.

c. Instructors may set reasonable limits on the total number of occurrences claimed by any one student.

Absence from classes or examinations due to religious observance does not relieve students from responsibility for any part of the course work required during the period of absence.

Students who believe they have been denied reasonable accommodation should contact the person identified by the department or academic program to hear such complaints, usually the department chair or academic program director. If the issue is not resolved at the department/program level, students may proceed to the office of the appropriate academic dean and, if it is still unresolved, to the office of the provost.

Course Policies

The normal load for a full-time graduate student is 9 to 12 credits for the fall and spring semesters and 5 or 6 credits for the summer school. For students who work full time, no more than 6 credits in the fall and spring terms and 3 in the summer is advisable. Students enrolling for more than 12 credits during the academic year or 6 credits during summer school must receive prior approval from the appropriate graduate program director.

Waivers and Appeals

Students who wish to obtain a waiver or to appeal an interpretation of an academic regulation should first discuss the matter with the appropriate faculty member or the director of the appropriate graduate program. The graduate dean is also available for advice. To pursue the matter, students should then file a written request with the appropriate graduate program that approves program-specific requirements and recommends actions on others. The Graduate Studies Committee acts upon recommendations involving university-wide regulations or further appeals. Students are entitled to appear before the committee on their own behalf. Requests should be based on exceptional circumstances beyond the control of the student.

Graduate Course Numbering

The Graduate Studies Committee has adopted the following guidelines on course numbering, which parallel those of the undergraduate Course and Curriculum Committee where applicable: 0-299 Level I (freshman and sophomore); 300-499 Level II (junior and senior); 500-699 courses which carry graduate credit, but which can be paired with undergraduate courses. In cases in which both undergraduate and graduate courses meet together, dual numbering (slash courses) is permissible; 300 and 500 numbers and 400 and 600 numbers are commonly associated with each other. In these cases the faculty take care to ensure that their graduate course is appropriately demanding of its students (e.g., extra work demanded for graduate credit). Master’s level graduate courses (700-799) are open to graduate students only.
Course Listings
To aid in advising and planning class schedules, each course description reflects its intended frequency of offering. Because programs may sometimes need to alter their schedules, students should consult their adviser and the current course schedule for the latest information.

Access to Student Records (FERPA)
Under the Family Educational Rights and Privacy Act of 1974 (FERPA), students are entitled to review “official records, files, and data directly related to them” which the university maintains. The university has 45 days to comply with the students' written requests to review their records. Students may request a hearing regarding any alleged “inaccurate, misleading, or inappropriate” information in their official records and files. The university will not release information from students records to a third party without the student’s written consent except as permitted by section 99.34, (a) (ii) of the Privacy Act. In accordance with this section, the university will forward student records when requested by a school in which the student seeks to enroll.

A challenge to information students deem erroneous or misleading should be made in writing and directed to the dean or director of the appropriate office so that a hearing can be scheduled. In most cases, the decision of the dean or director will be final. If students find the decision unsatisfactory, they may place a statement in their file setting forth any reasons for disagreeing with the decision. A student’s right to challenge information of record does not extend to review of grades received unless the grade assigned by the professor was inaccurately recorded in the student’s records.

In addition, the FERPA designates “directory information” data that can be published or released routinely by the university to any inquirer. Directory information items are: name; address; telephone number; date of birth; major field of study; participation in officially recognized activities and sports; weight and height of members of athletic teams; dates of attendance to include current classification, and withdrawal dates; degrees and awards received; the most recent education agency or institution attended; initial registration date and e-mail address. Any other information will not be given out without the students’ specific written permission except for various legitimate educational interest or legal reasons.

Students have the right to inform the university that the above listed directory information should not be released without students’ prior consent. If students wish to restrict the release of this information, they must complete and submit the appropriate form in the Office of the Registrar/Student Records. These FERPA holds remain in effect until the students submit a request in writing to remove them.
Goals of the M.B.A. Program

The goals of the M.B.A. program are to provide a graduate education that develops students' knowledge of critical business issues and current management techniques; and prepares these students for advanced management positions and entrepreneurial ventures. The program presumes that a manager must know how to obtain and evaluate relevant information; approach tasks logically, systematically and in teams; analyze problems; arrive at reasonable generalizations; develop creative solutions; work in a diverse environment; and act to achieve concrete results. The program covers a variety of concepts and analytical tools. It includes examination of the impact of both domestic and global environments on a firm's operation.

Structure of the Program

The M.B.A. program is structured in three components: foundations, required core courses, and electives. The foundations include demonstrated knowledge in fundamentals (through examination or course work). Eight required courses make up the core of the M.B.A. program. The elective courses are offered on a rotating basis, and each student's program must include a minimum of 16 credits of electives.

Foundation Courses

All candidates must have or obtain knowledge of fundamentals in the following areas: accounting, economics, organizational management, computers, mathematics, operations management, finance, and marketing. The UW-Parkside program offers a graduate-level preparatory foundation course in each of these areas. To waive course work in meeting prerequisites, students must have completed and passed an undergraduate equivalent with a grade of C or better. Students waived out of a foundation course are not required to take a course in its place.

M.B.A. Consortium
In an effort to offer the foundation courses more frequently, a M.B.A. consortium was developed. The participating universities are UW-Parkside, UW-Eau Claire, UW-Lacrosse, and UW-Oshkosh. Through this collaborative effort, all of the foundation courses (except Algebra) are offered every semester via the Internet.

Elective courses are also offered through the consortium. M.B.A. consortium classes taken for elective credit from non UW-Parkside instructors are considered transfer courses and therefore subject to the 12-credit rule (see the transfer policy). Eligible courses are identified in the UW-Parkside course schedule. These elective courses will automatically be transferred to UW-Parkside.

See the following website for additional information, http://www.wisconsinonlinemba.org/about/.

Requirements for the Master of Business Administration
(32 credits)

Required Courses (16 Credits)

| MBA 702 | Managerial Accounting .................. 2 cr Spring |
| MBA 712 | Quantitative Methods .................... 2 cr Fall |
| MBA 715 | Operations Management .................. 2 cr Spring |
| MBA 716 | Project Management ...................... 2 cr Fall |

MBA 732 Corporate Financial Management ....... 2 cr Fall
MBA 741 Contemporary Challenges
Managing Organizations ................... 2 cr Spring
MBA 752 Marketing Management ............. 2 cr Fall
MBA 796 Advanced Strategic Management ...... 2 cr Fall, Spring

Required course waivers: A student may be waived out of the required graduate course in the functional area in which the student has completed a major (or equivalent). A student waiving out of a required course must take an additional elective course that is approved by the M.B.A. adviser.

Elective Courses (16 Credits)

Elective courses have included topics such as:

- Supply Chain Management
- Investments
- Resilience in Organizations
- Management Techniques
- Improving Employee Performance
- Strategic HR Management
- Business and Ethics
- International Business
- International Marketing
- Fundamentals of Health Information Technology Management
- Outsourcing
- Emotional Intelligence
- Electronic Commerce
- Business Process Redesign
- New Venture Formation
- Decision Analysis

All students are required to take a minimum of 16 elective credits. Electives are offered in 1, 1-1/2, 2, and 3 credit formats. Some electives are offered via the Internet through the M.B.A. consortium. Up to 6 credits of electives can be taken as independent studies and internships, with no more than 4 credits in each (see M.B.A. 794 and 799 for more information).

