DESIGNATED SPACES

Pike River Suites (1st north and 1st east) and Ranger Hall (1st south) are the designated isolation and quarantine locations on campus. No residents are permanently assigned here and the facilities will only be used for COVID Response.

Quarantine and isolation spaces will be used primarily for students who reside within the residence halls and need to depart spaces where a common/shared bathroom is in use. Whenever possible, the student will be allowed to isolate/quarantine within their permanent assigned space.

ISOLATION SPACES

These are used for students who have tested positive for COVID-19 only if they are unable to return to their permanent residence/home for the isolation period. Students must isolate for 10 days from the date of exposure.

QUARANTINE SPACES

These are used for unvaccinated students who may have been in contact with a person(s) who tested positive for COVID-19 only if they are unable to return to their permanent residence/home for the quarantine period. Students must remain in quarantine for a period of 10 days as directed by Student Health and Counseling or by a City/County Health Department.

ASSIGNED ISOLATION AND QUARANTINE SPACE

The determination regarding whether a student may be granted special permission to stay in place or move to a new location will be made in consultation with Student Health and Counseling and the City/County Health department and will include a determination regarding whether all roommates need to be quarantined, or just the affected party. Students should be prepared to move to a new location.

UW-Parkside Student Health and Counseling will notify the Office of Housing & Residence Life that a student needs isolation or quarantine.

- The student will then be assigned a SINGLE room within Pike River Suites or Ranger Hall (isolation students may be assigned to a DOUBLE if space becomes limited).

- The Housing & Residence Life Office will provide instructions regarding how to obtain access to the building, keys, and check in information.