Transfer Policy

Graduate-level work completed at other AACSB accredited institutions may be transferred toward the M.B.A. degree at UW-Parkside, subject to the following provisions:

- A maximum of 12 credits may be transferred.
- Only the courses with a grade of B or better can be transferred.
- The student must petition for the transfer upon admission to the program. Transfer credit will be formally granted after the student has successfully completed a minimum of 8 semester hours of graduate-credit work at UW-Parkside.
- The courses that the student is requesting to transfer must form an integral part of the student’s proposed program of study.
• An admitted student who plans to take a course at another institution and transfer it must obtain prior permission from the M.B.A. director.
• Exceptions to the above transfer policy, including consideration of transfer of credits from non-AACSB institutions, will be considered through petition to the M.B.A. Committee.

Additional Academic Policies

1. Students delaying entry after admission to the M.B.A. program will be covered under the policies and will have to meet the requirements that are in effect at the time at which they complete their first course toward the M.B.A. program.
2. Students are required to file a “letter of intent” indicating their expected date of graduation with the director of the M.B.A. program at least one semester prior to graduation. In addition students must apply for graduation through the registrar’s office (http://www.uwp.edu Keyword: Registrar).

Graduate Courses (MBA)

501 Accounting Foundation for Business Decisions .......................... 2 cr
Prereq: Math and computer competency. Freq: Fall, Spring.
A survey of financial and managerial accounting principles, including the preparation and analysis of financial statements, the use of accounting information in decision making and the acquisition and application of accounting information for managerial planning and control. Not available to students with credit in ACCT 201.

511 Statistical Analysis Foundations ........................................... 2 cr
Prereq: MATH 112 and computer competency. Freq: Fall.
Introduction to descriptive, inferential and analytical statistics; techniques covered include sampling, estimation, hypothesis testing, and simple regression. Not available to students with credit in QM 210.

515 Operations Management Foundation ....................................... 2 cr
Prereq: MATH 112, MBA 511, and computer competency. Freq: Fall, Spring.
The role of the operations function in an organization including production processes, inventory control, scheduling, project management, and quality assurance. Application of these principles in manufacturing and service organizations. Not available to students with credit in QM 319.

521 Management Information Systems in Business ............................ 2 cr
Prereq: MBA 501. Freq: Fall, Spring.
The capabilities, limitations, and applications of computer hardware and software with emphasis on the information needs of management; IS strategic planning, IS project management, database concepts, networking concepts, and management of the information systems resource. Not available to students with credit in MIS 320.

531 Fundamentals of Managerial Finance ....................................... 2 cr
Prereq: MBA 501. Freq: Fall, Spring.
An introduction to the role of a financial manager including acquiring funds and directing funds to projects that maximize value. Topics include budgeting, financial forecasts, cash management, credit administration, funds procurement, and time value of money. Not available to students with credit in FIN 330.

541 Organizational Management Foundation .................................... 2 cr
Prereq: None. Freq: Fall, Spring.
An introduction to issues related to managing organizations; topics include the management environment, the roles of managers, factors that comprise an organization’s architecture, and managing people. Not available to students with credit in MGT 349.

551 Marketing Analysis Foundation ............................................. 2 cr
Prereq: None. Freq: Fall, Spring.
An overview of marketing and the marketing process as it applies to business and other exchange situations. This course examines how profit and nonprofit organizations identify, research, and evaluate customer needs; select target markets, and create, price, distribute, and promote products and services to individuals, organizations, and societies. Not available to students with credit in MKT 350.

702 Managerial Accounting .......................................................... 2 cr
Prereq: MBA 501. Freq: Spring.
An in-depth analysis of the role of accounting in the successful management of business enterprises; identification of relevant cost and revenue information for managerial decisions; application of analytical reasoning and formal models to various business problems; topics include responsibility accounting, product costing and project appraisal, standard costs and flexible budgeting, relevant costs for pricing, sales and profit analysis, transfer pricing, and measuring divisional performance.

703 Business Analysis and Valuation ............................................. 2 cr
In-depth analysis of how financial statements and accompanying footnotes can be used in assessing organization value; emphasis on recent developments in financial reporting and disclosure practices.

712 Quantitative Methods ............................................................ 2 cr
Prereq: MATH 112, MBA 511, and computer competency. Freq: Fall.
Advanced inferential and analytical statistical techniques including sampling techniques, analysis of variance, simple and multiple linear regression, time series analysis, and non-parametric procedures.

713 Decision Analysis ................................................................. 2 cr
Prereq: MBA 712. Freq: Occasionally.
Analysis of difficult decisions using mathematical modeling and sensitivity analysis; the techniques covered include decision trees, simulation, expected utility and multi-attribute utility.

715 Advanced Operations Management .......................................... 2 cr
Prereq: MBA 511, 515. Freq: Spring.
Reinforces and explores in detail the concepts and techniques of modern operations management. The course uses case studies, simulation, and real life business issues to examine new and emerging trends such as Just-in-Time, Inventory Management, Quality Management, Global Competitiveness, and Sustainability in Operations.

716 Project Management ............................................................... 2 cr
Prereq: MBA 501, 511. Freq: Fall.
The basics of project planning and control, PERT/CPM, work breakdown structure, cost control, matrix organization, resource scheduling and leveling, and outsourcing; project management software will also be introduced.

718 Global Supply Chain Management .......................................... 2 cr
Prereq: MBA 515, 712. Freq: Occasionally.
Basic terminologies, concepts, and state-of-the-art models that are involved in the design, control, and management of supply chain systems. Covers topics such as network planning, inventory management and risk pooling, strategic alliances, ethics, logistics, and sustainability.

723 IT Tools for Managers ............................................................ 2 cr
Prereq: MBA 521. Freq: Occasionally.
The use of IT tools within a management context including data gathering and analysis tools; presentation software; and decision support systems.

724 Website Development ........................................................... 2 cr
Prereq: None. Freq: Occasionally.
How organizations use IT resources to implement web strategies; analyze and assess the IT infrastructure used in industries with regard to the organization's IT ability to engage in e-business; some proficiency in using web technologies to design and develop basic web pages.
725 E-commerce ................................................. 2 cr
   Prereq: None. Freq: Occasionally.
   E-commerce in general; areas covered include e-commerce technology, developing an e-commerce architecture, business-to-consumer e-commerce, planning for e-commerce, and social implications.

726 Globalization and Technology ......................... 2 cr
   Prereq: None. Freq: Occasionally.
   Describes the issues related to international information systems and reviews the possible solutions that lead to successful international applications.

727 Business Process Redesign and Improvement .......... 2 cr
   Prereq: None. Freq: Occasionally.
   Students will identify an organization (or part of an organization) that needs improvement, analyze the current system, investigate possible IT solutions, redesign the current system and propose a plan to move from the “As-Is” system to the “To-Be” system.

728 Database Systems Development .......................... 2 cr
   Prereq: None. Freq: Occasionally.
   Database querying, design, creation, developing applications and reports.

732 Corporate Financial Management ........................ 2 cr
   Prereq: MBA 531. Freq: Fall.
   The theory and practice of corporate finance; fundamental ideas such as the time value of money and its role in valuation are emphasized; techniques are then applied to major decision areas that face financial managers: cash-flow analysis and capital budgeting, long-term capital financing, capital structure and dividend policy, working capital management financial ratio analysis, and planning and control related to analyzing financial performances.

733 Investments ............................................... 2 cr
   Prereq: MBA 531. Freq: Occasionally.
   The theory and practice of corporate finance; fundamental ideas such as the time value of money and its role in valuation are emphasized; techniques are then applied to major decision areas that face financial managers: cash-flow analysis and capital budgeting, long-term capital financing, capital structure and dividend policy, working capital management financial ratio analysis, and planning and control related to analyzing financial performances.

734 Futures and Options ...................................... 2 cr
   Prereq: MBA 531. Freq: Occasionally.
   Futures, options, swaps, exotic options and financial engineering; emphasis will be placed on equity instruments although short and long-term interest bearing instruments will also be discussed.

735 International Financial Management .................... 2 cr
   Prereq: MBA 732. Freq: Occasionally.
   An introduction to financial investments, theoretical and applied valuation techniques, and modern investment portfolio theory; emphasis is on equity and fixed-income securities, although options, futures and other investments are also examined; topics include investment alternatives; organization and functioning of securities markets; efficient market hypothesis; modern portfolio theory; fundamental and technical analysis; bond fundamentals; options, warrants, futures; and investment companies.

736 Shareholder Value Management .......................... 1 cr
   Prereq: MBA 531. Freq: Occasionally.
   Examination of the most popular SVM models in use today, including the free cash-flow method, the economic value added/market value added method, and the cash flow return on investment approach; in addition, the course will look at how managers determine the best model for their organizations.

737 Cash Management .......................................... 2 cr
   Prereq: MBA 531. Freq: Occasionally.
   This course examines current institutional procedures and practices, and analytical models relevant to short-term financial decisions.

738 Investment Portfolio Management ........................ 2 cr
   Prereq: MBA 733. Freq: Occasionally.
   This course will deal with the theory and practice of evaluating investments with an emphasis on developing skills for appraising the value of equities and fixed-income securities. A comprehensive Internet financial markets trading simulation provides experience in the theory and practice of securities trading and portfolio management.

741 Contemporary Challenges in Managing Organizations .. 2 cr
   Prereq: MBA 541. Freq: Spring.
   Traditional theories and contemporary managerial perspectives to optimize organizational effectiveness. Overview of theories and practical applications using case studies, current literature, lecture, group discussion, and projects. Topics include leadership, motivation and performance, decision making and empowerment, organization climate, culture and change, individual human processes, and overall global management.

742 Leadership: Theory, Application, and Skill Development .............................................. 2 cr
   Prereq: None. Freq: Occasionally.
   Focuses on the demands of organizational leadership and enhances the student’s ability to be a successful leader. Examines theories, strategies, and approaches to leadership. The effect of globalization and the role of ethics on leadership are also explored.

743 Emotional Intelligence .................................... 2 cr
   Prereq: MBA 541. Freq: Occasionally.
   Theory and science behind emotional intelligence, the ability to recognize one’s own feelings, as well as those of others, so as to manage emotions and relationships. Study and application of the component emotional intelligence competencies vital to managing self and others in order to create effective performance and success in the workplace.

744 Management Techniques .................................. 2 cr
   Prereq: MBA 541. Freq: Occasionally.
   This course is designed to improve management skills, including stress management, oral and written communication, team building, leadership, motivating and empowering others, and conflict management.

745 Resilience in Organizations ................................ 2 cr
   Prereq: MBA 541. Freq: Occasionally.
   The ability to remain positive under challenging conditions and emerge strengthened is a function of an organization’s culture, as well as an employee’s individual character; strategies for reducing risk, increasing protective factors and enhancing coping, with an emphasis on identifying and supporting strengths.

746 International Management ................................ 2 cr
   Prereq: None. Freq: Occasionally.
   Focuses on managing and coordinating diverse workers across national boundaries. Complex international management concepts and issues in the dynamic global business environment will be explored. Case studies and current managerial dilemmas will be analyzed as different cultures, business customs, economic systems, demographic changes, and technological advances are considered.

748 New Venture Formation ................................. 2 cr
   Prereq: None. Freq: Occasionally.
   Explore the process by which entrepreneurs recognize opportunities, plan, and launch new businesses; course involves extensive casework and the development of a start-up business plan as an illustration of principles learned.
752 Marketing Management ................................................. 2 cr
Prereq: MBA 501, 551. Freq: Fall.
Using case analysis, the course focuses on the various kinds of problems in marketing that the modern decision maker must resolve. The interrelationship of marketing and other business functions is emphasized. Decision areas studied include research, product, distribution, pricing and communication within a variety of organizational settings. Topics include buyer behavior, the macro and international environment, organizational goals, and social/ethical implications of marketing decisions.

753 Integrated Marketing Communications ............................ 2 cr
Prereq: MBA 551. Freq: Occasionally.
A review of the many aspects of advertising, promotions, and personal selling from the perspective of market management; course content includes development of an integrated marketing communications program as an illustration of principles learned.

756 Buyer Behavior ............................................................ 2 cr
Prereq: MBA 551. Freq: Occasionally.
Theoretical and applied research and concepts in buying decision processes are covered pertinent to individuals, households, businesses, and other institutions; discussions relating to development, implementation, and evaluation of marketing strategies, including implications for e-commerce.

759 Product Management .................................................... 2 cr
Prereq: MBA 551. Freq: Occasionally.
An examination of the process of developing new products and services and managing existing offerings in a competitive market environment; includes many real cases as illustrations of principles learned.

772 Legal Framework and Issues of Business .......................... 2 cr
Prereq: None. Freq: Occasionally.
An examination of the relationship of law to business; examines this relationship from a broad perspective studying the legal impact of all levels of government on all levels of the organization; statutory and case law will be studied in the areas of taxation, antitrust, employment, labor management relations, the environment and consumer protection.

786 Strategic Human Resource Management .......................... 2 cr
Prereq: MBA 541. Freq: Occasionally.
Using human resource management systems to create and sustain competitive advantage; emphasis on an integrative framework that requires linkage between, as well as consistency among, functional HR activities and their alignment with and reinforcement of the organization’s competitive strategy.

787 Staffing Organizations.................................................... 2 cr
Prereq: MBA 541, 712. Freq: Occasionally.
Planning for, recruiting, selecting and retaining an organization’s labor force in the context of the staffing environment (e.g., EEO laws and regulations, the economy and labor markets) using necessary tools (e.g., statistical measurement).

788 Improving Employee Performance .................................... 2 cr
Prereq: MBA 541. Freq: Occasionally.
Examines performance management methods and applicable motivation theories that managers can apply to encourage employees to maximize their current and future job performance. Emphasis on reinforcement theory to shape work behaviors.

790 Special Topics ............................................................ 1-3 cr
Prereq: Dependent on subject matter. Freq: Occasionally.
An elective course dealing with special topics in the functional areas of business; subject varies but may include topics such as market research, labor/management relations, social responsibilities/ethics, applied multi-variant statistics, management techniques, issues in financial accounting, financial analysis, and information systems evaluation and management. See current course schedule. May be repeated with change in topic.

791 International Business ................................................... 2 cr
Prereq: MBA 501, 551. Freq: Occasionally.
Examines important global issues concerning companies and other organizations transacting business across borders. Topics include international supply chains, marketing globally, and cultural, political, legal, and economic environments.

792 Business Projects ........................................................ 2 cr
Prereq: MBA 716 or consent of instructor. Freq: Occasionally.
Provides the opportunity for students to conduct a variety of forms of business projects including business plans, marketing plans, marketing research, and start-up plans for a business client. The course is conducted under the auspices of the SEG Center, and uses SEG facilities and project management guidelines. May take the course two times for credit.

793 Competitive Decision Making ........................................ 2 cr
Prereq: MBA 702. Freq: Spring.
An advanced learning experience in business decision making through the use of an online business simulation, performance analysis, final presentations, and class participation. Students will make a series of decisions about R&D, marketing, production, total quality management, human resources, and financial management in an integrated business environment. The focus is mostly decision making for a virtual company with class discussion of results and extensive feedback.

794 Internship ................................................................. 1-3 cr
Prereq: Consent of instructor. Freq: Fall, Spring.
Designed to provide actual or quasi on-the-job learning experiences in which a student works with a single sponsoring organization under the supervision of a faculty member. Students may not use their current employment for internship credit. A maximum of 4 credits of internship, and total of 6 credits of internship plus independent study, can be applied toward M.B.A. degree completion. Credit/no-credit grading basis.

796 Advanced Strategic Management .................................... 2 cr
Prereq: Any four of these five courses: MBA 702, 715, 732, 741, and 752. Freq: Fall, Spring.
Focus on strategic management as an essential function for all types of organizations and firms; the study and application of advanced strategic management concepts are emphasized in this capstone course, particularly business-level and corporate-level strategy formulation, implementation, and control.

799 Independent Study and Research .................................... 1-3 cr
Prereq: Consent of instructor. Freq: Fall, Spring.
Provides the student an opportunity to work on an independent research study or project under the guidance of a faculty member. The topic, required work, and evaluation method are approved by the faculty member supervising the project and the director of the M.B.A. program. A maximum of 4 credits of independent study, and total of 6 credits of internship plus independent study, can be applied toward M.B.A. degree completion.
Degree Offered:
Master of Science.

Participating faculty from Biological Sciences Department
Professors:
Wallen, Ph.D.

Associate Professors:
Barber, Ph.D.; Higgs, Ph.D., (chair); Mayer, Ph.D.; Pham, Ph.D.; Ruffolo, Ph.D.; Thomson, Ph.D.

Assistant Professors:
Lee, Ph.D.; Rogers, Ph.D.

Lecturers:
MacWilliams, Ph.D.

Participating faculty from Chemistry Department
Associate Professor:
Wood, Ph.D.

Goals of the Program
The program provides advanced training in the theory and application of molecular biology, in conjunction with supervised independent research culminating in a research thesis. Graduates perform at an advanced technical level in biotechnology and related industries or continue their education in Ph.D. or professional programs.

The faculty of the Master of Science in Applied Molecular Biology Program have active research programs in the following areas: prokaryotic and eukaryotic gene expression, genome organization, gene structure and DNA-protein interaction, microbial pathogenesis, insect genetics and molecular biology, molecular evolution, phylogenetic analysis, reproductive physiology, enzymology, and protein biochemistry.

Course of Study
There are two routes to a master of science degree in applied molecular biology: (a) a two-year graduate program in which students with a B.S. degree in biology, biochemistry, chemistry, or one of the life sciences may enroll; (b) a five-year combined B.S./M.S. program into which UW-Parkside undergraduates in the molecular biology and bioinformatics major are accepted at the end of their third year. At the end of their fourth year, these students receive a B.S. in molecular biology and bioinformatics.

Requirements for the Master of Science in Applied Molecular Biology (30 credits)

PLAN A: TWO-YEAR GRADUATE PROGRAM
The curriculum is divided into three components: the core, electives and thesis. A minimum of 30 graduate credits (courses numbered 500-799) are required for the degree. Some graduate courses are cross-listed with undergraduate offerings (courses numbered 300-499). These are marked with an asterisk (*) in the list below. Courses taken at the undergraduate level cannot be repeated.

Core
BIOS 675 Advanced Molecular Biology .............. 3 cr
BIOS 731 Seminar in Molecular Biology .............. 4 cr

Electives
Students must complete a minimum of 6 elective credits. Electives must be approved by the student’s thesis committee. Electives will be chosen to complement the student’s previous education and experience, and to support the student’s educational and career goals.

BIOS 611 Molecular Microbiology ..................... 3 cr
BIOS 614 Molecular Evolution ......................... 3 cr
BIOS 653 Molecular Biology and Bioinformatics of Nucleic Acids* .......................... 4 cr
BIOS 655 Protein Biochemistry and Bioinformatics* .......................... 4 cr
BIOS 680 Bioinformatics Programming* ............. 4 cr
BIOS 690 Adv. Topics in Molecular Biology....1-4 cr
BIOS 699 Independent Study ............................ 3 cr
CHEM 620 Advanced Biochemistry* .................... 3 cr

Thesis
Students are required to complete a research thesis. Students enroll in BIOS 711 for 17 credits or less depending on the number of elective credits. Fulfillment of the thesis requirement depends upon satisfactory completion, documentation, and oral presentation of the thesis research, as judged by the student’s thesis committee.
PLAN B: COMBINED B.S./M.S. PROGRAM
Students in this program meet Plan A requirements with the following modifications: only 2 credits of BIOS 731 are required; research completed to meet the undergraduate senior thesis requirement may be applied to completion of the M.S. thesis. A minimum of 30 graduate credits (courses numbered 500-799) are required for the degree. Elective course requirements are defined by each student's thesis committee.

Admission Requirements
Plan A: Two-year program
To qualify for admission an applicant must have:

1. B.S. or B.A. degree from a regionally accredited institution.
2. Grade point average (GPA) of at least 3.00 in their major (4.00 basis).
3. Satisfactory Graduate Record Examination scores.
4. Completed the following courses, or their equivalents:
   Chemistry: two semesters of general chemistry, two semesters of organic chemistry.
   Biology: two semesters of introductory biology with laboratory, one semester of genetics, one semester of biochemistry, one semester of molecular biology with laboratory, and one additional upper level laboratory course.
   Physics: two semesters of physics.
   Mathematics: two semesters of calculus, or one semester of calculus and one semester of discrete mathematics or probability.

Plan B: Combined B.S./M.S. program
Students in the molecular biology and bioinformatics B.S. program can apply for admission to the M.S. program in the spring of their junior year. To qualify for admission an applicant must have:

1. Cumulative GPA of at least 3.30 (4.00 basis).
2. Approval of the Molecular Biology Programs Committee.

Application Procedure
Application materials may be obtained from the Applied Molecular Biology Program Office, Biological Sciences, UW-Parkside, 900 Wood Road, P.O. Box 2000, Kenosha, WI 53141-2000. Applications may also be made online at www.uwp.edu Keyword: biological sciences. To apply to the program a student must submit the following:

1. A completed application form.
2. A non-refundable application fee, payable to UW-Parkside.
3. GRE scores and official transcripts sent directly to the Master in Science in Applied Molecular Biology Program office by each undergraduate and post-graduate institution the applicant attended.*
4. Curriculum vitae.*
5. Three letters of recommendation.*
6. (Optional) Additional materials such as those listed below for applicants seeking probationary admission.
   * Items marked with an asterisk are not required for students completing their B.S. degree at UW-Parkside.

International students whose native tongue is not English are required to meet the additional requirements in the section “International Students” (use the index of this catalog to find this information).

Admission on Probation
Under unusual circumstances a program faculty member may recommend probationary admission for an applicant who has not met all admission requirements, provided other substantial evidence of capacity to do satisfactory graduate work is presented. This evidence could include letters of recommendation and/or evidence of work experience related to the program. Students missing one or more prerequisites or courses will be considered for probationary admission. Deficiencies must be made up by the end of the first year of enrollment.

Financial Assistance
Stipends (research assistantships, traineeships) are available to a limited number of students; most cover only part of the cost of attendance.

Continuation
1. The Master of Science in Applied Molecular Biology Program requires a cumulative GPA of 3.00 (B) or better in all graduate courses taken in the program unless conditions for probationary status require higher grades.
2. With approval of the department's graduate committee, students with a grade of C in a graduate course may be allowed to continue. However, a maximum of two C's is allowed.
3. Students who have finished all course and credit requirements (30 credits) and are still working on a thesis project require a continuous registration of at least one credit each fall and spring semester. Students who have not maintained continuous registration must apply for reinstatement.
4. Students should select a faculty adviser at the time of matriculation or at least by the end of the first semester. With the assistance of the adviser, the student will formulate a research problem. The adviser will provide space, equipment and supplies, and technical assistance when possible. By the end of the first semester, the student should select a thesis committee that consists of the faculty adviser and two other faculty members. The thesis committee provides oversight of the student's research progress and approves the student's course of study. The program culminates in a written thesis that thoroughly documents the research activity, and an oral presentation open to the public.
Time Limit

It is expected that most students will complete the degree within two years. A candidate for the M.S. degree who fails to complete the degree within three years will be placed on probation for one semester before being dropped from the program. Exceptions to this limit require authorization by the Molecular Biology Programs Committee.

Transfer Student Admissions

Transfer applicants who are admitted to the Master of Science in Applied Molecular Biology Program receive a statement of advanced standing indicating which courses have been accepted from the previous institutions and how they equate to UW-Parkside courses; the statement also identifies their adviser. Students should contact their adviser as soon as possible after receiving the statement of advanced standing. Generally, students are allowed to transfer up to 12 credits of graduate work from regionally accredited institutions.

Biology (BIOS) Courses In Applied Molecular Biology

503 Microbiology ................................................................. 4 cr
Prereq: BIOS 101, 102, CHEM 322, or consent of instructor.
Freq: Spring.
Advanced investigation into microbial structure and growth, microbial genetics, microbial pathogenesis, medical microbiology, and microbial ecology. Three-hour lecture; one three-hour lab.

509 Molecular Biology ......................................................... 3 cr
Prereq: BIOS 260, CHEM 322 or consent of instructor.
Freq: Spring.
Regulation of DNA, RNA, and protein synthesis and the control of the synthesis of other macromolecules. Three-hour lecture/discussion.

611 Microbial Pathogenesis .................................................. 3 cr
Prereq: An upper-level course in microbiology or molecular biology, or consent of instructor. Freq: Alternate years.
Focus on the concepts of microbial molecular biology and their application to current biotechnology.

614 Molecular Evolution ....................................................... 3 cr
Prereq: BIOS 309 (or 509) or 314, or consent of instructor.
Freq: Alternate Springs.
The evolution of nucleic acids and proteins. Five major topics are considered in turn: genetic variability; the causes of molecular evolution and the neutral theory; methods of detecting genetic variability; the use of molecular markers for estimating phylogeny; and the evolution of genome structure. Three-hour lecture/discussion.

653 Molecular Biology and Bioinformatics of Nucleic Acids .... 4 cr
Prereq: BIOS 260, 309, and consent of instructor. Freq: Fall.
Covers techniques and theory of nucleic acid isolation (DNA and RNA) and analysis including laboratory and computational methods. Includes common laboratory methods for isolating and characterizing nucleic acids. Eight-hour lecture/lab.

655 Protein Biochemistry and Bioinformatics ....................... 4 cr
Prereq: BIOS 260, 309, and consent of instructor. Freq: Spring.
Practical experience in protein expression, purification, and characterization with emphasis on enzymology and use of computer programming for development of relevant bioinformatics applications. Eight-hour lecture/lab.

Chemistry (CHEM) Courses In Applied Molecular Biology

620 Advanced Biochemistry .................................................. 3 cr
Prereq: BIOS 240 or CHEM/BIOS 307 or CHEM 324 or consent of instructor. Freq: Spring (even years).
Advanced topics in biochemistry including thermodynamics, protein structure, and enzyme kinetics and mechanisms. Not open to students with credit in CHEM 410.

675 Advanced Molecular Biology ........................................... 3 cr
Prereq: BIOS 260, 309 or 509; and consent of instructor.
Freq: Yearly.
In-depth coverage of selected research topics in molecular biology, including DNA replication, transcription, translation, and other current topics. Three-hour lecture.

680 Bioinformatics Programming .......................................... 4 cr
Prereq: BIOS 260, 309 (or 509), and consent of instructor.
Freq: Occasionally.
This course focuses on implementation of programming languages, data structures, and data management strategies for bioinformatics applications. Lectures and computer-based exercises emphasize both theory and analysis of genomic and proteomic data. Three-hour lecture; three-hour lab.

699 Independent Study ......................................................... 1-3 cr
Prereq: Consent of instructor. Freq: Fall, Spring.
Advanced study performed under the supervision of a regular faculty member. Suitability as an elective for the Master's of Applied Molecular Biology is determined on a case-by-case basis by the MAMB program committee.

711 Thesis ............................................................................ 1-9 cr
Prereq: Consent of instructor. Freq: Fall, Spring.
Dissertation for master of science in applied molecular biology. Graded on a credit/no-credit basis.

731 Seminar in Molecular Biology ......................................... 1 cr
Prereq: BIOS 309 (or 509) and consent of instructor.
Freq: Fall, Spring.
Research reports, special topics, and reports from recent literature in molecular biology or biotechnology. Graded on a credit/no-credit basis.
MASTER OF SCIENCE IN COMPUTER AND INFORMATION SYSTEMS

Degree offered:
Master of Science.

Participating faculty from the Computer Science Department
Associate Professors:
Hansen, Ph.D.; Lincke, Ph.D.
Assistant Professors:
Riley, Ph.D.; Quevedo, Ph.D.

Participating faculty and staff from the Business Department
Professors:
Chalasani, Ph.D.; Hawk, Ph.D.
Associate Professors:
Baldwin, Ph.D.; Zheng, Ph.D.

Goals of the M.S. in Computer and Information Systems Program
The Master of Science in Computer and Information Systems (MSCIS) Program is intended to increase the supply of high quality information technology professionals and to contribute to the professional advancement of employees in the information technology workforce. The degree program draws on the strengths of UW-Parkside’s faculty and computing resources in both computer science (CS) and management information systems (MIS). Graduates of this program will have up-to-date information technology knowledge and skill, and practical experience with information systems development and deployment.

All MSCIS graduates will be able to:
• Participate in the justification, specification, design, development, and implementation of modern enterprise systems for an organization, including ERP systems and knowledge management systems.
• Design, develop, test, and implement software using industry leading practices.
• Develop a project plan and successfully lead a project team using the project plan.
• Design and implement organizational and IT control mechanisms that lead to a reliable and secure information system.

• Develop long range IT plans including strategic and personnel plans.
• Analyze a problem from a research/modeling perspective.

Requirements for the Master of Science in Computer Information Systems (30 credits)
To achieve the above goals, MSCIS students must complete prerequisite requirements (up to 20 credits that can be waived with undergraduate equivalent courses) and 30 credits distributed as follows: 6 credits in software development, 8 credits in information technology management, 3 credits in cyber-security, 2 credits in research/modeling methods, 9 credits in a specialization track, and 2 credits of free electives. Specialization tracks include: software development, information technology management, project management, research/modeling methods, and cyber-security. Tracks are being developed in Geographical Information Systems and bioinformatics. With approval from the MSCIS steering committee, students may also design their own specialization tracks. A thesis option is available for those students who would like to eventually pursue a doctoral degree. The requirements and the classes in each track are specified below:

1. Prerequisites (0-20 credits, depending on background):
   Programming proficiency (requirement depends upon results of a placement exam).
   CSCI 241 Computer Science I................................. 4 cr
   CSCI 242 Computer Science II................................. 4 cr
   Probability statistics (waived with a grade of C or better in an undergraduate or graduate equivalent course)
   QM 210 or CSCI 309 ................................................. 3 cr
   Database management (waived with a grade of C or better in an undergraduate or graduate equivalent course)
   MIS 328 or CSCI 380 ................................................. 3 cr
   Computer systems/data communications (waived with a grade of C or better in an undergraduate or graduate equivalent course)
MIS 327 or CSCI 477 or CSCI 370.......................... 3 cr
Accounting (waived with a grade of C or better in an undergraduate or graduate equivalent course)
ACCT 201  Financial Accounting .......................... 3 cr

2. Core requirements (19 credits). Students must complete the specified credits required in each track. A course cannot be used to satisfy the requirements in more than one category. The classes must be approved by the MSCIS adviser.

Software Development (min. 6 credits):

CIS 533 Programming Languages .......................... 3 cr
CIS 540 Data Structures and Algorithm Design ... 3 cr
CIS 570 Operating Systems................................. 3 cr
CIS 605 Artificial Intelligence .............................. 3 cr
CIS 620 Computer Graphics ................................. 3 cr
CIS 621 Computer Vision ................................... 3 cr
CIS 622 Multimedia Systems ............................... 3 cr
CIS 640 Compiler Design & Implementation ... 3 cr
CIS 644 Event-Driven Programming ..................... 3 cr
CIS 675 Software Engineering – Design ............ 3 cr
CIS 676 Software Engineering – Project Management ... 3 cr
CIS 677 Computer Communications
& Networks .................................................. 3 cr
CIS 680 Advanced Databases ............................. 3 cr
CIS 745 Web Programming ................................. 3 cr

A maximum of two 500-level courses will be accepted for the graduate degree. Information Technology Management (min. 6 credits). Note: The required 6 credits are specified. Changes to the required classes must be approved by MSCIS adviser.

CIS 721 Enterprise Systems ................................. 3 cr (required)
CIS 723 Management of Electronic Commerce ... 2 cr
CIS 725 Information Systems Policy & Strategy 3 cr (required)
CIS 727 Business Process Redesign and Improvement .................................................. 2 cr
MBA 515 Operations Management Foundations 2 cr
MBA 715 Advanced Operations Management ... 2 cr

Information Technology Project Management (min. 2 credits):

CIS 625 System Analysis & Design ........................... 3 cr
CIS 676 Software Engineering – Project Management .................. 3 cr
MBA 716 Project Management ................................ 2 cr
MBA 744 Management Techniques ........................... 2 cr

Cyber-Security (min. 3 credits):

CIS 624 Advanced Business Data Communications
OR
CIS 677 Computer Communications & Networks ................................. 3 cr
CIS 645 Web Security ........................................... 3 cr
CIS 678 Network Security .................................... 3 cr
CIS 679 Information Systems Security .................... 3 cr
CIS 790 Special Topics in CIS (related to Cyber-Security) ................. 3 cr

Research and Modeling Methods (min. 2 credits):

MBA 712 Quantitative Methods ............................ 2 cr
CIS 795 Research Methods in CIS ......................... 3 cr
MBA 713 Decision Analysis .................................. 2 cr
CIS 781 Modeling and Optimization Methods .. 2 cr
MBA 790 Special Topics (related to research or modeling) ......................... 2 cr

3. Track requirement (9 credits). Students must select a track and complete 9 additional credits within the track beyond the minimum core requirements. Six credits of independent study related to a project or thesis may be used to satisfy the track requirement.

4. Free elective (2 credits). A student must take an additional graduate level classes to complete 30 credit hours.

Admission Requirements
To qualify for admission into the MSCIS program, an applicant must have:

1. A bachelor’s degree from an accredited institution with an undergraduate GPA (UGPA) of at least 3.0 on a 4.0 scale
2. Submission of GMAT (Graduate Management Admission Test) or GRE (Graduate Record Examination) exam scores. The GMAT score + 200 times the UGPA must exceed 1000, or the sum of the GRE quantitative and verbal scores must exceed 1100 and the analytical writing score must be 4 or higher.
3. Submission of a letter of application outlining professional goals.
4. Receipt of two letters of recommendation indicating promise for success in graduate studies.
5. International students whose native language is not English are required to provide evidence of English language competence, normally by presenting a satisfactory score on the TOEFL exam.

At the discretion of the program faculty, students with minor deficiencies in items 1 and 2 may be conditionally accepted into the MSCIS program if they can otherwise demonstrate significant potential for success.

Application Procedure
Application materials may be obtained from the Computer Science Department office:

MSCIS Program
Computer Science Department
University of Wisconsin-Parkside
900 Wood Road
P.O. Box 2000
Kenosha WI 53141-2000
A complete application consists of the following materials:

1. A completed application form, along with the application fee payment.
2. GRE or GMAT scores and official transcripts of all undergraduate and graduate work sent directly to the Computer Science Department office.
3. Letter of application.
4. Two letters of recommendation sent directly to the Computer Science Department office.
5. International students must also submit a sponsorship form, a transcript evaluation, and evidence of English proficiency.
6. Additional materials in support of the applicant, as appropriate.

Contact the Computer Science Department office for information about application deadlines.

**Course Restrictions**

Students must maintain a GPA of 3.0 in all course work required for the MSCIS degree to continue in the degree program.

**Disruption of Studies**

Students are expected to complete MSCIS degree requirements in two to three years, depending on preparation. An MSCIS degree candidate who fails to complete the degree within five years after admission will be dropped from the program. A degree candidate who does not enroll in an MSCIS course within a period of 12 months must apply for readmission.

**Transfer Students**

Students may transfer up to 12 credits of graduate work taken at another institution, subject to equivalence with MSCIS courses. Only courses with a grade of B (3.0 on a 4.0 scale) or better will be accepted. Transfer courses are not counted toward the UW-Parkside GPA requirement of 3.0 in MSCIS course work.

**Graduate Courses (CIS)**

**533 Programming Languages**

Prereq: CSCI 242 and consent of instructor. Freq: Spring.
Introduction to the syntax and semantic issues in programming languages and their effect on language implementation. This includes methods to specify languages, data storage, and the sequence of control in programs. Non-procedural languages, including functional and logic languages, will be examined. Not open to those with credit in CSCI 333.

**540 Data Structures and Algorithm Design**

Prereq: B or better in CSCI 242 or consent of instructor. Freq: Spring.
Study of the design, implementation and analysis of computer algorithms; time and space requirements for sorting, searching, graph theory, mathematics and string processing algorithms. Not open to those with credit in CSCI 340.

**570 Operating Systems**

Prereq: C or better in CSCI 242. Freq: Fall.
Operating system concepts, process definition and implementation, deadlock, memory management and protection, distributed system architecture, and case studies. Not open to those with credit in CSCI 370.

**605 Artificial Intelligence**

Prereq: CSCI 333 or CIS 533 or consent of instructor. Freq: Occasionally.
Introduction to Artificial Intelligence (AI) techniques that include search, game playing, and knowledge representation. Specific sub-disciplines of AI including natural language processing and neural networks. Programming assignments in both Prolog and LISP. Not open to those with credit in CSCI 405.

**609 Human-Computer Interfaces**

Prereq: Consent of instructor. Freq: Occasionally.
A survey of the field of human-computer interaction including the user interface development process, human memory, perception, and motor abilities as they relate to user interface design. Qualitative overview of descriptive and inferential statistics. Students design a low-tech prototype of a user interface (user and task analysis, design and evaluation). Not open to those with credit in CSCI 409.

**620 Computer Graphics**

Prereq: CS 340 or CSCI 540 or consent of instructor. Freq: Occasionally.
Graphics hardware and software, techniques for representation and visualization, two- and three-dimensional transformations, concepts and techniques of visual realism. Not open to those with credit in CSCI 420.

**621 Computer Vision**

Prereq: CSCI 340 or 333 or CSCI 540 or 533. Freq: Occasionally.
Review of algebra of matrices and partial differentiation, Introduction to Machine Vision and Image Processing including image formation, thresholding, image filtering, edge detection, image segmentation, image data compression, image similarity and some dynamic vision. Not open to those with credit in CSCI 421.

**622 Multimedia Systems**

Prereq: Consent of instructor. Freq: Occasionally.
Principles and design of multimedia systems; implementation of multimedia algorithms; current multimedia technologies. Not open to those with credit in CSCI 422.

**624 Advanced Business Data Communications**

Prereq: MIS 327 or CSCI 477. Freq: Fall.
Fundamentals of transmission protocols and network services. Setting up and configuring network protocols, routing, security, and networking services such as name resolution and dynamic addressing. Lab exercises and case studies. Not open to those with credit in MIS 424. This course may be offered online.

**625 System Analysis and Design**

Prereq: MIS 328 or CSCI 380. Freq: Spring.
System development using the life cycle, rapid application development, prototyping, software acquisition, structured and object-oriented techniques and project management. Not open to those with credit in MIS 425 or CSCI 475. This course may be offered online.

**640 Compiler Design and Implementation**

Prereq: CSCI 333 or CIS 533. Freq: Occasionally.
Theory, design and implementation of compilers and other syntax-directed systems. Applies techniques of finite state machines, lexical analysis, symbol tables, parsing, storage allocation and code generation to the development of a compiler. Laboratory work included. Not open to those with credit in CSCI 440.
641 Advanced Project Management Tools and Techniques ............................................. 3 cr
Prereq: PMGT 341 or MBA 716 or CIS 676. Freq: Yearly.
Covers advanced tools and technologies of project management, including Microsoft Project, Microsoft Excel, Work Breakdown Structure (WBS), budgeting a project, scheduling a project using PERT/CPM, allocating scarce resources, critical chain and critical path, resource leveling, monitoring the project costs, evaluating and terminating a project. Not open to those with credit in PMGT 441.

642 Project Management Simulation ............................................................................. 3 cr
Prereq: PMGT 341 or MBA 716 or CIS 676. Freq: Yearly.
Topics include project scheduling, risk analysis, earned value and teamwork. Students apply project management skills to a simulated or live project, develop project justification and project plan, and execute the project plan and track performance. Not open to those with credit in PMGT 442.

644 Event-Driven Programming.......................................................... 3 cr
Prereq: CS 370 or CIS 570 or consent of instructor. Freq: Occasionally.
Origins of events; the event-driven programming model; interrupt processing as event handling; client-server architectures; windowing environments and GUI programming; development support software; and case studies. Project work included. Not open to those with credit in CSCI 444.

645 Web Security .......................................................................................... 3 cr
Prereq: CSCI 242 or consent of instructor. Freq: Occasionally.
Vulnerabilities of web languages, interfaces, servers and databases. Identifying and avoiding vulnerabilities with shopping carts, HTTP/HTTPS and the URL. Detecting and preventing hacking techniques such as cyber graffiti, e-shoplifting, impersonation, buffer overflows and cross-site scripting. Not open to those with credit in CSCI 445.

645 Software Engineering-Design ............................................................................. 3 cr
Prereq: B or better in CSCI 242 or consent of instructor. Freq: Fall.
An introduction to UML design and teamwork in the development of a larger software system. The use of UML use case, activity, class/ object, interaction, and state diagrams in the creation of efficient designs and systems. Not open to those with credit in CSCI 475.

645 Software Engineering-Project Management .......................................................... 3 cr
Prereq: CIS 625 or 675. Freq: Spring.
Software development from an engineering perspective including software development models, team organization and management, implementation strategies, software testing and verification, and project cost estimation. Students will demonstrate their mastery of software engineering design and development strategies through implementation of a significant team-based project. Not open to those with credit in CSCI 476.

645 Computer Communications and Networks .......................................................... 3 cr
Prereq: B or better in CSCI 242 or CIS 570 or consent of instructor. Freq: Occasionally.
Transmission protocols, layered network protocols, network topology, message routing, performance analysis, security, and case studies. Not open to those with credit in CSCI 477.

645 Network Security ................................................................................ 3 cr
Prereq: MIS 327 or CSCI 370 or CIS 375. Freq: Occasionally.
Computer and network security related to operating systems, networks and system administration issues; hacking, incident response, firewalls, VPNs, intrusion detection, and auditing. Not open to those with credit in CSCI 478.

645 Information Systems Security ............................................................................. 3 cr
Prereq: Consent of instructor.
Introduction to information systems security; considers technical, administrative, and physical aspects of IT security; topics include fraud, risk, information protection, business continuity, network security, auditing, and security planning and governance. Not open to those with credit in CSCI 479.

680 Advanced Databases .................................................................................. 3 cr
Prereq: MIS 328 or CSCI 380. Freq: Occasionally.
Review of relational database languages such SQL and Relational Algebra, query optimization techniques. Non-relational database models including object-oriented databases, XML databases, deductive databases. Data mining, transaction management, concurrency control, text retrieval, Web data management. Not open to those with credit in CSCI 480.

721 Business Process Redesign and Improvement .................................................. 2 cr
Prereq: Consent of instructor. Freq: Occasionally.
The management of Information Technology (IT) and Information Systems (IS) from the perspective of upper management, covering IT strategic planning, IS organizational structures, human resource planning, and control structures. Cases, executive presentations, and project work included.

723 Management of Electronic Commerce ......................................................... 2 cr
Prereq: Consent of instructor. Freq: Occasionally.
Electronic commerce (e-commerce) technology, developing an e-commerce architecture, business-to-consumer and business-to-business e-commerce, e-commerce planning, and social implications.

775 Information Systems Policy and Strategy ......................................................... 3 cr
Prereq: Consent of instructor. Freq: Fall.
Introduction to simulation, optimization and other types of models used to support organizational decisions. Multiple languages, tools, and techniques are explored.

790 Special Topics in CIS ............................................................................. 3 cr
Prereq: Consent of instructor. Freq: Spring.
In-depth study of new and/or special-interest subject areas within the discipline. Subject selection will vary from offering to offering.

793 Internship in Computer Information Systems ............................................. 1-2 cr
Prereq: Consent of instructor. Freq: Fall, Spring, Summer.
Participation in the technical activities of an ongoing organization under the joint guidance and supervision of a member of the organization and a member of the faculty. Grading will be on a credit/no-credit basis. A student may register and receive credit in this course for a maximum of 6 credits.
796  **CIS Project**................................................................. 1 cr
    **Prereq:** Consent of instructor.  **Freq:** Occasionally.
    Completion of a CIS project in conjunction with another 600- or
    700-level CIS course; includes project documentation and oral and
    written reports.

797  **CIS Thesis**.................................................................1-4 cr
    **Prereq:** Consent of instructor.  **Freq:** Fall, Spring, Summer.
    Student conducts research under the direction of a faculty member
    and produces a master's level thesis in a CIS subject. For students
    ultimately interested in pursuing doctoral studies.

799  **Independent Study**..................................................1-4 cr
    **Prereq:** Consent of instructor.  **Freq:** Fall, Spring.
    Independent work on a specific problem in CIS under the
    supervision of faculty.

Faculty/Instructional Staff

A

Fay Yokomizo Akindes
Associate Professor, Communication
Ph.D. Ohio University 2001

Simon Akindes
Associate Professor, Political Science
Ph.D. Ohio University 1996

Jeffrey Alexander
Associate Professor, History
Ph.D. University of British Columbia 2005

Lori B. Allen
Associate Professor, Chemistry
Ph.D. Southern Illinois University-Carbondale 1989

Ross Astoria
Assistant Professor, Political Science & Law
Ph.D. University of California-Berkeley 2010

Dirk S. Baldwin
Associate Professor, Management Information Systems
Ph.D. Texas Tech University 1989

Lisa Barber
Associate Professor, Art
M.F.A. University of Texas-Austin 1998

Robert D. Barber
Associate Professor, Biological Sciences
Ph.D. University of Wisconsin-Madison 1997

Kathlyn Barry
Assistant Professor, Sociology
Ph.D. Wayne State University 2007

Trenton W. Baylor
Associate Professor, Art
M.F.A. University of Wisconsin-Madison 1999

Dennis G. Bayuzick
Associate Professor, Art
M.F.A. Ohio University 1975

Esther Beneish
Associate Professor, Mathematics
Ph.D University of Texas-Austin 1987

Michele Benoit
Clinical Assistant Professor, Health, Exercise Science and Sport Management
M.S. University of Akron 1995

Sylvia Beyer
Professor, Psychology
Ph.D. University of Oregon 1991

Mark Bilbrey
Lecturer, English
A.B.D. University of Georgia-Athens

Ami Bouterse
Assistant Professor of Music
M.M. Carnegie Mellon University 2001

Misti Bradford
Assistant Professor, Theatre Arts
M.F.A. University of Nebraska-Lincoln 2003

David Bruce
Assistant Professor, History
Ph.D. Marquette University 2009

David Bruning
Distinguished Lecturer, Physics
Ph.D. New Mexico State University 1981
C

Theresa R. Castor
Associate Professor, Communication
Ph.D. University of Washington 1999

Suresh Chalasani
Professor, Management Information Systems
Ph.D. University of Southern California 1991

Tsun-Mei Chang
Associate Professor, Chemistry
Ph.D. Columbia University 1992

Jamie Cheatham
Associate Professor, Theatre Arts
M.F.A. Virginia Commonwealth University 2000

Tao Chen
Associate Professor, Art
M.F.A. Louisiana Tech University 2004

Terry Chi
Assistant Professor, Psychology
Ph.D. University of California-Berkeley 2002

Michael Cholak
Lecturer, Accounting
M.B.A. Marquette University 1998

S. Richard Christoph
Professor, German
Ph.D. University of Illinois at Urbana-Champaign 1980

Patricia Cleary
Assistant Professor, Geosciences
Ph.D. University of California-Berkeley 2003

Norman R. Cloutier
Professor, Economics
Ph.D. West Virginia University 1981

Herbert Colston
Professor, Psychology
Ph.D. University of California Santa Cruz 1995

Edward L. Conrad
Clinical Professor, Psychology
Ph.D. Loyola University 1978

Teresa Coronado
Assistant Professor, English
Ph.D. University of Oregon 2008

Linda Crafton
Associate Professor, Communication
Ed.D. Indiana University 1991

Karen Crooker
Associate Professor, Human Resources Management
Ph.D. Indiana University 1995

James Crowley
Associate Professor, Music
D.M. Northwestern University 1993

Seifaldeen Da’Na
Associate Professor, Sociology and Anthropology
Ph.D. Kansas State University-Manhattan 2000

Thomas Determan
Lecturer, Accounting
M.S. Cardinal Stritch University 2005

Parag Dhumal
Assistant Professor, Business
Ph.D. University of Toledo 2007

William Ebben
Associate Professor, Health, Exercise Science and Sport Management
Ph.D. Marquette University 2006

Fred Ebeid
Professor, Business
Ph.D. University of Illinois at Urbana-Champaign 1974

Erica Eddy
Lecturer, Computer Science
M.S. University of Iowa 1986

Mark Eichner
Associate Professor, Music
M.M. University of Texas 1973

F

Aida Fill
Lecturer, Spanish
M.A. University of Wisconsin-Milwaukee 1996

Chi-Wing Fok
Associate Professor, Finance
Ph.D. University of Alabama 1992

Cathleen Folker
Associate Professor, Business
Ph.D. Texas Tech 1999

Kenneth French
Assistant Professor, Geography
Ph.D. University of Nebraska 2008

G

Alvaro Garcia
Associate Professor, Music
M.M. Yale University 2001

Michele V. Gee
Associate Professor, Management
Ph.D. University of Wisconsin-Milwaukee 1994

This catalog brings together for the information and convenience of both students and staff the academic regulations of the university. University policies and regulations are subject to continuous review by a variety of agencies and appropriate administrative and governance bodies of UW-Parkside. Thus, the provisions of this catalog are not an irrevocable contract between the students and UW-Parkside. The university reserves the right to change any provision or requirement at any time during the students’ attendance. The university reserves the right to ask the students to withdraw for cause at any time.

The university provides additional information and policies in separate brochures and in the Student Guidebook. To implement the University of Wisconsin System student disciplinary procedures and the academic misconduct regulations (Chapters 17 and 14 of the Wisconsin Administrative Code), UW-Parkside has developed a set of procedures which is published in the Student Guidebook. Additional information is available on the university’s website or may be secured from the Dean of Students, Wyllie Hall 340.

UW-Parkside does not discriminate on the basis of sex in the educational programs or activities it operates. The university policy not to discriminate in education programs and activities extends to employment therein and to admission thereto. This statement is published, in part, to fulfill the requirements of Title IX of the Higher Education Amendments of 1972 and Section 86.9 of Title 45 of the Code of Federal Regulations, the administrative regulations passed pursuant to Title IX. Inquiries concerning the application of Title IX and the administrative regulations may be directed to the Title IX Senior Diversity Officer.

UW-Parkside does not discriminate against qualified individuals with disabilities in the recruitment and admission of students, the recruitment and employment of faculty and staff, and the operation of any of its programs and activities, as specified by applicable federal laws and regulations. The designated coordinator for university compliance with Section 504 of the Rehabilitation Act of 1973, as amended, and for the Americans with Disabilities Act is the coordinator of Disability Services.

Information required under the Higher Education Act of 1965, as amended, Title IV parts 668, 674, 675, 676, 682, 690, and 692 regarding, but not limited to, eligibility and criteria for receiving and availability of financial aid, rights and responsibilities of those receiving financial aid, standards of progress, terms of payment, repayment schedules for those receiving financial aid, conditions of employment related to financial aid, total educational costs of attending UW-Parkside and refund policies can be obtained from the Office of Student Financial Aid.

UW-Parkside veteran enrollment requirements and standards of progress information are available at the Office of the Registrar/Student Records.

UW-Parkside is in compliance with the Family Educational Rights and Privacy Act of 1974 (as amended) in regards to the right of students or their parents to review of the student’s education record, correction of information from those records and limitation of disclosure of information contained in those records. Further details are published in the UW-Parkside course schedules. Forms authorizing institutional withholding of student records are available in the Office of the Registrar/Student Records.

The university is required to provide annually to every student and employee information concerning the university’s policies on illicit drugs and alcohol. In compliance with the Drug-Free Schools and Communities Act amendments of 1989, UW-Parkside publishes and distributes this information annually. Additional information is available on the university’s website or may be secured from the Dean of Students, Wyllie Hall 340.

In compliance with the Immigration and Nationality Act (P.L. 87-195), UW-Parkside publishes the following statement: “This school is authorized under federal law to enroll nonimmigrant alien students.”

The University of Wisconsin System will provide and maintain adequate facilities for a safe and healthy learning environment. It is the university’s responsibility to work with faculty and staff so that they are equipped to educate their students on practices and procedures that ensure safety for all members of the university. Employees with instructional responsibilities are expected to comply with state and federal safety laws and regulations in their institutional areas. Certain courses and research projects require that the student work with hazardous materials while engaging in academic studies. Instructors of these courses and research projects shall inform and train students on procedures that will maintain the students’ personal health and safety and provide them with information on the hazards of specific chemicals that will be used during their course of study. Furthermore, instructors will enforce and follow safety policies. Prior to use of hazardous materials and equipment, students shall review the procedures and information and discuss any associated concerns with the instructor.

The university is required through state statute (Assembly Bill 431) to share statistics with current students concerning crimes on campus and reported campus incidents of sexual assault and date rape. As required by law, this information is distributed annually to students through the UW-Parkside website. In addition, federal laws, Students Right to Know Law and the “Campus Security Act” requires the university to inform prospective as well as current students of similar crime statistics and information on student graduation rates. This information is distributed annually to students through the UW System Introduction and UW-Parkside’s website.

Federal law allows the University of Wisconsin System to request and use a student’s social security number (20 U.S.C., section 1232g). Disclosure of that social security number is voluntary. Applications received without it will be processed, and another form of student identifier number will be assigned. However, failure to provide the social security number may result in denial of services or benefits.
